A Railroad Conductor Paralyzes a Couple of Rude Passengers.

INPECIAL TELEGRAM TO THE DISPATCH.1 WHEELING, June 23.-Last evening on the Elm Grove train, which left the city at o'clock, were two intoxicated Pittsburg excursionists. They misbehaved all the way out, to the great annoyance of the lady passengers. It was raining hard when the park was reached, and the men persisted in standing on the seats.
The conductor attempted to put them off, and
they resisted, but the one man in authority
won the battle. They then dared the conductor to get off, which he did, and, though the
men were both larger than he, he whipped them soundly.

There is a great deal of such trouble on the road, and nearly all the men are from Pitts-burg.

CROKER A WITNESS

The Investigating Committee Gets Plenty of General Denials of HIS CONNECTION WITH BOODLE.

Lots of Money Was Needed for Election Expenses, but He Knew

NOTHING ABOUT THE AMOUNTS PAID

[SPECIAL TELEGRAM TO THE DISPATCH] NEW YORK, June 23 .- Richard Croker, his wife and brother-in-law, McCann, were a family trio that occupied the attention of the Fassett committee and of an audience considerably larger than the Superior Court room would hold comfortably all day to-day. McCann sat in a conspicuous seat in front of them and listened. It must have been rather uppleasant listening for him, for all day that they both said was in absolute contradiction of what he had said when he had been a witness himself.

Croker was at once called to the stand. He said he had come from Europe contrary to the advice of his physicians, in order to refute the charges made by McCann. Lawyer Choate read part of McCann's testimony about the \$180,000, which he said Croker had in a satchel, to bribe the Aldermen to get a confirmation by them of Grant's appointment by Mr. Edson for Commissioner of Public Works.

in all particulars. He had not carried a satchel nor any large sum of money. No such sum had been raised for such confirmation, nor any since, nor had Grant raised \$80,000 for such purpose. He said he had visited McCann's house about the time referred to, and asked McCann if he had heard anything about a rumor that \$80,000 had been raised to keep Hubert O. Thompson in the office of Commissioner of Public Works. feCann thought that "Tom" Adams, who as intimate with Alderman Pierson, might ow something about it, He had met iams in McCann's store, by appointment quently, but Adams said he knew

"Purity-Strength-Perfection."

Purity and wholesomeness in food compounts are of the utmost importance; in these qualities Clevland's excels all other baking powders. All the ingrediers are published on the label, and this analysis is verifid by Official Reports and Government and State Chemis,

Strength in a baking powder means economy. The Official Reports of the United States Government, 889, Canadian Government, 1889, New Jersey Commision, 1889, and Ohio Food Commission, 1887, prove that Cleveland's is the strongest of all the pure* crea of tartar baking powders.

Perfection in results is what housekeepers cire. For making light, digestible bread, flaky biscuit, ake that will keep moist and sweet, delicious pastry, polies, dumplings, etc., Cleveland's Superior Baking Peder is unsurpassed.

The late Ohio Food Commissioner says "Clevelat's is

Absolutely the Best

and most desirable baking powder manufactured."

*Ammonia or alum powders may occasionally test a trifle higher, but they are firious te health, and, whatever their strength, they should be avoided. As baking powders adv with these injurious ingredients are being palmed off as pure cream of tartar powd.
United States Official Report, 1889, recommends that manufacturers be required by law
a label giving the composition of the powder sold.

EPPS'S COCOA BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maiadies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazetts.
