Pig Iron and Steel Rails Being Particularly Inactive.

THE SITUATION IN WIRE RODS.

A Prenounced Demand in England for Tin to Go to America

BECAUSE OF TARIFF LEGISLATION

PERCIAL TELEGRAM TO THE DISPATCH.: NEW YORK, July 17 .- The Iron Age in its issue of this date quotes the American metal markets as follows: American pig-The New York market is

very quiet, the only point worthy of interest being indications of weakness in gray forge, which has been offered, for good Northern brands at a shade less than \$15, delivered. Southern furnaces are doing very little in this market, and are showing little disposition to force sales. We quote No. 1 Northern iron, \$17 25@18 30; No 2, \$16 00@17 00, and Southern iron, No. 1, \$17 00@17 50: No. 1 soft, \$16 50@ 16 75; and No. 2, \$16 00@16 25.

Spiegeleisen and ferro-manganese - Absolutely nothing has been done in spiegel. There is no demand whatever and very little offered. We quote nominally \$30@30 50 for 20 per cent, Ferro is selling in small lots at \$72 50. For Ferro is selling in small lots at 572 ob. For larger blocks lower figures would probably be accepted. A feature which appears to be growing in importance in the ferro trade is the demand from car-wheel founders. This business has been growing during the past year.

Wire rods—The only sales reported are small lots of foreign basic for home consumption and one lot of 1,000 tons of German basic for Pittaburg delivery, to be used for re-export, at private terms. Fireign rods can be purchased at a low price, relatively, if the buyer is willing to take the chances on the duty. In that case

could take business for September delivery. The only large orders now in the market for the Eastern mills is a lot of 7,500 tons for a Southern road, Savannah delivery, with an option of 2,000 tons more. Considering everything, the volume of business during the first half of the year was fairly satisfactory. The report of the board of control shows shipments for the first six months of 712,205 tons, to which one Western firm contributes 137,207 tons, and another Western mill 154,831 tons. As previously reported by us, the Scranton Steel Comously reported by us, the Scranton Steel Com-pany shipped 101, 148 tons, leading by 25 per cent the next largest Eastern mill. It should be re-membered, however, that these reports do not include light rails, nor do they count the Al'e-gheny or the Colorado mills. It is safe to say that stand that nearly 25,000 tons have been placed Structural material—The strikes at a number of the mills are outting off the supply of flaished material, and the tone of the market is a little firmer. We quote: 2 15@2.25c for plates, 2.20@2.25c for angles, 2.5@2.5c for teel and 3.1c for beams and channels.

Old rails—Several thousand tons of old rails were sold during the work at private terms closing out the heldings of one party. Seller generally quote \$25 but hovers are the ma. generally quote \$25, but buyers are in the m jority of cases unwilling to go beyond \$24 24 50 in their boils

An unexpected calling up of Cleveland contracts on Thursday last caused a rush to cover on the part of the bears, and the shorts have since had to pay prices that the longs dictated. Buyers of hematite warrants have been holding off, but prices improved slowly. Old from rails have been moderately active, with more calls from America, and sales are reported made recently at £3 f. o. b. for flanges. The progress of the American tariff bill overshadows all other influences bearing upon the tin plate market at the present time. Buyers are active and makers very firm. Many orders have been booked and there is a large demand from San Francisco and the oil trade. It is reported that considerable orders for steel blooms have been received from the States. Otherwise there is no new feature in the steel trade apart from a small rise on wire rods. Opinions of Brokers in Real Estate Regarding the Market.

ACTIVE AND THE OUTLOOK BRIGHT

Local Speculative Interests Held Down by Bearish Influences.

To ascertain the views of real estate brokers as to the condition of trade this midsummer season, a number of them were interviewed yesterday with the following result. The striking feature of this symposium of opinions is its optimism. From first to

last agreement is perfect that the market is active for the time of year, and the outlook all that could reasonably be desired.

J. B. Larkin & Co.—We are having a good deal of inquiry for city and suburban proper-ties. The market is in good shape and active for the season. The outlook for fall trade is

Alles & Bailie-We are very busy. The prospect for fall trade is exceedingly good. Values are firm for all kinds of properties. There are no signs of a reaction. Charles Somers & Co.—The market is in a

good condition. Judging from the numerous inquiries there will certainly be a good fall Baxter, Thompson & Co,-The market is surprisingly active for midsummer, and the future is encouraging. The supply of business houses is short of the demand. Pittsburg Transportation facilities were all that could be desired, there being no superfluity of cars,

> W. A. Herron & Sons-There is a slight full owing to the hot weather, but there is nothing erong with the market. Small houses are in demand. Almost any number of them could be sold or rented. Straub & Morris-We have done twice as

much this summer as we did in the corresponding months last year. We have escaped the usual hot-weather lull. Samuel W. Black & Co.-Business is good and the outlook better. The market is on a

C. H. Love-Business is a little quiet just now. The weather is too hot for hustling. Inquiry is good, prices firm, with prospects Black & Baird-Business with us has been brisk all through the season. We have had no bull. Our sales this month and last almost equal those of the busiest times in the spring and fall. Conditions and prospects are favor-

Thomas Liggett-I have no complaint to make. Business is remarkably brisk for the summer. I think there will be a heavy fall Reed B. Covle-Times are good and will grow better as the season advances. I am very busy. Ira M. Burchfield—The large number of im-

SOOTT WALLIS is building a boat at Marietta to be run between Pittsburg and Marietta; it will be adapted for carrying passengers and freight after the pattern of the Cincinnati packets. The boat will be 14f feet long with a 30 foot beam, 5½ hold, with two boilers 42 by 24 and two engines with 5½ foot stroke. The boat will be fitted up elegantly throughout, and it is proposed to have it eclipse all other boats in the way of elegance.
