IRON TRADE REVIEW.

Prices Are Unchanged, but the Hot Wave Has Had the Effect of

CUTTING THE NUMBER OF SALES.

Bettlement of the Southern Strike Has Caused a Resumption.

THE MARKETS BOTH EAST AND WEST

The situation is practically as it was a week ago. The intensely hot weather of the early part of the week had the effect of diminishing sales. Many of the workmen at the puddling furnaces were knocked out by heat. At the Edgar Thomson works almost a dozen succumbed to hot weather, and one died on Tuesday from the effects of heat. Demand is uniformly light at this season. While there is no material change in prices, there are always holders at this quiet time of the year disposed to cut on market rates, being forced to do so by their

Said one of our leading iron brokers yeterday: "We are now having our regular midsummer lull, and the transactions are light. But there are always a few at this season who will cut prices in order to replenish their treasuries. Markets, however, are steady at last week's prices, and all signs point to better prices when trade revives, as it will do in the next 30 days, according to

Another said: "We are having a quiet sort of waiting market, and, while there is is no telling what the future will bring, I have little lears of a drop. The McKeesport trouble with iron workers announced in to-day's DISPATCH has had a depress-ing influence in a slight measure on trade. But the outlook is as good as it ordinarily is at this time, and I look for a revival and active demand before the first of August."
Cut nails are steady at prices of last week. Wire nails are active at a shade higher prices than have prevailed of late. Rails are in good demand. The Edgar Thomson Works have orders on their books sufficient to absorb their entire product until fall. Wire rods are very active at higher prices than last week.

REVIVAL IN THE SOUTH,

The Settlement of the Strike Han Caused Resumption of Operations.

SPECIAL TELEGRAM TO THE DISPATCH. BIRMINGHAM, ALA., July 11 .- A general strike of the coal miners in this district having been averted, to the surprise of everyone, the fernaces are starting up again and there is some revival of the iron trade. Anticipating a strike half the fornaces in the district went out of blast last week, and there was little or no iron selling. The miners having signed the old sliding scale the wage question is now settled

The feeling that prices will advance within 30 or 60 days is very general here.

No big orders have been received and few contracts made since the first, but enough small orders for immediate shipment are coming in to prevent an accamulation of surplus stock. None of the furnaces in the district are selling their entire output now, but they are satisfied to stack up somewhat in anticipation of better prices a little later on. they are satisfied to stack up somewhat in anticipation of better prices a little later on.

The Mary Pratt furnaces, owned by a company of the same name, was recently sold to a new company called the Pratt Coal and Iron Company. Some of the minority stockholders of the old company went into court and obtained a temporary injunction preventing the great regularity, and the minerity stockholders are probably afraid that with increased capital ock and largely increased expenses these div ends would not continue to be forthcoming. AN ADVANCE YESTERDAY.

Philadelphia Manufacturers Put Up the Price on Several Features.

(SPECIAL TELEGRAM TO THE DISPATCH) PHILADELPHIA, July 11. — Manufacturers advanced the price of angles, tees and bars I-life per pound to-day. The mills have orders which will keep them busy until September I, and the good demand for structural material warrants the advance. Pig iron is not in so brisk a demand as it was last month, a number of the mills which consume pig metal having shut down either on account of the July holiday, hot weather or of the July Rollay, hot weather or repairs. Furnacemen are still quoting the old figures, \$16 per ton for No. 1 foundry, \$17 for No. 2 and \$16 for gray forge delivered at tide. The young men who went to London for the purpose of solling to Englishmen half a dozen mills and furnaces in the Mahoning valley in Oilio have cabled home that the deal is off. Sired rails continue in good request, some of light weight selling up to \$28 per ton. but \$31.60 632 00 is the general price for beavier rails at the mill. Muck bars are irregular around \$28.50 622 00 at the mill.

22.60 at the mill.

The market is bare of old rails, which are nominal at \$25 in Philadelphia. Bar iron is in light request at 1.8021.85c for the best refined. Grooved skelp is worth 1.75c per pound and sheared 1.8062.65c delivered. There is a fair inquiry for plates at 2c at the mill, but holders are asking prices fractionally higher. Quotations on iron and steel respectively are: Ship plates, 2.1022.15c and 2.2022.46c; tank 2.1022.15c and 2.5022.46c; tridge, 2.1522.25c and 2.4022.56c; shell 2.4022.50 and 2.5022.75c; flance, \$2.815c and 2.8020c; firebox, 2.75c and 3.7524.25. MINNEAPOLIS—Wheat receipts for the day were 60 cars: shipments, 51 cars. The cash wheat market was strong and active until the break came in futures, after which it was rather doil. ENCOURAGING SYMPTOMS.

Good Trading in Home Securities and Values Firm All Round. Everything points to a steady improvement in stock trading from this time forward. July disbursements are being scattered around and seesing investment. New orders for securi-ties are said to be coming in daily. The market

yesterday was strong and active, showing that it had received a fresh impulse from some quarter. The feature of the day was the reaction in Westinghouse Electric, sales of which aggregated 220 shares, with the demand largely unsupplied. Henry M. Long started the buying, been sold by W. A. Herron & Sons, and and the rest of the crowd at once ran the price up on him. The first sale was at 3614 and the last at St, which was the closing bid. Twenty-five dollars per 100 shares was offered for the privilege of calling at 40 this mouth.

Philadelphia Gas advanced to Sil4, receded a fraction and closed at 3ll4 bid, with more wanted than offered. Luster was stronger. A small lot brought 1994. It closed at 19, Bridgewater submitted to a slight concession. The tractions showed very little change, but may be fairly quoted as a trifle weaker. There was an offer of Si for structure.

Gain of a Cent, With a Strong Close and Good Trading. The oil bulls were in clover yesterday. The market was strong and active. It went up from the start with a reaction of only 1/4 of a from the start with a reaction of only ½ of a cent. The opening and lowest were 87½, the highest 89 and the closing 83½, showing a gain of 1 cent for the day.

All the outside exchanges were buyers. Pittsburg sold. Sproul & Lawrence and A. H. Gross marketed quite a jag. Thursday's clearances were 124,000 barrels. It begins to look as if an upturn is in the wind and bullish conditions beginning to be respected.

GOLD SHIPMENTS.

They Have Only Temporary Effect in Wall Street-Bears Find Little to Work On-Nearly Everything on n Higher Level.

NEW YORK, July 11 .- The selling movement of last evening, induced by the order of \$1,000,-000 gold for export, was of extremely short duration, as it began and ended within the half seur of business left out of the afternoon. This morning there was nothing to be seen of it, and prices at the opening here were up from 1/2 to % per cent, although London figures were rather heavy. The shipment of gold could only affect the values of stocks and bonds in case of a scarcity of money here, and in view of the receipts of funds from the interior and the heavy expenditures of the Government, which are stated at about \$6,000,000 over its receipts so far this month, there is a general ex-pectation that the bank statement of to-morrow will show an entirely different state of affairs from that of last week. The suspension of specie payments in the Argentine Republic and in Uraguay is ex-

Argentine Republic and in Uraguay is expected to do away with the necessity for gold there, and the feeling in London is reported as much easier, to which the action of the governors of the Bank of England largely contributed. London houses were not sellers of stocks to-day, and some purchases even were made for foreign account, which, with the better outlook for the passage of the silver bill, gave the bears little to work upon this morning. A vices from the West also indicated a better state of affairs in that section as regards the probability of a settlement of the existing railroad differences. Sterling exchange was higher, but several firms mentioned as likely to ship gold said that they would not do so this week, as no large remittances are called for week, as no large remittances are called for and exchange is as yet cheaper than gold, exweek, as no large remittances are called for and exchange is as yet cheaper than gold, except on large remittances.

The sellers of yesterday afternoon, therefore, were looking for their stock again this morning, and while there were few other buyers, the demand was brisk, especially for Lackawauna, St. Paul and Atchison, though the further gains over the opening prices were generally slight. Toward noon the trusts again loomed up and became the features of the trading. Sugar displayed some of its old-time animation and strength, moving up about 3 per cent, followed by Chicago Gas. Other stocks followed later, and Louisville and Nashville, New England, Northern Pacific preferred, and some others were prominent for the advances made.

Another engagement of \$500,000 gold for export in the last hour failed to have any appreciable effect, and the market closed dull, but firm to strong at the best prices of the day. There were several sharp movements among the specialties, and the Chicago and East Illinois stocks were conspicuous, with Mobile and Ohio. The list this evening is almost invariably higher, and Chicago and East Illinois is one to the common 1½. Louisville and Nashville 1½, Northern Pacific preterred 1½, Mobile and Ohio 1½, and Rock Island, Missouri Pacific, New England and Lackawannal per cent each.

The railroad bond market was more ani-

Missouri Pacific, New Eugland and Lackawannal per cent each.

The railroad bond market was more animated, and for the first time in weeks the total sales extended to over \$1,00,000, while the Mobile and Ohio 4s and Mackinac and Marquette grants were active features, the former furnishing \$165,000 and the latter \$105,000 to the total. The first named bonds were also the strong feature of the day and led the advance with a gain of 23% per cent to 67. The general list was only steady to firm, but Kansas City and Omaha 1sts rose 2 to 88 and San Antonio and Arkansas Pass 868 2 to 77. There were a few unimportant losses. few unimportant losses.
Government bonds have been dull and with-out feature. State bonds have been entirely

neglected.

The Post says: There are large banking concerns in London who are interested in the marketing of South American loans, and especially those of the Argentine Republic, and

gold from the Bank of England to send to Buenos Ayres and Montevideo, the Bank of England would at once raise its rate of discount to 5 or 6 per cent, and this would cause a decline not only of "Argentines," but of all other securities. It is probably in view of this alternative that the London banker interested in the marketing of "Argentines" and "Brazilians" have chosen to draw the gold from New York and stand the small loss shown over the shipment by the rates or exchange.

THE SUNDAY DINNER.

Choice Edibles and Prices at Which They Retail-Melous Chenper and Berries Higher - Eggs and Butter Slightly Advanced.

At the Diamond Market fruit and vegetable stalls a fair week's trade is reported. Supply of raspberries and blackberries has fallen below general expectations and prices are a shade higher than last Saturday. The first huckleberries of the season have put in an appearance this week. Meions are in full supply and should be bought at a shade lower prices than last Saturday. Currants are scarce and firm. The housewife who fails to secure the needful The housewife who fails to secure the needful supplies of berries and currant this week has missed her opportunity. The lowest prices this season are a thing of the past, and by another week the berry season will be nearly over in this section. Home-grown raspberries are now at their best, and the yield is not likely to reach general prognestications. In a jobbing way, butter, eggs and poultry are a shade nigher than last Haturday, but the advance has not been sufficient to make much impression on retail markets.

been sufficient to make much impression on re-tail markets.

The supply of ocean products has not been up to demand the past week. Eastern fish are very scarce. It is utterly impossible to meet demand for frogs. There are scarcely any in the market, Boft shell crabs are also very scarce and prices have advanced. Florists re-port a quiet week's trade, with no change in prices. Staple meats rarely change, whatever the fluctuations of live stock. Our tenderloins and fancy rib roasts are as expensive when beeves cost \$4 per 100 as when the price is \$6. The benefit of lower priced beeves is enjoyed by those who induige in boiling meat. Fancy cuts have not varied in the past two years, though cattle have dropped in that time \$2 per 100.

Following are the latest retail prices of mar-Staple Meats.

The best cuts of tenderloin steak range from 20 to 25c, with last figure for very fancy; strioin, best cuts, from 15 to 18c; standing rib roast, from 15 to 20c; chuck roast, standing rib roast, from 15 to 20c; chuck roast, 10 to 12c; best round steaks, 12½ to 15c; boiling beef, 5 to 8c; sweet breads, 20 to 50c per pair; beef kidneys, 10c apiece; beef liver, 5c a pound; calf livers, 25 to 35c apiece; corned beef from 10 to 12c per pound. OFFICE OF PITTSBURG DISPATCH, }
FRIDAY, July 11, 1800. Country Produce-Jobbing Prices. Receipts of stuff are still short of demand Markets are very bare of potatoes and prices are drifting higher. A leading commission man expressed the belief to-day that potatoes would go to \$5 per barrel within a few days Supply of berries is still below demand. Home grown raspberries are now to the front. Currants are scarce and higher. Huckleberries are coming in more freely. Fresh eggs are very scarce and very firm. Choice dairy products are steady. It is not often that produce commission houses are as bare of stuff at this time of the year. Trade is quiet, for the good and sufficient reason that there is little to sell. Most of the commission merchants are entirely Most of the commission merchants are entirely out of potatoes. The home-grown crap should be at the front in the next week. In tropical fruit lines, lemons are active and firm, oranges quiet, and bananas steady.

LONDON—At the wool saies to-day 10,119 bales, comprising a good selection, were offered. There was a good attendance, and the competition was animated. Cross-breds were in improved demand, sometimes at ld advance on the earlier rates of the series. Foreign buyers competed for merinos. Cape of Good Hope and Natal wools were in steady request. Snow writes sold at 1d advance. Thus far 12,500 bales have been withdrawn.

The same state of affairs that have existed since the beginning of the week, remained un-changed yesterday. Only one light boat arrived at the wharf with a small load of freight, which it carried from Wheeling for the Cin-cinnati boat. Word was received from Davis by Sunday it is expected that they will be up. It has been suggested by a great many that the dredge boats should be put to work now, that the river is down and clear out the bars between Lock No. 1 and the Sixteenth street bridge. These bars are directly in the channel and have caused a number of boats to ground within the past few days and every boat that gets stuck it makes the obstruction much larger. Several bars have been turned up in the Ohio below Dayis Island since the water went down. Two boats have already got caught here. From these statements it seems that dredge boats could be put to some practical use just now. The river was still failing slowly last night, and the raising of the dam made no material change in the stream as yet. It is expected, though, by tomorrow that there will be about eight foot above the dam. The marsh showed at 8 at M. one-sixth and at 5 o'clock it was one-fourth on a mark creeted by one of the boat lines. Complaints were heard on all sides about the bad condition of the marking stone below Market condition of the marking stone below Market street below the two-foot mark. It has been
