The seaward rush received an impetus on the Fourth, and thousands who went there to jubilate will linger and swell the throng which has settled upon the sands for the season. Everything points to a prosperous season and a lav-'sh expenditure on the part of pleasure seekers. The waves are not attracting all the flitters, as many are seeking the restful shade of mountain resorts, the cool breezes of the North and the fish and game grounds of lake and river. But the masses long for the sea, where can be found the bustle of city life and the pleasures that please all classes and fit all purses. The gossip and attractions of the places which attract Pittsburgers are given be-

fiannel-cobed surf devotees. The water is of a delightful temperature, and the breezes, while cool, are not sufficiently so to mar the pleasure found by many in strolling around in the loosenents which constitute the American bathing suit.

But they don't stroll around as much as they used to. If the Mayor insists on carrying out laws that annoy visitors, the thinity clad Venus and admirers will have to seek the seclusion that the beach alone grants, and not display themselves on the boardwalk. A law has gone into effect making it a misdemeaner punishable by a fine, for anybody in bathing costume. AN OBNOXIOUS LAW. able by a fine, for anybody in bathing costume to promenade or stop for a chat on the boardwalk. The bather is required, when attired for the bath, to cross under the boardwalk to the surf, though the law is graciously interpreted with liberality enough to allow one to cross the walk if there is no means of getting down on the landside. Even women, upon whom bathing costume was formerly presumed to confer all sorts of privileges, are not exempt from this law. There is no hing to prevent them from posting all day, nowever, on the beach itself, and it is consoling to know that a girl who braves the penalty of getting into the Mayor's awful power if she steps to talk with her friends on the boardwalk, may feel secure to look her prettiest on the beach itself. Strangers who are not aware of the existence of this law should be on the alert. Jersey just his law should be on the alert. Jersey jus-is swift and sure, and as no signs are dis-ed bathers who indulge in promenades are te to be arrested and fined at any minute.

PLEASURES FOR MULTITUDES. The toboggan slides, merry-ge-rounds, the railroad, the mammoth musical pavilion, which accommodates 2,500, the Opera House, Colonel Mehrer's new Inlet pavilions and his grand orchestra of 40 pieces, the hun dreds of sailing vessels and steam yachts, are all features sought and pleasurably patronized, Pyrotechnic displays have long ceased to be in Atlantic City. It is not difficult to guess the reason. However the authorities do not pronibit moderate indulgence in this enjoyment; but they do restrict the juvenile participants as to place. Al! fireworks must be kept oceanward of the boulevard. To close the celebration of the day, the belies attired in gorgeous garmeets and the beaux in conventional dress suit, attended the inaugural hops given on this

occasion.

The best laid plans of Absecon and off-shore speculators have gone astray. Railroads continue to boom the city. No Railroads continue to boom the city. No American re-ort can boast 40 express trains daily between points 60 miles apart. This does not include many additional sections to each, or New York express trains and accommodations. Surely "the City in the Sea" is many years yet from its zenith. Within less than a week the Philadelphia and Reading has secured opinions on early \$500,000 worth of property in that section of the city known as "uptown," or the older end. What the nature of the improvement is is not generally known, the improvement is is not generally known, mave by those directly interested. It will is all embrace an outlay of \$200,000 at least. As is always the case when railroad men propose improvement, those of dwarfed business sagacity court stumbling blocks, but the obstacles will disappear as suddenly as they come to the surface.

ATLANTIC CITY. July & —Unique indeed is the celebration for the nation's holiday at the sear shore metropolis. Such a thing as a programme, prepared by the city guardians and paid for by the residents is unthought of. Well, how was it celebrated? This way: Yesterday and the day previous the great railroad corporations landed safely at their several stations and depots between 20,000 and 30,000 visitors from all parts of the country. These souls seeking rest and recreation over the glorious-from the pollation to 60,000 people. The strangers bring no firsworks with them; but small excursion parties have their bands of music, and these find comfortable and congenial quarters and thus amuse themselves and others.

As their air ushed along, their tongues kep pace with the wheels, relating college jokes, and much of the inside of seminary life was revealed. The last night at school had been celebrated by a feast in the room of one of these girls, and the good things mentioned as ferming part of the repast made me positively hungry, and I fell to calculating how much ico cream, cake and bonbons is voung ladies could consume, when I was roused from my reverie by a hustling among them to prepare for "papa." These delightful additions to the social circle at the Falls were hailed with delight, as pretty and bright girls are scarce here. girls was to meet them at the Falls, and I and bright girls are scarce here.

The season has opened unusually dull; the drenching rains, the flerce heat of mid-day and the damp evenings causing few pleasure seekers to appear. The hotels are all open except the Prospect House. Sunday, two excursions are expected—one from New York and one from

Yesterday morning was given up to the testing of the new fire alarm apparatus, contributed by popular subscriptions, and to ithe final prep rations for the afternoon's celebration. Over in Ocean Grove, the usual recognition of the day was attended by myriads of summer guests who assembled under the great one-air auditorium at 10:30 in the morning. By request of Rev. Dr. Elwood H. Stokes, chairman of the occasion, a large number of participants brought out hand flags and denoted their appreciation of the sentiments uttered by flag salutes, which took the place of the handker-chief salutes so common on the great campmeeting ground. The religious services in the Young People's Temple and the Bishop Jones Memorial Tabernacle were dispensed with and all the people accustomed to attending those 9 o'clock meetings assembled under the shelter of the auditorium with many others, representing nearly every State and territory of the Union. The Declaration of Independence was read by the Rev. George W. Evans, secretary of the Ocean Grove Camp Meeting Association, and the Rev. James M. Moore of New Brunswick delivered the oration.

THE AFTERNOON AND EVENING. Early in the afternoon the streets of Asbur, Park were almost impassable on account of the rongs which blockaded the way all along the route of the parade. The procession comprised, among other organizations, civic and military, the G. A. R., Republican Club, Third Regiment of N. J., Odd Fellows, fire depart ments, Elks, Knights of Pythias, Royal Ar-canum, Canton Atlantic, Redmen, numerous bands of music, Commissioners of Asbury Park, American Mechanics, Sunday schools, etc. American Mechanics, Sunday schools, etc.

After marching through the principal streets, the parade terminated at Educational Park, where, in Educational Hall, one of the relies of the Centennial Exhibition of 1876, the literary and musical exercises were held. In these the clergy and lawyers and newspaper men took part, each speaker being limited to ten minutes.

THE GREAT CATARACT.

Last evening in the eastern end of the lengthy fishing pier, extending rods beyond the ocean surf, was discharged a display of fireworks visible at Long Brauch, Eiberon, Spring lake and Sea Girt. This pyrotechnic display for passed anything ever witnessed along the coast. Even Court life, and the octagers have already begun to plan a round of entertainments for her during the season.

THE Saratoga hotels, big and little, are all never before been fired or seen in this country, and required many pounds of powder to elevate them. A New York importer and manufacturer of fireworks superintended the display and contributed largely to the success of the celebration generally.

The Derive of the various railroads have taken effect—he who runs may read that the season of 1890 at the Spa has begun.

Blaine, they returned on the Pilot and did not reach home till Wednesday morning.

## THE WORLD OF ART.

MR. HILLS PARKER and Mr. Melchers, wellnown American artists, have returned to

London air is thick with rumors as to the imminent recognition by the Royal Academy of the claims of the black-and-white artist, and his consequent eligibility for membership. This is good news, if true.

THE picture by Romney, which was sent to a recent London exhibition by an old maid who feared she was presumptuous in asking that it be insured for \$2,500, "because it was an old heirloom and much esteemed in the family,' has just been sold, it is said, for \$40,000. MR. HENRY DOYLE, director of the Nation

Gallery of Ireland, has acquired a portrait by Rembrandt, dating from the year 1635-40. It represents a young man named Louis van Liu-den, and was the property of M. Dansaert, of Brussels, from who it was purchased for £880. Ar the Paris Salon two American painters, Julius Stewart and F. V. Dumont, were awarded third class medals. Messrs. Cunningham, Albert Herter and F. Porter Vincent received honorable mention. In the section of sculpture three tokens of recognition were carried off by American artists—Miss Ruggles, C. E. Dallin and Douglas Tilden.

WITHOUT wishing to conjure up visions of the time when the plow-boy shall quote Rus-kin, and the sanitary authorities' employe, who looks after our dust, shall sit down to paint water color (when he's washed his hands), yet water color (when he's washed his hands), yet there is no earthly reason why these two nseful members of society should not possess appreciative powers capable of being awakened. Talk about educating the masses! What's the good of giving them an education without teaching them at the same time how to derive some happiness from it! Teach them that "appreciation" is possibly whether they are rich or poor, strong or weak. At—the aupreciation or poor, strong or weak. Art—the appreciation of it at least—is not to be bought with money alone: but it may be had for the asking, if only sincere desire prompt the request.

FIFTEEN years ago it was not unusual for amples of the Barbizon school to be taken to the United States, to be brought back for want of a buyer, but the recent return of Millet's "Woman Spinning" is remarkable at this time. The picture is familiar to amateurs, since it was shown at the time of the Morgan sale, and was shown at the time of the Morgan sale, and again last winter at the Union League Cinh, New York. It is a picture of large size, but its quality is inferior to many other examples shown in America. This picture was sold to the late Mrs. Morgan by Kneedler & Co. for \$17,100. At the Morgan sale it shared the fate of several other pictures, and was "bid in" for \$14,000. These unsold pictures were finally brought forward again and offered at private sale. The bead of the firm of Boussod, Valadon & Co., of Paris, who recently visited New York, bought this picture for \$9,000, and has brought it back to Paris. The difference between \$17,100 and \$9,000 will set up a train of thought in the minds of picture buyers.

The manager of the Pittsburg Exposition

THE manager of the Pittsburg Exposit omes back from New York fully satisfied that gallery are to be set apart for individual collections. The large room at the entrance is to be hung entirely with works from the galleries of Charles Hazeltine: in a room adjoining it will be a collection of Albert Bierstadt's works. Hazeltine's collection consists entirely of latest European works, and it contains some very beautiful examples of foreign art. Some of the most important of Bierstadt's paintings of Western scenery have been promised. They will be hung according to Mr. Bierstadt's suggestions. There will also be a collection of water colors, for which another entire room has been set aside. They are all by important people, and are good examples of their ability.

The sale of the Crabbe collection of pictures gallery are to be set apart for individual o

tending the sale in person, and sent an agent, as also did Mr. Ogden Goelet. Among the Americans present were Mesers. S. P. Avery, Jr., R. Knoedler, G. Carmer-Hodges, of Reichart & Co., and Mr. Christ, Delmonico's agent. A battle between the American dollar and the French franc was the feature of the sale. Many of the Paris dealers had received orders from the United States. Sedelineyer had no less than ten cable dispatches to purchase at certain prices. The American dollar got severely the worst of the struggle. Only two of the gens of the collection will, for the present, cross the Atlantic. The proceeds of the sale reached 1.558,990 francs. The highest price was attained by the "Guide" of Meissonier, which was bought by Sedelmeyer for £7.050, and the next picture in altitude of price was a "Holy Family." by Rubens, which was knocked down at £4.480.

### JUST BEFORE THE ENCAMPMENT.

GENERAL GOBIN has been recommissioned as Commandant of the Third Brigade. CHAPLAIN MILLIGAN, of the Eighteenth,

spent the past week in New York City. COLONEL WILLIS J. HULINGS, of the Sixteenth Regiment, spents few days in the city MAJOR JAMES L. GRAHAM, of the Four-

teenth Regiment, is recovering from his severe illness of the past few months. THE encampment this month at Mt. Gretna is to be known as Camp John F. Hartranft, in honor of the late Division Commander. ABOUT 50 members of Company D, Eighteenth Regiment, turned out to attend the funeral of

Corporal Ernest Hass, which took place last Wednesday. SECOND LIEUTENANT JOHN ZUCK of Company C, Eighteenth Regiment has tendered his resignation. His successor will probably be elected while the company is in camp,

SERGEANT GEORGE WEIFING, of Company F. Fourteenth Regiment, has been appointed Regimental Quartermaster Sergeant. Sergeant Weifing has been a member of the Fourteenth for many years and no doubt will succeed well in his new position. IT is probable that the resignation of a Cap-

tain of one of the local companies will be asked for by his regimental commandant this week. Inattention to the best interests of the com-pany and a refusal to go to camp next week is the cause assigned. IT has not yet been decided by the officers of

Battery B, what date the organization will leave for camp. It is probable, however, that Friday evening, July 18, will be the time selected. Lieutenant Kimmel, with a detail of 15 men, will leave on the 16th. THE Second Brigade Examining Board meets

to-morrow evening at the Seventh Avenue Ho-tel. All candidates for commissions who have not already been examined should report promptly, as it will probably be the last meet-ing of the board for four or five mouths to ALL the lumber for the different organizations in the Second Brigade for use at the coming encampment will be bought in bulk by Brigade Quartermaster General. Considerable

difficulty is always experienced at the different camps on the lumber question, but the scheme this year should effectually settle the difficulty. A DETAIL of ten men from each company of the Fourteenth Regiment will leave for camp in charge of Quartermaster Hubbard, several days shead of the regiment. All the details of the camp work, including the erection of the canvas, will be attended to by the advance de-tail so that no extra work will be necessary after the arrival of the regiment.

Eighteenth Regiment will be held this week for the purpose of arranging the details of the headquarters' mess and other affairs. With the exception of Captain E. M. McCombs, Pay-master of the regiment, a full complement of headquarter officers will be in camp, as the vacancy caused by the resignation of Surgeon English will be filled this week. THE Eighteenth Regiment leaves for camp one week from next Thursday night. It will be among the first organizations on the grounds, and besides having the camp in good

shape before the arrival of most of the other

A MEETING of the field and staff of the

regiments, the companies can get the benefit of a few extra battalion drills. A detail of two men from each company, in charge of the Quartermaster, will leave here a day ahead of the rest of the regiment. A MEETING of the Board of Control of the Fourteenth Regiment will be held next Tuesday evening. Among other matters to be brought up will be a change of the date of wing for camp. At the meeting held a week ago it was decided by a small majority vote of the officers to leave Saturday night, but num-ber of the Captains have thought the matter over and have concluded that Friday night would be a better time in many respects. At

the coming meeting it is probable the latter THE Senate Committee of Military Affairs in Vashington has adopted the amendment providing that each regiment of infantry in the regular service shall consist of three battalions been set aside. They are all by important people, and are good examples of their ability.

The sale of the Crabbe collection of pictures in Paris, attracted buyers or their representatives from all parts of Europe and America. The English-speaking contingent was represented by Mr. Hutchinson, President of the Art Museum of Chicago, and Mr. Barney, President and Director of the Sydney Museum, Mr. Morris K. Jesup, trustee of the Metropolitan Museum of Art, was prevented from atfour companies each. This formation is
