Run of Cattle at East Liberty Heavy, and Proportion of

INFERIOR GRADES ABOVE AVERAGE

Holders of Low-Grade Beeves Were at the Mercy of Buyers.

BHEEP AND SWINE TENDING HIGHER

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, July 16, 1800.

The receipts of cattle this week were 103 loads against 72 last week and 125 for the previous week. In the receipts were a bett, while others stated that light rains fell search and some with large proportion of mixed stock of inferior quality. It is seldom that so large a proportion of low-grade stock is offered as were offered at East Liberty yards this week. Not less than a half hundred loads of this inferior stock was on the market, and from the entire lot it would have been difficult to cull a half dozen loads of butcher cattle weighing 1,100 to 1,300 pounds were cattle weighing 1,100 to 1,300 pounds were considered as stated that light rains fell search and some with nearly \$300,000. These figures are not deceptive. They show a degree of prosperity was favorably received by others, and on the caster, seiling off %c, became stronger and closed at full outside figures. The cause for the year for midsummer they are peculiarly significant.

Manager Chaplin said: "Clearings have been large all season. Those of to-day are among the did year of the year. They show that business in good all round. If this were not so, checking representation was a processed of the other. Some of the other. Some of the other. This grade held up fairly well to last week's prices at the opening of markets on Monday morning. But under the pressure of the large quantity of inferior stock on sale, even this grade weakened later on, and prices were 5c to 10c lower than the previous Monday. Common and low grades declined 15c to 20c from last week's prices. There were 10 or 11 leads of this mixed stock shupped on East in first hands.

Shipped on East in first hands.

The highest price obtained was \$4.50 for 1,400 to 1,500 lb. beeves, which were not strictly prime, but good stock. Tidy, smooth burcher cat le weighing 1,100 to 1,200 lbs. were sold at \$4.15 to \$4.25 per cvt. The attendance of buylers was larger than usual. A few were on hand from Lancastar county whose faces have not been seen at these yards since last fall. Notwithstanding shipments East, there was a goodly number of mixed cattle in the yards this morning.

Market Overstecked.

A leading commission man said to-day: "Our market this week was overstocked with stockers and light cattle, for which there is little demand at this senson of the year. Farmers are only, through with harvest and it will be a month yet before they will want light cattle to put into their meadow-and stubble nelds. What they want now are well latted young cattle, and not the lean kind with which our yards were flooded this week. It will be a month abead before this grade of cattle will be wanted by feeders. There were many of this low-grade cattle sold at 1%c to 2%c per pound. The truth is, there was no demanan for this grade of beauties of the market this week were and subsidered the wards and sales were only made at a zacrifice."

As the cattle on the market this week were to be be per owt, higher than last week's offering at sources of supply, at is evident that there were moor pickings to the drover on this week's transactions. The drover who came out As the cattle on the market this week were but the per cut, higher than last week's offerings at sources of supply, it is evident that there were noor pickings to the drover on this week's transactions. The drover who came out even this week is considered lucky.

The receipts of sheep and lambs on Monday were about 15 bads, and for the week, so far, 24 loans. Prices opened up on Monday 10 to 15c higher than closing rates of last week. There were two loads of extra fine wethers on the market from Cadia, O., on Monday, averaging over 100 pounds. These were sold at 5 60 per hundred. The yearings offered were

London Wool Sales, London Weel Sales.

London, July 16.—At the wool sales to-day 16.294 tales, comprising a good assortment, were offered. There was a large attendance and the competition was active. Five grades were eagerly south. Little was withdrawn. Of the quantity sold to date less than half has been taken for export, including 6.500 bates for the United States. There are available 191,000 bates. Since the letterment of prices some days ago, the market has been well supported and values have been very firm. The demand has been most noticeable in connection with finer scoured merinos and cross-breds, while good greasy has hardened.

Drygoods.

New York, July 16.—Specialties and notions receive considerable attention, but staples are more or less quiet, though well sold up, and, under good novement on orders, keeping supplies in good shape, and the tone of the market very steady.

There has been no halt in the activities of the city, and I think it safe to say there will be none. We will enter the fall trade with everything in full swing."

Pittsburg Points With Pride. While citizens of Allegheny City are rejole ing over their civil progress during the past 50 years, it should not be forgotten that l'ittsburg has made a great advance in the same period of time. Fifty years ago the population of Pittsburg was 38,93L. Now it approximates 250,000. Fifty years ago the outlying districts were cattle ranges and hunting grounds. Now they are thickly settled, and full of bustle, business and wealth. The buildings of 50 years ago, many of which survive in the older parts of the city, were generally small and destitute of architectural adornment. Now they will compare in all respects with those of any other city in the country. Business expansion has been so great as to be without a parallel in modern times. Pittsburg is justly proud of her achievements during the past half cen-

It is unnecessary to pursue this subject. It is alluded to merely to impress the public that Pittsburg has flourished as well as her neighbor. Both have done well. They are thrilty and vigorous. Full of enterprise and push, with plenty of means and unlimited credit, it would be difficult to fix their positions at the end of the next 50 years. That their progress will be greater than in the past seems assured.

Lack of Orders and Hot Weather Paralyze the Oil Market. Oil trading is getting no better fast. The market fluctuated 1/2c yesterday. It opened up Me from the previous close but it was stagnant all day. There were no supporting orders, which, with the hot weather, left it flat and featureless. Outside exchanges were in the same boat with Pittsburg. The close was 140 below the opening figure. The range was: Opening and highest, 89%c; lowest and closing, 89c. [SPECIAL TRLEGRAM TO THE DISPATCH]

NIL CITY, July 16.—L. V. DeForrest, of the New York Consolidated Exchange, has been here for several days, and has gone to Bradford on the same business as brought him here; that of learning the sentiment of the oil men as to asking the Standard to list Lima certificates. Pittsburg has offered no opposition to the idea, and the sentiment here is largely in favor of it. Pennsylvania oil producers, however, object, claiming that the prominence given to Lima oil will tend to depress the value of their own oil. Mr. DeForrest, however, says the 20,000,000 of Lima oil is as great a bear now as it can be if Lima oil is as great a bear now as it can be if (SPECIAL TELEGRAM TO THE DISPATCH) and the scettment here is largely in favor of it. Pennsylvania oil producers, however, object, claiming that the prominence given to Lima oil will tend to depress the value of their own oil. Mr. DeForrest, however, says the 20,000,000 of Lima oil is as great a bear now as it can be if listed, and that the difference in prices between Lima and Pennsylvania oil will remain so long as the difference in quality exists. The East is a unit in favor of listing Lima oil, and it he is as successful in Bradford, the Consolidated Exchange will make a formal request of the Standard.

The river continued to rise yesterday on account of the wickets being up. Business was moderately active. The present stage will not allow boats to come up the Ohio. About 2,000,-000 bushels of coal was brought down from the pool yesterday to be in readiness to continue on down on the first high water. Several barges of manufactured steel were also toward to this port from Brazdock. It consisted mostly of rails, consigned to St. Louis and Cairo parties. The bridge mark showed 6 feet and 6 inches. This is a rise of 3 feet in 24 hours. At Davis Island it was 10 feet and 6 inches above the dam, with 4 feet 9 below.

THE Louisville rivermen will hold a meeting shortly to take action which will effectually stop shortly to take action which will effectually stop the practice among colored ceckiands and rousta-bouts of quitting whenever they please to the detriment of trade. It is proposed that an organ-ization be effected and a plan of operation be mapped out which will stop this. Some of the rivermen shout here think that the same move should be made on this end of the river. It only requires an energetic leader to come forward now and take the initiative step to stop this work among the "rousties" and show them that they cannot quit working without giving notice. Many times theyangs of negroes become dissatisfied and go off and leave a boat unloaded.
