## AT THE STOCK YARDS.

Price of Beeves Higher at Sources of Supply and Lower Here.

MARKETS GENERALLY WEAKER.

A Heavy Run at East Liberty and Concessions Necessary.

BWINE STEADY AND SHEEP HIGHER

OFFICE OF PITTSHURG DISPATCH. ? MONDAY, July 14, 1890.

The offerings of cattle at Herr's Island were below average in volume. There was a fair demand at about the same range of prices as last Monday. Drovers report that cost was 10c. per hundred higher than those on the market last week. There were no prime heavy beeyes on sale. Handy light butcher cattle were scarce, supply not being up to demand for this grade. Prime heavy Chicago beeves, of which there were scarcely any on the market, were quoted at \$5 20 to \$5 40; good to prime medium weights, \$4 65 to \$5; common to fair do., \$4 15 to \$4 30; prime light weights scarce and higher at \$4.40 to \$4.75; fair to good light weights, \$4.15 to \$4.35; low grade stock, roughs, grassers, stockers and feeders, \$2.50 to \$3.50. Fresh cows were dull and slow at \$20 to \$40

per head, Calver were in good demand at 5c. to 614c. per lb. for good to choice vealers and 35cc. to 45cc. for heavy grassers.

There was a large supply of bulls, and sales were reported at a range of \$4c. to \$4c. per lb.

Receipts from Chicago: I. Zeigler, 100 head;
L. Gerson, 94: L. Rothschild, 34; A. Fromm, 57;
J. B. Kennedy, 40. From Obio: Williams &

Sheep, Lambs and Swine. The supply of sheep and lambs was somewhat above the late average, and at the opening of markets buyers insisted on concessions from last week's prices. While prices were quoted the same as last Monday, drovers requoted the same as last Monday, drovers reported markets weak and a shade lower. Good to choice sheep sold at \$4.25 to \$5, with an occasional sale at \$6.25 for something very choice. Common to fair were sold at \$5.60 to \$8.00; yearlings, \$4.75 to \$5.50; spring lambs, \$4\(\frac{1}{2}\)c to \$6\(\frac{1}{2}\)c per E. Receipts from Ohio—C. Valbrecht, 75 mead: J. F. Crufkshank, 195. From Pennsylvania—J. Wright, 130 head; J. Reiber, 34; T. Bingham, 176; D. O. Pisor, 184; William Ganin, \$2: J. Bebler, 60; William McCreary, 134; Sanford & Langdon, 30. Total, \$65\$; last week, \$11; previous week, \$25. Needy & Smith were the owners of nearly all the hogs on sale. They report a fair to good market at \$1 10 to \$4.25. Receipts from Ohio—Needy & Smith, 242 head; C. Valbrecht, 4. From Pennsylvania—E. Wolt, 11 head; Sanford & Langdon, 7. Total, 252; last week, 333; previous week, 331.

There were 100 loads of cattle on the market at East Liberty yards this morning, against 72 loads last Monday. About one-half of the offerings were from Chicago and Indiana. The balance were country cattle from the near Western States. General quality was a fair western States. General quality was a fair average. There were no prime heavy steers offered, and the run of light, tidy butcher cattle was very short. The latter grade are what drovers term hanny beeves, and of this grade there has been a scarcity for some weeks past. There were more than enough 1,200-b beeves of a fair to good quality on the market to-day, but not enough primes of this weight to meet denot enough primes of this weight to meet de-

There were 196 head of cattle on the market There were 196 head of cattle on the market at Wood's Run yards this morning, of which 160 were Chicago, the balance from Ohio. There were two loads in the offerings weighing 1,600 hs and over which were called prime. Harkets were dull, but all were sold at a range of \$\psi\_1\$ to 5c per h. There were 395 sheep and lambs on the market. Sheep sold from \$\psi\_2\$ to 50 kg; yearlings from 5c to 6c, and spring lambs from \$\psi\_2\$ to 7c per h. There were no hogs offered. Until cooler weather swine will not be brought to Wood's Run yards, as there is no demand at this season of the year.

Buyers were present in larger force than be brought to Wood's Hun yards, as there is no demand at this season of the year.

Buyers were present in larger force than usual, but were slow to take hold. Markets opened slow at a decline of 5@16c from prices of last Monday, and there was a fair prospect that even greater concessions would be necessary in order to imboad low grade stock. Only prime light batcher stock held up close to prices of a week ago. The markets demonstrated the truth of what was said in last Monday's report, namely, that the advance then was altigether due to light run and not to any inherent improvement in values. Prices to-day are about where they were two weeks ago.

There were about a dozen leads of sheep and lambs on the market this morning, and prices were from 15 to 25 cents better than last week. A lew bunches of sheep weighing over 100 he, according to report, brought \$5.90. These were, however, very fancy, and outside the general range of markets. The number of hogs on sale was 16 loads, and markets were dull, with \$5.90. The range of the prices at the range.

\$3 90 to \$4 per cwt as the range.

Top prices at Chicago this morning were \$1.85 to \$5.90, according to advices received by one of our packing firms from their agent there.

Wheat in Fair Speculative Request, but Prices Regulated by Weather Conditions- Corn and Oats Bullish-Pork Tame and Wenk.

CHICAGO-Wheat-There was a fair specu lative business to-day, and transactions were based mostly upon the weather condition and crop reports. The bulk of the trading centered in September. The opening was 1/4c higher than the closing figures of Saturday, but eased off and declined under rather free offerings to lower for August, while other futures

closed the same as Saturday.

Corn was active, a large volume of business being transacted within a MCMe range. The

being transacted within a 140% range. The feeling developed was strong early, but later became weaker, recovered and closed near the top prices of the day. Bullish crep reperts were the leading factors. The market closed 1801% higher time Baturday.

Oats were higher at the opening, due to the advance in corn, and first sales were at an advance of \$60. A further appreciation of \$60 % a further appreciation of \$60 % was recorded on August and Reptember, but prices receded \$60%, and the close was quiet at about inside figures and a slight advance over Baturday's close for August and Reptember, A gain of \$60 for July and \$60 for May was recorded.

Mess Pork—Trading was limited. Prices for mear delivories were weak and 10020c lower, but January delivery ruled \$60 to higher, and the market closed steady at outside figures.

Short Rih Sides—Trading was fair and prices ruled about 25% higher, and the market closed steady at nuclaid figures.

## A BIG DIFFERENC In the Matter of Buildings Between Pittsburg and Philadelphia.

THE SOUTHSIDE FORGING AREAD.

but Oil Sticks in the Rut.

THE NEWS AND GOSSIP OF THE CITY In no respect, perhaps, is the difference between Pittsburg and Philadelphia more clearly defined than in respect of building. George W. Hancock, President of the Citizens' Trust and Tax Indemnity Company of the latter city, is of the opinion that the building boom there has arrived at a stage where a halt should be called, the supply of houses being greater than the demand, and any great increase would be dead stock. This means that Philadelphia is over-

It is different in Pittsburg. Although buildng is going forward at the rate of 5,000 or 6,000 bouses a year, the demand is far beyond the supply. A broker remarked yesterday, that he could rent 100 moderate-priced houses in a week, if he had them. Several other brokers said they had orders on their books for houses which they were unable to fill. A good deal of the demand is from outsiders, showing that population is increasing. This in turn, reflects ctivity in business, as it is the loadstone which

attracts. The prospect of a surfeit of houses in Pittsburg is so remote as to be scarcely worth con-sidering. The difficulty is to build fast enough to accommodate the demand. This is so urent that capitalists should accept it as a guar-

Improvement on the Southside. In no part of the city has the march of im-provement made greater progress within the past few years than on the Southside. This is more noticeable in the hill districts than in the settlements along the river; for, while it has been making haste slowly, the former have pressed onward with prodigious bounds. Hundreds of acres unimproved a few years ago have been subdivided, sold, paid for and built on. A view from Mount Washington presents the aspect of a continuity of houses, sovering hill, valley and slope, denoting a condition of thrift scarcely equaled on this side of the river. Mount Washington, Knoxville and Beltzhoover are emphatically "in the swim." Land values are stiffening, but it will be a long time before they will reach what are called fancy prices. This is an inducement to

The future is full of promise and even greater things in the way of improvement than have been accomplished in the past. Rapid transit will soon reach the hilltop districts and bring them into easy communication with the busi-ness centers. This will stimulate the demand for residence sites and augment building opera tions. A good feature of the activity is the ness element of the population, showing that it is not of the mushroom species, but practical and permanent. It is not a speculative move ment, but has the laudable object of making it as easy as possible for people of limited means to acquire homes where they will be surrounded with modern conveniences and refining in-

Wall Street Apparently Usaffected by the Passage of the Silver Bill—Slight Advance in Pacific Mull—Rail-road Bonds Quiet.

New York, July 14.—The hopes of many sanguine bulls on the stock market were rather disappointed this morning when the stock market failed to respond to the final passage of the sliver bhan a fractional rise at the opening, which gave way to heaviness later in the day. The opening of the market, aided by higher figures from London, showed actances were Saturday's final prices of from ½, to ½ per cent generally, while the passage of the shipping bill opened Pacific Mall up 1½ per cent. Outside of Sugar Refineries, sliver certificates and some specialties, however, the further gains were entirely insignificant, and the temper of the speculation from that time was heavy, though the prevailing duliness and stagnation precluded anything like material losses, and the ciances in the general list, were confined to a slow wand list, were confined to a slow wand that the was heavy, though the prevailing duliness and stagnation precluded anything like material losses, and the ciances in the general list, were confined to a slow wand list, were confined to a slow wand the temper of the speculation from that time was heavy, though the prevailing duliness and stagnation precluded anything like material losses, and the ciances in the general list, were confined to a slow wand list, were confined t

DOMESTIC MARKETS.

OFFICE OF PITTSBURG DISPATCH. MONDAY, July 14, 1890. Country Produce-Jobbing Prices.

Potatoes are in better supply than they have been for a week past. While they sold readily on Saturday at \$4 50 per barrel for choice stock, there were no sales reported this morning at this figure. There is an improved de mand for choice creamery butter, and prices are a shade higher at sources of supply. Eggs are scarce and on the advance. The supply of raspberries is not up to demand, and markets are very firm. Blackberries are slow and dull. Said one of the Liberty commission merchants to-day: "Monday's trade has been quiet, but chiefly for the reason that receipts of stuff are light. Though receipts are larger to-day than for some time past, all that comes in the line of fruits and vegetables is promptly taken. Nothing choice in either line goes long without

Catarrh Reached His Lungs,

Mr. Frank J. Mason, living on Dearborn Mr. Frank J. Mason, living on Dearborn street, Nineteenth ward, and near the Allegheny Cemetery, and who is employed at the La Belle Steel Works, in Allegheny, has been permanently cured by the catarrh specialists at 323 Penn avenue, He had an offensive discharge from his nose and a dropping of catarrhal mucus into his throat, which became very tenacious and hard to raise out. His throat became irritated and sore and hurt him to swallow. He had pain in his forehead and frequent nose bleed. As his

disease became deeper seated it attacked his lungs causing much pain in his chest and a violent cough. In fact he coughed night and day, and in the night his cough was simply terrible. He could get but little sleep, and would often waken with such a smothered feeling he could scarcely get his breath. He had no appetite, and what little food he did eat he would feel like vomiting up. The gas that formed in his stomach after eating gave him great distress. Helost fiesh, and his lungs became so weak he could not lie on either side. Every change of weather would cause him to take cold. Night sweats further weakened him until at times he was unable to do any work. It was while in this condition that he began treatment with the physicians of the Catarrh and Dyspepsia Institute. He says: "My disease was of six or seven years' standing, and the above history of my case is true. At first I noticed that my nose and throat would clog up in the evening, and I thought I was taking cold. As I treated with several doctors, and got no better, I became disgusted with doctoring, for it seemed as if I never could be cured. Finally a friend advised me to try the physicians of the Catarrh and Dyspensia Institute, at 323 Penn avenue, as his with doctoring, for it seemed as if I never could be cured. Finally a friend advises me to try the physicians of the Catarrh and Dyspepsia Institute, at 323 Penn avenue, as his wife had been cured by these doctors. This gave me some hope, and I decided to take a course of their treatment. I improved from the first. I now feel well and strong, and shall be glad to further describe my case and permanent cure by these specialists.

"FRANK J. MASON."
