An Arsenal Coptured, Buildings Plundered and Destroyed, and Improvised Hospitals Filled With Wounded Men.

THE CONSUL DISCREDITS THE REPORTS

There has been more fighting in Buenos Ayres. The insurgents have seized the arsenal, destroyed many buildings and defeated the Government troops. The revolution has extended to the provinces, and the rebels are receiving aid and reinforcements.

INY CABLE TO THE DISPATCHA BUENOS AYRES, VIA LONDON, July 27. -Dispatches received here this evening show that affairs in the Argentine Republic are in a most critical state. There is no doubt that a great revolution is in progress, and that the constituted authorities are almost powerless against the insurgents. The popular sympathy is certainly with the revolutionists.

Fighting was kept np all day yesterday. The number of killed and wounded can not be definitely ascertained, owing to the excitement prevalent in the city, but the loss on both sides is large. Several buildings have been turned into improvised hospitals, where scores of maimed and bleeding soldiers are being cared for.

The Rebels on Top.

So far the insurgents have decidedly the best of the warfare. Their resources are abundant and their leaders are experienced in military affairs. To-day their commanders, Generals Campos and Arredontio, seized the arsenal, the barracks and the Plaza Lavalle. Six military battalions, two of citizens, and the cadet corps have already joined their standard. Their strength at tillanos, the Spanish Minister here, has been sent is nearly, if not quite, equal to that of the Government, though the latter is expecting reinforcements.

The revolution is reported to have extended to the provinces, and thence the insurgents are receiving assurances of sympathy and promises of hearty aid. The navy as yet has taken no part in the con-

Excitement in the City. An eve witness describes the street scene

yesterday as of the wildest and most exciting character. The more timid of the popu lace rushed from the heart of the town, but a great number of citizens armed themselves and joined the insurgents. Some of the most effective vork was done by these self-constituted volunteers, Many buildings were destroyed and others were plundered. Senor Pellegrini, the Vice President, has assumed the Presidency. He is a cool-headed, able man, but it is extremely doubtful if he will be able to re store order.

Much of the country is in a very primitive state, but even the most remote districts are ready to join the uprising. About half the population of the country, or perhaps 2,000,000 people, are of mixed descent - Indian and European blood running in their yei s-and fighting to them is a pastime.

Heavy Firing on Both Sides. A dispatch to the London Times from Buenos Ayres says: Early on Saturday the artillery, joined by some civilians, took the first steps to overthrow the Government The troops and the poli e parleyed. Firing was opened at Palermo, and soon extended to the Plaza Lavalle. The infantry and artillery with mitrailleuses kept up a beavy firing all the morning. The police fired at and dispersed a crowd around the Government House, but the people kept firing from houses. A determined group of 40 men stood plackily to their arms in front of the Government House, while the roar of the artillery and the roll of the musketry came nearer and nearer. A policeman in mere

At 5 o'clock on Saturday afternoon, two attacks were made by the Government troops on citizen battalious. The troops were repulsed both times. Policemen and artillery men are lying dead in heaps. The Chief of Police, Capde Vila, is wounded. The Minister of War is reported killed. Sharp fighting continues around the artillery barracks.

A special telegram from New York says: Felix L. de Castro, Acting Consul of the Argentine Republic, in the absence of the Consul General, Carlos Carranza, and of the Consul, Adolfo G. Calvo, discredits the dispatches concerning a revolution in Buenos Ayres. "Consul General Carranga has been in Buenes Ayres for the last year," said Mr. de Castro this evening, "and were there any uprising of the kind, would undoubtedly have let our firm, Carranza & Co., of which he is the head, know about it at once. I have not, however, heard a word from him ner from any one else on the matter." "The dispatches do not seem at all plausi-

ble to me. In the first place, the contradictory statements as to the flight of the President are too wild. Rossario, to which the President is said in one dispatch to have escaped, is about 90 miles from the point at which another dispatch says he embarked. The discrepancy is too great to be accounted for on the theory of confusion or difficulty in getting information. Both dispatches, I feel, are false.

Military Force in the City.

"I do not know anything about the military organizations mentioned in the disostobes, but I think that there are only about 2,500 or 3,000 soldiers in Buenos Ayres. The militia is especially well orcanized and efficient and, at a moment's call, would be ready and able to crush any revolt among the regulars at once. Most of the Government officials mentioned in the dispatches are unknown to me. The only names of insurgents mentioned that are at all familiar to me are A. Del Valle and M. DeMaria, who are said to have issued the revolutionary manifesto. Both of them are cominent Buneos Avres lawyers and are, I think. Senators or Representatives." Mr. DeCastro would not commit himself

Guatemala Will Fight Salvador Till She Gets a New President.

RICHFIELD SPRINGS, N. Y., July 27. -A cipher dispatch received here to-day by an official of the Guatemalan Government says that Guatemala accepts the war provoked by Salvador and will continue it until Salvador elects a legitimate President in place of Ezeta. The battle fought on the 23d instant resulted in the rout of the San Salvadorans, but as Salvador commands the cable to Central America, the Government only allows dispatches favorable to itself to be sent sbroad.

The telegram further asserts that the arms taken from the steamer Colima were taken with the consent of the Pacific Mail agent and the American Minister, by virtue of article 17 of the Pacific Mail contract. Honduras, the dispatch further says, will remain neutral for the present, but may join with Guatemala if events require her. Guatemala has 40,000 men under arms and Honduras 6,000, while San Salvador has only about 10,000 men.

suspicious Money Matters the Cause of the Rebellion.

The report of the revolution in the Argentine Republic was the topic of conversation yesterday. A gentleman who has traveled through Buenos Ayres, the scene of the conflict, in speaking of the cause of the trouble, said: "There is something in the story of the peope rebelling because the Government ran short finan cially. Rumors have been spreading down there for some time that there was tampering with the treasury.

President Celman, who is said to have left the country, was a poor man when he entered the Presidental office, and now he is reported to be worth something over \$10,-000,000. The people grew suspicious, and hence the rebellion."

St. John's Wood, way in the northwest St. John's Wood, way in the northwest quarter of the metropolis. Mr. Seymour, Flo Bilton's husband, and a good looking young fellow, met the reporter at the door and led the way into a luxurious drawing coom, whose walls and shelves contained many photographs of the celebrated and beautiful sisters. While waiting for her ladyship Mr. Seymour was queried as to the probable outcome of the case.

"I haven't a doubt," said he, "but that Lady Dulo will win her case. All the evidence of the other side is now in, and they have not begun to prove anything. As for that scoundrel and perjurer, Wood, and his outrageous statement that on one occasion Lord Albert Osborne, Lord Dunlo and himself tossed up for the then Miss Belle Bilton, I will only say that at the close of these divorce proceedings Mr. Wood will receive one of the most thorough and most richly deserved borsewhippings that has been ad

She wore a coquettish peignoir of pink corded silk, with a dainty cape of old gold floating about her shoulders; but pretty as was her costume, the young girl who wore it-for Lady Dunlo is hardly more than a girl-was prettier by far. Shelis a beauty in the fullest sense of the word-the pure type of English beauty. Nor was there any "make up" about it. Her brows and lashes were penciled by Nature's brush only. Rer clear complexion had no need of paint, and those masses of auburn hair, dressed in the Grecian style, were just as they had grown.
"I am glad to see a representative of the American newspaper," she said, speaking with those rich, soft tones which are the glory of English women. "I know that your countrymen will think none the worse of me because I had to work for my own living even on the stage of a music hall. I don't believe that an American gentleman, even though not a noble lord (her voice rang with sarcasm), would have taken a girl to be his wife, and then, nine days later, have left her without a penny or a friend, merely be-cause another noble lord, who happened to

And what is the crime, to be sure, for which I am so cruelly punished?-that that there was a stain on my life before I married Lord Dunlo. But did not Lord Dunlo wipe away that stain (here her eyes glistened with tears) when he gave me his love and accepted mine? Did we not thereby agree to forget what had been-for I concealed nothing from him-and live only for what was to be. Then, is it not the act of a coward, after he had put the ring of wedlock on my finger, knowing perfectly well what he was doing, to flaunt in my face later on the deeds of the past?
"But they object to me on other grounds. I believe. Because I am supposed to come

from the slums, a mere painted creature, who dances on the tawdry stage and has nei-ther family nor heart. But there they are wrong, too," she added, proudly; "I have a heart, and I have no reason to be ashamed of my own family. My mother was Miss Panyles of Kilwasana Cartle, Clare Penrice, of Kilverough Castle, Glamorganshire, Wales; and my aunt married Sir Charles Van Notten Pole, Colonel in the Guards. Quite good enough I am to be daughter-in-law to that cantankerous old man, Lord Clancarty, who is drinking himself to death.

FAMILY JEALOUSY.

"As a matter of fact, though, it is Lady Clancarty who has had the most to do with bringing the suit. You see she knows her husband can not live much longer at the rate he is now going, and of course, at his death I would become Countess Claucarty, while she would be put on the shelf as Dowager Countess. She is a tolerably young woman yet, and don't take kindly to that idea at all, so she is trying to dispossess me of the title. But she won't succeed," added Lady Dunlo, earnestly, "because I am not the bad woman they say I am, and a jury will declare it so. Oh! I am sure they will and her big blue eyes shone with convic-

"And even if the jury don't the people will," said Mr. Seymour.
"Yes, indeed," continued Lady Dunlo. "I get so many letters every day from per-fect strangers, who say such kind things and encourage me to keep up my courage. The Bureau of Awards during the Centennial of 1876 was in charge of General Francis A. Walker, and the Bureau of Classification and Catalogue of Mr.

Dorsey Gardner. It is not known definitely whether Mr. Porter or Prof. Goode have accepted the positions tendered. It is understood, if they do, that their new duties will not interfere with those of their present positions. It is not known what salary will be paid these gentlemen, but as the Commission are auxious to obtain their services they have practically determined to let them name their own terms. They said they had heard so much in Chicago, New York, Philadel-phia and this city as to the pre-eminent organizing ability of these gentlemen that the Commission unanimously decided upon their selection for the position named. CARLISLE TO SPEAK.

HE MAY ADDRESS THE SENATE ON THE TARIFF TO-DAY.

Almost Every Democratic Member Prepared to Make a Formal Speech on the Subject -The Election Contests May be Reached in the House.

WASHINGTON, July 27 .- Tariff will be the principal theme of discussion in the Senate this week. So far all the Demoeratic members of the Committee on Finance, except Mr. Carlisle, have delivered speeches against the pending bill, and he is expected to address the Senate Mondays It is impossible to say how long the general debate will last, as almost every Democratic Senator is understood to have a

ormal speech prepared for delivery.

The advocates of the bill to transfer the evenue marine from the Treasury to the Navy Department will call it up in the morning hour, hoping to reach a vote. Al-though the oill is opposed by some of the most experienced and able Senators on the floor, it is conceded that if a vote is reached it will be passed by a decisive majority. Unless the demand for the passage of the river and harbor bill grows stronger than it is at present, the managers of that measure will not endeavor to bring it before the Senate this week.

If the amendments made by the Senate to the sundry civil appropriation bill are disposed of in time to-morrow, the House may spend a few hours in the consideration of District business, including the Atkinson railroad bill. Tuesday and Wednesday are to be given up to the Agricultural Committee, which will seek to secure action upon the compound lard and meat inspection bills f not interfered with by the general deficiency bill. The Elections Committee is still pushing for the consideration of the Virginia and South Carelina contested election cases, and expects to fill in the re-mainder of the week in that way if oppor-

TALK OF A NEW APPORTIONMENT. Representative Dunnell Thinks Congress

Will Not Have the Necessary Time. WASHINGTON, July 27 .- Owing to the length of the present session of Congress, it has been claimed by many that the returns of the eleventh census would be in time to allow the new apportionment for the members of the House of Representatives to be made before the close of the session. Mempers of the committee on the eleventh census say that the matter has not been given any thought. In fact they do not believe that it

will be taken up at this session. Representative Dunnell, Chairman of the committee, says: "It is a matter that will require deliberation and the committee would not be able to give the required time to it at this session, even if the returns should come in.

AGAINST THE BOYCOTT.

Governor Roas, of Texas, Says the Scheme is Wrong and Impracticable. PEPECIAL TELEGRAM TO THE DISPATCH.

Sr. Louis, July 27 .- Governor Roas, of lexas, in an interview to-day in reply to an inquiry as to his opinion of the proposed oycott of the North by the South, said: "I feem the proposed boycott utterly impracticable, and if practical would be unwise, because it would array the North and South against each other in permanent political, social and commercial hostility. It would divide the sections by as clearly a defined line as the Chinese wall; it would withdraw millions of Eastern capital from the South and destroy the credit of thousands of Southern merchants. It would in every Southern community create implacable enmities between those who favored and those who refused to join in the evcott. A citizen's loyalty to his State and country would be standard, while in the North every interest would be arrayed solidly against the South.

"If practicable it would be indefensible because it would involve the injury of friends and foes alike. It would be cated upon the assumption that the force bill, once enacted into a law, would be unrepealable; that the just sentiment of all sections could not be relied upon to relieve an oppressed section from a measure found to be tyrannical and dangerous to the peace.
I believe to the contrary. I believe the mere suggestion of boycott has been unfortunate, because it will be seized upon by demagogues as a confession of emnity to the North. A boycott is absolutely impracticable because it involves such injustice to our friends of the North that the masses of right-thinking and just-minded people of the South can never be coerced into its adoption by so-called leaders.'

THREE CENTS. FITLER FOR SENATOR.

Philadelphia Legislative Candidates

Believe He Will Run.

STUART WILL TAKE THE STUMP. He Will Appeal to the Young Men on Behalf

of Mr. Delamater. CHANGE IN THE TREASURER'S OFFICE

Which is Expected to Provide Places for a Number of the Fuithful,

It is asserted in Philadelphia that Mayor Fitler is a candidate for United States Senator, and that he will have the support of the city organization. Delamater and Andrews devoted yesterday to arranging the plans of the campaign. President Stuart, of the Republican League clubs, is to take the stump at an early date.

PERCIAL TELEGRAM TO THE DISPATCH.1 PHILADELPHIA, July 27 .- One week from to-morrow Captain Lewis R. Walters, of Phonixville, will relieve S. Davis Page of the duties of the office of Assistant United States Treasurer. As the office is not governed by civil service regulations the new Assistant Treasurer, who is a Stalwart Republican, will soon find a way to make places in the office for some of the faithful who have not yet been rewarded.

Captain Walters called upon Assistant Preasurer Page yesterday, and the two remained in close conference for some time. Mr. Page assured Captain Walters of his willingness to explain thoroughly the duties of the office and to render him every possible assistance in his efforts to master the details of the department.

A SUNDAY CONFERENCE.

Candidate Delamater and Chairman Andrews spent to-day at Spring Lake, where, while they enjoyed the breezes, they discussed the political situation. During the week at Republican headquarters Chairman Andrews is kept so busy attending to callers from the interior counties that he can scarce find time to talk with the candidate for Governor, and to-day's trip was a fore-runner of others which will follow in order that the head of the ticket may be kept thoroughly posted regarding the condition of affairs.

Chairman Porter, of the Republican City Committee, and Collector Martin, who are at the head of the Republican machine in this city, will meet Candidate Delamater and Chairman Andrews to-morrow upon their return from Spring Lake. The State Chairman has decided not to interiere with the workings of the local leaders, and to-morrow's conference will be held solely for the purpose of having a general talk upon things political.

ANXIOUS TO START.

Chairman Porter, who is credited with having a first-class organization to perform the detail work of the campaign, is very anxious to have the campaign started at an early date. The claim is made that the Democratic organization is in bad shape as compared with the Republicans, and that the sooner the fight is started the more advantage will be gained by the Republicans. Edwin S. Stuart, president of the Young Republican Club, is also president of the State League of Republican Clubs, and he is now engaged in search for headquarters which will be used solely by representatives of the local Republican clubs, who are to assist the regular organization of the party. President Stuart, during the campaign, will visit a number of throughout the State, and will call upon the young men of the party to assist the county organizations in performing clerical and other needed labor during the campaign. Senator Delamater, the Republican candi-date, is considered the young men's candidate, and special efforts will be made by

that class of Republicans to assist in bring-

ing about his election. FITLER'S AMBITION. Already quite a number of aspirants for egislative honors have announced themselves, but there are others who are waiting to see Mayor Fitler before making any an-nouncement of their candidacy. Many of the aspirants believe it to be the intention of Mayor Fitler to stand as a candidate for United States Senator, in which event all the power of the municipal government will

be put forth to nominate men who will stand by the Mayor. Director Wagner, whose army of office-holders can do considerable work, will, as a matter of course, stand by the men who can be depended upon to cast their votes for Edwin S. Fitler should be desire to ente

the race.

WOULD NOT AMALGAMATE. Railroad Men's Protective Union Discuss Topics Pertaining to the Trade. BOSTON, July 27 .- Delegates from 105

railroad centers of this country and Canada attended the meeting of the Grand Council of the Steam Railroad Men's Protective Union in Templar Hall, 724 Washington street, to-day. Charles Trenholme, the President of the Council, presided. The necessity for automatic draw-bar guard rail and higher elevation of bridges was forcibly presented by many of the delegates. The question of reduced hours of labor for trainmen and switchmen and more wages were discussed at length, but nothing definite was done.

The several standing committees and general president were instructed to secure the enactment of legislative measures in the interests of railroad employes. It was decided but not without a strong opposition that the Steam Bailroad Men's Protective Union should not attach itself to the American Federation of Labor, but work independently of all central bodies not connected with the railroad business. William Burns, of Boston, was elected General Organizer, and C. A. Keller, of Worcester, General Secretary, Burns having resigned the office.
