DROPS OF OIL.

Better Undertone, but No Improvement in

Business-A Good Close.

There was no improvement in business in oil yesterday, but the feeling was a trifle better, as

indicated by the close, which was the same as the opening and highest. The movement was

restricted to 34c. All the exchanges were weak

at first, but braced up as the day wore on, and

at first, but braced up as the day wore on, and
were firm at the finish. The range of fluctuations was: Opening, highest and closing, 89%;
lowest, 88%. Wednesday's clearances were 14,000 barrels.

The big gas strike in the Eureka, W. Va.,
field Wednesday night, was the subject of considerable talk yesterday. The strike has caused
considerable excitement there. There is a
creat rush for leaves, and a dozen new walls

great rush for leases, and a dozen new wells have already been contracted for. The McCui-

Corrected daily by John M. Oakley & Co., 45 Sixth street, members of the Pittsburg Petro-leum Exchange:

Other Oil Markets.

OIL CITY, July 24.—Petroleum opened at 89c; highest, 894c; lowest, 894c; closed at 89c. Bales, 60,000 barrels; clearances, not reported; charters, 21.548 barrels; shipments, 100,458 barrels; runs, 74,261 barrels.

WELL NEWS BUNCHED.

Operations Between Chartlers Creek and

Shouserown Briefly Touched.

The oil excitement at Chartiers is by no

means abating, and there is a long list of new

wells being prepared. The J. S. Scully has

called by some a rank wildcat. Dunkle & Co.,

a local syndicate, leased Miss Taylor's property at Duff's station. Shultz & Co.'s Colbert well

is in the hundred-foot sand. Phillip Stemmiller

leased his property at West Chartiers to the

Pisher Brothers. A well is drilling on Park Pisher Brothers. A well is drilling on Park Painter's place, near Duff's covered bridge. The Haley well, that started at a 500-barrel a day gait, is said to be down to 25 barrels per day. A new well has been started by the Forest and Anchor Company. O'Briens' Singer well is in, and has about 500 feet of oil in it. John Caughey has at last leased his farm to Fred

Caughey has at last leased his farm to Fred Laninger's company, who will start a well at once. The J. A. McKee, of the McKee's Rocks Company, is doing 139 per day. Dr. Black and Mr. Sinn, of McKeesport, are drilling a well on May's acre, beside the Jewish cemetery. The derrick is up on the McKee heirs' farm at Scully's spring, and work will be commenced at once. The Johnson No. 2 is doing 50 barrels are done.

Scully's spring, and work will be commenced at once. The Johnson No. 2 is doing 50 barrels per day.

A man who was taking in Montour run yesterday insists that the well on the Stewart farm is good for 30 or 40 barrels a day.

There was nothing specially new from the Forest Greve field, but it was noticed that the well on the schoolhouse lot, being which was said to be a duster, was vigorously pumped and a young man who lives of short distance from it said it must be a payer, for he said the pump had been running nearly two weeks. This is the well that adverse law downers wished to have suppressed, but failed in court to effect their object. The Annie Young well, nearly half a mile southwest, is said to be a good pumper.

The well now going down on the Watt heirs' place at Coraopolis is showing considerable gas, and an operator states that he thinks she will be a good one.

Guffy & Co. shot a well with 32 quarts yesterday, across the river at Haysville, and since the shooting she is pronounced a good one.

Guffy & Co. shot a well with 32 quarts yester-day, across the river at Haysville, and since the shooting she is pronounced a good one. The oil was threwn over the top of the detrick. They will shoot another one in the same vicin-ity to-day. Some say the belt shows signs of running southwest of Coraepolis, to the right of Toad Hellow.

A CONFIDENT FEELING

Inspired by the Report of the Iron and Steel Association.

THE STEEL RAIL MARKET STEADY,

While the Pronounced Scarcity in Wire Rods Continues.

STATE OF TRADE ACROSS THE OCEAN.

TEPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, July 24 .- The Iron Age, in its issue of to-day, quotes the iron markets

American Pig-Considering the enormor production of the past six months, which we estimate at least 4,000,000 gross tons, the report of stocks just issued by the American Iron and Steel Association is certainly very gratifying. It shows that since January I there has been an increase of only \$2,271 gross tons in makers' hands, and \$0,700 tons in warrant stores, making the total now 403,450 gross tons. This is less than a three weeks' supply of all kinds, and leaving out of consideration charcoal pig, less than a two weeks' supply. This shows how enormously the consumption of this country has been expanded in the last six months. It will generally inspire the trade with confidence. The New York market has been very quiet during the past week. One feature worthy of consideration is the fact that consumers are purchasing warrant irons, tak-ing specified brands. We are assured by very good authority that a number of transactions of this character have been made lately, of this character have been made lately, resulting in a material saving to the buyer, as contrasted with purchases made in the open market. There has been some weakness lately in Southern charcoal iron, there being an excess of certain numbers. Thus No. 2 may be purchased at \$17 50@18 00 at furnace. We quote No. 1 Northern iron, \$17 25 @18 50: No. 2 \$16@17, and Southern iron No. 1, \$17 00@17 50: No. 1 soft, \$16 50@16 75, and No. 2, \$16 00@16 25. Bessemer pig is offerred at \$19 00 @19 25, delivered at \$140 water.

Spiegeleisen and Feiro-Manganese — The market is extremely dull and remains nominally \$30 00@30 50 for 20 per cent, and \$7 50@ 72 50 for feiro.

50 for ferro. Vire Rods—The scarcity of wire rods con-Wire Rods—The scarcity of wire rods con-tinues and threatens to become serious for the early future. There have been some sales of special brands for re-export purposes on the basis of about \$48, ex-ship N. Y. Foreign rods, buyers taking risk of duty, for prominent ship-ment are offered at \$46.00@46.50, with few sales

Steel Rails—Only sales of small lots are reported by Eastern mills so that the aggregate
usiness sone during the week has been light.
The report that the order for 7,500 tons,
Savannah delivery had been placed is inaccurate, the negotiations not having been closed
as yet. It is reported that the Hillinois Central as yet. It is reported that the Hilinois Central order for 5,000 tons has been taken by the Chicago mills. The market is steady at \$316,832, the number of sellers at the former figure being small. But little fall work has came out so far. There has been a very limited number of winter inquiries but the mills do not care to quote on them, except where they are a part of contracts running through the fall and winter. The situation is regarded as healthy and a feeling of confidence in the future prevails among sellers.

Old Rails—A number of round lots of foreign rails have been sold for shipment at private terms. The only large sale of domestic in this market has been a lot of nearly 2,000 tons of specially desirable rails, delivery in the interior of the State, at \$25. Special conditions prevailed. The market, which had a drooping tendency early in the week, is said to be recovering; \$24 was bid for a 1,600-ton lot, but was declined. We quote \$24,624 50.

Track Eastening. We apporte spikes \$22,050. Track Fastenings—We quote spikes, 2@2.05c; fish plates, 1.75@1.9c, and bolts and nuts, 2.80@ Sc, delivered.

PIG IRON SOMEWHAT HIGHER.

The Condition and Future Prospects of the Eoglish Metal Markets. STRUCKL TELEGRAM TO THE DISPATCE. New York, July 24.-The Iron Age of this

date quotes the British fron and metal markets

as follows: Pig iron warrants have averaged somewhat higher most of the week and the market has shown greater firmness, deriving a good measure of support from free purchase by outsiders, promoted by the pressure of a quite large shipping demand. Scotch moved up to 46s. ld. and Cleveland to 43s. 3d. at up to 46s. Id. and Cieveland to 43s. 3d. at the close on Tuesday, while hematites have risen to 53s. 73d. On Wednesday's market Scotch eased off 687d. Cleveland about 43d and hematites 16 on realizations. Makers' prices have varied in a moderate way only, but upon the whole seem rather steadier. Copper has ruled somewhat irregular in price, receding to £57 spot for merchant bars, and upon purchases of large blocks at that figure subsequently moved up to 57s. 15d. Speculative holders fearing a further decline, have realized freely, but the position continues strong Among recent transactions in furnace materia a sale of 100 tons Anaconda matte at 11s 6d is noted. A large business was done in strait the at about 94s 10d, and for a time there was some difficulty in selling cash lots.

This brought about an improvement in the feeling, but the demand was well satisfied and operations have since been light and at lower prices, although it is believed that the increased value of silver will likely hinder shipments from the East and cause the market to harden. The tim plate has ruled very firm, with 14s 3d now the inside price for Bessemer. Makers offer with reserve. A good business is reported chiefly for the continent and Canada. Negotiations for several large lines for America have been broken off owing to the delay with the tariff bill. The Hope Timplate Company have liquidated. Advices from Germany state that the demand there for steel wire rods is improving and that prices are firmer. English tin at about 94s 10d, and for a time there wa

American Manufacturer's Cable Opotations.? Scotch Pig-Warrants have ruled very steady, varying little either way from 46s., and have been dealt in more freely. Latest sales show 6d. decline. In makers' iron trade has shown a tair degree of spirit, and prices for most brands

proving and that prices are firmer. English market quotations are also about 2s 6d up, and makers are quoting 5s higher for rails. Other

wise no change is visible in the market for stee

Rounded at 528, L. o. b. shipping point.

Middlesbrough Pig—There has been little change the past week, warrants ruling quite steady at 458,6483, 3d., while makers from is a trifle higher, but moving slowly. Makers trifle higher, but moving slowly, Makers quote 48, for No.3, free on board for g. m. h. Spiegeleisen-No change has taken place, the demand being fair and prices steady. English 20 per cent quoted at 92; 6d, f. o, h. at works, Steel Wire Bods-There has been no further movement of prices but a better demand is re-ported. Mild steel, No. 5, quoted at £8 5s. £ o.

shipping port. STEEL RAILS ADVANCED.

Metal Market. New York, July 24.—Pig iron strong. Copper quiet and steady: Lake, July, \$18 75. Lead dull and unchanged domestic, \$4 50. Tin dull and easier; straits, \$20 80.

MARKET VERY ACTIVE.

The Coke Trade in a Very Flourishing Conlon-Few Ovens Now Innctive and All Serene in Labor Circles-Incrensed Shipments During the Past Week. ISPECIAL TELEGRAM TO THE DISPATCH.

SCOTTDALE, July 24-The coke trade, aroused from the lethargic condition which characterized it three weeks since, now in a state of activity, presents a further increase in shipments for the week under review. The de-

state of activity, presents a further increase in shipments for the week under review. The demand was slightly larger than the previous week and production traveled right along with the demand. One of the interesting features of trade at this season is the fact of there being so few furnaces banked. A comparison of this and last year will show that far more furnaces were banked at this time last year. A few of the furnaces that are out will resume next month, with an increased capacity.

An operator was seen to-day and said: "The coke trade is certainly very active, for midsummer, orders are plenty and no operator has reason to complain. As to the present demand being kept up for the balance of midsummer, I would not venture an opinion. At least, the prospects are encouraging. The Eastern trade shows marked signs of permanent improvement, while the Western and Pittsburg trade is steady. The market is also well fixed as to transportation facilities. There is an abundant car supply with plenty of metive power. Serenity prevails in labor circles and at the present time there is not one strike from one end of the region to the other. The yards are still remarkably free of stock coke and, it is understood, operators will continue to limit the output to the domand, thereby preventing an over-production.

The works near Dunbar have about all gotten

output to the demand, thereby preventing an over-production.

The works near Dunbar have about all gotten over the effects of the recent Hill Farm disaster. The Uniondaie plant has been fired, and Mahoning will be lighted up as soon as the water is gotten from the pit. The ovens of the new Lemont plant will be fired shortly. Eighty ovens at the Davidson plant, which are being rebuilt, are nearing completion. There are about 2,700 idie ovens in the region, and there is no indication that the number will be increased.

creased.

The leading operators closed their works as usual on Wednesday, while the Stewart, Southwest, Isaac Taylor and a few other companies west, isaac Taylor and a few other companies made six days.

No change is chronicled in coke prices. Shipments last week were 25 cars larger than the week previous. They averaged about 1,096, against 1,092 cars of the week before. Pittsburg and river shipments decreased 100 cars, and western shipments declined but 25 cars. Eastern shipments increased 150 cars. The distribution was as follows: To points west of Pittsburg, 3,075 cars; to Pittsburg and river points, 1,000 cars; to points east of Pittsburg and fiver points, 1,700 cars; to Pittsburg and river points, 1,700 cars; to points east of Pittsburg, 1,100 cars; to points east of Pittsburg, 1,100 cars; to points east of Pittsburg, 2,700 cars. Prices of coke are: Furnace coke, 82 15; foundry, 82 45; crushed, 82 65; all f. a. b. cars at ovens per ton of 2,000 pounds.

WELCOME SUMMER SHOWERS

Market Gardeners Greatly Encouraged by the Advent of Rain.

Our nearby gardeners are very much rejoiced over the recent rains. Gardens in this section have been famishing for a week or two pest, and prospects have immensely improved the last 24 hours. Never was a shower more timely to gardeners, though its influence was depressing to picuics, campmeetings and races. An old-time market gardener said to-day: "The late rains will prove a great help to our trade. The tomatoes were suffering for want of moisture, and this rain will bring them out. The tomatoes were suffering for want of moisture, and this rain will bring them out. The tomatoes were suffering for want of moisture, and this rain will bring them out. The tomatoe vines this season are rather small, and a half bushel to a plant will be a big yield. I have often gathered three pecks from a single plant. The late rains will also belp out reasting ears." In the interview with this market gardener it was developed that the yield of garden stuff in this section falls far below average this season. As an offset to the sbort crop is the bester prices received for stuff.

The yield of cabbage is not much above one-half the average yield, but prices of late have been \$1 per basket, while last season at this time three baskets were sold for \$1. "Short crops bring less work and more money than big ones," said a leading market gardener, "and, though this is not so good for the consumer, we have no cause to complain when we get more money for less work." Our nearby gardeners are very much rejoiced

Prices of Bar Silver.

TALK ABOUT VALUES

Past, Present and Prospective Figures on Local Real Estate.

BIG JUMPS AND THEIR CAUSES. A Decided Improvement in Stocks, but Petroleum Still in the Dumps.

THE NEWS AND GOSSIP OF THE CITY

Property values, present and prospective, in Pittsburg and its suburbs were the subject of an animated discussion in a corner of a Fourth avenue broker's office yesterday. It grew out of the statement by Mr. Howley, a few days ago, that land on Schenley Park will sell at \$400 a foot within five years. He stood by his prediction, and maintained that it was below rather than

shove the mark. A prominent merchant who was present, while agreeing that values in the locality named would advance as the city grew in population and wealth, and spread out over the East End, contended that \$400 a foot in five years for land that is now selling around \$100, would be too much in the nature of a boom to be permanent and beneficial to the city. As there is no boom nor any probability of one, he characterized the statement as

a flight of the imagination.

Another gentleman who had been listening to the discussion raised his voice at this juncture. He has been a resident of this city for 50 years or more, and knows it like a book. He said: "Mr. Howley's statement concerning the prospective value of Schenley Park property is, in my judgment, entirely within bounds. It is surprising to no one who under stands the situation. The growth of the city is so great and the demands of business so press ing that people are being driven to the suburb in droves—not alone to the East End, but in all other directions. This enlarges demand and strengthens values. Park property is so well adapted to residence purposes that it will always bring top prices. A year or so ago it went a-begging for purchasers; now it is going off like hot cakes. As improvements are made and facilities for travel increase it will gain in value. I think that will, in the course of a few years, become one of the finest resi-dence districts in the city—combining country comforts and city advantages. In these respecis it will be far more desirable than park property in Allegheny, which is rated at about \$800 a foot. Before the parks were laid out 20 years ago it could have been bought for \$30 to \$50. The advance is due to the parks and

Mr. Howley then produced figures showing that bigger jumps than he had claimed for Schenley Park had been made in other parts of the city. He said: "The proposition to widen Diamond street has caused an advance in abutting and adjoining property from about \$500 to \$1,500 a toot. Four or five years ago \$3,000 a foot was considered a pretty steep price on Fifth avenue, between Smithfield and Market. Owners are now holding it at \$5,000. Within a very short time values on Fourth avenue, between Wood and Smithfield streets, have moved up from \$2,000 to \$4,000, or there abouths. Acreage on the Southside is bring ing \$1,200 and \$1,500 an acre, against \$400 and \$500 a year or two ago. Down the Fort Wayne road the enhancement is equally marked.
There is always a market for choice residence sites, and it is upon this fact that I based my prediction of \$400 a foot for Schenley Park property within five years. Enhancement in ne time will affect all the districts around the city, but to what extent I am not

Business News and Gossip. Ewing & Byers report a brisk demand for acreage property on the Perrysville road and

along California avenue.

D. P. Black-I see it again stated that an English syndicate is after the East Laberty stockyards, among others. If they are for sale I can in 24 hours organize a syndicate that will outbid the foreigners. People out there are willing to give almost anything to secure the removal of the vards."

The number of mortgages on file for record vesterday was 38, the largest of which was for

\$17,000. Thirteen were for purchase money. Mortgages amounting to about \$50,000 were satneetings to-day-the Pittsburg, Allegbeny and

Manchester and the Union Passenger Railway Companies. The latter will probably decide the question of leasing to the former. The Lima, O., Lutheran College Association has been incorporated, and is preparing for the

erection of a main college building. It will cost about \$85,000, and will be built of brick and A company has been organized at Duquesne to build a fine park, to be used for picnics and

campusetings. A pavilion and other buildings will be erected.

About 50 stone houses are in course of erection-principally in the East End. One or two are talked of at Emsworth. They are rapidly growing in popularity among people who desire fine effects.

The national bank depositors hold \$25,492,445 Government deposits. The requirements of the sinking fund for the present fiscal year aggregate \$48,500,000. The available balance in

Baxter, Thompson & Co. report an improved demand for business property, indicating confi-dence of a good fall trade and a desire to get things in shape to handle it.

Movements in Real Estate

A Fourth avenue broker went out to Walls station vesterday afternoon to close a deal for about 150 acres of land adjoining Pennsylvania Railroad property, but located in the bill district. The price was stated to be about \$200 as acre.

The recent successful sale of the sub-division of the Routh farm, in the same locality, has in and around Wilmerding and Walls. A handsome dwelling on Howe street, adjoining the Kenmare House, changed owners yesterday at a price approximating \$11,000. The father of Lawyer Murphy was the pur-

Ewing & Byers sold for John McCreery, Esq. to Mr. Edward Wagner a two-story frame house containing four rooms, with lot 25x100 feet, on Center avenue, Tenth ward, Allegheny, near the line of the Pleasant Valley Electric

road, for \$1,100. Samuel W. Black & Co. sold lot No. 4 in E. O. Wickersham plan of lots, having a frontage of 25 feet on Bartlett street, Eleventh ward, Allegheny, and a depth of 100 feet, for \$475. L. O. Frazier sold for J. E. Metcalfe a lot having a frontage of 20 feet on the southerly side of Horne street, near Butler street, Seven-teenth ward, and extending back 100 feet to a 20-foot alley, to David J. Sisk for \$1,200 cash, or

No. 225, in the Baum Grove plan at Roup station, Pennsylvania Railroad, 40x110 feet on Amber street, for \$2,400. They also sold another lot in the Willock plan, being No. 9 and in size

Eckley. Hamnett & Meredith sold a lot in Wilkinsburg., 50x120, for \$825.

A BETTER TEMPER.

More Doing in Home Securities-Brought Out.

The stock market presented a firmer yesterday. The feeling was better, and the bulk of the price changes was in the direction of a higher level. The active stocks were Manufacturers', Philadelphia, Wheeling and Pennsylvania Gas and Electric. Sales were 381 shares, besides several hundred subscription rights on Electric ranging from 10 to 20 cents—the latter after the last call.

One of the features was the strength dis-

played by Electric. It sold at 38 at the played by Electric. It sold at 38 at the early call, advanced to 39% and closed at 39 bid and none offered. Another feature was the sale of a large block of Mannfacturers' Gas—the first for a long time—at 16% an advance over recent quotations. In its dividend period it sold as high as 40. Another old-timer, Pennsylvania Gas, also moved over to the active side, but without showing much strength.

Philadelphia Gas and the Tractions held around former figures with no movement in the latter. Switch and Signal was a fraction firmer. Bridgewater fell back to 56, Bids, offers and sales are appended:

The Street Taking a Brighter View of the Market-Sugar Refineries the Principal Stock Dealt in-Government and Rail-

rond Bonda Quiet and Strong. NEW YORK, July 24.—The stock market showed a little more animation to-day in spots, but, as yesterday, the attention was concenbut, as yesterday, the attention was concentrated upon sugar refineries, and the large dealings in that stock were sufficient to bring the transactions in the unlisted department again above those in the regular lift. The announcement that a suit had been begun by the trustees for the winding up of the trust caused the expectation that the stock would sell materially higher this morning, and 80 was the figure expected. figure expected.

There were offerings at that price but no bids

over 78%c. Sales were affected at 79%c, when the traders seeing that there was plenty of stock for sale by parties waiting for a market, went in to take the market away from them, and a sharp and sudden decline to 77% c took place. The insiders supported the stock at this point, however, and later in the day there Sales at first call were 122 shares Manufacturers' Gas at 16%, 20 Wheeling at 20, 10 Philadelphia at 30%, 20 Electric at 38, 10 at 38%, Four hundred and eight "rights" brought 10 cents a share. At second call sales were 15 shares Pennsylvania Gas at 14, and 30 Electric at 38%, Eighty-eight rights went at 15. The total sales of stocks at New York yesterday were 158,688 shares, including Atchison, 5,150; St. Paul, 6,600; Union Pacific, 3,500. was renewed buying for the long account, several influential brokers being loud in their expressions of opinion of the further appreciation of the certificates.

The forenoon's trading was marked by extreme duliness and stagnation in all of the regular list with the single exception of New England, but later there was a manifestation of confidence and buying was renewed all along

regular list with the single exception of New England, but later there was a manifestation of confidence and buying was renewed all along the line with the effect of more animation and slightly higher prices for all the active shares. The feeling in the street during the past few few days has distinctly grown more hopeful, notwithstanding the intense duliness and the sight hope of any improvement in that respect for some time to come.

The behief is general that the new departure of the Secretary of the Treasury will meet with a full response and that he will be able to get a liberal amount of bonds at such prices as he will be willing to pay. The fact that to-day was appointed as the first one upon which to receive tenders and the acceptances were large to-day which was responded to in the afternoon's dealings with a general rise all along the line and more animation. For the time being the market certainly showed a tendency to broaden. The afternoon rise was continued well into the last hour, when realizations compelled some reaction, though only in sugar and New England was there any material set-back. The market, however, closed barely steady on the reaction, but generally at small fractions better than the opening figures. The loss on New England was 1% per cent, but Ottizens' Gas rose 1%, but other changes are for small fractions only. Railroad bonds were very quiet, though there were a larger number of issues traded in than usual of late. The important changes in quotations, however, are as usual in the inactive bonds, and the movements among those which are traded in from day to day are in almost all cases insignificant.

Government bonds have been quiet but Money May Work Somewhat Easler, but Now that the conservative influence of an impending call for bank statements is out of the way for a while, the money market will no doubt show a tendency toward greater ease in the loan department, as accommodations will be more readily extended. Less than a 6 per cent rate will, however, be exceptional. Business is too active and funds too well employed to inaugurate an era of cheap money.

Bank exchanges hold up beyond expectations. Yesterday they were \$2,832,003 91, while the balances were \$311,174 52. When it is remembered that there is nothing going on to stimulate checking except the regular movement of trade, it will be seen these figures represent a degree of prosperity that is as gratidoubt show a tendency toward greater ease in represent a degree of prosperity that is as gratifying as it is encouraging to further efforts to maintain the present high pitch.

Money on call at New York yesterday was easy, ranging from 34614, per cent, last loan 4. closed offered at 4. Frime mercantile paper, 5 66%. Sterling exchange quiet and steady at \$4.843, for 60-day bills and \$4.884, for demand.

Closing Bond Quotations.

.... Captain Cock Morgantow TO ARRIVE. Adam Jacobs Captain Cox ...

THE Germania got away on time yesterday. THE James G. Blaine will be out Saturday, or a least the management of the Monongahela line

nome yesterday on account of the violent cold which he caught in Cincinnati. CAPTAIN J. F. ELLISON, of the Hudson, was in the city yesterday. His boat is tied up at Cincin-nati with the other racket boats. THE Bandy Dodler will be ready to sail to-mor morrow. It will be taken to Cincinnati by A.E. Henderson, son of Captain J. A. Henderson.

BOATS are experiencing much difficulty in the

channel at the Chesapeake and Ohio Railroad bridge at Cincinnati on account of the false work THE Big Sandy, Volunteer, City of Madi and Bostona are all aground near Rising Sun. The Volunteer has been damaged considerably by tugboats which have been pulling at her. It will be put on the dock when it gets afloat on accoun-of being damaged this way. Only four feet or water is in the channel about where the boats are THE Ravenswood struck a snag near Rinley

up until yesterday they proved futile. This is about the fifth boat that has succumbed to snags within the past few weeks, and if something is not done shortly by the snagboats the Govornment will have to pay a few claims. Probably then the hoats which are now lying idle will be put to

Efforts are being made to get her afloat again, but

NEW YORK, July 24.—The drygoods market was without material change. Demand continued moderate and irregular, Buyers of cotton goods were still holding off as to new goods, but more activity is expected soon. Clothing woolens seil freely in medium to low grades, but there is not a great deal yet doing in finer goods. Business in dress goods and other department woolens was moderate.

MARKETS BY WIRE.

A Bulge in Corn and Wheat Due to Bad Crop Reports and Bullish Cables-Free Selling Nips a Spurt In Onts.

CHICAGO-Wheat-A very good speculative business was transacted to-day, but it was con-fined to a considerable extent to local professional traders. The opening was about 1/20 higher, and prices steadily advanced under a fair demand, light offerings and the general character of the influences 1%c more, ruled firm, and the closing was about 2c higher than yesterday's closing figures. Cable advices were favorable to holders. The advance in corn had a strengthening effect on wheat. Corn was active and rather unsettled, price

changes being frequent. The sharp advance was attributed largely to bad crop reports. The market opened wild and excited at an advance of %@%c over the closing prices of yesterday.

of %@%c over the closing prices of yesterday, was firm for a time, selling up ½@%c, became easier, declining ½c, again ruled stronger, selling up ½@%c, reacted %c, again advanced ½@ %c just before the close, and closed ½@lie befor than yesterday.

Oats were active but unsettled. The feeling was rather bullish in sympathy with corn. First sales were at ½@%c advance, and a farther appreciation of ½@½c was recorded. The bulge brought out free selling, and despite the advance in wheat and corn prices receded ½c and the market closed quiet but at ½%c advance.

Mess pork—Rather more was doing. Near months showed little change, but January ruled 20@25c higher. Prices, however, were not fully maintained.

quotations below will disclose. Sugars are market was steady and unchanged. Eggs, 1834 @14c. NEW YORK-Flour active; chiefly

NEW YORK—Flour active; chiefly home trade higher and strong. Corn meal firm: Brandywine, \$2.65. SWEITZER CHEESE MARKET. The Quality Good and the Production Muci

Above the Avernge. One of our leading jobbers of Swiss cheeses said to-day: "Domestic Sweltzer is now in good supply and markets are weaker than they have been for some weeks past. At the beginning of the mouth producers were disp-sed to withof the most producers were disposed to with-hold stock in anticipation of better prices. The effort proved a failure for the reason that the season has been very favorable to production, and the yield is undoubtedly above the average, Quality of Sweltzer cheese coming to the mar-ket is also fully up to standard. Prices are

now about the same as they were a year ago, though a mouth ago they were much above corresponding prices of 1889. Ohio domesmo cheese has weakened of late, owing to large receipts and extremely hot weather.

A season that is favorable to grass and hay crop as this has been, uniformly yields a good quality and quantity of cheese.

When baby was sick, we gave her Castoria When she was a Child, she cried for Castoria, When she became Miss, she ciung to Castoria, When she had Children she gave them Castoria
