The tools of the Miller well, located on the Keyser farms, which have been stuck in the well for the last ton days, have been fished out. The Heine well is pumping about 20 barrels a day. Lumber for seven rigs has been delivered at Jack's Run since the Straw well came in on last Thursday. Gaily, Guffy and Pittock are putting down a well adjoining the Straw farm, and Messrs. Dimmick & Boyer are putting down two wells. The Ott well, which was reported to be a big one, is good for about 25 barrels. The Straw well of the Robella Oil Company,

25 barrels. The Straw well of the Robella Oil Company, of Bellevue, continues up to the standard, and Tuesday its output was 450 barrels, having been drilled in the night before.

Light Trading and a Dearth of New Features -Price Changes.

There was no pronounced feeling of any kind displayed at either of the two stock calls yes-terday. Investors are evidently waiting for lower prices, which they will not find if the Senate passes the silver bill. The leader in activity yesterday was Citizens' Traction, which contributed 240 to the 270 shares traded in. It sold at 68%-an advanceshares traced in. It sold at 6%—an advance— and closed at that figure. Electric was a shade stronger, and Philadelphia Gas weaker in about the same degree. Changes in the rest of the list were unimportant.

tensely dull, and throughout it presented a reactionary tone, with the result of leaving prices all over the list materially lower than they were ast evening. The causes of the decline are to be found in a number of directions, but the chief are the hammering of the trading element in dullness, which is the result of the disinclination of the bull leaders to further advance prices pending the final settlement of the silver legislation. London has been, and was this morning, a seller of stocks. That the falling off of business and prices in the market has no relation to railroad earnings, and, therefore, to be actual value of properties is shown by returns in to-day for the first week in June. The opening of the market was influenced primarily by the declines in London and the selling of arbitrage houses and Chicago Gas was sold down rapidly on the diffi-culty over the payment of dividends.
