A BOOM IN CEREALS

The Inauguration of a Bull Movement All Along the Line.

A REACTION HIGHLY PROBABLE.

The Speculators are Advised to Go Slow for the Present.

A NEARBY PARMER INTERVIEWED.

OFFICE OF PITTSBURG DISPATCH, TUESDAY, July 29, 1890. A bull movement in cereals has been inaugurated within the past few days and prices have been steadily moving upward. Corn has been advanced 10c per bushel in the past week. Millfeed, hay and wheat have joined in the upward movement, but the rise has not been so sharp in the latter. How far this movement is speculative remains to be seen. A few days will tell the tale. In the meantime a large number of operators will be either hurt or helped. It behooves operators in grain and hay to go slow, as a reaction is almost certain within a short time. We have a big country and there is little likelihood of a shortage. It is rather significant that the cereal which is shortest this season, namely oats, should be quiet and dull

The buils are making their greatest onslaught

mond market at great expense of labor and horsefiesh. Those days have passed away, Markets have come to us. And in a season of scarcity like this there are ready buyers for our products without the trouble and toil of a long and sedious journey over rough roads."

LIVE STOCK MARKETS.

The Condition of Business at the East Liberty Stock Yards. OFFICE OF PITTSBURG DISPATCH,)

TUESDAY, July 29, 1890. CATTLE-Receipts, 160 head; shipments, 230

head; market slow at yesterday's prices; no cattle shipped to New York to-day. Hogs-Receipts, 1,350 head; shipments, 900 head; market active; good smooth light selected, \$4 1964 15; common to heavy, \$3 90@ 4 05; 3 cars of hogs shippedto New York to-day. SHEEF—Receipts, 1,800 head; shipments, 1,500 head; market slow at yesterday's prices.

NEW YORK — Beeves—Receibts, I,149 head, all for slaughterers; no rading; feeling dull; dressed beef steady, 6/4671/c per B; shipments to-day, 6/3 heaves and 4/00 quarters of beef; to-morrow, 820 heaves, and 2.500 quarters of beef. Calves—Receipts, 794 head; market 1/c per B lower; reals, \$5 00/26 00 per 100 hs; butter-milk calves \$2 5/08/3 50. Sheen—Receipts, 4.855 per m lower; reals, \$5 ougo to per 100 hs; butter-milk calves, \$2 50g3 50. Wool Markets.

Wool Markets.

PHILADELPHIA—Wool fairly active: Ohlo, Pennsylvania and West Virginia XX and above, 33@34c: X, 31@32c: medium, 38@35c; ocarse, 33@35c; New York, Michigan, Indiana and Western fine or X and XX, 28@30c; medium, 38@35c; cearse, 33@35c; ine wushed delaine X and XX, 33@35c; ine dium washed combing and delaine, 38@46c; carse do do do, 25@35c; Canada do do, 32@35c; tub washed, choice, 38@40c; fair, 37@35c; carse do do do, 25@35c; Montana, 17@25c; Tetritorial, 16@22c.

Boston—There has been a fair demand for Boston-There has been a fair demand for BOSTON—There has been a fair demand for wool and the market remains about steady: in prices there is no material change. There have been sales of Ohio X at 31c and XX and above at 33c,33c. Miningan X wool is held mostly at 25c, while manufacturers are trying to buy at 25c; No. 1 combing wools are quiet at 33c,30c; Ohio delatine at 35c and Michigan fine delatine at 34c. Unwashed combing wool sells slowly at 25c for three-eighths blood and 25c,25c for one-quarter. Territory wools are duil at 55c; soured for fine, 50c for fine medium and 54c,55c for medium. Texas wools in fair demand at 20 25c. Oregon and California wools are quiet. Fulled wools are in steady demand at 30c,35c for super and 22c,25c for extra. Foreign wool is quiet but firm.

Metal Market. NEW YORK, July 29.—Pig iron strong. Copper neglected; Lake, July, Fc. Lead dull and rather weak; domestic, 24 40. Tin dull and ashade easier; straits, 228 65.

MARKETS BY WIRE.

Chlenge Grain Pit Still the Scene of Excitement and Heavy Tradies-Free Selling Couses a Tamble in Prices-Pork Loses.

CHICAGO—Wheat—Quite a large business was again transacted in this market, and the feeling developed was unsettled and nervous. Prices were subject to sudden fluctuations and easily influenced on account of the feverish condition of the market. The opening was about Mele lower than yesterday's closing, ruled steady and further declined, but later suddenly developed strength, and within a few minutes prices were advanced 13/16/2c. The up-turn was rather unexpected and was a general

minutes prices were advanced 13/452c. The upturn was rather unexpected and was a general surprise. The advance, however, brought out rather free offerings, under which prices receded 14/c. fluctuated some and closed about 16/c lower than resterday. There was considerable solling, it was claimed, by the heavy longs, and foreigners were reported to have sold both here and at the seaboard.

Corn—There was another large day's trading in this market and fluctuations covered a wide range. The market opened wild and excited at 11/452c under the closing quotations of yesterday, was weak, but soon firmed up, advancing ic, reacted later 11/c. sold up again 1/451c, ruled easy and closed 11/4611/c lower than yesterday.

Oats—An unsettled feeling prevailed and prices covered a good range. The opening was weak at 1/c decline, and prices receded 1/c more for September and 1/c for May under fair offerings. A firmer feeting developed and prices advanced 16/11/c, receded 1/c, became firmer and again advanced 1/461/c and closed steady at a net gain of 1/461/c ver yesterday's close, except for May, which was 1/c lower.

Pork—Prices ruled irrecular, especially for September and January deliveries, and the former closed decidedly lower.

Lard—Quite a good trade was reported. Early prices receded 2/c/65c, but later a firmer feeling was developed and prices rallied 5/67/c and closed comparatively steady at medium figures.

Short Rib Sides—Trading quite active. Early

the past week.

The bulls are making their greatest onslaught on corn, which from latest reliable reports promises to be well up to an average crop. Recent dry weather in the Northwest is the card which bull speculators appear to be working for all that is in it. But there's many a slip 'twint the cup and in.

A few tinely showers would change the situation in the great Massisappi and Missouri Valloys. At the worst, the yield of corn will be ample for all the needs of our country. Government statistics also show that the wheat crop, while below average, is sufficient for all the country's needs, and that we will have bread enough and to spare. The only crop which shows heavy decline is the oats crop. In many sections of the land there has been almost a fallure in this line. Taking the section which looks to Pittsburg as its trade center the oats crop is little above one-half its average this season.

Flour May be Higher.

A rise in flour is likely to come any day. Said one of our flour jobbers to-day: "I have just received notice from a number of the Northwestern millers that fancy patent flour has been advanced 150 per harrel. It is only a question of short time when there will be an advance here. I have been looking for a rise for several days, and an surprised that it has already advanced. But here we have a fact of a rise. At other trade centers flour has already advanced. But here we have a first for or a rise for a rise of the or a rise of the corner will be shoned to a rise of the corner will be shoned for a rise of the corner will be an advance for a rise of the corner of the corner will be an advance for the very soon suffer from a declining market, but are long in reapping the benefit of a rise. At other trade centers flour has already advanced. But here we have a little longer wait owing to sharp competition for trade."

A faurer from the vicinity of Clinton who has been a weekly visitor to this city for the past quarter of a century or more, had this corner and weekly visitor to this city for the pa

The Fruit and Hay Crop.

The hay crop is above average. Most of the meadows around Clinton will yield two tons of hay to the acre on an average. Most of the meadows around Clinton will yield two tons of hay to the acre on an average. Most of the meadows around Clinton will yield two tons of hay to the acre on an average. Most of the meadows around Clinton will yield two tons of hay to the acre on an average. Most of the meadows around Clinton will yield two tons of hay to the acre on an average. Most of the meadows around Clinton will yield two tons of hay to the acre on an average. Most of the meadows around Clinton will yield two tons of hay to the acre on an average. New hay is now selling in the stack at \$5 a ton and not very brisk at that.

As to fruit, there is none worth speaking of in our section. In Finley township I doubt whether there is an apple. Small fruits have been a comparative failure this season. Usually we can count on a large crop of blackberries and rassberries. This season, however, has upset all calendarious in this line.

The best crop in our section, and has brought to our doors good customers for all the products of garden and field. There is no longer the necessity of coming to Pittsburg markets to dispose of our stuff, since the large indux of population caused by oil speculators furnishes a ready market at home. In my boyhood we brought big quantities of stuff to Dismond market at great expense of labor and horseffees. These days have passed away. Markets have come to us. And In a season of the section to the comparative failure this season, however, has the season however, has need to the products of garden and field. There is no longer the necessity of coming to Pittsburg markets to dispose of our stuff, since the large indux of population caused by oil speculators.

The best crop in our section, and has brought to our doors pood customers for all the products of garden and field.

PROPERTY TIED

Big Offers for a Valuable Location on Fifth Avenue and Wood Street.

WHY IT IS NOT ON THE MARKET.

Water Delivery at Highland Park Re stricted to the First Floor.

THE NEWS AND GOSSIP OF THE CITY

Some misapprehension exists among cer tain investors in real estate in regard to the status of the property on the southwest corner of Fifth avenue and Wood street, which is occupied by the Baltimore and Ohio Railroad as a ticket office. It is managed under a trust deed, and cannot be sold or improved until the death of the oldest heir, who is 70 years of age.

The location of the property, at the corner of two of the best business streets of the city, makes it very valuable. Several offers have been made for it-one of \$200,000, or at the rate of \$5,000 a foot-but for the reason above given they were not taken into consideration. Upon the expiration of the trust, which in the nature of things is not remote, the property will be sold or improved. A ten-story building has been talked of.

In the opinion of a good many persons it will be some time before fancy prices are realized for property adjoining or near Highland Park.
On account of the weakness of the water pressure, the delivery of this necessary fluid is re-stricted to the first floors within a range of about 1,000 feet of the reservoir. Sometimes, about 1,000 feet of the reservoir. Sometimes, when the water is high, it rises to the second floor, but this seldom happens. The top floors have, therefore, to be supplied by force pumps, operated by hand or wind power.

This is a curious condition at the source of water supply of this great city, but is unavoid-

able, without great labor and expense. To alse the reservoir would be a difficult and cost ly piece of work, and, perhaps, impracticable. A water famine with millions of gallons in view suggests the plaint of the "Ancient Mariner." "Water, water everywhere, And not a drop to drink."

It is worse than "carrying coals to New-castle," of which famous feat it is a reminder. In speaking on this subject yesterday, a broker remarked: "Some time ago I took a fancy to a piece of property near Highland Park, but before I had made up my mind to buy it a friend spoke to me about the water trouble. I investigated and found the supply limited to the first floors. I at once gave up the idea of buying. Added to the inconven ience of relying upon a force pump is the in-creased danger from fires to which property there is subjected by the low pressure.'

Business News and Gossip. A gratifying feature of the mortgage busi-

ness this season is that the bulk of them represents purchase money. This encourages im provement and involves no great risk. Bank-ruptcy seldom grows out of this form of debt, J. E. Glass reports a good inquiry for prop-erty in the Twenty-first ward, particularly on Lincoln in the vicinity of Washington avenue -a district that has hitherto failed to receive the attention its location and advantages de-

so that they will be passable next winter and spring. It is feared, however, that the opportunity will not be improved. Practically nothing has been done in this part of the county outside of the city limits.

A summary of the crop reports indicates an average yield throughout the country, with the

Now is the time to improve the country roads

exception of fruit. Canned goods will be marked up next winter. The two big bank buildings on Wood street and Seventh avenue are assuming a habitable appearance, although they are far from com-pletion. They represent over half a million of

Eleven of thirty-two mortgages on file for record yesterday were for purchase money. The largest was for \$5,100. Sixteen were for \$1,000 and over.

A London authority, in referring to the probable effects of the silver bill, says the price of silver will go higher, but it is doubtful if the advance can be maintained on account of the great increase of production.

It was stated yesterday that several new

options had been secured on Twenty-second ward property-one of them to run only 24 hours. This shows that the movement out there is still in full vigor.

A big deal in real estate, involving a sum represented by six figures, has been hung up for three days by the absence of one of the owners. It is unimproved land within the city

The proposed Baltimore and Ohio improve ments, together with the assurance of a bridge at Ross street have given property in that neighborhood an upward tendency.

Movements in Real Estate.

A number of deals were closed yesterday but not reported. Those that were permitted to get away are appended:
Charles Somers & Co. sold for the A. Kleber estate to William L. Smith, a property on Water street, above Ross street, consisting of two tenement houses, with lot 45x50, for a price approximating \$10,000.

reximating \$10,000. Reed B. Coyle & Co. sold a two-story brick dwelling, situate on Locust street, Fifth ward, Allegheny, with lot 20x105 feet, for \$4,000 cash Balteusperger & Williams sold the property, No. 30 Long alley, Allegheny, being a six-roomed frame dwelling with lot 281/2381/4, for \$2,200 cash. David Beitler & Co. were the pur-

Black & Baird sold to E. A. Barns for S. H. Black & Baird sold to E. A. Barns 107 S. H.
McKee, lot No. 226 in the Baum Grove plan at
Roup station. Pennsylvania Railroad, 60x110
feet to an alley, on Amber street, for \$2,200.
Baxter, Thompson & Co. sold to C. E. Erickson lot No. 12. Belmont Place plan, Ingram
station, fronting 50 feet on Linden avenue by

162 feet, for \$600.

W. A. Herron & Sons closed the sale of a new house, modern style, eight rooms, lot 40x120 feet, on the corner of Edwin and Alder streets, Twentieth ward, to a prominent railroad man tor \$6,750.

The Oil Market Relieved From a Total Fallere-Lims Talk.

From the apathetic manner of the oil crowd when the market opened yesterday it was thought the day would pass without a sale, but toward noon 6,000 barrels changed hands, and just before the close 3,000 more were unloaded, making good for the day. There was only one fluctuation, and the close was ½ below the opening. The opening and highest was 89. The lowest and closing 88%.

One of the most reliable brokers on the floor said: "I am in hopes the listing of Buckeye certificates will improve trade. If it doesn't, we will have to shut up shop. If the oil is handled so as to cause fluctuations frequent enough and wide enough to make it a speculative commodity. I think it will be a success, but if allowed to get into the rut it will only make things worse. In any event, the standard will make carrying expenses."

The second reading of the proposition to list Lama oil and to return to the cash system was had yesterday. Third reading and final action were announced for to-day. Both propositions, it is believed, will be adopted. From the apathetic manner of the oil crowd

Other Oll Markets. OIL CITY, July 28.—Petroleum opened at 89c; highest, 89%c: lowest, 89c; closed at 89c. Sales, 29,000 barrels, charters, 14,286 barrels; shipments, 118,067 barrels; runs, 110,066 barrels. NEW YORK, July 28.—Petroleum broke the record for narrowness to-day. In spot oil there was only quotation, and in August option a fluctuation of 1/10 was all the movement re-

corded. Spot opened dull at 88%c, and re mained unchanged all day. August opened dull at 89c, fell to 88%c and closed dull. Stock Exchange—Opening, 88%c; highest, 88%c; lowest, 88%c; closing, 88%c. Consolidated Exchange—Opening, 88c; highest, 89c; lowest, 88%c; closing, 88%c. Total, sales, 66,000 barrels.

HOME SECURITIES.

Electric and Philadelphia Gas Continue Leaders in Activity and Strength. There was no lack of animation at the stock market yesterday, but business was rather light, prices being above the views of buyers, Philadelphia Gas was the leader in activity.

It opened at 31% advanced to 31% and closed at 31% bid. The advance was due to no particular influence except the favorable impression caused by the recent statement of the affairs of the company. The other natural gas stocks were practically unchanged and neglected. Electric, with little offered. It advanced on one sale to 42 and closed at 41% bid. Rights went at 50 at first call and 40 at second—a decline of 20 from the last price of the previous day. A broker said he had reason for saying the stock would reach 45 before a reaction. It was again asserted by several that Boston had the earliest tips on subscription rights. As this has been denied here over and over again, there seems no way of settling the question. It can be said, however, that Bostonians have all along had great faith in the future of the stock.

Street rallways received very little attention, Street railways received very little attention, but were a shade weaker. A broker who makes a specialty of these stocks said he did not look for much demand for them until the talk about consolidation materializes or is shown to be baseless. Competition and legal entanglements make dividends extremely uncertain. Switch and Signal was bid up to 16%. It was stated several brokers were busy picking up Airbrake. By persistent effort Columbia Oil was bulled up to 2%, with offers at 3.

At first call 541 Electric rights brought 50. At second call 100 Philadelphia Gas went at 31%, 20 at 31½, 15 at 31½, and 7 Switch at 16½. Before call 60 Electric sold at 42. For 200 rights 40 was realized.

The total sales of stocks at New York yesterday were 11,806 shares, including Atchison, 13,860; Delaware, Lackawanna and Western, 4,930; Missouri Pacific, 3,490; Reading, 4,200; St. Paul, 6,100; Union acific, 3,470.

A GOOD AVERAGE

Business at the City Banks Continues Henvy for the Senson.

Checking was lighter yesterday than on Monday, but as this is nearly always the case Monday, but as this is nearly always the case on Tuesday, due to the difference between Saturday and Monday sales, the shrinkage possessed no significance. Depositing was fair. Exchanges were \$2,529,405 31 and balances \$229,491 86.

The demand for loans was moderate, but good for the season, and rates showed no change. Borrowers with acceptable collateral had no trouble to get all the funds they wanted at 6 per cent. Conditions continue to favor a heavy fall trade.

heavy fall trade.

Money on call at New York yesterday was easy, ranging from 3@4 per cent, last loan 3, closing offered at 3. Prime mercantile paper, 5@614. Sterling exchange quiet but firm at \$4 85 for 60-day bills and \$4 89 for demand.

NEW YORK, July 28.—The stock market to-day witnessed another swing of the pendulum of values, and the losses of yesterday were generally regained, although there was less business done, and at times the duliness was equal to anything seen of late in that line. The apathy displayed by the bolders of securities evidently encouraged the local and Chicago bears to make a short turn on the short side, and the evening up is about accomplished.

The usual indication of a desire to buy by the Chicago people was furnished. There were reports of serious damage to the crops, espereports of serious damage to the crops, espe-cially in Dakota and Minnesota. There was a great deal less heard to-day about the South American troubles, although a large amount of gold was taken for export, which in all probability was the direct effect of those dis-turbances, which have assumed a more serious

profability was the direct effect of those disturbances, which have assumed a more serious character.

The desire of the late short sellers to cover, however, counteracted all such influences, and soon after the opening a decidedly strong tone was developed, though it was not until in the afternoon that much progress was made in the upward direction, although the opening prices were generally from ½ to ½ per cent better than last night's figures. Sugar was the great bull card, as it was the weakest yesterday and the loss was about recovered. The movements in the regular list were confined generally to fractional amounts, and in Atchison, in which the only important railroad news of the day was developed, the fluctuations were very small. The publication of the passing of the dividend on the San Francisco first preferred was seemingly without influence, and was evidently fully discounted. Among the Grangers Rock Island and St. Paul were most prominent, the former scoring a material rise as the result of the lay's operations. The market on the whole showed a very strong undertone to-day, and prices moved up easily on light purchases. The feeling of an early improvement in both prices and business is more pronounced, and the South American influences are believed to have had their full effect upon this market. The shorts in Sugar covered freely on the reports of an adjustment of the difficulties in the way of reorganization, but there was nothing definite given to the public. The market closed duil, but strong, the upward movement ceasing only with the sound of the gong. Sugar is up 3 per cent to-night and Rook Island 1 per cent, but strong, the upward movement ceasing only with the sound of the gong. Sugar is up 3 per cent to-night and Hock Island 1 per cent, but all other changes are for fractional

but all other changes are for fractional amounts.

Railroad noads were very dull, the total transactions reaching only \$006,900, while out of that amount Atchison incomes furnished \$106,000. The tone of the dealings was on the whole rather heavy, and all the important changes to-night, which are very few in number, are in the direction of lower figures. The list, as a whole, however, was as stagnant as usual.

Government bonds have been quiet and steady.

Government bonds have been quiet and steady.

State bonds have been entirely neglected.

Lazard, Free & Co. ordered \$200,000 more gold for export. Total for export to-day, \$1,500,000.

Total this week. \$1,975,000.

The Post says: The Atchison directors, who now control the St. Louis and San Francisco, today passed the dividend on the first preferred San Francisco stock. The last dividend was 2 per cent, paid in for the half year to January L. This was a reduction from the previous rate of 7 per cent per annual dividend having been 34 in August, 1882. The Atchison directors say that no dividend has been earned by the San Francisco in the six months to July 1, and that therefore nothing will be paid for that half year, but that if a dividend is earned in the sax half of 1890, one will be declared at the end of the year.

The year slight declines in United States rall. Inst half of 1890, one will be declared at the end of the year.

The very slight declines in United States rall-way stocks in London through all the recent disquiet in other foreign securities shows that they are more firmly and confidently held than any others, and that as soon as London recovers confidence enough to be in a speculative temper American securities will be the favorite investment.

The following table shows the prices of active

A ROADRED OF COAL.

One of the Great Difficulties in Constructing n Railway.

WHEELING, July 29 .- One of the most difficult and interesting pieces of railroad work imaginable is on the line of the Ohio Valley Railroad, now under construction from Bellaire south along the west bank of the Ohio to Marietta. Just after leaving Bellaire, high hills extend along the river for a distance of 20 miles, and for fully half that distance there is no bottom land whatthat distance there is no bottom land whatever, the slope of the hills originally extending right into the water, and now being only
separated by an artificial beach a few
yards wide, occupied by the county road.
In excavating for this road in years gone by
solid ledges of sandstone and limestone
rock, the latter resting on a bed of coal, were
exposed, and in some places these ledges
form a solid cliff 20 to 40 feet high.
To make a had for the new railroad the NEW YORK — Clearings, \$136,807,807; balances, \$4,602,545.

Boston — Clearings, \$14,421,658; balances, \$1,739,44. Monor 4@5 per cent.

SI,738,414. Money 420 per cent.
PHILADELPHIA—Clearings, \$10,659,503; balances, \$1,490,493.
BALTIMORE—Clearings, \$2,389,356; balances, \$235,675.
CHICAGO—Clearings, \$12,928,000. Money 6 per cent on call and 6@7 per cent on time. New York exchange was at par to 25c discount.

BUSINESS BRACING UP.

NEW YORK, July 29.—The stock market to-day witnessed another swing of the pendulum of values, and the losses of yesterday were of values

NOT A CORRUPTION FUND.

Chicago Aldermen Will Not Get Any of Illinois Central's New Stock. CHICAGO, July 29 .- The fact that the Illinois Central has decided to issue new stock to the amount of \$5,000,000 has given rise to many rumors concerning the plans of the company, and it has been said that a supendous deal in connection with the Lake Front, coupled with an enormous corruption fund, was be-ing hatched by the Illinois Central Com-pany. The proposition regarding the use of the Lake Front for the World's Fair site

the Lake Front for the World's Fair site provided for the payment to the city of \$1,500,000 by the Illinois Central. This offer was to be increased, so one story ran, to \$3,000,000 or more, if necessary, for the Illinois Central to attain its object.

President Stuyvesant Fish to-day denied, President Stuyvesant Fish to-day denied, however, any intention of raising a corruption fund. He said the money was to be used in building additional tracks, purchasing new equipment and constructing a new depot and general office building, the latter to cost about \$1,000,000. He said that at no time since 1860 has there not been enough money in the Illinois Central Treasury to buy the Common Council, with the State Legislature thrown in, ten times over. Mr. Fish also said that the Illinois Central never made a formal proposition to give \$1,500,000 toward filling in the lake front. He said he had simply agreed to submit the matter to the directors, and that was all there was to it. It is now said the Central will offer no inducements to fill

Drygoods. NEW YORK. July 22.—There was considerable inquiry for cotton goods, which resulted in disclosing a firm market. Moderate transactions followed at full prices, and the outlook seems more assured. Business in woolens continues irregular and does not make satisfactory progress in all directions.

CHICAGO, July 29.—Whisky is firm at \$1 12 for finished goods. Prices of Bar Silver. New York. July 29.—Silver—London, 50%d; New York, \$1 05%.

Whisky Market.

Dr. Flint's remedy has saved more lives by timely use, and has kept from suicide or the insane asylum more victims of nervous disorders that all the physicians with their pet methods of treatment. Descriptive treatise with each bottle. At all druggists, or address Mack Drug Co., N. Y.

Tendency of Cereals Upward, and Corn Especially Strong.

PLOUR PROMISES TO GO UP HIGHER

OFFICE OF PITTSBURG DISPATCH. TUESDAY, July 29, 1896.

Country Produce-Jobbing Prices.

Elgin creamery butter has taken an upward turn. Prices are advanced, as our quotations will disclose, and there is a strong probability of a further advance before the week is out. According to markets established at Elgin by actual sales yesterday, the lay-down price of fancy brands is 19c at this date. Markets here are unusually bare of choice stock. Country butter is still poor stock and prices are only nominal. Eggs are in better supply and mar-kets not so lively as they have been of late. Potatoes are scarce and firm at quotations. Apples are in good supply and quiet. The berry season is close to its end. Supply is not equal to demand. The blackberry crop falls far short of general expectations. A good demand for all choice products is reported by produce commission men. Fruit and Vegeta-bie Inspector Kilgore condemned to the gar-bage pile to-day 212 crates of cantaloups which had been held until they were over-ripe. This was the outcome of the glut in this line last

week.

Grain, Flour and Feed. Bales on call at the Grain Exchange, 1 car No. 2 y. e. corn, 58c, 5, days; 1 car 2 y. a. corn, 54c, 5 days. Receipts as bulletined,*46 cars, of which one-half were received by the Pittsburg, Cincinnati and St. Louis Railway, as follows: 6 cars of cats, 10 of corn, 2 of wheat, 3 of hay, 1 of bran, 1 of millfeed. By Pittsburg, Ft. Wayne and Chicago, 2 cars of corn, 3 of cats, 1 of bran, 10 of flour. By Baltimore and Ohio, 1 car of corn, 2 of cats. By Pittsburg and Lake Eric, 1 corn, 2 of oats. By Pittsburg and Lake Erie, 1 car of rye, 1 of hay, 2 of flour. Corn keeps moving higher, and our quotations are advanced in accordance with the facts of the case. Oats are not so strong as they have been for a week past. Millfeed is firm at quotations and the drift of markets is upward. Wheat and flour also show an upward tendency. Choice hay is very scarce in this market and prices are firm. All along the line of cereals and hay the tendency is toward higher prices. Prices are for carload lots on track:

WHEAT—No. 2 red, 98,995c; No. 3, 91,992c; new wheat, No. 2 red, 98,995c; No. 3, 91,992c; new wheat, No. 2 red, 98,995c; No. 3, 91,992c; new wheat, No. 2 yellow at 76,655c; high mixed shelled corn. 22,655c.

RIVER INTELLIGENCE.

Local Showers Will Have no Effect on the

Rivers.

The Monongahela packet line did another large day's business yesterday. Large ship-ments of merchandise were off on each of the three boats. The river remains about stationary with 5 feet and 9 inches in the pool. The Davis Island gauge registered 2 feet and 8 inches at 6 o'clock. The rain storms were only local and the Signal Sergeant thought that it would not effect the river materially. Arrivals -James G. Blaine and Adam Jacobs, from Morgantown; Elizabeth, from Elizabeth. Departures-Blaine, Jacobs and Elizabeth, Leaving today—8 A. M., Germania, 3 P. M., Jacobs, for Morgantown and way landings. Elizabeth for Geneva and Elizabeth.

THE W. F. Nisbet will lay over at Evansville or repairs. THE Lizzie Bay passed Portsmouth on the way to Cincinnati yesterday. THE Allen J. Duncan is to be put on the Tennessee river line shortly. THE Louis A. Sheriey is running in the Cincinatt and Pomeroy trade. THE John Walton passed Evansville, Ind., with tow of empties yesterday.

THE New Idea passed Cincinnati on the way down with Robinson's circus.

THE Falls City will be launched to-day at Louis-

ville. It is intended for the Kentucky river trade. THE James G. Blaine is running in the Monongaheia packet trade. She carried an immense load of passengers and freight yesterday. PILOT T. S. BANTA denies the report that the Voulenteer is over the bar at Blaing Sun. He states that it is still hard aground.

LATE NEWS IN BRIEF.

—Thirteen lives were lost in the collision on Chesapeake Bay. —Brooklyn's population is 804,377, a gain of 237,714 or \$5.95 per cent in the decade. -Emin Pasha's party is more or less affected with sickness. Emin is himself quite ill. —Severe droughts prevail in Western Kansas and prairie fires are feared in consequence. The postmaster of Warren, Wyo. T., has been asked to resign for selling 2-cent postage stamps at 5-cents cach.

Rumored in diplomatic circles that Uncle Sam is figuring on the annexation of either Hayti or San Domingo.

The Prince of Montanezon has deposed at

—The Prince of Montenegro bas demanded of the Porte indemnity for the outrages com-mitted by the Albanians. -The Democrats are booming Judge Allen B. Morse, of the Supreme Court of Michigan, for Governor of the State. The street car companies of Grand Rapids, Mich., granted the strikers' demands and they returned to work yesterday.
