

TURNING WORK AWAY Local Pipe Manufacturers Compelled to Refuse a Big Order FOR A CHICAGO FUEL GAS LINE.

Pittsburg Capital Going into a Plant to Heat the Windy City. PRESIDENT GOMPERS HERE TO-DAY.

Some time ago THE DISPATCH published the fact that the wrought iron manufacturers of the city were crowded with orders and that the industry was never in an encouraging or promising shape as now, but it was not generally known at that time that orders were refused by the manufacturers because of an inability to fill them.

When Mr. Crane, representing the Chicago capitalists, came to this city, where he expected to have the greater portion of the material made, he found all of the mills overcrowded with orders. The National Tube Works refused to take any more orders on this account as did also the Pennsylvania Tube Works. Mr. Crane was compelled to virtually peddle his order, and the most he could get any one mill to undertake was 30 miles. That was taken by Spang, Crane & Co. A third of the entire order was left in Pittsburg, and the remainder was distributed among the Eastern mills.

ONE LARGE ORDER PLACED. It leaked out several days ago that a very large order for pipe had been placed, but the manufacturers kept the matter quiet, largely on account of the difficulty at the National Tube Works. A DISPATCH reporter called at the office of the American Tubular Iron Company yesterday. The general manager, W. H. Carroll, did not deny that a large order was being placed, but he declined to give the particulars, saying he thought it unwise to do so at present. The next call made at the office of the Pennsylvania Tube Works, the secretary, William H. Lathrop, furnished the above information.

It is not known how much capital the Chicago company has obtained, but it is composed of men capable of putting up almost any amount. It is the intention to carry gas from the Indiana fields into Chicago for fuel purposes. Some of the largest pipe makers of the city have already been let, and it is expected the lines will be laid to the Illinois State line by the end of the month. The order for the pipe will be created for the purpose of forcing the line into Chicago.

It is said that a lot of Pittsburg capital is being taken to the East, and that the Duke and E. M. Phelps represent the Pittsburg stockholders.

WILL BE A BUSY DAY. President Gompers to Make Two Labor Addresses Here To-Day. Samuel Gompers, President of the American Federation of Labor, will be in the city to-day. He comes to attend the first union picnic of the Pittsburgh Federation of Labor, at the Schenker's Woods, above McKeesport. He will deliver an address there, discussing the present labor situation.

INDUSTRIAL NOTES. News from the Mills and Mines and the Steel Works. The Oliver & Roberts Iron and Steel Company is rushed with work, owing to increased orders for machinery and tools.

FOR THE MONTH. Mr. J. A. Harrison, of Colburn, Montgomery, has had a very successful month, and has secured a large number of orders.
