A LITTLE INCIDENT AT CHICAGO.

The Question of Re-Christening to be Voted on, and United Americans Suggested

AS THE MOST APPROPRIATE COGNOMEN.

Important Business Transacted and New National Officers Chosen.

[FROM A STAFF CORRESPONDENT.]

CHICAGO, June 18.—An incident occurred in the National Council of the Jr. O. U. A. M. to-day that wiped out all possibilities of defeat for the proposed change of name. A gentleman presented a certificate of membership from the Journeymen Sawyers' Trade Association, of Grand Rapids, Mich., and asked to be admitted as a delegate. This was laughed at, of course, by members of the order, but it is a fair sample of the manner in which the organization is thought of and talked about where it is not so well known as in Pittsburg.

A. L. Solomon.

As announced in yesterday's DISPATCH, A. L. Solomon, of Pittsburg, offered an amendment striking out the requirement that subordinate councils should vote on the change, and the amendment was passed. Some of the leaders in the movement turned in and wanted to change the name without further delay, and a motion to that effect would have passed had it not been for State Secretary Deemer, of Pennsylvania, who said it would be discourtous to the members to deprive them of a vote on the question.

SUBMITTED TO A VOTE.

He felt there would be no trouble in securing the adoption of "United Americans," but wanted to see the subordinate councils get an opportunity of approving or disapproving the action of the National Council. A motion was then adopted submitting the new name to a vote and the following was passed.

Resolved, That in case of a change of name, the subject be referred to a vote of the members at large; all returns to be in by October 1, 1890, the same to be counted by Past State Councilor Deily and Past National Councilors Colver and Deemer, all of Pennsylvania, and if the result should be in favor of said action, that the National Councilor be directed to appoint all committees necessary to carry said action into effect July 1, 1891.

The change of name is the subject of discussion here to-night. There was considerable feeling in regard to the possibility of the National Council finally settling the matter at the present session. State Councilor Winnower, of Pennsylvania, said: "I believe it would have been wrong. I know the order in Pennsylvania, and particularly in the western part, would have been dissatisfied."

A CHANGE FAVORED BY ALL.

Vice Councilor Stephen Collins said: "I think the sentiment is for a change of name. I know our people are ready to vote for it, although we do not need it in Pennsylvania, and I approve the course taken by the National Council."

Harry R. Peck.

Representatives Solomon, Peck, Keil, McRoberts, Cranston and other Pittsburg members expressed themselves in the same way. The change of name will carry with it the change of charters, rituals and paraphernalia, and such as Pittsburg Council and many others that have charters and own property will find it a pretty expensive move. The election of officers to-day resulted as follows:

National Councilor, George H. Bartlett, Massachusetts; National Vice Councilor, John R. Bovlitts, Maryland; National Council Treasurer, J. Adams Saul, who was re-elected; National Council Conductor, Dr. William H. Painter, Harrisburg; National Council Inside Sentinel, A. H. Barber, Wisconsin; National Council Outside Sentinel, J. D. Pierce, Alabama.

MUST LOOK A TRIFLE ODD.

The newly elected National Vice Councilor weighs but 85 pounds. The combined weight of the National Conductor and Warder is over 600 pounds, and as the Vice Councilor is guarded by one on either side, his end of the council chamber presents an appearance closely resembling a dime museum when the council is in session.

The routine business of to-day's session was of general interest. The per capita tax of all State councils under the jurisdiction of the National Council was increased from 6 to 10 cents. An attempt to abolish the law relating to dismissal cards only received one affirmative vote. Representative McRoberts, of Beaver, Pa., presented a resolution extending the age of beneficiary membership from 45 to 50 years. An attempt to strike out the word "white" in the elegibility clause, met with an overwhelming defeat. The measure was not defeated through any ill feeling toward the colored race; but an effort is being made to extend the order in the South, where it would not be expedient to make the colored people eligible at present.

G. L. Hoffman.

The question whether members of defunct councils in good standing, over 45 years of age, admitted to membership by dispensation, beneficiary members can be received into membership, was decided in the affirmative. It was decided to pay organizers $35 for each council organized for another year.

Cleveland, Wheeling and Richmand were candidates for the next place of meeting. The former won almost unanimously. The committee to which Secretary Deemer's report had been referred, recommended the adoption of his suggestions regarding immigration and the public school question. The official result on last year's vote on the change of name was announced, it being 1,625 for, and 11,732 against. This does not represent more than one-sixth of the total membership. The Resolution Committee will report to-morrow morning and it is now thought that the session will adjourn in time for the delegates to get away to-morrow evening. Some of the Pittsburg excursionists left for home to-day, but a large number enjoyed a special excursion on Lake Michigan; others went driving in Lincoln and Jackson parks, while a few saw the Chicago Brotherhood club defeat the Clevelands, representing the city where the next session will be held.

NOT OPEN TO SETTLEMENT.

The Queer Construction That Has Been Placed on the Irrigation Law.

[FROM A STAFF CORRESPONDENT.]

WASHINGTON, June 18.—All of a sudden a great deal of anxiety has seized upon the people of the West in regard to the action of the Interior Department officials, in company with Director Powell, of the Geological Survey, in withdrawing from entry practically all of the lands within the unoccupied area of the United States. It seems that the Secretary of the Interior has construed the act of 1888, authorizing the withdrawal of arid lands from settlement, to give him authority to close up to entry of any kind, whether under the homestead, pre-emption, timber culture or desert land acts, all the territory within the United States embraced in the area whose boundaries are about the 101st parallel of longitude west of Greenwich on the east and the 117th on the west. Not only does it take from settlement a large portion of Montana, all of the two Dakotas west of the center line of the great Sioux reservation, the whole of the Territory of Wyoming, and large sections of New Mexico, Arizona and Kansas, as well as the Western portion of Nebraska, but if it is to be strictly enforced it will absolutely prevent the settlement, under any of the acts now on the statute books, of a single acre of the western half of the recently ceded Sioux reservation in South Dakota.

The Western Senators have had their attention called to this matter within the past few days, through complaints received from all sections of the territory named above, and inquiries have been instituted which have developed the fact that their fears are well based, and that an enormous section of the United States cannot be legally settled until the order is withdrawn or some action is taken by Congress to modify it. The result is that a bill will be introduced at once to correct this state of affairs, and it will be pushed forward with vigor by the Western Senators. This is part of the effect of the great scheme of Superintendent Powell to squander millions of dollars ostensibly for the benefit of the people, but really to benefit the geological survey and feed a host of idle so-called scientists and sons and relatives of members of Congress.
