WORK OF THE VISITORS. The Phillies put up a good game and their errors cost nothing. But they were unable to hit Gal-vin, and very few hits were made before the side should have been retired. Sanders pitched a good game for the visitors and was given excel-

lent support.
The attendance numbered 2,277 people, and it was as partisan a crowd of spectators as was ever seen on the grounds. Every slight advantage secured by the local team was cheered, while the secured by the local team was cheered, while the visitors were kicked at every opportunity. During their half of the first inning the Pittsburgers accred two runs, and they looked big as mountains, but when the visitors came to bat and piled up three uncarned runs, that over-topped the local men's work.

in three uncarned runs, that over-topped the local men's work.

Hanlon started out with a base on balls, got to second on Visner's sacrifice and scored on Carroll's three-bagger. Beckley flew to Fogarty, sacrificing Carroll home and Fields flew to Griffin, retiring the side with two runs scored. Their third run was added in the seventh. After Galvin and Roblinsen had gone out Hanlon got a single, went to third on Visner's hit and scored on Carroll's single. Carroll was thrown out on Beckley's life.

Griffin hit to Kentine, who fumbled it and went is second on Shindle's sacrifice. Pickett got a base hit, which sent Griffin home. Mulvey hit for a base, sending Pickett to second. Wood's sacria base, sending Pickett to second. Wood's sacrifice advanced them a base, and both scored on
Fogarty's single. Farrer flew out to Visner, retiring the side. In the fifth Griffin got his base on
Corcorna's error, second on Carroll's error and
third on a sacrifice, but was caught napping at
third and thrown out. Shindle got first on Carroll's error, second on a sacrifice, third on
Griffin's put out, and scored on Mulvey's single.
The inter scored on Wood's double. Another
run was scored in the eighth. Wood gota hit,
went to second on Fogarty's sacrifice, to third on
a wild pitch and scored on Carroll's error.

Each Won and Lost.

CHICAGO, June 23.—The Chicago and New York National League teams played two games to-day. In the first game Chicago hit Burkett freely at the right time, while New York did not do anything with Sullivan's delivery. In the second game, New York reversed things by hitting Hutchinson freely, and with costly errors by Chicago, won easily.

Immediately after their first regular session and election of presiding officers, the provisional government will place in their hands the functions of government exercised by the latter since the change effected on the 15th of November last, and the Assembly will at once select the new Chief of State, who will then proceed to organize a regular Cabinet of Ministers. Then the Assembly will revise the constitution and afterward promulgate it as revised. Subsequently the two chambers will assume their respective functions as regular legislative bodies. The following are the principal ideas contained

functions as regular legislative bodies. The following are the principal ideas contained in the constitution:

Parliamentarism ceases. Brazil adopts the American system of a responsible executive, with secretaries only responsible to him and the people. The Senator or Deputy who is chosen a secretary loses his seat. The first election of a President will be in November next, by Congress, but the Constitution establishes that the election subsequently shall be by means of electors. The people select electors in proportion to their delegations in Congress. Each State has a separate meeting of its electors on the same day and at the same hour. If no citizen shall obtain an absolute majority of the electoral College, then Congress shall elect, choosing from the largest number of votes. After this, in case no one is yet elected, Congress shall again vote, dropping the third name and voting for the two who have the largest number of votes, so that the President elect shall have an absolute majority of the votes cast. The President shall be elected for six years and shall be inalienable for the next ten years succeeding his term of office. The Secretaries of State are ineligible for the Presidenty during their terms of office. The President of the Senate shall be the Vice President of the President, next by the Speaker of the House of Representatives, next by the Vice President of the Sepresentatives, next by the Vice President of the Supreme Tribunal of Justice.

slow pace, and then halted at the head of the stretch. He was then rwbbed down, and Fred Taral, in street dress, mounted the coit and galloped through the stretch. It was surprising how many men sppeared on the track, and in every hand flashed a stop watch. It was surprising how work for to-morrow's race, and everybody was eager to see how he would go. Running well within himself, the coit broke from the pole ou the turn and made the first mile in 1:43%, the mile and a furlong in 1:57 and the mile and a quarter in 2:09 4-5. The time of the last mile was 1:42 3-5. Fifty watches didn't vary more than one-fifth of a second. Salvator took his work in the forenoon, when the track was much heavier. His time for the mile and a quarter was 2:12. Interest in the matter is at fever heat, and should to-morrow be clear and the track fast, one of the largest crowds that ever gathered at Sheepshead Bay will see the fille and a quarter coord smashed. Both parties are confident of victory, but Salvator will be the favorite in the betting. EX-SECRETARY OF WAR MCRARY DIES. A Brief Account of His Life and Public Services.

Both men have stopped training and returned to the Favor in New York. city, and the California Athletic Club has virtually surrendered. This is the result of Chief SPECIAL TELEGRAN TO THE DISPATCH.I ally surrendered. This is the result of Chief of Police Crowley's determination to close down all clubs in the city, because of the killing of MeBride at the Golden Gate Club cariy in June. He was supported by Governor Waterman and Attorney General Johnson, who announced to the sporting fraternity that they would stop fighting it it was possible. Bluffs and appeals of the club directors were of no avail, and rather than suffer arrest they have decided to postpone further action until they can see a legal opening out of the difficulty.

This condition of affairs is a hard blow to singgers, who have always looked upon San Francisco as a place of refuge. The police have been extremely lenient; and the only sime that an officer has stopped a match was at the last exhibition of the California Club, when Captain Douglass stopped the contest between Billy McCarthy and Fitzsimmons after the former had been bested to a standatill and was literally blinded by his own blood. NEW YORK, June 23 .- The "Sea King." a new comic opera, produced this evening at Palmer's Theater, by the William J. Gilmore Opera Company, proved an undoubted success. The theater was crowded by an audience composed largely of well-known people, and the applause was enthusiastic and continuous. Esther Palliser and Hu-bert Wilke divided the honors of the evening, and the general opinion is unanimous that no recent production has been more richly or lavisbly mounted.

The costumes, by C. DeGrimm, are tasteful and becoming, and have the great grit of being historically accurate. It seems likely that the run of the new piece will be

GIGANTIC FAIR PLANS

A Few of Them Made Public at a and doing the work well, and no fault is to Conference of Directors of

THE COMING WORLD'S EXPOSITION.

What the Great West Proposes to Do in

Order to Further THE SUCCESS OF THE ENTERPRISE

CHICAGO, June 23 .- A large number of the World's Fair Commissioners, representing the various States, have arrived in Chicago, and to-night in all the hotels World's Fair matters are being very earnestly discussed. Among the most interesting conferences was one between Joseph Hirst, of Tampa, Fla., and A. S. Mercer, of Cheyenne, Wyo. T. Mr. Hirst had much to do with the allotment of space at the Centennial, and had almost entire charge of the recent Piedmont Exposition at Atlanta, Ga. In conversation with him, Mr. Mercer said: "There seems to be a general opinion here that the National

WILL SWALLOW EVERYTHING decided upon by the directors. Now, while their decision will have great weight as coming from the city which puts up the money, I think there is going to be a surprise for those who lhink the Commissioners will not have a decided opinion of their own. There will be considerable sifting at our meeting I

will be considerable sifting at our meeting I imagine.

"Exactly," interrupted Mr. Hirst. "The Commissioners represent the United States. They stand between the country at large and the city of Chicago. We are piedged to do everything in our power to make this exposition the most glorious one the world ever saw. The site is the first consideration. If we can be convinced that the Lake Front can be obtained legally, and that it will revert to the city of Chicago as a park after the Fair is over. I don't think there will be a dissenting voice among the Commissioners. This, however, providing that there is room enough." LARGE GROUNDS WANTED.

"There's the trouble," said Mr. Mercer. don't think we ought to open the doors with less than 1,000 acres."

"But if that opinion is very general among the commission it does away with the Lake Front at once, does it not?" "Well, I think you will find that that opinion

"Well, I think you will find that that opinion is decidedly general. Just look at the number of States demanding ten acres each."

"But what do they propose doing with it?" asked Mr. Hirst.

"Some very wonderfui things, and things that need space. Utah is going to reproduce Salt Lake and the country before and after irrigation, with an exhibition of their irrigating process. Colorado will reproduce her mines and will build a universal palace. And so on through the entire West."

"Well," said Mr. Hirst, "if they really mean to occupy all the space they ask for the Lake Front will certainly not be sufficient, and I am utterly opposed to dividing the Exhibition."

RAILROADS SHOULD BE LIBERAL.

RAILROADS SHOULD BE LIBERAL. Mr. Mercer then turned the conversation t Warren Leland's recent sensation in regard to the Lake Front, "What bothers me in this connection," he said, "is why the Illinois Central should be willing to give a million and more toward the Lake Front as a site when they could earn that amount by carrying passengers to another point. There must be something be-

hind it."

"Simply this," explained Mr. Hirst, "the is road would use 100 feet of what it asks for in building docks and structures that would permit the unloading of ships at their very cars. But you may rest assured that if there is an odanger of that spot being taken from this cit as long as she desires it, or of its being ruine for any other purpose for which she may desire to use it, the Commissioners are just as much bound not to aid such schemes as they are the see that the United States has a creditable exposition."

BELIEVES WORK IS GOING WELL. Selvyn Taylor, a mining engineer from Pittsburg, was in the mine to-day. He thinks the right course is being pursued, and in his opinion the coal will be struck in 48 hours. He didn't see any of the maps, but says the engineers are competent men.

About five yards were driven to-day, but it is hoped the shift to-night will do much better. The committee to-day visited the af-flicted families and distributed the \$1,200 that had been collected. Dr. McMul-len stated that the Dunbar Furnace Company was supplying their immediate wants. They are all sorely afflicted in mind, but otherwise are doing nicely. The terrible

suspense is wearing out their lives, and they would feel much better if they only knew the lates of their relatives.

Master Workman Rae, of the United Miners of America, is expected in the re-gion to-morrow and will assist at the convention. Secretary Watchorn telegraphed to Mr. Kerfoot, from Harrisburg, expressing his sympathy for the entombed men, and advising him to do nothing impulsively. Advice to the Aged. When the art old snd rich, Thou hast neither heart, affection, limb or beauty To make thy riches pleasant." To make thy riches pleasant."

It is surprising how few books have been written on the diseases incident to old age. No work would be more generally read by all classes than a "Treatise on the medical management of old age." There is no medicine that is more happily adapted to the alleviating of the pains and aches of the aged than Dr. Tutt's Liver Pills. They do not shock the most enfeebled constitution. In cases of kidney diseases, torpid bowels, fidigestion, loss of appetite, their healing properties are wonderful. Their effect on the nervous system is prompt. The old and young will be alike benefited by the use of this valuable medicine.

Save Your Money. Haven't you sometimes wondered why we said-Reliable clothing for less than is being

paid for common clothing? After you have worn our goods for three or four months, and noted how well they wore, and then seen how, in the same time, mean quality has turned seedy or worn out, you understand.

Good quality is a pledge of honest and painstaking work-manship. They both unite in giving you long, comfortable wear. But that regards only the

excellence and endurance of

the clothing. The reason for our low prices is deeper yet. We make and sell the clothing. Dealing with customers, face to face, is economical for customers. We deal with you who are to wear the clothing, By that plan we get to know you, and what you like best,

and we save profits. That's reason for low prices our goods pay less profit.
