THE DISPATCH

mination to seek the wealth that he has missed. How could it be after thirty-five years of serving the corporations in the New York Legislature he is as poor as he represents himself? The corporate positions which he holds suggest that his ideas of poverty may be wholly comparative; but if his plea of poverty is to be accepted literally, then we must conclude that corporations, more than republicans, are ungrateful, and deduce the salutary lesson that legislators should not put their trust in railway prizes.

THE CENSUS RETURNS.

The time allotted for the taking of the census has elapsed, and our readers will find some valuable information upon the subject generally in THE DISPATCH to-day. In estimating the significance of the reports which come from various parts of the country, it is well to mark what Mr. Oliver, the Census Supervisor, has to say. It may be, and no doubt in many cases is true, that individuals and entire families have been passed over by the enumerators, and yet there is still time to complete the census. Mr. Oliver says that out of the total number of 332 but 100 enumerators has as yet turned in their reports to him. Some of the enumerators not yet heard from may have encountered extraordinary difficulties; indeed, it is well known that no inconsiderable part of the population has proven as hard to count as it is to catch the same fish. Mr. Oliver's confidence in the complete and integrity of the enumerators as a body is reassuring, and we trust that his estimate of the completeness of the census returns in his district will prove to be correct. It will not be unwise, however, to take the greatest care that full justice is done to the community. An inadequate or inaccurate census report would be a grievous injury to Pittsburgh.

THE LATEST SCHEME OF CHURCH ENDOWMENT

The latest scheme of church endowment is to drill for oil in the churchyard and sell to the Standard at a high figure. The Forest Presbyterian Church has obtained a fund of over \$50,000 in this manner. It is to be hoped that riches will not break up the church.

THE TOPICAL TALKER

Buenos Ayres is a Far Cry From Here—Mr. Abel's Journey to South America—Queer Papers—A Post After a Passing—Training for a Wedding.

Mr. Charles Abel, who is traveling in South America in the interest of some Pittsburgh manufacturers, and incidentally of THE DISPATCH, has been heard from again. It shows the poverty of our means of communication with South American countries when Mr. Abel's letter, mailed in Buenos Ayres in the middle of April, has only just got here. The letter traveled here by way of Portugal, and it is a pity that it is so long in coming. The difficulty of traveling in the east coast of South America, Mr. Abel says, cannot be imagined by any one who has not actually experienced it. He believes that he will get on better and faster on the west coast. He has no fault to find with the attitude of the officials and merchants of the various States which he has visited. They were all friendly and courteous, and appear to have gone out of their way to serve and entertain him.

At Buenos Ayres Mr. Abel found a warm reception. "All the monks are from Pittsburgh," and it felt like home in the monastery. They have a fine property and are building a new church, for which Father Constantine showed much interest. He has received this morning a donation of \$2000 he has received this morning.

Two English papers published in the Argentine Republic, the Times and the Herald of Buenos Ayres, and the River Plate Times of Montevideo, have also come to hand from Mr. Abel. They are all immense blank sheets of a pattern common to almost all English colonies. Apparently they are the organs of the English colonies in Buenos Ayres and Montevideo. If magnitude be desirable in a paper, these papers certainly can challenge the approval of the world. They are printed on a magnificent paper. The Herald measures 38 inches in length and 27 in breadth, and the River Plate Times 28 1/2 inches. The type is as big as that to be found in the printers, except in the advertisements, which are printed in a smaller size, and part of the fourth. The news seems to be a minor consideration. There is very little of it, and what there is is very uninteresting. The Herald is more eloquently restrained than the Times, and a censor, of a wholesome fear of the powers that be. They do not exhibit these papers, either in their own country or in any other. They are the activity of North American influences. European steamship lines and European traders, banks and railroad companies are evidently more in demand in Uruguay and the Argentine Republic.

The cholera always breaks out in Spain whenever Europe stands any show of being cheerful.

THE TWO NEW DANCES.

A Waltz-Minnet That is Expected to Be Popular This Season—Work of the Dancing Professors' Conventions—A Number of the "Lancers" and the "Waltz-Minnet" are the new dances that will delight the devotees of the art this coming season, says Prof. R. P. Thoma, who returned yesterday from the convention of the National Dancing Teachers' Association, which was held in Washington and Baltimore last week. "I think the waltz-minnet will be the most popular," said Prof. Thoma. "It is a new dance, and it is very different from anything else that I have seen. It is a very simple dance, and it is very easy to learn. It is a very graceful dance, and it is very attractive. It is a very popular dance, and it is very well liked.
