

The Bonifaces on sea and mountain top ar wreathed in smiles. The season of '90 has pened with a rush, and the hotels which asually keep their doors closed until July have hurried up the burnishers, and nearly all the stelries and boarding houses on hill, stream, Take and beach are ready for the reception of ditional pleasures and attractions are being planned, and the fortunate ones who can leave the sun-naked cities will undoubtedly find they go. Much interesting gossip and informa tion from several popular resorts is herewith presented to readers of THE DISPATCH.

City is the only place on the coast that can lection and delivery system in the drug line. Yet such a system is in successful operation here and is a great blessing in cases where medicines are desired in in a big hurry. When

ascertains what his patient requires, the nurse simply has to go to the telephone, ring a druggist, and in a trice his messenger rides up to your door, gets the prescription, and returns with it as soon as it is compounded. When the fact is taken into consideration that every corner is not orna-mented with the green and red lights, although there is quite a number of good pharmacies here, the benefit of this system is apparent, and one that could be copied with great advantage in many places.
With the exception of surf bathing there is

no amusement here as popular as the merry-goround. There is certainly no place where the dear girls can display a good form, pretty gown or neatly-turned ankle to better advantage than on the merry-go-round.

thing that netties the "lone fisherman" it is to have the animals of the deep fight shy of his hook. When last here Quay went after "drum," and after three days" work, with an average of one fish per day, the Senator went off disgusted. It simply demonstrates the fact that there are some things "in the swim" the bir.nolitical boss cannot eatch.

a United States Hotel opened on Saturday lass. That for seven years past has signalized the season's beginning. This year the management of the handsome new house altered its usual programme by having musical and literary exercises instead of dancing. There was of course a splendid supper. In former years dancing was deemed essecutal to a first night at the States. Many distinguished guests were Justice Miller is new at her beautiful home on Block Island, and Justice Blatchford and wife have left for their cottage at Newport.

One of the finest of Newport's cottages belongs to Historian Baneroft and the old man will spend the summer there. He has not been well during the latter part of the season and has practically given up his literary work. Some of his best work has been done in Newport, and the Redwood library is one of the best historical libraries of the country. He has a fine rose garden at Newport and his cottage there overlooks the sea. He takes his family with him and his big German servant, Hermann, will always be by his side. Justice Miller is now at her beautiful he

mann, will always be by his side. THE HARRISONS AND WANAMAKERS. Mrs. Wanamaker and the girls are at Lindenurst, the Wanamaker country home nea Philadelphia. They will remain there until July 1, when they will go to the Wanamaker cottage at Cape May and remain there until he beginning of August. Postmaster General Wanamaker's custom has been to spend August at Saratoga, and it is probable that the family will remain there until they are ready to come back to Washington in the fall. Mrs. Harrison thoroughly enjoys her life at Cape May and the most of the summer will be spent in the cottage there, though the President may take one or two runs up to Deer Park. A private letter from Cape May says that Baby McKee is

growing fat under the revivifying air from the sea and the coast seems to suit the young man quite as well as that of the Allegheny Mountains.

Madame Romero and the Mexican Minister Madame Romero and the Mexican Minister will sail for Europe in July, and they will spend the summer abroad. Miss Leiter, the daughter of the millionaire Chicago merchant who pays \$10,000 a year for the six months' rent of Biaine's house in Washington, has gone to Europe, and she will probably be besieged by the fortune hunters. Her father is worth anywhere from \$5,000,000 to \$10,000,000, and she has more pin money than a Congressman has salary. Mrs. Leiter has gone to New York and the Dupont Circle house is closed for the summer.

FLIGHT OF THE DIPLOMATS. The titled diplomats of the foreign legations are fleeing from Washington. The Turkish Minister, Mayoreyni Bey, has gone to Europe. Sir Julian Pauncefote, Lady Pauncefote and Miss Pauncefote have taken a cottage at Manchester-by-the-Sea and will spend the summer

chester-by-the-Sea and will spend the summer in America, though they are planning a trip in Europe next year. The Koreans, both men and women, have engaged quarters at Berkeley Springs, Va., and they will lave their Jersey cream skins in the mineral waters there. The Chinese Legation at this writing has not yet left Washington.

General Ed Beali has gone to Manchester-by-the-Sea. Mrs Senator Stewart, of Nevada, is in Canada. Mrs. Senator Gill Pearce has gone to her country home in Dakota, and Mrs. Senator Blackburn and daughter are at Lake Como, New Jersey, where the Kentucky orator has a cottage. Mrs. Senator Ingalis and family have gone back to Achison and have taken possession of their magnificent establishment in that little city. Their house there is surrounded by large grounds and they are as much in the country as though they were on a farm.

WHERE THE FARMERS WILL GO.

WHERE THE FARMERS WILL GO, The Hon. Hugh McCulloch, ex-Secretary of the Treasury, will spend the greater part of the summer on his farm in Maryland, and Mrs. Senator Squire has taken quarters for the season in the New York village where her chil-dren are at school. In September she and Miss Squire will go with the Senator to Seattle for a couple of months. Mr. Kauffmann has left for Alaska with his wife, and Mrs. Justice Waite and daughter have gone to Europe. Mrs. Senapeople and sideshows leave in Washington, but she will soon leave for her home at Mausfield, where she has a magnificent

home at Mausfield, where she has a magnificent establishment.

Senator Evarts will spend the greater part of the summer on his farm in Vermont. He owns a place near Windsor, the milk produced by which costs, he says, more than champagne, and the butter averages somewhere about \$2 a pound. Senator Evarts is one of the largest feeders in public life, and he thoroughly enjoys good living. His long, thin frame can take in an almost unlimited amount of terrapin and champagne, and one of the best bon mots which ever passed from lip to lip is Washington society was that made by Roscoe Conkling when he sat at the other end of the table from Evarts at a White House dinner. He cast his eyes at Evarts as he went boidly through course after course, and finally said to the man at his side: "See little E-varts feeding his tapof worm."

SENATOR VANCE'S PARADISE. Senator Edmunds has a very pretty country place in Vermont and his home at B

Carolina, has about 1,000 acres surround his country place near Asheville, N. C., and he says he would a thousand times rather go there than to White Sulphur Springs or Saratoga. "The idea of paradise for me," he remarked the other day, "is to get down at my home in the mountains where I can throw off my coat, stretch myself under a tree and watch an old nigger plow with a one-eyed mule."

Ex-Senator Palmer writes me that he intends to make a tour of the lakes on one of his freight steamers, and after he returns he will settle down in his log cabin near Detroit. This log cabin contains about six rooms, and it cost \$12,000 to build. Palmer has a lot of Jersey cows, the milk of which costs him fully as much as that of Senator Evarts, and his farming is one of the luxuries of a millionaire. He blows up atumps with dynamite, raises fish in a pond kept fresh by a steam engine pumping water into it, and entertains magnificently. He calls himself a pioneer, and his home is fletitiously dubbed Font Hill, because he says there is no fountain and no hill connected with it.

HOMES IN THE SUBURBS. toga. "The idea of paradise for me," he re-

HOMES IN THE SUBURBS. During the last five years our leading states men have been paying attention to Washing-ton suburban development, and new not a few of the Senators own farms and lots near the capital. Outside of the city the climate of the District of Columbia is about the same as that of Ohio, with the difference that we have here more of a breeze, and our great men are learning that they can just as well have a country heme near their seat of work as several hundred miles from it. Mr. Whitney started the fashion when he bought Grasslands for something like \$50,000 and made \$75,000 out of it during his torm of office. Don Cameron bought the other day \$42,000 worth of suburban property, and Sherman and Blaine, ex-Senator Kellogg and a dozen other prominent men own more or less suburban land.

The good speculation which President Cleveland made in Oak View is well known. He paid less than \$50,000 for the place and sold it at \$100,000 profit. During his administration the roads surrounding his property and throughout the whole suburban part of the District were piked and otherwise improved, and the suburban drives of Washington are now finer than those of any other city in the country. This improvement has shot the price of lands from \$500 an acre up to from \$1,000 to \$5,000 an acre, and all about the President's home land is selling at 26 cents and upward per foot. A District of Columbia is about the same as that

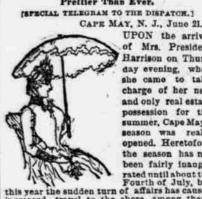

acre, and all about the President's home land selling at 25 cents and upward per foot. A square foot is a mighty small amount of land and 25 cents a foot means in the neighborhood

NEW TERRITORY OPENING UP. The prospect now seems to be that a grea suburban growth will spring up along the Upper Potomac. The Baltimore and Ohio Railroad, during the past month, has paid \$80, 000 for 60 acres on the Maryland side facing the Virginia hills within about three miles of Georgetown, and the probability is that a railroad will be run from Washington to Cumber-land on the bed of the old canal. This will land on the bed of the old canal. This will bring some of the most picturesque country in the United States within easy access of Wash-ington, and already the ground is being plotted and lots are being sold in this region. Two Ohio men have beught one of the most picturesque plots just below Cabin John's Bridge, and have called their suburb Glen

Bridge, and have claimed their subure often Echo. They have already constructed a \$20,000 rustic restaurant here, which is to be taken charge of by Mr. Page, the man who feeds the United States Senators at the Capitol, and this will probably be the great driving resort of the coming season. An electric road is now runcoming season. An electric road is now run-ning almost to Tennallytown past Oak View, and there is a hotel there which is largely patronized by Senators. Miss Grundy, Jr.

REFORM AT CAPE MAY. -

The Old Resort Cleared of Obstructions and Prettier Than Ever. [SPECIAL TELEGRAM TO THE DISPATCH.]

UPON the arrival of Mrs. President Harrison on Thursday evening, when she came to take charge of her new and only real estate summer, Cape May's season was really

season was really opened. Heretofore the season has not been fairly inaugurated until about the Fourth of July, but this year the sudden turn of affairs has caused increased travel to the shore, among them, more than usual, a large number of people from Pittsburg and Western Pennsylvania, Many new faces are smilling upon the broad Atlantic while strolling upon "the finest beach in the world."

Mrs. Harrison's Property.

This old resort never looked more attractive than it does now, and can rightly be called the "queen of ocean resorts." The streets and arenues have been cleaned up, and look as bright as can be. The ocean boulevard has been beautified, and the boardwalk, stretching from end to end of the town in front of the city, has been kept clear of booths, which are unsightly and which are serious obstructions to a full ocean view. The management of the town is wise in so doing. For two years or more the beach has bad an unsightly wreck strewn upon it, which made bathing unsare, but the authorities this winter have removed this danger, and bathing is now as safe as anywhere along the coast. There is a gradual slope from the edge of the town to the water's edge, and the hard, clean, white sand affords a splendid playground for the children.

QUAINT ASBURY PARK.

Plentiful Attractions for All Comers-Fine Fishing and Crabbing.

PEPECIAL TELEGRAM TO THE DISPATOR. ASBURY PARK, June 21. SURELY this town, boasting of three finan-

derstood that the community is composed of resident population exclusively; that is, there means of extensive emof people. When this circumstance is considered, the question how and why this place

climate, excellent regulations, and the thrifty public spirited residents of all the year round, and, further, the odorous pine groves in the vicinity, the romantic lakes, and finally, the old ocean itself, as it alternately laps and thrashes the gently receding shore. All these and more are the attractions that bring visitors by the million each summer to the place and prevail upon many hundreds every year to make this a permanent abiding place, rather than the crowded, noisy, wearying city.

TO SUIT ALL COMERS. Few places in this world have the varied at-

tractions of this part of the Jersey shore. Right here in Asbury Park, with its bustle and genuine commercial activity, in the bustless of the place, the strie and frivolity of the large hotels, the cool delights of boating or sailing about the picturesque lakes, or the refreshing air and balmy pleasures of the brown-sanded boach, almost any man can find that which he needs. But if the diverse charms of Asbury Park, and its adjacent off springs, North Asbury, Interlaken, Loch Arbour and Deal, to the north do not mest the requirements of the weary sojourner, let him cross Wesley Lake, the southern boundary of Asbury Park, and sing psaim tunes with the Methodists in far-famed Ocean Grove.

Should long-metered hymns not quiet his nerves, and the cotology and the hallelujah chorus fail to soothe hits spirit, he will find in the same place at an early day, the assemblies of the gay but studious Chautauquans, the campmeeting of the National Temperance Society, the convention of the Order of Deaconesses, the association of the American Sabbath Union, the Women's Christian Encouragement meeting, the New England Sunday School Assembly, the African Methodist Episcopal Jubilee, the convention of Principals of Methodist Seminaries, the Inter-denominational Bible Conference, the gathering of Kings' Daughters; and finally, the great ten-day campmeeting celebrated all over the world for the cloquence and religious fervor displayed.

Still if all these things move not the captions mind, let its owner walk across Fletcher Lake on the south, through a grove of murmuring places, to historic Avon-by-the-sea. Here surely the profound thinker, the logician, the rhetorician, the seeker in the fathounless depths of religious and scientific though, will find kindred spirits in the Summer school of Christian Philosophy. This is a gathering of leading doctors of divnity, doctors of law and scientists, with hardly a like in this country. Here the Rev. Dr. Charies F. Deems, of the Church of the Strangers, and other celebrated theologians a

A HAVEN FOR ANGLERS.

Beyond the stately groves and the wisdom of the philosophers of Avon, or Key East, lie the queenly resorts of Ocean Beach and Spring Lake, better in their class of frequenters than Long Branch in its palmiest days. To these places is added the extra attraction of a broad river, abounding with fish, crabs and oysters the retreat of feared, but fearless, pirates. All these places are within easy walking dis-tance of Asbury Park, the oldest, largest and wealthiest resort of all. Only a short drive to

wealthiest resort of all. Only a short drive to the north are Long Branch, once the summer capital, Elberon, Norwood Park, West End, Hollywood, Monmouth Beach and the dozens of smaller resorts on the Sandy Hook peninsula. So it is that Asbury Park is the center of the Jersey shore attractions, the hub of summer resorts along this coast.

The preparations for the season's business were generally finished by the 1st of this month, and now the summer boarders are arriving in large numbers by every train, probably as rapidly as they can be well accommodated. Ou Monday, the three railroads here, the Pennsylvania, New Jersey Central and the New Jersey Southern begin their summer trains from New York and Philadelphia, Several extra express trains will then be run, including those now on the time tables. At about the same time, the iron steamboats will begin running between New York and the Long Branch pier. The excursion rate by this line is but \$1.10.75 cents by vates were and \$25 cents by vate \$1.10.75 cents by vates were and \$25 cents by vate \$1.10.75 cents by vates were and \$25 cents by vate \$1.10.75 cents by va pier. The excursion rate by this line is but \$1 10, 75 cents by steamer and 35 cents by rail, against the \$1 85 excursion rate of the all rail

against the \$1.85 excursion rate of the all rail lines to Asbury Park.

Cottage life here has so grown into popularity that there is now almost as much struggling to secure the summer rental of coxy cottages as formerly existed on the part of real estate agents to gain the patronage of prospective lessees. There is but little unimproved property in Asbury Park. Yet there are a few dozens of choice lots which are held at fabulous prices by speculators and New York and Philadelphia capitalists. These men are asking more for their small, sandy possessions, without a stick or shrub on them, than James A. Bradley, of New York, paid for the whole region between Wesley and Deal lakes 20 years ago.

Scraps from Sea and Shore. J. L. NEWMYER and other business men of Irwin have purchased an acre in the North Irwin plan, and will shortly commence the erection of a fine hotel. The site is a beautiful one, being on a bluff immediately above and overlooking the town, and the building, when completed, will be an ornament to the place. The new bridge will be commenced soon. It will be of irou, and will extend from the foot of Oak street, east of the Pennsylvania Railroad station, to the hill opposite on which North Irwin is located. J. L. NEWMYER and other business men of

One of the most enjoyable events of the week was a select surprise party given in honor of Miss Maggie Grimm, of the Southside, Eighteenth street, on Monday evening, it being her 21st birthday. Music and daucing were the order of the evening. About 12 o'clock an elegant supper was served, after which the young folk danced to the sweet, strains of music until the wee small hours of the morning.

An ice cream and strawberry festival will be held on the M. P. Church lots, corner Bigham and Virginia avenues, Mt. Washington, on Mouday and Tuesday, June 23 and 24. On Monday the McCail Cornet Band, of the East End, will be in attendance and give musical selections. The proceeds go for the benefit of the Mt. Washington M. P. Church Building Fund.

There will be quite a number of the residents of this city, especially of the East End, go to Greensburg on next Wednesday afternoon to witness the commencement and closing exercises of St. Joseph's Academy, Seton Hill, as the majority of the pupils are from this city. Fifteenth Regiment. COLONEL WILLIAM A. KREPS, of Greenville, called on a few of his friends in this city last week. The Colonel reports the Fifteenth Regiment in better condition this spring than ever, and says all his companies passed good

rangements for an entertainment and river ex-cursion to raise money for extra rations at camp. They formerly donated three days' pay for this purpose, but the short pay this year precludes that idea.

By order of W. E. Thompson, the members of Company G, Fourteenth Regiment, will assemble at their armory, Old City Hall, Tuesday at 7:20 o'clock P, M. for drill and to be measured for new uniforms. Every member is expected to be present.

THE Board of Control of the Fourteenth Regiment meets to-morrow evening. Several matters of importance will be brought up, among others the date of leaving for camp will be settled. A number of the officers favor leaving Friday merning, July 18.

CONSIDEABLE progress was made last week by Captain W. H. Davis and Mr. Keating in the way of raising funds for the erection of the new Eighteenth Regiment Armory. While at first it was thought the work of tearing down the old building could have been commenced this month, a number of unforescen circumstances have delayed the matter, and it is no probable that much can be done before the first of Sentember.

Most of the officers engaged in the West Ponn Hospital field exercises last week were so pleased with the showing made that it is prob while an attempt will be made to duplicate the affair on a much larger scale in the fall. As neither of the local regiments are complaining of having too large bank accounts, the idea might be worked in a successful manner financially if well advertised for one of the fall holidays, such as Grand Army Day or Labor Day. GENARAL SNOWDEN, as commandant of the Division, has issued a circular to brigade and regimental commanders requesting that ladies he not allowed to remain in camp over night next mouth. The reason assigned is, that in past encampments their presence at night was found inconvenient if not hurtful to discipline, Local officers think the idea a good one, although the practice of taking ladies to camp has been in vogne principally among the country regiments only.
