ENGLISH CAPITAL VERY PLENTY.

A Syndicate Has Just Made Extensive Purchases on Both Sides of the Rio Grande.

THE CHINESE MINER HAS NO RIGHTS

Which the Cancasian Brother Has Any Duty Under the Law to Respect.

"SPECIAL TELEGRAM TO THE DISPATCH." NEW YORK, June 15.—Reports have been the West, as follows:

load of silver bullion, weighing 2,500 pounds, indicates that the estimate of the wealth of Iror. Mountain is not greatly exaggerated. Chinese who were working the
placers of Enseneda. Lower California, are

mine, so many year will be very large.

The new Superintendent of the Graham company, with the expert, both of London, said to be making big wages. A flume has been built, and a hydraulic ram will be in operation soon. Major Zimpleman has a that he cave for the claim. He has taken out \$15,000 more than the entire cost of his plant, and says there is over \$50,000 worth of ore in sight. J. W. Perry, who has inspected the principal mines of Alamo, save; Compared with the deep mines of California, Alamo is only a prospect. Most of the veins strengthen with depth, and a fairly rich mine at 100 feet is reasonably certain to carry more gold at 200 feet. The country rock is of very even formation. Much of the ore pronounced rebellious is absolutely free milling, with the exception of a small percentage of sulphurets not worth saving."

A New Gold Mine Discovered.

SHASTA-A new gold mine has been opened about two miles north of this town by Cunningham, Drummond & Co., and \$1,000 in pure gold was taken out in a few days at a depth not exceeding 13 feet. The surface prospect which resulted in the finding of the lend was directly in an old trail, over which thousands of persons have traveled in years gone by. It is often said that miners have struck their picks into every foot of California soil, but the frequent dis covery of ledges and placers where men have been walking over them for years in-dicates that the old-time prospector was not very thorough in his work. The fortyniner did not pick up all the gold that was lying around loose in California.

A Tramp in Great Luck.

out with \$20,000 in his pocket. He had discovered gold in the gulch, and sold out his claim for that amount. The find has made great excitement in the district, and prospectors are rushing into the gulch. Samples of ore from one of the claims assays \$25,000 to the ton. But many a man who goes in their hoping to strike the tramp's luck will pack out nothing but his blan-

A Chinaman Has No Rights.

VIRGINIA CITY-The bullion shipments of Consolidated California and Virginia for May amounted to over \$80,000. At the \$7,000,000. The Wenban mine, Eureka and fled from the country. county, produces \$35,000 a month, the net profit being \$20,000. Over fifty Chinese are | suit of the Indians. ground sluicing in the gulches between Tuscarora and McCann creek. They have not been discouraged by recent decisions of courts to the effect that a Chinaman has no rights as a miner.

Two Bear Cabs and Conl.

WALLAWALLA-Another discovery of coal has been made two miles south of Snohomish, Washington. D. W. Dilty chased two bear cubs off his farm and followed them into a ravine. While looking for their tracks, along the bed of a little stream, his attention was attracted by little lumps of coal scattered among the rocks. Mr. Dilty forgot all about the bears, and traced the coal float to the vein at the source of the stream. The voin is five teet wide and the coal is of excellent quality. Spring work has begun in the placer mines of Baker county, and the streams are laden with slickens in solution. Some of the placers yield from \$30 to \$70 a day to a man by the hydraulic system, and the Nelson claim is cleaning up about \$1,000 a day. The hydraulic miners expect this to be their best season for many years, as the very heavy snowfall of last winter stored up plenty of water in the mountains,

Bought by an English Syndiente. DENVEE-The Dolores group of silver

mines, east of Chihuahua, Mexico, have been sold to an English syndicate for \$750,-000. The Pinos Alto mine, which is near the Dolores group, is turning out \$40,000 to \$50,000 of silver builion a month. The Jessie Maria mines are also doing finely. A recent shipment of silver ore from the Tom Green brought \$22 a ton. The famous Bullis mine has been worked continually for the past six years, and its present output is from \$25,000 to \$35,000 silver ore per month.

A New Milling Device.

SILVER CITY-One of the simplest mills ever constructed was recently built in this city. It was designed and constructed by Mr. Woodard, of the Woodard Foundry here, and several satisfactory runs have been made with it. The mill consists of a large tub with an iron bottom, from the center of which arises a perpendicular staft, to which the power to run the mill is communicated by means of a cogwheel gearing at the top. Near the bottom of this perpendicular shart an axle is attached at right angles to it. At each end of the axle is an iron wheel weighing over 3,000 pounds, and so constructed as to be easily taken apart. The wheels have heavy, hardened tires, about five inches in thickness and with broad faces. The tires can be removed and re-placed when they become worn with very little trouble. The axie, to which the wheels are attached, is about a foot and a half shorter than the diameter of the tub, so that there is enough space between the wheels and the side of the tub to prevent wheels and the ore is placed in the tub in small quantities, and is crushed and ground beneath the heavy iron wheels, which are kept constantly turning about the upright shaft. The broad faced wheels turning in a small circle combine both the crushing and grinding principles. When the ore has been reduced to the required faceness it passes out through screens near the bottom of the tub, and may either be smalgamated and concentrated or simply concentrated. The capacity of the mill may be increased or diminished by putting on heavier of

Rich Ores in the Pima Range. Tucson-Some rich ore of galena and sulpherets were encountered this week in the Pima range, near Solomonville. The property belongs to Mr. Wite Walker. The

development work on the Buffalo mine has opened up a fine body of ore, and the opened up a five body of ore, and the smelter owned by that company is being put in repair, and we can soon expect this pronerty to become a producer. The gold mines owned by the Burke Brothers, near the postoffice in Yuma, are to be worked. A two-stamp mill will be put up and the property will be thoroughly prospected and developed. A lot of mines came in from developed. A lot of miners came in from Harshaw this week on the way to the Bay mine, near Riverside, in this Territory. These are some of the best copper mines in that neighborhood, and it is said that they will be thoroughly investigated for the benefit of the Westinghouse Company, who reefit of the Westinghouse Company, who re-cently purchased the mines at Washington camp. It is reported that a big strike has been made in the Provedencia mine in Sonora. The mine formerly belonged to James Price, and was abandoned. After-ward it was relocated, and, after running a drift about 100 feet, a body of ore was struck that is now eight feet wide and assays about 150 ounces of silver, besides a heavy percent-

Cleaning Up Pincer Mines.

IDAHO CITY-Water is falling in many of the placer mines of Boise Basin, conse quently clean-ups have been made in several of the large hydraulic claims, among which received from the leading mining centers of may be mentioned those of the Traverso Bros., Barker and Hall, William Barker, SAN FRANCISCO-The Lost Confidence Barker & Riordan, and the Headen claim. mine on Iron Mountain, Shasta county, is described as "a vast crucible filled with silver and gold ore." The fact that last month's run produced a two-horse wagon load of silver bullion, weighing 2,500 is abundance of ore of the same class in the mine, so that is certain that the yield during

have gone to the company's mine at Silver Mountain. It is their intention to commence work on the long tunnel to tap the Cleveland and Julia mines at depth as soon ten-stamp mill running on the El- as supplies can be got in. They have the sinore mine, and his first clean up finest silver mill in the county, but it will than repaid the \$7,000 necessarily have to remain idle until this tunuel reaches ore. If none is discovered before reaching the Julia and Cleveland it will have to remain idle until the tunnel is in a distance of about 3,300 feet.

Silver Mining in Connecticut.

PUTNAM, CONN .- Just over the northwestern border of Rhode Island is the town of Gloucester. Mr. Albert Potter, a practical miner, has begun work there on the old Walton gold mine on Page's Hill. He is going to solve the problem of its value. He is sinking a 50-toot shaft. If
the ore holds out at its present assay he will
put in expensive machinery for working the
at a moment's notice. Several of them have mine, or else form a stock company. mine, or else form a stock company. The original assay was \$22 in silver and \$187 in gold to the ton. Manager Potter recently showed a certificate from the assayers that displayed \$10 in gold and \$14 in silver. A large lot of the ore is now in the hands of the assayers. The miners have got down that \$25 feet. The miners have got down that \$25 feet. about 28 feet. The scene has been visited by hundreds of people from neighboring villages. A deep interest is taken in the operations.

VENANGO COUNTY ROBBERY.

Barney Hoover Bound and Gagged While His House is Looted.

[SPECIAL TELEGRAM TO THE DISPATCH.] FRANKLIN, June 15 .- Early yesterday norning masked burglars entered the residence of Barney Hoover, who resides alone SPOKANE PALLS-A few weeks ago a 13 miles north of this city. They bound tramp, packing his blankets, walked into
Bear Creek Gulch, in the Coeur d'Alene
district. A week ago last Friday he walked
out with \$20,000 in his pocket. He had disreleased A Sheriff's posse started after the thieves,

but have not yet succeeded in catching them.

ANOTHER INDIAN ROBBERY.

Terrorizing the Citizens of the Reservation With Dirks. SPOKANE FALLS, June 15 .- James just arrived from Oknanog county, brings news that the sfore of "Paw" Cummings was robbed of a large amount of merchandise and \$50 cash Tuesday last by Indians, who afterward stampeded a band present rate of production the yield of the Comstock lode for the year will be about ing the back of a dirk knife across his throat The Indian agent with a posse is in pur-

HUNDREDS OF CHINAMEN.

They are Coming Into the United States by

Way of Mexico. SONORA, MEXICO, June 14 .- The Chinese are coming into Sonora in large numbers, every vessel landing at Guaymas bringing ore or less. There was not less than four hundred arrived in the last four months. It is understood that the United States is their point of destination. Several bands sought employment in the mines without success.

Considerable feeling is manifested by the Mexican laboring class against the Chinese coming into the State.

WILL PARALLEL THEIR LINE.

The Standard Oil Company Will Lay Another Pipe to Chicago.

SPECIAL TELEGRAN TO THE DISPATCH. LIMA, June 15 .- The Standard Oil people have placed large orders with Eastern people for six-inch line pipe, to be used for the purpose of duplicating their present line be-tween Lima and Chicago.

The route will be by the Chicago and At-

lantic Railroad, the same as the present

BEWARE OF IMITATIONS

A FRIGHTFUL FAMINE

Thousands of the People of Tokio in a Famishing Condition.

GREATER SUFFERING EXPECTED.

Serieus Trouble of an Unknown Nature Reported in Corea.

WARSHIPS IN READINESS TO SAIL

SAN FRANCISCO, June 15 .- A correspondent in Tokio writes as follows, under date of June 1: The excitement following the depredations of the students has decreased a little since they apologized to the Rev. W. Imbrey, the New Jersey missionary, who was cut and bruised by them two weeks ago. That gentleman has entirely recovered, and it seems nothing more is to be heard of the matter. The foreigners feel outraged that the culprits were not severely

punished. As the result of their escape from any more than a simple apology, the Sochi are becoming more bold day by day, and insults to foreigners are increasing. The settlers coming from Yokohama are armed with re-volvers, fearing that there may be some show of violence. The Government seems to be doing all in its power to deal with the students as a class, but no incivility can be offered them as individual because of their desperate character.

THOUSANDS ARE STARVING.

In the meantime the distress among thousands of the starving people of Tokio and other large cities is being ameliorated to a great extent by the foreigners as well as by the noblemen. One nobleman is feeding a thousand people a day and out of his own funds. The price of rice is higher than ever before, both in Japan and Corea, and this is probably only the forecast of the suffer-ing to follow. The outlook for the growing crop of rice is not good owing to heavy and continued rains.

There are many vague rumors affoat con cerning the reported taking of Corea by the Russians. There is some trouble in Corea, but the Government officials of Japan know nothing definite as to its nature. All that is surely known is that all of the British men-of-war are lying in the harbors with steam up and

already gone. The American naval force, under Rear Admiral Belknap, is also under orders to sail for Corea. An officer of the British ship Severn said that he had seen dispatches and orders which would astound the foreigners in Japan. The dispatches from Corea say that the new United States Minister, Au-gustin Heard, has arrived there and that the retiring Minister, Hon. H. A. Dinsmore, is about to depart. The latter was presented with a testimonial of esteem by the foreigners of the country, Mr. Weber, of the Russian Legation, making the presenta-

EXCITING ELECTION AT BUTLER. The Improvement Men Carry the Day by

Overwhelming Majority. PEPECIAL TELEGRAM TO THE DISPATCH. BUTLER, June 15 .- The result of the special election held yesterday, resulted in an overwhelming majority in favor of bonding the town to an amount equal to 7 per cent of the assessed valuation of the borough. The vote was 763 for, and 138 against an increase of the indebtedness.

A carriage bearing a banner with the following inscription was driven about the streets: "Vote for Public Improvements," "Cleanliness is Next to Godliness," etc. The result meant that Butler is to be paved

Choking Catarrh.

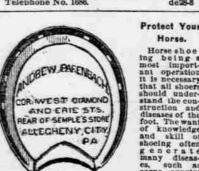

Have you awakened from a disturbed sleep with all the horrible sensations of an assassiu clutching your throat and pressing the life-breath from your tightened chest? Have you noticed the languor and debility that succeed the effort to clear your throat and head of this catarrhal matter? What a depressing influence catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and filling the bead with pains and strange noises! How difficult it is to rid the nasal passages, throat and lungs of this poisonous mucas all can testify who are afflicted with catarrh. How difficult to protect the system against its further progress toward the lungs, liver and kidneys, all physicians will admit. It is a terrible disease, and cries out for relief and care. The remarkable curative powers, when all other remedies utterly fall, of SANFORD'S RADICAL CURE, are attested by thousands who gratefully recommed it to fellow-sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references.

What a Prominent English Author Thinks of American Ladies-A Comparison With European Girls.

A well-known English author, who was re-cently in the United States, was entertained by a gentleman and lady of wealth, residing on Fifth avenue, New York. In the course of the dinner the conversation turned upon American women, when the English gentleman said: "Nowhere in America do you find such com-plexions and nowhere such health as we see in

"Nowhere in America do you find such complexions and nowhere such health as we see in the faces and forms of English girls. I have noticed this in every city that I have visited. American ladies look tired, weak, faded. They lack color and they lack life. Existence seems a burden to them, not a pleasure. You in America do not notice it, because you are here, while I can see it very plainly."

We may say that this English author was prejudiced, was conceited, was bitter, but we cannot say that he was wrong. American ladies are not so strong, so healthy, so brilliant, as they should be. Their complexions are not so clear nor their eyes so bright as could be desired. Doubtless the climate has something to do with this, but it is unquestionably true that by proper care and a judicious use of the right means, these things can be overcome. Any lady who feels tired, despondent or weak can readily overcome these troubles by a proper use of a little pure whiskey taken in water. Bear in mind, however, that it should be the best whiskey, as anything else is injurious, and also remember that the best physicians and chem ists in America unhesitatingly declare tha. Duffy's Pure Malt has no equal. The effect o this whiskey is to build up the system, to improve the complexion and to give brightness and vigor in the place of weakness and languor. It is being used by the leading ladies in the land, and its populority proves its value.

Mr. M. McLean, a well-known gentleman of Allegheny, residing at Wood's Run, had suffered from catarrh for many years. The mattery secretion that gathered in his throat was very tenacious and hard to raise, and as some of it dropped down into the bronchial tubes of his lunes he began to cough. He had pain over his eyes, and his head would often feel dizzy. He took cold very easily, and as his discase further advanced he coughed day and night, and worse during the night. In fact, his cough was so severe that he would spit up blood. After receiving a course of treatment from the Catarrh specialists at 323 Penn avenue, he gave the following statement for publication, with his named signed to it, as positive proof of his complete cure: "My disease was of long standing and continued to grow worse until I became afraid of consumption. I now feel like a new man and am glad to testify to my complete cure by these special-Geo. W. Snaman,

NEW ADVERTISEMENTS.

June 16, 1890.

"Then plain and open nature sees mankind, But in appearances not what they are."

Here you have the influence of clothing-the advantage of the welldressed man over the slouch. Verily, the importance of neat and stylish apparel cannot be over-estimated. But, you reason, how can I keep up in this respect with my neighbor, who has a fatter purse than I?

Don't let that worry you. All you have to do is to watch the op-

portunities occasionally presented by Kaufmanns', and, if you're shrewd, you'll make every dollar go as far as your neighbor's two. Right now, for instance, during the progress of Kaufmanns' great reduction sale, you have a chance to prove what wise purchasing will do

AT THE POPULAR \$15 YOUR CHOICE FROM

2,000 MEN'S FINE DRESS SUITS!

WORTH \$20, \$21, \$22, \$23 AND \$24.

To give you an idea of the high excellence and peerless superiority of these Suits, it is but necessary to call your attention to the following facts:

MATERIALS.

These Suits are made of fine Scotch Cheviots, Diagonals, Cassimeres, Corkscrews, Worsteds, Serges and Wide Wales.
