LIVE STOCK REVIEW

The Meanest Cattle Market of the Season at East Liberty.

RECEIPTS IN EXCESS OF DEMAND

A Large Lot of Heavy Beeves Sent on East

in First Hands. SWINE AND CHOICE SHEEP VERY FIRM

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, June 25, 1890.

At East Liberty markets were about the meanest of the season. There were two adverse elements: First, the railroad strike at Cleveland, which diverted a large number of cattle, sheep and hogs intended for the Buffalo market to Pittsburg. Second, the large number of grass cattle in the offerings. Grass cattle are not wanted by our butchers, for the reason that the meat of this class of cattle does not keep so well in hot weather as grain-fed stock. A grasser killed in the evening will show its keeping by the next morning if not immediately put on ice. The meat is not so solid as that of grain-fed

Said a leading commission man to-day "I cannot understand why farmers will crowd their unripe grass-fed cattle on to market at this time of the year, when they could do so much better by feeding them a few months longer. The grass on which cat-tle feed at this season of the year is not so nutritious as it will be later on

The Total Receipts of Cattle For the week have been 118 carloads against 85 loads last week. Supply was not less than 40 loads above the wants of our local trade. Nearly this number of reecipts here were designed for the Buffalo market. Markets started out very slow on Monday at a decline of 20 to 30c per cwt from last week's prices. Light, tidy butcher cattle suffered the least from the drop, and heavy, coarse cattle the most. There were sale of unpopular grades 40c per cwt below prices of a week ago. Nearly all the heavy entile on the market were sent on East in first hands, as there were no buyers here wanting this grade. Not less than 15 carloads designed for our local trade were shipped on. The best price for carload lots was \$4 50 to \$4 75, the latter for a few extra Grassers weighing 1,000 to 1,200 pounds ranged in price from 3% to 4%c.

Sheep and Swine.

There were very few choice sheep on the market this week, and for this grade prices of last week were well maintained. Common and low grades, of which the bulk of the offerings consisted, were dull and lower. Supply of good mutton sheep falls short of demand. Hogs have been steady all the week, and are stronger this morning than at the opening on Monday. This notwith-standing receipts of eight loads intended for the Buffalo market. There were five loads on the market this morning, and demand was active at \$4 05 to \$4 10 for tops. A fine bunch of Yorkers brought the better prices. At Chicago this morning markets were steady at \$3.85 for tops, according to advices received by one of our leading packers from

McCall & Co.'s Weekly Review.

The supply of cattle heavy, demand lim ited. Market very dull, 20c to 40c per cwt, off from last week's prices. Prime 1,300 to 1,600 lbs, \$4 40 to \$4 60; good 1,200 to 1,400 The, \$4 20 to \$4 40; butcher grades, 1,100 to 1,300 fbs, \$3 80 to \$4 25; common to tair, 1,000 to 1,200 fbs, \$3 60 to \$4 00; stockers and feeders, 800 to 1,100 lbs, \$3 25 to \$3 75; mixed lots, cows, heiters and bulls, \$2 00 to \$3 00; fresh cows and springers, \$20 to \$35

The supply of hogs since Monday has been light and the offerings rather common in point of quality and slow sale. Good cornted in demand at Monday's prices. We quote sales to-day as follows: Good cornted, \$3 90 to \$4 00; common to fair, \$3 70 to

\$3 85. roughs, \$2 75 to \$3 25.

The supply of sheep was liberal and the market slow at a decline of 15c to 20c per owt on common to fair grades. Good sheep steady at last week's prices. We quote sales as follows: Prime Ohio and Indiana wethers weighing here 105 to 110 lbs, \$5 25 to \$5 40; good, 90 to 100 lbs, \$4 75 to \$5 15; fair to good mixed, 75 to 80 lbs, \$4 00 to \$4 25; yearlings slow, best selling at \$5 00 to \$5 40; tair to good, 50 to 60 lbs, \$4 00 to \$4 50; supply spring lambs light at \$5 00 to \$6 50; supply yeal calves liberal, market steady at last week's prices, selling carlots \$5 00 to \$5 25.

SLOT MACHINES IN PARIS

The Man Who Works the Lend Nickel Rucket is Very Persistent There.

Paris Edition New York Herald. The man who would deliberately cheat a confiding and helpless slot machine deserves the reprobation of mankind. Yet this cowardly variety of swindler exists. He approaches the unsuspecting machine with its smiling slot waiting for him and into that innocent slot he drops a piece of lead of the weight and shape of a penny. Instantly the machine yields up its cigar, its bot-tle of periume or whatever else may be its stock in trade, and congratu-lates itself on the briskness of business. The other day the proprietor of one of these machines unlocked its treasury, only to find it full of pieces of lead. It had been the victim of a wretch with several pounds

MARKETS BY WIRE.

Wheat Opens Wenker, but Railies a Frac tion-Hot and Forcing Weather in the West-Corn and Oats Lower -Pork Neglected.

CHICAGO—Wheat—Only a light trading to-day and the market ruled quiet most of the session, though occasionally there were tempo-rary spurts. The opening was a shade easier TWENTY STONE HOUSES TO GO UP. than yesterday's closing due, probably, to the bearish talk of a prominent trader and clearer weather. Prices declined 1/20%c, but at the

decline there was good buying, and with some bullish news from the Northwest, prices were advanced about 114c, then held steady, and the THE NEWS AND GOSSIP OF THE CITY. closing was about 368%c higher than yester-

day.

Corn—There was a good general trade witnessed in this market with a range of %6%. The feeling early was quite heavy and operations were at lower prices, but later railled some, but closed lower. The weaker tone was due mainly to the weather advices throughout the West reporting hot and forcing, weather

exceptionally fine for corn.
Oats were active but weaker and lower, but inside figures were not maintained, closing sales being about the same as yesterday's exsales being about the same as yesterday's except for August, which was ½c lower. The depression of ½6½c in values was due to hot
forcing weather, unloading by longs, the weakness in corn and absence of good buying orders.
Mess Pork—Hardly enough was doing to establish a market. Prices were without material
change and for the most part nominal.
Lard—Quite an active business was transacted. The feeling was easy and prices receded
567½c and closed rather weak at the reduction,
Short Rib Sides—A moderately active trade

5071%c and closed rather weak at the reduction. Short Rib Sides—A moderately active trade was reported. Early in the day the feeling was easy and prices receded 254@5c, but during the latter part of the session the market showed a little more steadiness, though prices exhibited little change.

The leading rutures ranged as follows:

WHEAT—No. 2. June, \$494@854@84@854c;
Inlv, \$454@854@844@855c; August, \$554@846.

CORN — No. 2. June, \$494@8394@835c;
July, \$454@844@8354@84c; August, \$454@8446.

NEW YORK—Flour quiet and unchanged. Wheat—Spot dull and unsettled, closing stronger; options moderately active and unchanged to %c up and firm. Rye dull; Western, 541, 256. Barley quiet. Barley malt quiet.

changed to 5c up and firm. Rye dull; Western, 541,256c. Barley quiet. Barley malt quiet. Corn—Spot active, closing firm; options active and 5c 5c down, closing steady. HOW LINCOLN COULD STRETCH.

Story of the Martyr President Told by Long Jones, of Illinois. New York Press.]

One of the most unique characters in na-Chicago-Long Jones, as he is familiarly known from his great stature. He was Chairman of the Illinois Republican State

Arlington avenue, Southside, a frame house, lot 25x100 feet to Climax street, for \$1,450. Committee for a number of years and the bead of the machine which was organized among the friends and supporters of General John A. Logan to control the party organization. Counting with Colonel Jones, I re-marked on his stature, when he pulled him-self up to his full height of 6 feet 4% inches, self up to his full height of 6 feet 4½ inches, to show me how much a tall man loses of his actual height by stooping as he talks of Almeda street, Glenwood, Twenty-third with neonle

with people.

Then he told me this story of Abraham Lincoln: "I was calling on Mr. Lincoln with a party of gentlemen when the question of his height came up, and one member of the party bet another that Mr. Lincoln was not over 6 feet 2 inches. A foot rule was pulled out, that height marked on a door jam, and Mr. Lincoln stepped under to

"As he began to straighten himself out, take the kinks and curves out of his body, so to speak, he pushed the rule above his head higher and higher above the mark of the month. The supply of funds is sufficient to meet any drain likely to be caused by the July settlements.

Money is reported easy in all parts of the sure country, notwithstanding it is more largely employed than usual at this season. Financiers ated by seeing you touch six leet and a half."

Mr. Lincoln's quaint reply was: 'Well, I thought you would find that there is considered the composition, It is early to speak of the line in good ownlitton, It is early to speak of the line in good ownlitton. It is early to speak of the line in good ownlitton, It is early to speak of the line in good ownlitton, It is early to speak of the line in good ownlitton. It is early to speak of the line in good ownlitton. "As he began to straighten himself out,

Conclusion of an Important Transaction in East End Real Estate.

Finishing Touches to a Block of Pine

Dwellings After Parisian Ideas.

A large transaction in East End real estate has just been concluded by Black & Baird, to which allusion was made yesterday. It comprises about 1,000 feet of frontage on McPherson street, Boulevard place, upon which there will be 20 elegant stone houses erected this summer. Work on them will begin early next week. The purchase was made by a syndicate of five well-known

was made by a syndrate of new well-known local capitalists, one of whom is a banker. The deal, including the cost of the houses, will amount to about \$200,000.

Workmen are putting the finishing touches to 18 or 20 houses for Mrs. Isabella J. Sergeant, on Beatty street, near North Highland arenue. Six or eight more will follow. The work is being superintended by Mr. W. P. Powell, who spent a portion of last summer in Paris, where he picked up some ideas which he has utilized in the buildings in question. They are all high class, have stone fronts and elegant finish

The Law as it is Applied.

Decisions of interest to local contractor lders and mechanics have recently been ren dered by courts of last resort in three State The Supreme Court of New Jersey held that where one builds a party wall under a city ordinance authorizing and regulating city walls, he cannot claim the benefit of such ordinance unless the wall is of the thickness re-quired by the ordinance, and otherwise con-

forms to it, and is without openings.

In a suit for damages for delay in a building contract, the highest court of Minnesota handed down the following: In case of a contract to deliver materials to be used in the construction of a building in order to charge the seller with loss of rents arising from his failure to deliver such materials within the time limited by the contract, the contract must have been made under such circumstances, and upon such a state of facts that it may be reasonably supposed to have been contemplated by the parties, when making the contract, that such loss would follow its breach, and hence that the seller con-sented to become liable for it, and such facts and circumstances if relied on must be pleaded and proved. Where a contract is silent as to the time of performance, a reasonable time is intended, and if it is in writing, proof of an oral agreement variant from that presumption

will not be admitted.

In a case involving a mechanic's lien, the Supreme Court of Massachusetts held: Where the statute requires that a statement for a me-chanic's lien for labor performed or materials furnished under an entire contract which inprice, shall specify the contract price, the num-ber of days of labor performed or furnished, and the value of the same, a statement which contract, and which states the number of days of labor and the value of the labor and the contract price therefor, or which states the materials furnished and the value and contract price therefor, is not sufficient, as it does not show the contract price of the entire work.

Business News and Gosstp.

Ground has been broken on the railroad between Wilkinsburg and Edgewood by Stewart & Hamnett for several fine dwellings, to be finished this season.

Business and bustle in the suburbs show that

they are filting up with people. A great deal of land unimproved a year or two ago is now covered with houses. Fine stores are springing up in all directions and heading to further John M. Oakley-Business is very active for the season, with everything favorable for the continuance of good times. There is a great

deal of home and foreign capital seeking investment, showing that the financial situation is easy. Pittsburg is enjoying a large measure of prosperity which is more likely to increase than diminish. Business is on such a solid ba-sis that it would require something extraordinary to shake it.

Thirty mortgages were on the list yesterday. the largest being for \$15,000. The next largest was for \$7,000. Eight were for purchase money. Property on Fifth avenue beyond Soho street ranges from \$55 up to \$150 a foot front. There are some fine building sites for sale there at the inside figure. If the present rate of im-provement be maintained this district will soon

be built up.
The Turtle Creek Valley Railroad is being oushed with vigor. The work of changing the bed of the creek at Brinton is almost completed, and about two-thirds of the roadbed between Turtle Creek and Brinton is ready for

the rails.

Henry M. Long sold 50 shares of Pleasant Valley Railroad stock at 2914.

It was learned yesterday that a newspaper man, on Fifth avenue, is having plans prepared for several handsome residences in Oakland. The estimated cost of grounds and building

approximates \$50,000; but this is from an outside source, and may be below the mark.
Well-posted brokers say the country is on the eve of a bull movement in bonds. The feeling in Wall street favors this opinion.

Application has been made for a national bank at Darby, Pa., by W. L. Verlinden and Railroad earnings: St. Louis and Texas third week in June, increase, \$12,180. Wheeling and Lake Erie, third week in June, increase, \$7,060-an increase of 44 per cent over last year. Canadian Pacific, third week in June, increase, \$32,000. St. Paul, third week in

June, decrease, \$24,783.

Movements in Real Estate. There were no new features in the real estate market yesterday. A number of brokers said they were unusually busy for midsummer, with

no signs of a let-up. Reed B. Coyle & Co. sold for Samuel Watson eight lots in the Watson place plan, situate on Perrysville avenue, Tenth ward, Allegheny, having an average frontage of 150 feet, for \$6,000 cash. The purchaser intends to build. Black & Baird sold for A. Richter to Fred Dayner the property No. 844 Cedar street, Bloomfield, consisting of a two-story frame building and stable, with lot 40x140 feet, for

Charles Somers & Co., placed a mortgage of \$1,800 for five years at 6 per cent on residence property in the Teuth ward. Allhgheny. James W. Drape & Co. made the sale of two houses, with lots about 48x90 feet, on McClure avenue, Allegheny, for \$7,000; also placed three

mortgages on McKeesport and Duquesne prop-erties of \$4,000 at 6 per cent. Brown & Saint sold to a well-known grocery One of the most unique characters in na-tional politics is Colonel A. M. Jones, of plan, fronting 50 feet on the north line of Baxter street and extending back 250 feet, for \$950.
Alles & Bailey sold for Carl Metzonaier, on Baxter Thompson & Co. sold lot No. 19, Bank of Commerce addition plan, extended, at Brushton, fronting 50 feet on Frankstown ave-

nue by 150 to a 20-foot alley, to A. G. Bruce, for Samuel W. Black & Co. sold for the Blair ward, for \$1,000.

A GOOD OUTLOOK.

Home Money Active and Easy-Prospects for the Fall Trade.

There was an improvement in checking yesterday and depositing was heavy, showing activity in the regular lines of trade, but otherwise the situation at the local banks differed in

fall trade, but the outlook is full of encourment. Exchanges were \$2,837,461 10 and ances \$547,345 75. Money on call at New York yesterday was easy at 8@4% per cept, last loan 3 closed offered at 2. Prime mercantile paper, 5@7. Sterling exchange quiet and easier at \$4.84% for 60-day bills and \$4.88 for demand.

New York exchange was 50 cent premium.

Rates for money continue firm at 54,66 per cent on call, and 667 per cent on time loans.

ALMOST KNOCKED OUT.

Hot Out of Doors, but Chilly at the Stock Exchange.

Few figures and no sales were the outcome of the first stock call yesterday. The second resulted a little better, there being two deals, aggregating 110 shares. Luster and Electric were the only things that showed any life.
Philadelphia Gas broke to 29%, and other stocks of that class were weak in sympathy. Central Traction, Pleasant Valley and Electric were a shade weaker. The feeling was boarish throughout. The expected improvement is slow putting in its appearance.

The total sales of stocks at New York yester-day were 163,740 shares, including: Atchison, 15,870; Delaware, Lackawanna and Western, 8,056; Louisville and Nashville, 4,900; Michigan Central, 200; Oregon Transcontinental, 3,700; Reading, 3,583; Richmond and West Point, 4,130; St. Paul, 10,000.

NOTHING DOING IN OIL.

Sales Few and Far Between and No Fluc tuntions to Speak Of.

The ruling quotation on oil yesterday was 891/c, around which it hung all day, with scarcely anything doing, only about 12,000 barrels changing hands during the day. Tuesday's clearances were 12,000. These figures show clearances were 12,000. These figures show that the oil trade is fast joining the list of vanished industries. Oil City sold a little and Pittsburg bought. There was no expression at any of the other exchanges. The day was as barren of news as of business.

Patterson Brothers have commenced sinking a well in the Believue field. The Jones well is down over 300 feet. The Heine well No. 1 is testing the third sand, and is nearly through the 50-foot horizor. The Bear creek well which was ruined by striking a ven of sait water will

was ruined by striking a vein of sait water will have to be pumped. The Miller well on the Keystone farm is due in the pay streak,

THE SILVER BILL.

Wall Street Awaiting Developments on the Free Coinnge Act-Sugar Trust Stock Dealt in Quite Moderately-Big

Sale of Reading Stock. NEW YORK, June 25.-The street is still awaiting developments in the matter of the silver bill, the railroad difficulties and the Sugar Trust muddle, but in the absence of any special bear pressure, quotations follow their natural bent and slowly appreciate, notwithstanding the most intense dullness. The exports of gold seem to have about exhausted themselves, and still the money market main-tains a condition of marked ease, and while all the conditions of business, both for the railroads and all other lines, are most favorable, the general disposition is to wait the events of

the near future.

To-day the excitement in Sugar Refineries calmed down, and the dealings in the stock were brought down to very ordinary proportions, especially after the early liquidation of long accounts had been completed. That opera-tion carried its price down to 69, but as it had already touched that figure during the past week, its decline upon the decision seems not to have been material. The feature of the day was the activity and strength in Reading. which once more took the lead of the regular list, and rose to 47 against 44% last night. The buying is understood to be for the account of buying is understood to be for the account of the people who succeed Mr. Corbin and his party in the stock, and who are the people who were very prominent in the reorganization of Richmond and West Point some years ago. Five thousand shares were bought for the account of one of the leaders, and the price rose above the limit, which checked the activity advance. Chicago Gas was dull and stagnant to-day with the remainder of the list, and even the specialties which usually furnish one or two sharp movements even in the dullness were without feature of interest. St. Paul, on the buying of the Westerh operators, was comparatively prominent in the market, but its fluctuations were confined to the smallest limits. The action of the sales agents of the coal companies had its influence upon the coalers, and the Vanderbilt dividends were an element of strength in the market. Good buying of Atchison made it a prime favorite in the last hour and a rise of nearly I per cent followed, but there were no features in the rest of the list, and dullness and stagnation were the rule. The close was quiet and firm to strong generally at about the best of the day. The final changes were almost all for small fractions, but while Reading is up 2% and Atchison 11%, Sugar is down 2½.

The railroad bond market was as dull as that in stocks, and like the stock market showed more material changes in quotations than usual of late. The movement in Reading extended to junior bonds, and the seconds rose 2½ to 58. They were the only features in the market, however, notwithstanding that other market, however, notwithstanding that other market ohanges occurred. Memphis and Charleston firsts rose 2 to 107. The losses were Louisville and Nashville Cecilian 68 3½ at 106; San Antonio and Arkansas, 1885, 234 at 88½.

Government bonds have been duil and steady. State bonds have been quiet and steady. The Post, referring to the movement in Reading special in the condition of coal trade to warrant the advance the price of coal, also voted to restrict the the people who succeed Mr. Corbin and his party in the stock, and who are the people who

the stock. The last sale of the third preference incomes was 43% yesterday when the stock was 45. This makes it plain that 45 or 46 is an absurd price for the stock, but the bears have been pretty well scared out from selling it short. The following table shows the prices of settye stocks on the New York Stock Exchange yesterday. CATCHING THE SHARK.

After He Takes the Hook He Makes Things Very Lively for a Time.

Every fisherman loves to hook a big fish, and angling for sharks gives some promise of becoming popular. With his dorsal fin in full view, the movements of a shark can be easily detected, and the fisherman has only to place the bait where the figh is likely to see it. The tackle consists of two or three hundred feet of manila rope, about as thick as a common clothesline, a big steel hook, and a chain leader. The bait is usually two or three weakfish. A float, or "dobber," as it is technically called, is used, and when a shark bites, this float disappears under water just as rapidly as a little painted cork does when a weakfish takes the

property across the hill from his Scott coal mines at Scott Haven, Pa., which he suspected was underlaid with a continuation of the same coal field.

His mines are in the Youghiogheny Valley, and the newly acquired property is in the Monongahela Valley. It has been ex-plored sufficiently to determine its char-acter to be equal to the old Scott mines, and to be worth a hundred times what Scott paid for it.

DOMESTIC MARKETS.

Quality of Berries Coming to Market Not Up to Standard.

GOOD PROSPECT FOR MELON CROP.

All Cereals Weak and in Favor of Buyers, Excepting Oats.

ONCE AGAIN SUGARS HAVE A TUMBLE

OFFICE OF PITTSHURG DISPATCH.]
THURSDAY, June 25, 1890.

Country Produce-Jobbing Prices. The supply of choice strawberries was light. There was too much inferior stock on the mar-ket. Hot weather is unfavorable to supply of good berries. Blackberries are coming in more freely. There is a better supply of potatoes than for some weeks past, but none too large for demand, and markets are very firm. Watermeions are coming in freely from Georgia, and prices are drifting lower. Prospects are reported extra good for a large melon crop. Eggs are very firm at outside quotations. Dairy products are unchanged, but an advance in El-gin creamery will be due here on Friday. The gin creamery will be one new on rinds, the recent hot weather has very much stimulated demand for lemons, and prices tend upward.

APPLES \$4 00@0 00 a barrel.

POOR MARION MANOLA.

All Her Uchappiness Caused for Advertaing Parposes.

New York Letter in Philadelphia Times.]

Ben Stevens and his star, De Wolf Hopper, have been doing some elever advertising. They succeeded in working up Marion Manola into a frenzy of temper about having her picture taken in tights. She absolutely refused, and rushed into print with a series of caustic interviews explaining her reasons therefor. When Stevens got everyone to talking about Manola and her tights, he undertook to steal a march on her and had a photographer to eatch her unawares on the stage, and photograph her by a flash light.

The attempt was made and created a sensation, as the astute manager expected it would. The public took sides with Manola and the result is an increase of business, and Stevens congratulates himself upon having done one of the slickest pieces of advertising ever attempted in this country. Despite the manager's glee, Manola is still; indignant, and although she sings every night she does so under half protest.

COLONEL SCOTTS LUCE.

A Winner on the Turf, is Politics and in Coal and Cured of Dyapepala.

New York Fress.]

Ex-Congressman W. L. Scott has been a very lucky man lately. His horses have done well on the turf, his Democration eighbors want him to go back to Congress again, and he has been cured of dyspepsia. As if these were not enough lucky strokes, I am told that he recently purchased some property across the hill from his Scott coal mines at Scott Haven, Pa., which he sus-

Grain, Flour and Feed. Sales on call at the Grain Exchange, I car of bran and middlings at \$12 and \$15, 10 days; 1 car 2 white oats, 34c, July. Receipts as bulletined, 16 cars, of which II were received by the Pitts burg. Ft. Wayne and Chicago Railway, as fol lows: 6 cars of hay, 2 of oats, 1 of wheat, 2 of flour. By Pittsburg, Cincinnati and St. Louis, 2 cars of oats. By Baltimore and Ohio, 1 car of hay. By Pittsburg and Lake Erie, I car of bran, I of mait. All cereals continue weak, with the exception of oats. The highest bid for 2 y. s. corn was 38½c, and yet it is claimed that it cannot be laid down here under 40c. Hay is very slow, particularly low grades, and all grades are on the decline.

Prices are for carload lots on track:
