THE BOSCOBEL

For Both Gold and Silver Bullion By

Senator Cockell, Who

OPPOSES ANY DISCRIMINATION.

The House Silver Bill Laid on the Table Without Reference.

YEST'S SHIPPERS' MEASURE DEBATED

WASHINGTON, June 9 .- In the Senate to-day, the Senate silver bill having been taken up, Mr. Cockrell said that all the benefit that could be claimed for the proposed bill was that the Secretary would be compelled to purchase \$500,000 worth of silver every month more than he now had the right to purchase, and that the currency would be increased to that extent.

He asked whether there was any valid reason justifying the continuance of the existing discrimination in favor of the free and unlimited coinage of gold, and of the issue of gold certificates for gold bullion, and against the free and unlimited coinage of silver bullion in standard dollars, and the issue of certificates for silver bullion.

AGAINST ANY DISCRIMINATION. He denied that the free and unlimited coinage of silver bullion and the issue of certificates for silver bullion would be in derogation of any obligation to the creditors of the nation. He was opposed to discrimination, either for or against gold or silver.
They should be put on a perfect equality as coin and bullion. In season and out of season those who lavored the unlimited coinage of silver were taunted with trying to flood the country with depreciated 72-cent dollars; and the noble, grand national senti-ment inscribed on the silver dollar. "In God we trust," was sneered at and derided as meaning: "In God we trust for the other

28 cents to make it a dollar."

He believed it to be the duty of Congress, regardless of the possible action of other nations, to retrace its steps, correct the talse impressions and apprehensions of European nations caused by un ounded representations, and restore silver to a perfect equality with gold, both as coin and bullion.

HOUSE BILL ON THE TABLE. At the close of Mr. Cockrell's speech the House silver bill was laid before the Senate. Mr. Teller moved that the bill be printed and laid on the table.

Mr. Harriss-Without reference to the

Finance Committee? Mr. Teller-Without reference.

Mr. Hoar-We should wait until some member of the committee is present. Mr. Teller-Let it be ordered printed and laid on the table. It was so ordered.

Mr. Vest, in pursuance of the notice given by him last Saturday, asked the Senate to take up and consider the bill re-ported by him from the select Committee on the Transportation and Sale of Meat Products, "to prohibit monopoly in the transportation of cattle to foreign coun-tries," and stated as a reason why action should be taken immediately that the tariff bill (as he had been informed by a member of the Finance Committee), would be before the Senate within a week.

MR. PLATT IMPATIENT.

Mr. Platt thought that the Senate should go on and dispose of the silver bill, and be had been waiting as patiently as he knew how to bring forward two bills, which seemed to him not only of the highest importance, but of the highest privilege bills-for the admission of two territories as States. He gave notice that henceforth the silver bill could not be laid aside except upon a yea

Mr. Vest intimated that there was no particular reason for haste in the admission of more new States, but the meat business of the country was in a very depressed con-dition, and legislative action to provide a remedy should not be postponed.

Mr. Stewart asked upan on Friday next at 3 o'clock the Senate shall vote on the silver bill and all amendments

proposed.

The presiding officer, Mr. Ingalls, suggested that there should be at least a quorum present when unanimous consent was

Mr. Stewart-Then I give notice that when the bill is taken up to-morrow I will ask unanimous consent to have a time fixed for taking the vote.

FOR SHIPPERS' PROTECTION. Mr. Vest's bill was then taken up, and a discussion of its provisions was carried on between Mr. Vest in defense of them, and Mr. Hoar and Mr. Hale in attack upon them. The bill provides that no clearance shall be granted to any vessel plying as a shall be granted to any vessel plying as a common carrier from the United States to a foreign country, the owners, agents, or officers of which shall refuse to receive in the order they may be offered, said vessel having storage room for the same, any cattle.

—The Harrison county, Ind., White Caps were out Saturday morning and took from his bed Walter Rowe, an estimable farmer of that county, and gave him 55 lashes on his bare back. He recognized several of the White Caps and intends prosecuting them. having storage room for the same, any cattle for transportation to a foreign country, the said cattle being in sound condition suitable for transportation, and the shipper tendering the reasonable freight therefor; or who shall make any contract or agreement creating a monopoly of the capacity of said vessel, for earrying cattle in violation of the law governing and regulating the duties and obligations of common carriers to the public and providing unjust discrimination

between shippers. Mr. Hoar asked whether Mr. Vest meant to assert that there was not to be a right to stract, in advance, for the transportation of cattle by lake, river or ocean.

AIMED AGAINST MONOPOLY.

Mr. Vest replied that wherever a contract was made legitimately, and not for a monopoly—when it was made in the course of ordinary commercial trade—then, as a matter of course, the bill would not apply. But, when a contract was made for the whole capacity of a ship, or a line of ships, that was monopoly, against which the bill

Mr. Reagan also defended the bill and argued in favor of its passage.

Mr. Hale moved to amend the bill by inserting the words "not already contracted for in good faith by persons or parties hav-ing cattle for transportation at the date of such contract sufficient to occupy such stor-

age room."

Mr. Vest opposed the amendment as one that would entirely neutralize the bill.

MR. HALE'S OBJECTIONS, Mr. Hale argued in support of the amend-ment offered by him. Without it, he said, the bill struck at all prudent and thoughtful business. It would not allow a shipper in the Senator's own State to make a contract for transportation in a vessel at New York or Boston that would justify him in sending his cattle to the seaboard. If the Senate was prepared to reject so limited amendment as that offered by him, then it was prepared to take the whole business in its own hands, and really to injure the class of men who ought to be protected.

Mr. Vest-We will risk that.

Mr. Hale-It is a great risk. This bill would prestrate and annihilate business by taking away from the business man the first

necessary ingredient in business—fore-thought and provision.

The vote on Mr. Hale's amendment was yeas 10, nays 23. No quorum having voted, the Senate without further action on the bill or amendment adjourned.

STILL ANOTHER SILVER BILL

Representative McRae, of Arkansas, today introduced in the House a bill on the subject of silver coinage. It provides for the free coinage of silver, for an increasing of United States Treasury notes each year to make the total issue thereof equal in amount to the revenues of the Government for that year; or the issue of Treasury notes to replace national bank notes surrendered: sale of United States bonds and for the acgumulation of the gold reserve of \$100,000,-900, and finally for the covering of that
