### The notion of a big profit on clothing dies hard. Mean quality doesn't know its own value. Up till now it thought to squeeze through on customary hurrah.

### It's not so easy to compete with low prices for our dependable make. You know good clothing when it wears a Wanamaker guarantee.

### But, we've lower prices still, now. On broken lots prices that'll take 'em.

### Why do the patients cured by the catarrh specialists, at 228 Penn avenue, ALWAYS SIGN THEIR TESTIMONIALS, as they appear in the daily papers. Because it is absolute proof even to the most skeptical, that the testimonials are genuine, and that the patients were really cured.

### DISGUSTED WITH DOCTORING.

### Mr. Frank J. Mason, living on Dearborn street, Nineteenth ward, and near the Allegheny Cemetery, and who is employed at the La Belle Steel Works, in Allegheny, has been permanently cured by the above specialists. He had an offensive discharge from his nose and a dropping of catarrhal mucus into his throat, which became very annoying and he had to raise out. His throat became irritated and sore and hurt him to swallow. He had pain in his forehead and frequent nose bleed. As his

### disease became deeper seated it attacked his lungs causing much pain in his chest and a violent cough. In fact he coughed night and day, and at night his cough was simply terrible. He could get but little sleep, and would often wake up with such a smothered feeling he could scarcely get his breath. He had no appetite, and what little food he did eat he would feel like vomiting up. The gas that formed in his stomach after eating gave him great distress. He lost flesh, and his lungs became so weak he could not lie on either side. Every change of weather would cause him to take cold. Night sweats further weakened him until at times he was unable to do any work. It was while in this condition that he began treatment with the physicians of the Catarrh and Dyspepsia Institute. He says: "My disease was of six or seven years' standing, and the above history of my case is true. At first I noticed that my nose and throat would clog up in the evening, and I thought I was taking cold. I treated with several doctors, but got no better. I became disgusted with doctoring, for it seemed as if I never would be cured. Finally a friend advised me to try the physicians of the Catarrh and Dyspepsia Institute, at 228 Penn avenue, as his wife had been cured by these doctors. This gave me some hope, and I decided to take a course of their treatment. I improved from the first. I now feel well and strong, and shall not further describe my case and permanent cure by these specialists."
