Imperial Councilors of the Ancient Arabic Order of Nobles of the Mystic Shrine Arrive.

RESTING UNDER THE LOCAL PALMS

The Caravans Have Come From Almost Every Nook and Corner of the Great North American Desert.

NAMES OF THE OCIENTAL PILGRIMS.

Shelkha Will Sit in Connell To-day, With Camely Milk and Arabic Cuffee.

A large number of pilgrims, partly dressed in the Nomad costume, in their travels across the arid desert, yesterday struck the pasis of Pittsburg. At the famous watering place, called by the ancients Ye Monongahela, they stopped for rest and drink. Their tongues were so parched that they concluded to dismount from their camels and partake of the hospitality of the people

The strange looking people, dressed in their fez caps and wearing large badges of honor, were members of the Ancient Arabic Order of the Knights of the Mystic Shrine of North America. They did not look as though they had traveled over the sands of the desert and drank sparingly of tepid water out of goat skins. They were sleek and fat, and had every appearance of holding close communion with the good things of this world. In addition to being used to good living, they looked like personages of wealth and brains. To sum them up in a few words, it may be truthfully said that it is seldom such an imposing body of men assemble under one

RECEIVED IN BOYAL STYLE. The first delegates arrived early in the morning and were immediately taken in charge by the Reception Committee, composed of representative citizens of this city. Carriages were waiting at the Union station, and the delegates were driven to the Monongahela House, where headquarters have been established.

Among the most prominent representatives who came in yesterday morning were the following: Supreme Potentate Samuel Briggs, Horace W. Hubbard, Charles W. and Joseph E. Durrell, of Cleveland; William M. Harrison, William B. Milish, William Michiel of Cincinnati; R. P. Marvin. of Cleveland; Frank M. Luce, W. A. Stiles, James H. Thompson, John A. May. of Chicago; Samuel E. Watson, of Graud Rapids; Charles Westley, proprietor of the Weddell House, of Cleveland; ex-Governor J. B. Foraker, of Cincinnati; Joseph B. Eakins, one of the oldest police captains of New York City; George W. Miller and W.

S. Pattison, of New York.

Upon arriving at the Monongahela House the delegates were assigned to their rooms, and spent most of the day reading the history of the order published in yeste day's DISPATCH. The headquarters of the Reception Committee were established in rooms Nos. 11 and 12, where the comforts of each delegate were carefully looked after. THE EVENING'S ARRIVALS.

In the evening a special train, composed of vestibuled Puliman cars, arrived at the Union station from New York, having on board about 60 more delegates. Among were George H. Rowe, of the Brooklyn nes, and a prominent member of the New York Press Club; Edwin Knowles, proprietar of the Grand Opera House, New York: Wayland Trask, a prom-inent banker and son-in-law of Francis Murphy, the temperance spostle, of New York: Julius W. Knowlton, of Bridge-

port, Conn.; Charles H. Heaton, of Mont-pelier, Vt.; John Stowell, of Troy, N. Y.; Thomas Bishop, of Albany, N. Y.; A. Val Woodruff, of Brooklyn, formerly of this city.

A large delegation will arrive this morning. The business meeting will be held to-day, and the \$25-a-plate banquet this evening. A river excursion on the Mayflower will be given to-morrow morning. About

200 delegates will be in attendance.

The National Weekly, Carl Pretzel's paper, is to an extent the organ of the order. The editor, Charles H. Harris, of Chicago, is a Shriner and is in attendance upon the convention. Mr. Harris enjoys the peculiar glory of wearing the largest Shrine badge. It is made of pot metal, dipped in a silver plating, and is about six inches in a silver piating, and is about six inches in about completed. Then he said his name was Joseph Vincent and that he had been drugged and robbed of \$150 cash and a gold watch and chain worth was held, and after the speeches a call was made upon those who had made the acquaintance of the enumerator for their respective districts. Out of 134 men 4 of them stood up and said their names had been taken. The other 130 had not even heard of the enumerators being at their houses. It is an outrage the way the work has been done, but it is all the fault of the system. It is nonsensical to ask a man to go around with a list of 30 questions, and give him 2 cents for asking all of them.
When the report is completed it will not be
worth the paper it is printed on. I have
seen it stated that the reports will show fewer people in the country in 1890 than there were in 1880, and I pretty nearly believe the report is true. If the questions were cut down to about five or six, compensations and the state of the country described the state of the country described the state of th tent men could be secured who would do the work right."

TO CARRY REVOLVERS.

Colonel Streator Recommends an Improvement in the National Guard.

James B. R. Streator, Lieutenant Colonel of the "enth Regiment, of Washington, Pa., is at the Monongahela. The Colonel is at-tending the meetings of the Mystic Shrine, and, as is well known, is an enthusiast on National Guard matters. He has a scheme to improve the service by equipping the commissioned officers with revolvers. He and Major Hazlett have written to Adjutant General Hastings about the matter, and something will probably be done this sum-

mer. Colonel Streator said:
"At present the officers of the guard have nothing but their sabres, and while they may be good enough in some cases, what use would they be against a club? It any part of the guard was ordered out to suppress a riot, the officers would have nothing to de-tend themselves but their sabres, which are more ornamental than useful. I claim that the officers of the guard, with the staff and line officers, armed with revolvers, could quell any riot. The Pittsburg officers think some regulation of this kind should be made."

Colonel Streator and Major Hazlett are experts with the revolver, and last week the former put a large hole in a counterfeit dol-lar at a distance of 13 yards, and repeated the performance through a piece of card-Tenth Regiment will leave for Mt. He was disgusted yesterday at not being able to purchase a glass of soda water and had to stake his thirst with old Monongahela water. Mr. Butler is not a Sabbath breaker, but holds liberal views about the observance of the day. He thinks closing up sods water fountains is next to shutting off pure air, and said the contrast between Pittsburg and the city he came from was remarkable. While he was walking around town with his tongue sticking out, the peo-ple of his own city were out on the lake side viewing a ball game. DESTROYED HER IDEALS.

A Little Girl's Opinions of Royalty and Its Belongings Upset.

A portly citizen who has been for som time touring in England descended from the Eastern train yesterday afternoon, and was at once surrounded by a horde of laughing youngsters, his promising offspring. After the first greetings were over a little one shricked: "Oh, did you see the Queen, papa?" Paterfamilias admitted the soft impeachment. "And did she wear her soft impeachment. "And did she wear her crown?" "Well, no," murmured papa, "she had on a very dingy black bonnet." "Oh, how queer!" said the little inquirer, with a disappointed air. "But her ermine gown and jewels didn't she have them?" "Why, no," sadly replied papa, "she only wore a black cloak, and dress to match." The little girl almost cried. This was a regular black cross drawn across her gorregular black cross drawn across her gor-geous ideas of the Queen's apparel. However, she brightened up for a last question, "Oh, papa," she cried, "the Queen had her white horses at any rate, hadn't she?" Alasl denial came again. It seemed that the Queen had only one horse, and that no great snakes of a quadruped. Big tears stood in the wee maiden's brown eyes. Her belief in royalty and its pomp had been cruelty shattered.

Peculiar Tale Told by Ex-Sell

General George A. Jenks. Ex-Solicitor General George A. Jenks, of Brookville, was at the Seventh Avenue Hotel last evening, on his way home from the West, where he has been practicing law for two weeks. He was in a ruminating mood and would not talk politics, but was telling stories about the tastes of differ-ent people for drink. He told a tale of a Southerner who was appointed to a posi-tion in Mexico, and said:

While the storm was at its height part of the false-work on the upper side of the Smithfield street bridge was swept away. A lumber barge was torn from its moorings at the Baltimore and Ohio yards and dashed against the false-work, carrying away the newly erected frame around the central arch and occasioning the fall of the iron "traveler." The barge itself also sunk. The engineers are positive that the amount of damage done must be nearly \$4,000.

Mr. McGuire narrowly escaped being struck by the falling "traveler." He states that, in order to save his life, he was obliged to leap some seven feet on the second stage of the false-work.

The large flagstaff on the front of the roof of the Monongahela was blown down. The flag caught in the telegraph wires, and, being wet, was charged with electricity. One of the colored porters took hold of it, and as he received the force of the current, the whites of his eyes rolled up and the man was nearly scared white. He was asked to try to disengage the flag, but one dose was enough, and he beat a hasty retreat.

On Smallman street, between Twentyfirst and Twenty-second streets, a derrick was blown down that was being used in the construction of a galvanizing iron mill, owned by D. J. Wagner. Two large trees on Sherman avenue, unable to withstand the strain, snapped and in an instant crashed to the ground, fortunately falling in the park, where no damage was done. The wind tore away the awning before Kuhl's millinery store on Federal street, but no other accidents of that nature were reported.

The storm raged furiously on the Perrys-ville road. A tall tree was blown down and fell directly over Mr. Milvy, who was driv-ing along in a buggy. He was not seriously hurt, but had a narrow escape from being crushed to death.

Fell From His Bicycle. While riding along the Butler plank oad, on a bicycle, Uriah Tinker, of Main street, fell and received very serious injuries about the head. He remained unconscious for some time, in the middle of the road. A farmer happened along and had Mr. Tinker removed to his house, where he was given

Bereavement of a Brave Officer. Detective Patrick Fitzgerald yesterday uffered a sad bereavement in the death of his 3-year-old son from an attack of diphtheria, at the parents' home on Mayflower street, East End. RESTS BY HIS BROTHER. CHRISTIAN BURIAL CHOSEN BY A

PITTSBURG CHINAMAN. He Didn't Want a Heathen Puneral-Services Over the Bler at the Second Presbyterian Church-Interment at Uniondale Cemetery-Last of a Romance.

Yesterday afternoon the Christian burial of a Chinaman took place from the Second Presbyterian Church, Penn avenue and Seventh street. The remains of the deceased. Yee Soon Wah, were placed before the altar in the Sunday school room. Many were present, including the representatives of the Chinese school of the Eighth street Re ormed Presbyterian Church, representatives of the class in Dr. Sproull's Reformed Church, and about 40 triends of the de-

The services over the bier occupied almost an hour. They were
conducted in English, and were opened by
a hymn. The Misses Lillie and Tudie

Agnes McCann, Margaret Sutherland and
Margaret Sheridan formed the choir. Rev.
Dr. Sutherland read several appropriate
selections from the Scriptures, and made a
short address on John iii:16, "God so loved the world that He gave His only begotten Son that whoseever believed in Him should not perish, but have everlasting life." Superintendent Edwin G. Gray then gave a review of Yee's life and conversion. review of Yee's life and conversion.

FELL DOWN THE MOUNT.

The Sad Plight of a Man Who Missed His Footing in the Dark.

Yesterday morning about 2 o'clock the officer on duty at the Southside station of the Panhandle Railroad heard moans proceeding from Sycamore street, at the foot of Mt. Washington, in the rear of the station. He notified Officers Schuck and Allstadt, who investigated and found a man in an unconscious condition lying in the waterway that skirts the foot of the hill. His head and face were terribly cut and swollen, his clothing was badly torn and he appeared to be bruised from head to foot. He was re-stored to consciousness through the officers' efforts, and to them he said that he did not know how he had been injured or how he got into the peculiar situation where he was found. He gave the name of John Doyle, of Madison avenue, Allegheny, but later said his home is in Washington, Pa. He had been on Mt. Washington during the night, and is thought to have attempted to walk down the steep hillside by way of a path that leads down from pear the residence of Superintendent Awl, of the Monongahela In-

cline. pital in the patrol wagon. At the hospital it was found that his injuries are quite serious. One leg is sprained, and he sustained a very severe scalp wound and several lesser injuries about the face and body.

LOTS OF LIQUOR CONFISCATED. Couple of Allegheny Speak-Ensies Taker

Care of by the Police. The police authorities of Allegheny made raid on two speak-easies, yesterday, and succeeded in capturing a large crowd of visitors. The first raid was made by Detective Steele, at 9 o'clock yesterday morning. The place was at the corner of River avenue and Morgan street, and was run by John Gotthart. The proprietor and 10 vis-itors were arrested and given quarters in the

At 3 o'clock yesterday afternoon Detective Johnson and Roundsman Zimmerman visited the place owned by "Blind Charley," on Madison avenue. The place was run by William McKnight, who was placed under arrest, together with nine visitors, and placed in the lock-up. In both houses a large quantity of beer and whisky was found and sent to the Mayor's office.

AN EX-CONVICT ARRESTED

On Suspicion of Being Concerned in Name ous West End Robberies.

Frank Barnburg was arrested Saturday night on Wabash avenue as a suspicious person. Barnburg went to the house of Mrs. Mary Krepps, inquired about some money stolen from her the day before, and asked impertinent questions about the family. This aroused Mrs. Krepps' suspicions, and she sent for an officer while she detained the man at the house. When Officer Gettings arrested Barnburg the latter claimed to be an officer investigating the robbery. When Barnburg was searched at the police station discharge papers were found on his person, showing he had served one year and nine months in the Columbus Penitentiary. Barnburg has been living in the West End for a year, and is suspected of being concerned in recent robberies on Du-quesne Heights. He will be held until his career can be investigated.

General Master Workman Powderly, of the Knights of Labor, thinks he has discovered what will prove to be a strong menace to Northern manufacturers. services over the bier occu-While the Northern workmen are endeavoring and succeeding in many instances to secure shorter hours, the Northern manufacturers are trying to solve the question: "What will the labor organizations do to keep the factory hands of the South from working 10 to 15 hours a day?" The matter has been brought to the attention of Mr. Powderly by a Cincinnati manufacturer, who says he is willing to operate his factory on the short-hour plan, but he cannot afford to do so as long as Southern factories have the advantage of short wages and long hours. Mr. Powderly has written a letter on the subject, which was received in the city yesterday, in which he says:

MR. POWDERLY SURPRISED. "I was already aware of the fact that the "I was already aware of the fact that the field of factory operations had been widened and developed wonderfully within the past five years; but when I passed through the South last November I could not help but notice the great change in the appearance of the country and the work-day life of the inhabitants. In the iron and coal belts of the South the change is even more marked, for rolling mills, blast furnaces and iron foundries have been put in operation, and with an inexhaustible supply of coal and iron within speaking distance of the mills, with good railroad facilities and with plenty of determination, money and push, the peo ple who operate these concerns are reaching out to take the market that the Pennsyl vania rolling mills and blast furnaces once felt so secure in possessing.

WILLING TO WORK CHEAPLY.

"They get fuel and cotton cheap, and right at the door of the mill; workmen are not so independent as in the North, and they are willing to work as long as they can stand on their legs, and at low wages. Man-ufacturers can, therefore, afford to sell their product much cheaper than Northern manufacturers. If the Northern, Eastern and Middle States find themselves forced to lower the standard of wages to successfully com-pete with the South, who will receive wages enough to buy what is manufactured? The only solution of the problem is to raise the standard of labor in the South, and the manufacturers must assist in accomplish-

Triumph of Decerative Art-The New Stained Glass Window in Emmanuel Church, Allegheny-A Pittsburger's Gift in Memory of a Friend.

During the past week there was placed in the north end of Emmanuel Church, Allegheny, a costly window, the gift of Mr. James B. D. Meeds, Treasurer of the Dollar Savings Bank, as a memorial of his affectionate regard for the late Malcom Hay, Esq., who, at the time of his death, was the attorney of the Dollar Savings Bank, as weil as First Assistant Postmaster General weil as First Assistant Postmaster General under Cleveland's administration. The work was executed by the Tiffany Glass Company, of New York, and was designed specially by their artist after an inspection of the interior of the church. It consists of three panels, the center being somewhat the larger, each about 12 feet high and three feet wide, the whole being filled with the finest stained glass.
