BROOKLYN, July 16,-The last game of the series between the Brooklyn and Pittsburg Players' League teams played on the Eastern Park grounds to-day was of the dull and uninteresting kind and resulted in a walk-over for Ward's wonders. The heat seemed to take grest effect with the Pittsburgers, as the game they put up was very bad. Besides this they were lamentably weak with the stick. For six innings Weybing occupied the box for Brooklyn, and up to that time the Pittsburgers had only two hits to their credit. The Brooklyns in the meantime pounded Maul right and left and secured a winning lead. Ward took Weybing out of the box and put Hemming, his new "wonder," in. The latter started in wild and the visitors commenced to bat, but it was of a very short duration, for Hemming settled down, and the last two innings he pitched the Pittsburgs were unable to touch him. The fielding of the home team was sharp. The

Beard started in, and after his delivery had yielded Hamston a scratch hit. Burke and Myers, each one of undoubted integrity, and Thompson had driven the ball far over the righ field fence. Manager Hecker called him to the bench. Then Baker went into the box and, after two or three ineffectual attempts, put one where Clements wanted it. The lig captain hit it, and that ball went sailing out to

A combination of fielding and battery errors and a couple of hits yielded four more in the fourth. In the fifth Billy Sunday tried his hand at twirling, but was soon knocked back into right field and Baker brought back. This inning yielded four runs. After it not a bit was made off Baker's delivery. Smith's battery errors and Miller's single gave the Pittsburgs all the runs they got. Play started at about 2:15, an hour rather early to call forth a crowd of spectators, and not a large one was present, but before the afternoon was an hour older nearly 300 of the best people of Pittsburg and Allegheny were seated on the little bill above the courts watching the sport. They were well repaid for their trip to the grounds, as the play was pretty and exciting throughout. From the beginning of the first set it was very evident that the present holder of the Grogaa challenge cup, Marshall Christy, will have to do his best work if he cares to keep this beautiful emblem of a championship in his possession another year.

Mr. Thompson acknowledged the com-pliment with a few remarks. Nominations of candidates was next in order. Colonel Brinsmade arose, but before he could say a word, Major J. W. Bickham, of Dayton, arose and said: "Let us nominate Dan Ryan

NAMED BY ACCLAMATION. Colonel Brinsmade then named Daniel J. Ryan in a neat speech, and at the close he was nominated by acclamation. Mr. Ryan was colled for, and in response made a speech of acceptance. On motion of At-torney General Watson, Judge Thaddeus A. Minshall was renominated for Judge of the Supreme Court by acclamation. Frank J. McColloch, of Logan county, and C. A. the Pittsburg Tennis Club are the finest in the State, and compare favorably with any in the country. The courts, eight in number, are of clay, and are kept in splendid sendition at all times. The courts for members of the Board of Public Works. Before the first ballot had been completed, Mr. McColloch had received 327 votes to 76 for Mr. Flickinger, and his nomination was made unanimous.

At this point Congressman Morey, Chaircondition at all times. The park, for such it is, is in a very pretty little spot, the woodland at the one side furnishing an amount of shade, and there the players sat between times, enjoying the cooling breezes not often to be found in this crowded city.

Play started at about 2:15, an hour rather early to call forth a crowd of spectators, and not a large one was present, but before the afternoon was an hour older nearly 300 of the best people of Pittsburg and Allegheny were seated on the little hill above the courts watching the sport.

They were well repaid for their trip to the little hill above the courts and exciting FEDERAL ELECTION LAW,

will have to do his best work if he cares to keep this beautiful emblem of a championship in his possession another year.

SOME BRILLIANT WORK.

Among the already defeated candidates for tennis honors is A. W. Annesley, a young Englishman now resident of Pittsburg. His work, although he did not win, showed him to be at times a brilliant player. His first set was a hotly-contested one against R. R. Reed, also of the Pittsburg Tennis Club. His serving was good and his quick returns brought out amplause repeatedly, but Mr. Reed showed that while he was not so brilliant in spurts he was a much steadler player, and his cool work won the day.

Messrs. Fay and Scott were very evenly matched, and play between them continued longer than any others. Fay at last won.

M. K. Coster is considered one of the possible winners of the tournament. His play against Whelan was very brilliant, but his opponent was no easy victum, and it required the best game of the day to defeat him, the score of the first set being H to 12.

THE PROBABLE WINNERS.

Brooks was also considered a possible winner, but after he had easily defeated Robinson he fell a victum to the skill of Coster. Their work was brilliant throughout, and it was no easy matter to pick a winner.

R. P. Kelly did some very fine work in his games with Osborne in the preliminaries, and

to which he had been legally elected. Pretending to be the party and the representative of the poor, it elected to the United States Senate a New York speculator and railroad magnate whose only entitlement to the office was his liberality in contributing money to corrupt politics, and whose residence in Ohlo was for office only.

The Republicans of Ohlo warmly commend the McKinley tariff bill, as passed by the House of Representatives, as a wise measure calculated to protect and defend American industries and American labor against labor and foreign industries. We regard foreign opposition to the proposed legislation as an unwarranted interference in our domestic affairs. The attempt of nations of the Old World and the Democratic party to destroy our manufacturing supremacy and degrade our labor is an unholy and unpatriotic alliance, which should be resisted by every citizen who loves an unholy and unpatriotic alliance, which should be resisted by every citizen who loves his country and has a care for the well being of his fellow citizens.

We most heartly inderse the action of the Republican Congress in passing the disability pension bill, and a Republican President who approved the same and recardit as an agree of

approved the same, and regard it as an act of justice too long delayed, because of the opposition to all just pension legislation by a Democratic President and a Democratic Congress, yet we do not regard it as the full recognition of the great debt of obligation which the Government and the people owe to those heroic men by reason of whose sacrifices and devotion the Union was saved and the Government restored.

AS TO PENSIONS. We do further repeat our declaration in favor of a just and fair service pension, graded according to length of service, for every soldier and sailor who fought in behalf of the Union and sailor who fought in behalf of the Union and by reason of whose services, secrifices and devotion the Government now exists.

We reaffirm, in the most carnest and emphatic manner, the duty of Congress to faithinly and fully carry out the declaration of the National Convention of 1888 of the Republican narry that it will provide by a fair and impartial election law for a free and honest popular ballot in every Congressional district in the United States, so as to secure to every citizen, rich or poor, native or foreign born, white or black, the right to cast one free ballot and to have that ballot duly counted. This is not only the individual right of every citizen, but is absolutely necessary to secure just and equal

No rule or custom of either Honse should be allowed to stand in the way of prompt and effective legislation to secure the integrity and purity of the election of members of Congress. We demand protection for the wool industry, equal to that accorded to the most favored manufacturers of wool, so that in due time American wool growers will supply all wool of every kind required for consumption in the United States.

PROTECTION FOR LABOR. Resolved, That we favor such legislation by Congress, and in this State, as will in every practicable manner, encourage, protect and promote the interests of agriculture in all its departments, and protection of labor and the rights of laborers such as will grant to toil its full and just reward is among the first. Resolved, That we heartily indorse the honorable, honest and business-like administra-tion of Secretary of State Ryan.

NO LACK OF FINE DESIGNS FOR A COM-MITTEE'S SELECTION.

The Plans Submitted for the New Sixth Street Structure-Gustave Lindenthal's Latest Creation-Magnificent Granite Towers to Guard the Approaches, The competitive idesigns for the new Sixth

street bridge are all in and stored away in

the Bank of Pittsburg. There are eight of

them. They are by engineers from all overthe country. Several Pittsburgers have designs, and among them is one by Gustave Lindenthal. No decision has yet been made, Lindenthal. No decision has yet been made, but the design will probably be selected within the next ten days. The committee in charge of the matter are John A. Harper, John B. Jackson and Charles J. Clarke.

Mr. Lindenthal's design is the one attracting the most attention. It represents a massive structure modeled after the famous Hamburg bridge. The bridge itself is to be 60 feet wide with four driveways and two sidewalks. According to Mr. Lindenthal's plans the towers at the entrance will be of granite. 60 feet high, and the same distance across at the base. The depth will be from 15 to 20 feet. On either side archways will pierce the tower for entrance to the sidewalks and at the driveway entrance the archway will be 40 feet in height. The towers are to be four stories high, which will give three airy rooms on each tower and as many more on top of the main arch. These rooms will be used for offices. The bridge will be a massive affair of three spans. There will not be any wood work. The floor will be of cement. The steel work is made in the shape of double elliptical girders, the one reversed to the other, and all joined together by trellis work. A side view of the bridge has the appearance fof an elongated figure eight with an additional loop. The girders start from the center of the towers and cross each other at a similar distance above the floor of the bridge at each of the two piers. At the piers the graceful girders are to be supported by heavy iron pillars. There are only the two sets of girders.

In speaking of the bridge yesterday, Mr. Samuel Harper said: "We want to make the new bridge the handsomest one in the country. I do not care to say just how much money the new bridge massive yet graceful. Its symmetrical curves are beautiful, and yet it would be so strong that all the weight you could put on it would not break it. I don't know just how soon work will be commenced, because there are so many details that must be arranged." but the design will probably be selected
