Strange forms and faces are crowding all the coling-off places detting the Atlantic coast from Cape Cod to Hatteras. Mine host is banking big profits and making guests more comfortable than he would were their numbers limited and purses lean, "August business" in July is the cry from all quarters. But there is room for more, and all who are getting ready for an outing can find pleasures and a warm welcome awaiting them at every jumping-off place.

## ASBURY'S GREAT WEEK.

Some Excising Events and Big Conventions -Color Line on the Beach.

In Ocean Grove the special summer gatherings are now under way. To-day the National Sons of Temperance are in sension, with prominent men and wemen as delegates from all the States of the Union and all the provinces of Canada. Thursday evening a public meeting was held in the great Auditorium on the camp ground. Hon. George M. Foster, Minister of Finances of the Dominion of Canada, delivered as eloquent oration, which was followed by an address by F. M. Bradiey, the Superintendent of the "Royal Crusalers" of Washington, D. C. The early part of the week was given up to the convention of the New Jersey's Woman's Christian Temperance Union, conducted by such noted women as Mrs. Mary T. Lathrop, President of the W. C. T. U. of Michigan; Mrs. Sarah J. C. Downs, President of the W. C. T. U. of New Jersey; Miss Mattie O. Waters, of New York; Mrs. J. K. Karney, of Rhode Island; Mrs. Mary F. Burt, President of the W. C. T. U. of New Jersey; Miss Mattie O. Waters, of New York; Mrs. J. K. Karney, of Rhode Island; Mrs. Mary F. Burt, President of the W. C. T. U. of New York; Duly 30 the tenth National Temperance Camp Meeting will be held at the same place, the Ocean Grove Camp Ground. So it seems that Ocean Grove is fairly overrun with temperance as mabiles this summer. with temperance assemblies this summer.

The Ocean Grove Sunday School Assembly began to-day and continues ten days. Tall consists of a branch of Chautauqua, and Chautauqua students from all parts of the country will attend the lectures and examinations, receive their seals and diplomas.

BACE PROBLEM ALONG THE BEACH. During the extremely hot weather of the past few days the bathing grounds have been througed with thousands of people, ranging in age from 4 to 75. Coloned people are employed here in large numbers and the past seasons here in large numbers and the past seasons have witnessed much difficulty and embarrasement on the part of the authorities of Ocean Grove and Asbury Park is keeping the colored element in its place. As soon as their light duties were over they througed the ravillies, beach promenade and all the popular public places until complaints became immunerable and very serious. The white visitors demanded that the rooks and waters and either "Lado" he the the cooks and waiters and other "help" b kept out of their way, and, in the effort to re mary restrictions. READING'S IMPROVEMENTS.

Referring to a statement to last Sunday's letter regarding an extensive improvement contemplated by the Reading read, it can new be authentically stated that the franchises peti tioned by that corporation have been granted by Councils. Having purchased the new year by Connetia. Having purchased the new iros play, which was greatly comand last Reptember, it will be substantially rebuil, and strong approaches made to it from the feed of Connection avenue. The land which the company search embraces an overal frontage extending from Connecticut avenue to Runde Island, a distance of two blocks. How far toward Pacific avenue will be bought in by the newpany, become what they have actually pindiged their selves for, and which they must necessarily have, can only be decided when they know how much they require and what they will have to pay for it. Since the great scheme has become public property, land has become and caused a great deal of real exists to change hands in the last two weeks. The Reading has not yet divelged its plans. It is runered, however, that every Councilman was assured before he voted upon the ordinance that the outlay for imprevenses should not be less than \$500,000, and that a hotel of great magnitude—as compared with those now great magnitude—as compared with those not on the beach—should be one of the features.

REINING & WILDS.

"A letter for me? I wonder who it's from How many of us have heard this and similar emarks from ladies of our acquaintance, and low many of us have watched the pretty fingers fondle the missive, turn it this way and that, and watched the fair recipient examine the postmark, stamp, chirography, and hold it up to the light as if to determine whether fresh or not, as experts do with eggs, all the time spec nlating upon who wrote it-mother, Frank, Mame, Marguerette or Nan-and what news, good, bad or indifferent, it contains; whethe the long promised visit of the darling girl friend is soon to be paid, or mother is ill, or Nan's baby has the whooping cough and she wen't be able to join the party in the mountains, or whether Frank is up to his ears in business that will prevent his running up for that brief breathing spell he had been anticipating! Then with what a little flutter of exitement the seal is finally broken and the con-tents read with many an exclamation such as, "Oh, just listen to this," while some particular interesting passage is read aloud to those around: or "Did you ever hear the like! Mother says so and so," all of which makes the receiving of a letter by a woman an event of considerable interest, not only to herself, but to those who happen to be with her when the postman arrives, unless she decrees it other wise and runs off to her own apartments to read both what's written and what isn't written between the lines, but even in that case there is such a charming little halo of romance about it that it's a pleasing incident.

How very different it is with men! How provokingly mater-of-fact and prosaic they are about their correspondence, and how very selfish they are—won't even give a person an idea of what's in a letter nor who it's from enthuse, as it were.

How the Politician Does It. Illustrative of that point was a scene I wit nessed one day last week when an active poli-tician received and opened a bunch of letters, without moving a muscle of his face, and the bunch was large enough to have effected a mental and emotional cyclone with a woman. They were of all sizes and descriptions, large and small, and medium, square and oblong, white, cream and yellow, and four of the et

sion all the week at the Stockten Hotel. Over the cocket please and so home to the society please and so home to the society please the society pl hat man. In the most methodical manner possible did he take the steel letter opener, and, without a bit of speculation, insert it and cut the envelope from corner te corner while he unfolded the letters and perused them all to himself without even an ejaculation. Howher so much pleasure and she would have given him a lesson in appreciation, but if the latest degree in fashionable stationery is adopted the delight a woman has in speculation upon the receipt of a letter will be confined to what it contains and not to who wrote it for on

CAPTAIN SHANNON, of the Washington In" fantry, has suspended the weekly drills of the company until September on account of the hot weather. ALEXANDER J. BLAIR, Second Lieutenant

of Company C. Twelfth Regiment, has been discharged under the provisions of section 31 of the military code. COLONEL CHAMBERS MCKIBBEN and Lieutenant Charles E. Brown, both former mem-bers of the Eighteenth Regiment, will spend a few days at camp next week, as the guests of the headquarters officers.

THE vacancy on the staff of the Eighteenth Regiment, caused by the resignation of Sur-geon W. T. English, has been filled by the ap-pointment of Dr. W. F. Robeson, a prominent young physician in this city. ABOUT a dozen applicants for commissions appeared before the Second Brigade Examining Board, at the Seventh Avenue Hotel, last Monday night. All the gentlemen are presumed to have passed the test satisfactorily.

BATTERY B has decided to leave for camp next Saturday morning at 7:30 A. M. The guns and other heavy material will be loaded to-morrow afternoon in five gondola cars at the metal yard, corner of Eleventh and Liberty streets. CAPTAIN J. P. SHEBWOOD, of Company B, Tenth Regiment, Second Brigade, N. G. P., has furnished the members of his company with military shoes for the camp at his own expense. Company B ranks as the first company in the Tenth Regiment.

purpose of inspecting armor plate iron in course of construction at the Linden steel Works. There are now about a dozen naval officers stationed in this vicinity on inspection details. CAPTAIN THOMPSON, of Company G. Four teenth Regiment, has issued an order requiring all members and ex-members of the compan-

to turn in any State property in their possession on Tuesday evening, July 15. Members refusing to obey this order will be open to proceedules by law. MAJOR W. W. GREENLAND, Quartermaste of the Second Brigade, spent a portion of the past week in the East, looking after the details of the camp work. It is understood there will be quite a scarcity of inc on the grounds next work, and the issue to the various commands will be consequently small.

As THE Eighteenth Regiment will be one of the brat to arrive on the camp grounds, Col-onel Smith has received word that his regi-ment may be inspected next Saturday should be desirs. The fact that but five days can be used in which to inspect the course dural, has made the Adjutant General a triffe anxious as to how the matter can be worked.

ABOUT 250 men turned out Thursday evening for the last battalion drill of the Fighteenth Regiment prior to leaving for camp. The Eighteenth has had the benefit of more drills of that character this year than any other regiment in this end of the Matta, and a consequent good showing is expected in battalion movements at inspection next week.

THE several companies of the Fourteent The several companies of the Fourteenth Regiment will leave for camp next Saturday evening at P. M., Company F Joining the rest of the regiment at East Liberty, Captain A. G. Tim, with a detail of ten men from each company, will leave on Thursday evening in order to prepare the camp before the arrival of the regiment. All the heavy baggage of the regiment must be loaded Thursday afternoon, July 17. THE resignation of Lieutenant Horace Low-

ry, of Company E, Eighteenth Regiment which was tendered to Colonel Smith some which was tendered to Uclone! Smith some time ago, has been returned with the indorse-of General Wiley that Mr. Lowry is too valuable an officer to leave the Guard, and it is hoped he will reconsider the matter. Mr. Lowry will probably proceed to camp with his regiment, and after that time in all probability some changes in the company will take place that will rander his resignation unnecessary. COLONEL SMITH, of the Third Regiment, has had the recruiting order of 80 days' limit re-voked in the case of his regiment, and will con-tinue to enlist men up until the hour of leaving for camp. The cause of this change in the case of the Third is due to the followers of ex-Colonel

at Mt. Green forbidding ladies in camp this year at Mt. Green agot a black eye from Captain Hunt, of Battery B, at a meeting of the officers of that organization a few nights ago. The officers were going over the necessaries for mess at headquarters, when the Captain said: "Well, boys, how much headquarters' whisky do we want? I want to add here that this is a greater curse in the National Guard camp than any ladies were ever admitted. If they would make an order forbidding its use it

Place, but now of Salem, O., enjoyed a visit to would meet my approval quicker than an order friends here last week. THE latter part of this week all the organiza-tions in the National Guard of Pennsylvania will assemble at Mt. Gretna for the annual tour of camp duty. The camp promises to be an unusually interesting one from the fact that in addition to the 8,000 militia forces of the State, addition to the 8,000 militia forces of the State, about 1,200 regular troops will be on the grounds. That the National Government expects good results from the tour is shown by the fact that a number of prominent regular officers from all branches of the service have been detailed to be present for inspection numoses. The mingling of regular troops with those of the States has been found to be mutually advantageous, and as a consequence this year details from the sational army have been assigned to many of the militia encampments, Pennsylvania, however, receiving the greatest number. While most of the reguments will be on the grounds by next Saturday, the camp proper commences at 7 o'clock the following Menday morning.

There May be 50,000 People There One Day and Scarcely a Soul the Next. PAPECIAL TELEGRAM TO THE DISPATCH.] NEW YORK, July 12.-Notwithstanding the few days of excessively hot weather in June the real season at Coney Island was not fairly open until after the Fourth of July. People are very much like abeep. They hesitate, wait fer each other, then make a scattering and, finally, a plunge altegether. That is the way the New Yorkers tackle Coney Island. The hote men down there have about the most unique experience of any in their line of business Comparatively few people remain through the summer. Their quests are almost wholly transfert, Very transient, indeed, are the majority coming in the meriling and geing in the eventing and geing in the eventing. The result is that hotel and other profifs at Coney Island are the most uncertain quanti-
