THE GENIAL CAPTAIN'S OPINION.

July Fourth Passes Without a Tear Drop, Except Perhaps From the Eye of the League Magnate.

LEASE OF LIFE FOR THE NATIONALS.

Players' League Casting Out For Promising Talent in the Opposite Banks.

Manager Hanion and team of 14 men boarded a Baltimore and Ohio train at 9:20 last night, hoping to arrive at the city of Brotherly Love early enough, to-day, to capture a victory from Buffinton's team ere the aun goes down. The genial Ned was in excellent humor, last night, before his departure for the Eastern fields of conflict. The smile that beamed from his contenance bespoke satisfaction with the world, and especially the baseball public. And hasn't he reason to be satisfied? Isn't his team in third place? By a very narrow margin, to be sure, but he is now going to clinch it. Then the people that hustle themselves up early to be ready to go to the games, also gave him reason to be glad. Hanlon left his supper long enough last night to give the follow discourse on the beauties of being a base nanager-director-player:

STILL IN THE SWIM. "The ever grac ous Mr. Spaiding gave the Players' League until the Fourth of July to live, if it rained. With a clear day he was to allow us a while longer. As he didn't have charge of the weather regulator on that day, it failed to rain to such an extent as to spoil our attendance altogether, and we are happy. The failed to rain to such an extent as to spoil our attendance altogether, and we are happy. The League is clear out in the West. We have them on the run all around. The Pittsburg League club can't live much longer. Mr. O'Neill's action in changing the schedule Saturday, after having promised to play it out just as it stands, has killed the team. The money taken in at Brooklyn will give them a lift, but it won't last forever. Of course, no one has been making money. The local League club loses \$2 for every \$1 we do, and they can't stand that. The tide is slowly turning now, and we are getting all the people.

THE SCHEDULES AGAIN. "There is no reason why both couldn't have good crowds without conflicting schedules. I don't believe there will be two clubs in the cities next year, but if there are they must have non-conflicting schedules. In that case the peo-ple could keep track of baseball, and would atpie could keep track of baseball, and would al-tend the games being played by whatever team, the League or the Brotherhood.

"Another thing that has injured the game is the jangling going on back and forth. That disgusts a great many good people. See how the Fogarty-Love trouble affected the matter in Philadelphia. It certainly gave the League the great advantage they have.

A VERY BAD MOVE. "Changing the dates from Buffale to Boston on the Fourth was a very bad move, and that it injured the team can be seen already. The didn't have as many people in Boston as they would have had in Buffalo. Saturday they only had 2,000 people. Before this the League team was virtually dead in Boston, but they will doubtless profit by this move."

Hanlon then asked questions about Third Baseman Roat's work for the local National League team and said he had heard of his work and had been watching his record. It looks very much as though Hanlon would like to secure Roat in place of Kuehne. The latter can hit the ball, but he can't come anywhere near playing his position as well as the other man. Hurley was the only man left at home. Morris will probably pitch against the Phillies to-day. It will be a fight for third place. only had 2,000 people. Before this the League

ANOTHER TEAM BROKE

Allentown's Baseball Club Gives Up the

Ghost. ALLENTOWN, July 6 .- The Allentown club, of the Inter-State League, is no more. After an unhappy career of four weeks, in which it won three games and lost 15, it yielded up the ghost. About the middle of last week Manager on abandoned the team, but left the players under the impression he would return. They hadn't been paid for a month and were beginning to clamor for their dues. The game played Friday were for the players' benefit. Of the amount taken in, Mason's secretary, a young man named Fritz, better known as Harry Parker, took \$42 and deserted the club at Easton. Saturday afternoon a game was played here with Easton for the benefit of the home players. It broke up in a row and for a time things looked threatening. From the revenue of the games the Allen-town players each received a little over \$10, and to-night most of the men left for their homes. There is a solume on foot to have the club con-tinued as a co-operative concern with the help played Friday were for the players' benefit. Of

tinued as a co-operative concern with the help of some local enthusiasts, but the project does not look very promising and no doubt baseball is dead for the season in Allentown.

Racine, the Record Breaker. Racine, the new mile-record horse, must be a truly good one. He had run easily all the way was coming home in the same manner, when his jockey suddenly found himself challenged, and, at the call, Racine auswered as though he had been merely exercising. The Chicago Trib. had been merely exercising. The Chicago Prio-une says: "Marion C. and Gymnast both fin-ished the mile in 180. Marion C.'s mile from whe to wire was undoubtedly faster than Racine's. Sile was not well up when the cost is most not be overlooked that Racine was be-hied when the break was made, outran Marion C. for a position and again outran her when she got up to him in the last sixteenth." QUEEN OF THE TURF. Firenzi the Mare That Deserves the Prom

If ever a mare deserved the proud title of the "Queen of the Turf" Firensi is the one, and if she can only continue to display such form as we have been seeing of late from her form as we have been seeing of late from het, she will go into retirement surrounded by such a hale of glory as we have never seen round any of the matrons of the stad. It will indeed be wonderful if her full brother does not bring a very long price at the sale of the Elmendorf yearlings on July 10, with such credentials as he yearlings on July 10, with such credentials as becan get from his sister. Why the value of an animal who can take up a weight of 128 pounds, like Firenzi did on Monday last, and then make such a horse as Longstreet look like the worst kind of a car horse, when in receipt of 13 pounds from her, is almost beyond calculation. In her recent races she has simply played with her opponents, including such horses as Longstreet, Cassius, Tea Tray, Prince Royal, Senorit and Sir Dixon, and whenever she has been in the hindermost division, it has been the case that the others were in front on sufferance, and she was just romping along, shaking that game

that the others were in front on sufferance, and she was just romping along, shaking that game head of hers and swishing her tail ready to "run over" them at a moment's notice. Even if there had been disappointments in those of close relationship to her, surely it is worth while to draw a few blanks in the lottery for the chance of securing such a tremendous prize.—Philadelphia Times. CHICAGO, July 6 .- Senator Stanford's famo stallion Palo Alto has been matched against the gray gelding Jack, record 2:15, owned by the gray gelding Jack, record 2:15, owned by George Middleton, of Chicago. The match was made to-day between Middleton and Orrin Hikok, but the agreement, in order to be binding, was dated last night.

Conditions are that the horses are to trot a race of mile heats, best three in five, in harness, Saturday, July 25, either at Washington Park, Detroit, or Cleveland. The match is for \$2,500 a side. Forfeits of \$1,000 from each party have already been placed with Secretary Brewster, of Washington Park.

A MIBACULOUS ESCAPE.

Little Charlie Shaw, aged 8 years and Emma Smith, aged 9 years, had a thrilling experience and a miraculous escape from a horrible death. The former was standing at the store door where August Smith, who put off the cracker, told him to look out he was going to shoot. The Shaw boy started to run. He got across the street when the explosion occurred, but was knocked down and burned considerably, but not seriously. The little Smith girl was in the store and escaped with a slight singed head of hair. How she escaped is a mystery.

This is their accustomed place, as it is convenient. Young Smith lighted the cracker and tried to throw it into the street, but it hit the door and exploded, some of the fire talling among the powder cans, igniting the spilt grains, which communicated to the partially filled can.

They had not gone more than 400 yards when two men going in the same direction met Marsh coming back. He informed them that he had murdered Clara, and wanted to give himself up. Marsh was given in charge of an officer, and upon his person was found a razor. Later he was placed in jail at Ebensburg. Miss Jones will die. Her throat is cut from ear to ear, severing the windpipe. She was found lying on the road, and has not been able to tell how the affair occurred. IGNORANT ITALIANS THE SOURCE OF MUCH TROUBLE IN LAWRENCE COUNTY.

They Are Brought Into Prominence by Frequent Appearance in Court-The Cost to the Commouwealth-Their Cheap Way of Living. PAPECIAL TELEGRAM TO THE DISPATOR.

NEW CASTLE, July 6 .- Jimmy Bennett, he Italian who is charged with the murder of Peppino Cottillo, another Italian, was given a hearing at the Mayor's office last vening. He tells a strange story of the erime, and claims to be an innocent man, but the indications are that he will hang. Lawrence county is cursed with Italians. There are over 300 in and near Carbon and Hillside. - There are 500 at Wampum, who are at the present time working on the diferent railroads. There are only 200 inhabtants in the town of Wampum, and the 500 Italians who reside in that place really run the town. Around New Castle reside nearly 1,000 of the dusky foreigners. In each one the five Alderman's courts, not to speak of the Mayor's office, there is on an average from one to 20 cases. The Italians' cases at each court cost the county more than all the rest of the cases put together, and the present murder case will cost at least \$3,000. Lawrence county is in a quandary. She does not know what to do with the Italians. There must be something done, for the county cannot stand the costs from this on. There have been two Italian murders with-in a short time. One of the men got away, and there was quite a sum spent on him, but

this one is in iail. this one is in jail.

A year ago there were the Italian riots at Carbon and the county paid the costs. It has been this way all along. On George street, this city, the larger portion of the dusky foreigners exist. Some houses have as many as 20 Italians living in them. There is one house rented by an Italian named Rossendi, which is occupied by three families, and there are only four rooms in the house. The Italians who work here make from 95 cents to \$1 30 per day, and it costs each man less than 25 cents per day to live. The surplus money always goes to Italy. The Italians make no pretense to disguise this because he is patriotic and feels that his own country is the only one

n earth.
This Italian murder case which is to be tried in this county, in September, has de-veloped a new phase of Italian character in that all the four who were with the murdered man say that the murderer Bennett is to blame and that he laid in wait for his victim. Nearly all Italians will stick logether and this surprises all.

CARRYING OIL TO THE COAST. The Standard Oil Company Laying a Six-

The idea is to get cheaper transportation of oil from Western to Eastern markets. This is a good boom for the sections along which it runs, as the company are paying liberally for the right of way and extra good wages for hands. They are erecting pumphouses every 50 miles, and will locate one near Marklevsburg.

The firemen almost lost their lives hunting for the men almost lost their lives hunting for the inmates of the house, and found out afterward that they had been gone several days excepting the doctor. The furniture had been all moved and the doctor's library was boxed tightly. The discovery that the premises were heavily insured, and the fact that kerosene oil had been plentifully used, made so plain a case that when the doctor came around to look at the debris, he was arrested and jailed on the charge of arson.

The doctor's son has also been arsested. Dr. Stalzer has been in court a number of times on charges of attempt to kill, etc. He graduated at the Cleveland Medical College, and built something of a reputation as cancer doctor.

VERY CURIOUS DISCOVERY IN SYRIA

Southern Europe.

LONDON, July 6.-The social season which is now at its height has been the most ostentatious and extravagant within the memory of London. Its vast crushes, its preposterous demands upon vitality and time, and its prodigal scattering of fortunes, reminds one much more of Paris in the last days of the Second Empire than of anything one could imagine as happening in the England, of the Vic torian age. Oddly enough, one hears the same defense advanced by the natives now which Frenchmen gave theu-that it is all the fault of the Americans who come over with enormous sums of ready money, and with this wealth and their superior boldness captivate royalty and set impossible stand-ards of expenditure. Truth this week con-tains a bitter complaint about the way in tains a bitter complaint about the way in which Americans are taken up by the Prince of Wales to the prejudice of English ladies, and this is only a reflection of what is being everywhere said.

Under whatever incentive, feminine toilets have this year reached a hitherto unheard-of luxury of costliness. Natural flowers have been entirely discarded for imitation blossoms made of jewels. At a State ball last eyening Lady Brooks had a Nile green satin dress veited with

The Duchess of Leinster had serpents of diamonds coiled all over her bodice and others erect and rampant on her shoulders. Chains upon chains of these precious stones were about her threat and arms. her throat and arms.

Nothing like it has ever been seen among English women before. Although this is the coldest and rainest summer within memory, the dresses are cut lower than ever under this new regime of luxury, and skirts are pulled so tight across the hips that there is room for only a single thin silk petticoat, with the result that all the West End physicians are doing a roaring

LONDON, July 6 .- Last night the police men of the Bow street station refused to go out on duty because a constable who had taken a prominent part in the agitation for the improvement of the condition of the police force had been removed to another district. Eventually this constable was reinstated, and the Bow street men returned to duty.

To-day 49 of the recalcitrantapoliceme were suspended. The others went on duty to-night. As the men left the station house for their respective posts they were hooted at by the crowd that had gathered outside.

DEATH FROM AN INJURY.

AN ACCIDENT TO BRAKEMAN KELSO, OF THE B. & O., PROVES FATAL. Peculiar Escape of Two Southelde Men-A Pleasure Seeker Gets a Broken Leg -A Fatal Fall From a Scaffolding at

Bauerlein's Brewary. J. H. Kelso, 32 years old, employed as a brakeman on the Baltimore & Ohio railroad, died vesterday morning at the Homeopathic Hospital from injuries received short time before. It seems that Kelso fell from a car at Whitehall station, and alighting under the cars, both his legs were cut

off close to the body. One of the escapes from instant death that seems to border on the miraculous took place yesterday evening about 7 o'clock at the head or South Tenth street, on the Pittsburg, Virginfa and Charleston Railroad tracks. At that time Louis Wentzel, and another man whose name could not be learned, were walking down the tracks in a leisurely man-ner, gazing admiringly at the beautiful was completely absorbed in this pursuit they did not hear the approach of a city-bound

passenger train.

The engineer expected momentarily to see the men step off the track, but before he see the men step off the track, but before he relinquished his expectation, the train was upon them and two frightened men were flyupon them and two frightened men were flying through the air that overhung the tracks. The train was stopped, but before the train men could reach the men whom all supposed to be dead, one of them scrambled to his feet and sped down the track as if pursued by a demon. He did not once turn his head or stop to see what had so suddenly shocked him, but kept straight ahead. The other man gave his name as Louis Wentzel, and his residence as No. 1013 Marion street. He was slightly hurt about his right leg, but declined the services of a physician tenered by Special Officer Wiesally.

McAleese, it appears, managed to find an open speak-easy yesterday, and, after filling himself with liquor, went to his boarding house, on Smallman street, where he tell against a stove and cut a gash in his forehead about five inches long. Dr. Sands was called and the prisoner's wound sewed up.

CONVICTS ON A STRIKE. They Are Making a Loud Protest Again

New Measurement Law. PEPECIAL TELEGRAM TO THE DISPATO BOSTON, July 6 .- All day long th victs in the State prison at Charleston been yelling as loud as they and they propose to keep they say. They are in rebellion, against the warden so much as against the warden so much as against passed by the last Legislature, ing that all convicts be measure French or Bertillon system. Ward n Russell started on Saturday to measure the men and 15 were put Spain's New Cabinet Protectionists.

MADRID, July 6.—The new Cabinet is composed of extreme Protectionists. It will read the new law to the men to-day and read the new law to the men to-day and read the new law to the men to day and some of them said they wanted to ask questions. Shortly after noon the convicts began to yell, and as the day wore on the noise increased in volume.

A great crowd gathered about the prison, and learning of the cause of the men's outbreak evidently sympathized with them. This brought out the police, who dispersed the crowd. At midnight the yells were still making the night hideous. Some of the lawyers among the prisoners say that the law, having no penalty attached, cannot be enforced, and ask that they be allowed to appeal to the Supreme Court for a decision. Warden Russell will not grant this request, and says he is there to enforce the law and that he will do so and go on to-morrow examin-

BRUTALLY KILLING FOREIGNERS.

One of the Sluggers Dances 2 Can Can on the Body of an Innocent Victim.

WHERE MOB RULE REIGNS SUPREME

PEPECIAL TELEGRAM TO THE DISPATCH. WILKESBARRE, July 6 .- In some portions of the coal regions the Hungarians, Polanders and Italians, especially the new arrivals, lead a miserable existence. They are continually in dread of their lives, and their enemies are the hoodlum element, who delight in maltreating and even murdering the inoffensive foreigners. This hoodlam ement is made up of the descendants of all ationalities. They are generally young men ranging in years from 16 to 25. In

known is "the Sluggers," Their greates pastime is the study of prize fighting liter In the cities and larger towns the authorities will not permit the young ruffians to gather in a body, but in the small villages they have full sway. They generally have their own shanty, a small frame structure, which they build themselves. The furniture consists of a few chairs and card tables. The walls are adorned with the champions of the prize ring. In the evening the toughs stay in their shanties and play cards

and drink beer. BUY THE BEER BY THE KEG. Each member is assessed so much. The one who acts as bartender for the evening gets his beer without any admission fee. After the beer is consumed the rowdies start for their homes. They generally raise pellmell, breaking windows, shooting dogs and destroying property. No one dare molest them for to incur the enmity of the "gang," means exile or persecution of the worst

If the "sluggers" take a distike to anybody in the neighborhood they send him notice that he had better go elsewhere, as the place will be too hot for him. If the offending party does not move out of the village, some night he or some member of his family is beaten into insensibility. The poor Hungarian Polander who falls under the ban of the "sluggers," if he escapes with his life he is mighty lucky. On Thursday night last an industrious young Hungarian met his death at the hands of three Lucerneborough "sluggers." Lucerneborough is a mining hamlet situated five miles from this city.

A TOUGH LOCALITY. The inhabitants are very rough and the appearance of the town would give a stranger the impression that he had struck some far Western mining camp. The men sit around the barrooms coatless and hatless and talk sport. On Thursday night the sluggers of Luzerne started in early to cele-brate the Fourth. Shortly before midnight the streets were crowded with drunken men. John Sweeney was one of the men who was drunk. Two companions named Boy-land and McGuire tried to get him home, On the way they met George Wardzig, a Hungarian, who was on his way to sum-mon a doctor for a sick man. The two halted him and without a word of two haited him and without a word of warning one of them dealt him a blow on the head which fractured his skull. The Hungarian dropped in the roadway. One of his assailants then proceeded to dance a can-can on the prostrate form. Sweeney is now in jail and will have to answer for the

murder.

At Sandy run, a week ago, a Polander was waylaid in a similar manner by two "aluggers" who took offense because the Polander would not give them a chew of to-bacco. At Beaver Meadow four "sluggers" beat three Italians almost to death. It has got so now that the foreigners will not leave their houses after dark for fear of meeting

The Population of tibnay Rated at Least 12,000 Too Low. PRECIAL TELEGRAM TO THE DISPATCH. ALBANY, July 6 .- Mayor Manning has become alive to the fact that the population of Albany is not so great as she figured it would be. To-day the figures for Albany were sent out from Troy, where the head office of this district is, and the figures are 12,000 less than the police force nade in a census taken two years ago. Mr.

Manning became so exercised over the mat-ter that he sat down and penned a telegram to the Superintendent of Census at Washington.

This is what he burned the wires with: "Supervisor Derrick states Albany's population at 92,468. Are these the figures o station at 52,400. Are these the figures of your bureau? If so, citizens of Albany are entitled to an immediate recount. Our police census in 1888 showed city's population 102,-909. City directories, election returns, Board of Health statistics and building records all show increase. It has been notorious here that whole families have been mitted in the recent census. Pleas
