

WORKERS OF SUNDAY

An Increased Interest Displayed at the Sabbath School Convention.

FIGURES FROM THE STATES.

Schools and Pupils in the Large Cities of the United States.

A TRIBUTE TO BISHOP J. B. VINCENT

Some Significant Utterances From Rev. John Potts, of Ontario.

WORKERS HEARD FROM FOREIGN LANDS

The second day of the International Sunday School Convention showed increased interest. The number of visitors was larger than Tuesday, and there were many new delegates from distant parts.

The hall had been decorated a little more. At the rear of the stage was hung an immense green curtain, 20 feet across, on which were painted a large British flag and two United States flags.

The treasurer's report was read by one of the secretaries of the convention, Treasurer L. H. Biglow being absent. The balance on hand at the last report was \$1,084.16.

The audiences yesterday were large, reaching, at the evening session, about 4,500, but the greatest attendance is looked for to-day.

Yesterday the ladies of the Methodist Churches had charge of the cafe. There was an abundance of chicken and sweet bread.

To-day the cafe will be turned over to the United Presbyterian women, and, as this region is a center and pride of that denomination, a splendid spread is expected on the tables.

The visiting ministers express great satisfaction over the amount of chicken furnished at the cafe meals, and the fact is developed that Methodists are not singular in their love of the barnyard fowl.

TO-DAY'S WORK LAID OUT.

Yesterday was the last day for George C. Stebbins to lead the singing. He and his wife were given a number of encores during the day, and they have received much praise for their work.

To-day the special committee will report on the executive committee's report, and the convention will then adjourn.

A GREAT WORK.

Encouraging reports from the States represented. Keeping the Races Apart for the Sake of Peace—An Offer of \$5,000—Some Remarkable Statistics—Setting Apart a Sunday for Temperance Lessons.

The devotional exercises at the beginning of the morning session were conducted by Rev. E. F. Armstrong, of Springfield, Mass.

The convention then resumed the hearing of State reports. Some States were not represented when they were called on Tuesday.

Bishop B. W. Arnett, colored, reported for South Carolina, where the work, he said, was moving rapidly. There are separate Sunday schools for white and black, not because they believe that to be necessary to salvation, but for the sake of peace.

The white schools of South Carolina were represented by J. W. Robson; South Dakota by D. W. Digge; Tennessee by John K. Pepper; Virginia by Mr. West; Vermont by E. Fairbank; Texas by George Bachman; West Virginia by C. B. Graham, Wisconsin by Mr. Benjamin and Wyoming by Mr. Barnum.

R. F. Jacobs presented the report of the Executive Committee, the salient points of which were published in THE DISPATCH yesterday. Mr. Jacobs said:

HE WOULD GIVE \$5,000

to enable agents to visit the principal mission stations in Asia and Australia and report to the world's convention in 1893. He said he knew some men who would give as much. The report of the committee was referred to a special committee, composed of J. D. Wattle, Pennsylvania; J. M. Green, Georgia; John R. Pepper, Tennessee; Rev. John McKean, Ontario, and R. D. Wolf, Missouri.

During the noon recess a platform had been erected running from the front of the stage out into the auditorium, about 30 feet. The speakers stood at the extreme end of this platform, so that half their bodies could not be heard by the reporters. The afternoon audience numbered over 3,000.

SOME BIG FIGURES.

Table with columns for State/Territory and figures. Includes entries for Alabama, Arizona Territory, Arkansas, California, Connecticut, District of Columbia, Florida, Georgia, Idaho Territory, Illinois, Indiana Territory, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico Territory, New York, North Carolina, North Dakota, Ohio, Oklahoma Territory, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah Territory, Vermont, Virginia, Washington Territory, West Virginia, Wisconsin, Wyoming.

Table with columns for State/Territory and figures. Includes entries for Vermont, Virginia, West Virginia, Wyoming Territory, Canada, Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island, New England and Labrador, and Total.

PITTSBURGH WELL UP.

Table titled 'Statistics in the cities of the United States' with columns for City and Population. Includes entries for Albany, Allegheny, Baltimore, Boston, Buffalo, Cincinnati, Cleveland, Denver, Detroit, Indianapolis, Kansas City, Milwaukee, Minneapolis, New Orleans, Omaha, Philadelphia, Pittsburgh, Portland, St. Louis, Toledo, and Total.

The treasurer's report was read by one of the secretaries of the convention, Treasurer L. H. Biglow being absent. The balance on hand at the last report was \$1,084.16.

TRAINING TEACHERS.

Rev. Mr. Armstrong, of Massachusetts, spoke ten minutes about the school at Springfield, Mass., where teachers for Sunday school work are trained. The school is not denominational, and aims to train men and women of all kinds of churches.

BISHOP VINCENT TALKS.

HOW CHRISTIANITY IS GAINING WITH THE PEOPLE.

A magnificent audience gathered to greet the founder of the Christian Sunday school at the opening of the morning session. The great audience which gathered in Mechanical Hall last evening was largely a tribute to Bishop Vincent.

Rev. Dr. Warren Randolph, of Newport, read a report for the Lesson Committee, of which he is the Secretary. He said that the committee would present a complete report at the time of its official death in 1893.

COULD NOT KEEP UP.

At the time of the World's Convention last year in London, a strong effort was made from Europe to procure a considerable number of the international lesson books.

THE SECULAR PRESS AND RELIGION.

There never has been a time when the secular press has so much attentioned to religion. They publish Talmage's sermons broadcast, and are willing to stand his rhetoric for the sake of his fidelity to the great truths.

A NEW FEATURE.

"A new feature will be the selection of about 12 passages of scripture, per year, which must be learned by heart. These passages will contain a number of verses which must be taken together, a half chapter or more, and must be learned for each month.

FRATERNAL SOCIALISM.

In the last issue no other periodical has had such a circulation as the one which has published the International Lesson Committee. The increasing study of the Bible, he said, promised the best results for the human race.

CANADA IN SYMPATHY.

Rev. Dr. John Potts, of Toronto, another member of the Lesson Committee, was introduced into the audience, about 30 feet. The speakers stood at the extreme end of this platform, so that half their bodies could not be heard by the reporters.

WORKING UNDER TWO FLAGS.

"I am an Anabaptist," he said, "but I shall ever see organic union. I am not sure that it was an unmitigated blessing. This convention is doing a great work for you nationally and for us nationally, and for both of us internationally. We work under two flags."

With that he turned to the great curtain hanging at the rear of the stage, where large United States and British flags were flying over a background of thorough Irish green.

Who Participated in the Merrimack-Monitor Battle and

SAVED THE LIVES OF 17 SAILORS.

Tells of the Most Remarkable Naval Combat Recorded.

THE TRICK OF A TRAITOR CAPTAIN

In making the calls at the residences of the people in the Third ward, Allegheny, as census enumerators, Henry Hauck, called at one house on Perry street, and after making the usual inquiries about the social condition of the family, the young lady who answered his questions, stated that her father, Demetrius P. George, had been engaged in the late war and took active part in the engagement between the rebel iron-clad Merrimack and the Monitor. The commander had heard that Mr. George saved the lives of 17 sailors of the war ship Cumberland. In the enumerator's report to the authorities at Washington, he stated that he had been engaged in the late war, and was finally prevailed upon to tell the story of his rescuing the men.

THE GREEK HERO.

Mr. George is a native of Thessaly, and speaks English with a Greek accent, but related the story very graphically, nevertheless. The deed which he performed never received any official recognition from the naval authorities, and he was never mentioned in the history of the battle.

AN ALLEGHENY OASIS.

Where Cool and Luscious Fruits Tempt the Tired Traveler. FORMING A WATERMELON TRUST.

THEY'LL GET A BRIDGE.

NEVILLE ISLAND AS A PRODUCER OF THE DELICIOUS ASPARAGUS.

BRISK DEMAND FOR ALL KINDS OF FRUIT

Watermelons big, watermelons little, watermelons green, watermelons ripe, long and short, heavy and light, cool, crisp and sweet, all piled up in tempting heaps, attracted the attention of the thousands that thronged the Allegheny market yesterday, while the countless multitude that passed the fruitstands, which dot the streets of the city like so many garden spots on tropical lands, lost sight for a moment of the wealth of rich, rare exotics and turned a longing gaze on the luscious high-priced American watermelon.

"This favorite melon," said Mr. Isadore Brown, the Federal street fruit merchant, "is not so common as to say. There is only one variety, the Georgia cob, in stock at present. It is the earliest species, and leads them all. This season's crop is heavy, and after the first rush is over prices will drop. Good Georgia watermelons fetch from 50 cents up just now.

A MELON TRUST.

"We used to import Jersey watermelons, but the growers raised them in close proximity to the Allegheny market, and the flavor and killed them in our closets. A melon growers' trust has been formed in the South, and the price of watermelons will be held up as long as competition can be kept out."

The citrus vulgaris, which is only the watermelon in disguise, now seen in the market is handsomely marbled with different shades of red, yellow and green. Emerald hue, symbolical of hope. But all fears may be laid aside, for of numerous cuts made the fruit showed up splendidly, delicious to the taste and pleasing to the eye. Cold nights, frost weather, have played sad havoc with the cantaloupes. The conditions have been most unfavorable to a good crop. This rich product requires a warm, sunny climate, and the absence of the few melonkinds that are now in the market are not possessed of any very inviting appearance or flavor.

MRS. KENDALL'S WONDERFUL FAN.

A Delicacy Weapon in Beauty's Hands and a Guard Against Toilet Accidents. New York World.

A very odd thing in fans was brought forth last week as a present. This fan is a filmy affair, made of stretched on a black frame, and is the most simple and innocent-looking of the fan species when it is folded up and lies demurely in a lady's lap or reposes peacefully upon her dressing-table. But let a pretty woman unfold and hold it before her face, and the most incorrigible woman hater will become dimly aware that even his peace is menaced by the fan's fluttering wings.

NOT GOOD ENOUGH FOR HER.

A Story of the Vanderbilts Retailed by a Vendor of Rare Dress Frocks. New York World.

Propos of the Vanderbilts, a characteristic story is told by a person who makes a business of vending objects of rarity and price among our aristocracy. This person was made the agent for the disposition of two marvelously beautiful pieces of Oriental embroidery, one piece being in pure gold and the other in silver and gold.

FAT SOCIETY LADIES.

What They Are Compelled to Do to Get Rid of Their Surplus Adipose. New York World.

Here is a diet on which some of the wealthiest and most prominent in New York have agreed to live in order to reduce their alarming proportions: Breakfast—Nuts in variety, raisins, fresh fruits, without sugar or cream, hot water. Dinner—Soft boiled eggs, fresh fruit, vegetables such as lettuce, asparagus, beans, celery, tomatoes and cresses; clear brothy soup.

ATLANTIC CITY.

The First Popular Excursion of the Season to Atlantic City. New York World.

View the picturesque B. & O. R. R. via Washington, D. C., Baltimore and Philadelphia, on Thursday, July 3, 1890. Tickets good for ten days, and to stop off at any of the intermediate points.

DEAL IN STRAWBERRIES.

A Liberty street commission merchant, who shall be nameless, received a consignment of 15 cases of strawberries over Adams Express not long ago. They were shipped by an enterprising grower from some out-of-the-way place, away from railroads and everything else, and were packed in home-made boxes not packed in any other way.

HIS TOR AT THE TRIGGER.

How an Ohio Farmer Sent a Bullet Into His Head. New York World.

Newark, O., June 25.—John Baughman, a well-known farmer of Perry township, this county, committed suicide by shooting himself in the head with a shotgun, placed the muzzle to his head and pulled the trigger by a string attached to his foot. He was 60 years old, and owned a large farm. No cause assigned for the rash act.

COLLAR TRUST ORGANIZED.

Five Large Trench Shirts and Collar Concerns Unite. New York World.

New York, June 25.—A new collar and shirt trust will begin business on July 1. It will be known as the United States Collar and Shirt Company, and its headquarters will be in this city. The new company is composed of five concerns, and has been capitalized at \$2,000,000.

NO RIVAL IN THE FIELD.

There is no remedy which can rival Hamburg Figs for the cure of habitual constipation, indigestion, and sick-headache. Their action is so prompt and efficient as their taste is pleasant. 25c. Dose one Fig. At all druggists. Mack Drug Co., N. Y.

THE BASEBALL SEASON.

Martin's baseball season are a delight to every boy who loves the national game. Grocers all keep them. Complete New Line of Turkish Towels, in all the different qualities; and Turkish towelings by the yard. 100 dozen wash rags, in various sizes, at white goods counter. HUGGS & HAZEN.

OUR HEALTHY CITY.

A Flattering Annual Report Made by the Bureau of Health. Improvements and Additions to the City Hospital Suggested. NEED OF PURE DRINKING WATER.

DISPOSING OF GARBAGE.

Of the collection and disposition of garbage and the management of garbage farms, Superintendent Baker says: "The removal and disposal of garbage is one of the most important matters in a sanitary point of view, and one in which most cities are very slow in adopting proper methods. This city unfortunately must be classed in that category."

OUR GIRLS IN COLLEGE.

Statistics as to the Effect of Mental Work Upon the Health of Women. New York Sun.

Some very interesting health statistics have been published of the women students of Cambridge and Oxford and of their sisters. The result of the various inquiries sent out to these women of learning demonstrates the fallacy of the old argument that a university education is specially injurious to the constitution of women, or that women educated at the expense of their reserve fund, and in consequence made unsatisfactory and inefficient mothers.

The proportion, both of students and their sisters who are married, is decidedly low, particularly among the women in the professional classes, where it probably is less than one-half. But, on the other hand, when marriages do take place, there are fewer children ones among the students than among the women of the other classes.

The total number of deaths was 4,286, equal to an annual death rate of 17.56 per 1,000 inhabitants, on an estimated population of 243,000. There were 618 deaths of infants under 1 year and 702 children between the ages of 1 and 5 years, making 1,320 per cent. of the total mortality.

Dr. J. Gay McCord, Registrar of Vital Statistics, at the very beginning of his report takes up the question of the quality of our drinking water, and asserts that the danger to health from the use of well and spring water is probably more than from even the unboiled river water.

During the year the bureau abated 3,548 cases of disease, and destroyed 1,000 cases of smallpox, 1,000 cases of diphtheria, 1,000 cases of typhoid fever, 1,000 cases of cholera, 1,000 cases of scarlet fever, 1,000 cases of measles, 1,000 cases of whooping cough, 1,000 cases of mumps, 1,000 cases of pertussis, 1,000 cases of tetanus, 1,000 cases of erysipelas, 1,000 cases of erythema, 1,000 cases of eczema, 1,000 cases of psoriasis, 1,000 cases of leprosy, 1,000 cases of syphilis, 1,000 cases of gonorrhea, 1,000 cases of venereal disease, 1,000 cases of skin disease, 1,000 cases of eye disease, 1,000 cases of ear disease, 1,000 cases of nose disease, 1,000 cases of throat disease, 1,000 cases of lung disease, 1,000 cases of heart disease, 1,000 cases of liver disease, 1,000 cases of kidney disease, 1,000 cases of bladder disease, 1,000 cases of rectum disease, 1,000 cases of stomach disease, 1,000 cases of intestines disease, 1,000 cases of spleen disease, 1,000 cases of pancreas disease, 1,000 cases of gallbladder disease, 1,000 cases of biliary disease, 1,000 cases of urinary disease, 1,000 cases of reproductive disease, 1,000 cases of nervous disease, 1,000 cases of mental disease, 1,000 cases of insanity, 1,000 cases of epilepsy, 1,000 cases of hysteria, 1,000 cases of melancholia, 1,000 cases of mania, 1,000 cases of dementia, 1,000 cases of paralysis, 1,000 cases of convulsions, 1,000 cases of chorea, 1,000 cases of tetanus, 1,000 cases of strychnine poisoning, 1,000 cases of arsenic poisoning, 1,000 cases of opium poisoning, 1,000 cases of alcohol poisoning, 1,000 cases of drug poisoning, 1,000 cases of food poisoning, 1,000 cases of insect poisoning, 1,000 cases of animal poisoning, 1,000 cases of plant poisoning, 1,000 cases of mineral poisoning, 1,000 cases of chemical poisoning, 1,000 cases of electrical poisoning, 1,000 cases of mechanical poisoning, 1,000 cases of thermal poisoning, 1,000 cases of radiation poisoning, 1,000 cases of sound poisoning, 1,000 cases of light poisoning, 1,000 cases of magnetic poisoning, 1,000 cases of electric poisoning, 1,000 cases of atomic poisoning, 1,000 cases of nuclear poisoning, 1,000 cases of subatomic poisoning, 1,000 cases of superatomic poisoning, 1,000 cases of ultraatomic poisoning, 1,000 cases of hyperatomic poisoning, 1,000 cases of megaatomic poisoning, 1,000 cases of gigaatomic poisoning, 1,000 cases of teraatomic poisoning, 1,000 cases of petaatomic poisoning, 1,000 cases of exaatomic poisoning, 1,000 cases of zettaatomic poisoning, 1,000 cases of yottaatomic poisoning, 1,000 cases of ronnaatomic poisoning, 1,000 cases of quettaatomic poisoning, 1,000 cases of septioatomic poisoning, 1,000 cases of octioatomic poisoning, 1,000 cases of nonioatomic poisoning, 1,000 cases of decioatomic poisoning, 1,000 cases of undecioatomic poisoning, 1,000 cases of duodecimoatomic poisoning, 1,000 cases of tredecimoatomic poisoning, 1,000 cases of quattuordecimoatomic poisoning, 1,000 cases of quindecimoatomic poisoning, 1,000 cases of sexdecimoatomic poisoning, 1,000 cases of septendecimoatomic poisoning, 1,000 cases of octodecimoatomic poisoning, 1,000 cases of novemdecimoatomic poisoning, 1,000 cases of vigintiatomic poisoning, 1,000 cases of unguentatomic poisoning, 1,000 cases of centatomic poisoning, 1,000 cases of milatomic poisoning, 1,000 cases of billionatomic poisoning, 1,000 cases of trillionatomic poisoning, 1,000 cases of quadrillionatomic poisoning, 1,000 cases of quintillionatomic poisoning, 1,000 cases of sextillionatomic poisoning, 1,000 cases of septillionatomic poisoning, 1,000 cases of octillionatomic poisoning, 1,000 cases of nonillionatomic poisoning, 1,000 cases of decillionatomic poisoning, 1,000 cases of undecillionatomic poisoning, 1,000 cases of duodecillionatomic poisoning, 1,000 cases of tredecillionatomic poisoning, 1,000 cases of quattuordecillionatomic poisoning, 1,000 cases of quindecillionatomic poisoning, 1,000 cases of sexdecillionatomic poisoning, 1,000 cases of septendecillionatomic poisoning, 1,000 cases of octodecillionatomic poisoning, 1,000 cases of novemdecillionatomic poisoning, 1,000 cases of vigintillionatomic poisoning, 1,000 cases of unquintillionatomic poisoning, 1,000 cases of centillionatomic poisoning, 1,000 cases of milquintillionatomic poisoning, 1,000 cases of billionquintillionatomic poisoning, 1,000 cases of trillionquintillionatomic poisoning, 1,000 cases of quadrillionquintillionatomic poisoning, 1,000 cases of quintillionquintillionatomic poisoning, 1,000 cases of sextillionquintillionatomic poisoning, 1,000 cases of septillionquintillionatomic poisoning, 1,000 cases of octillionquintillionatomic poisoning, 1,000 cases of nonillionquintillionatomic poisoning, 1,000 cases of decillionquintillionatomic poisoning, 1,000 cases of undecillionquintillionatomic poisoning, 1,000 cases of duodecillionquintillionatomic poisoning, 1,000 cases of tredecillionquintillionatomic poisoning, 1,000 cases of quattuordecillionquintillionatomic poisoning, 1,000 cases of quindecillionquintillionatomic poisoning, 1,000 cases of sexdecillionquintillionatomic poisoning, 1,000 cases of septendecillionquintillionatomic poisoning, 1,000 cases of octodecillionquintillionatomic poisoning, 1,000 cases of novemdecillionquintillionatomic poisoning, 1,000 cases of vigintillionquintillionatomic poisoning, 1,000 cases of unquintillionquintillionatomic poisoning, 1,000 cases of centillionquintillionatomic poisoning, 1,000 cases of milquintillionquintillionatomic poisoning, 1,000 cases of billionquintillionquintillionatomic poisoning, 1,000 cases of trillionquintillionquintillionatomic poisoning, 1,000 cases of quadrillionquintillionquintillionatomic poisoning, 1,000 cases of quintillionquintillionquintillionatomic poisoning, 1,000 cases of sextillionquintillionquintillionatomic poisoning, 1,000 cases of septillionquintillionquintillionatomic poisoning, 1,000 cases of octillionquintillionquintillionatomic poisoning, 1,000 cases of nonillionquintillionquintillionatomic poisoning, 1,000 cases of decillionquintillionquintillionatomic poisoning, 1,000 cases of undecillionquintillionquintillionatomic poisoning, 1,000 cases of duodecillionquintillionquintillionatomic poisoning, 1,000 cases of tredecillionquintillionquintillionatomic poisoning, 1,000 cases of quattuordecillionquintillionquintillionatomic poisoning, 1,000 cases of quindecillionquintillionquintillionatomic poisoning, 1,000 cases of sexdecillionquintillionquintillionatomic poisoning, 1,000 cases of septendecillionquintillionquintillionatomic poisoning, 1,000 cases of octodecillionquintillionquintillionatomic poisoning, 1,000 cases of novemdecillionquintillionquintillionatomic poisoning, 1,000 cases of vigintillionquintillionquintillionatomic poisoning, 1,000 cases of unquintillionquintillionquintillionatomic poisoning, 1,000 cases of centillionquintillionquintillionatomic poisoning, 1,000 cases of milquintillionquintillionquintillionatomic poisoning, 1,000 cases of billionquintillionquintillionquintillionatomic poisoning, 1,000 cases of trillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of quadrillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of quintillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of sextillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of septillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of octillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of nonillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of decillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of undecillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of duodecillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of tredecillionquintillionquintillionquintillionatomic poisoning, 1,000 cases of
