Its great healing and curative powers are possessed byno other remedy. Ask your druggist for "SWAYNE'S CINTMENT." | 1981-38-TTS

Delay of Adams Express Trains Causes a Glut of Tomatoes.

POTATOES SCARCE AND HIGHER,

Cereal Markets Are Steady and Favorable

LUMBER IS ACTIVE AND UNCHANGED

OFFICE OF PITTSBURG DISPATCH. WEDNESDAY, July 30, 1890.

Country Produce-Jobbing Prices. The leading feature of markets to-day was Express trains, a large lot of Southern stuff was behind time, and commission men received their goods after customers had gone home. The delay entailed heavy losses on the shipper and very sorely tried the patience of the commission merchant. Potatoes are scarce and higher. Melons are in good supply and markets are easier. Cabbage is dull, owing to liberal receipts. Supply of berries is light and demand corresponds. Poultry is slow at quota-tions. Eggs are in better supply and markets are weak at a shade lower prices. Choice nearby stock is still scarce. The creamery but-ter drift is upward and there is little doubt that prices will be advanced before the week is out. The upward movement of creamery but-

OIL MORE ACTIVE.

The Local Crowd Succeeds in Stirring Things Up-Field Notes. The oil market produced another surprise

yesterday. Trading was active, and the fluctu-ation covered a range of 2 cents. About 50,000 barrels changed hands. The feeling was firm from start to finish.

The local crowd were most prominent on the bull side, and did most to stir the animals up. After Pittsburg had set the boom in motion,

assisted by Oil City and Bradford, New York urned in and sold. Under this influence the turned in and sold. Under this influence the market weakened. The close was 1½c below the initial figure. The opening was 89-5c, the highest 90c, and the lowest and closing 88c. The exchange unanimously adopted the propositions to issue certificates on the Buckeye product, and to return to the system of cash delivery. Certificates will be ready for use about August 15.

The new well of the Bellevue and Glenfield Natural Gas Company is considered a better one than the Magazine well on the Ivory farm. The Harvey well of Messrs. Boyer and Dinnick is due. Several others in the same field are expected in this week. The Straw No. 1 continues to be a good producer. The rigs for the Hammond wells are nearly completed, as is also the Mulvehill rig adjoining Windsor Park, and drilling will be commenced next week.

week.

SPECULATING IN SILVER.

Wall Street Interested in the Movements in Silver-Railroad Bonds Improving in Price and Movement-Gen-

eral Stocks Dall. NEW YORK, July 30.-The influences which for the past few days, have been the cause of comparatively wide movements in the stock market, to-day seemed to have lost their power to move prices, and the stock market again re-turned to its now normal condition of duliness and stagnation. There were a few movements peculiar to themselves, but the general list was dull and stagnant throughout the day. Of the movements to-day therein Sugar Refineries, Atchison, St. Paul, Rock Island and Lackawanna alone are worthy of notice. Sugar was moved alone are worthy of hostics. Sugar was moved up and down over a comparatively narrow range by the conflicting reports of the con-templated reorganization, but it never got as as much as 1 per cent away from its opening

as much as I per cent away from its opening price.

Among the stocks of the regular list the strongest may be said to be Rock Island. Lake Shore, Wheeling and Lake Erie preferred and Hocking Valley. The great feature of the trading, however, was the sudden and decided strength developed in cotton oil in the afternoon, whereby the receipts were advanced to 32% and closed at 32, a net gain of 2% per cent for the day. The market closed dull but firm, at but slight changes from last night's figures as a rule, the stocks meutioned showing the greatest advances. The market continues dull, but firm to strong, and there is evidence that whenever the leading bulls take hold prices will advance easily, so that with the more hopeful feeling now prevalent, an outside following will result.

ounces between the 13th of August and the 13th of November unless the price goes above \$1 29.29.100 per ounce. There is now a stock of about 7,000,000 or 7,500,000 ounces in sight in the New York market and vicinity. Heretofore, for, ten years or more the average monthly exports have been about 700,000 ounces, and the average monthly imports about 1,500,000 ounces, thus leaving net exports of say 1,200,000 ounces, thus leaving the three months, or say 15,000,000 ounces, thus leaving a period as to show that there is a constant market for that much abroad, Whether there is a sufficient stock in the country to flow into the Treasury at the rate of 18,500,000 in the three months after August 13, and still leave \$,000,000 to 4,000,000 for export in the same time remains to be seen.

The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for The Disparch by WHITMEN & STEPHENSON, oldest Pitteburg members of New York Stock Exchange, 57 Fourth avenue:

DISPUTE OVER CHURCH PROPERTY. An fejunction Upon the Baptist Sustenta tion Society of Pittsburg Asked.

W. H. Lee, President of the Board of Trustees of the Ebenezer Baptist Church, yes-terday filed a bill in equity in behalf of the church, against Thomas H. Chapman, John B. Brittain, W. K. Grav, C. A. Edsall and John A. Myler, comprising the Church Sustentation Society of the Pittsburg Baptist Association. It was alleged that the church owned four lots in the Eleventh ward, on the corner of Colwell and Miller streets. In 1881 they conveyed the ground to the Sustentation Society, to be held in trust until the church had paid the society the money collected by the society to aid in erecting the church building on the lots.

The money, it is alleged, has all been repaid

The money, it is alleged, has all been repaid and the trust ended, but the Sustentation Society has refused to reconvey the property to the church. The Court is asked to restrain the society from conveying the property to any one else, and to compel them to reconvey it to the church. Echoes of the Court Corridors.

Meeting of Pilots Called-Engineers Want

call a meeting of river pilots and coal operators to decide where improvements along the Ohio are required. Captain Wood, in an interview, stated that improvements were most necessary at Logstown, Wellsburg and Marietta Island, There is not enough money left of this year's GUARANTEE to CURE by this New IMPROVED ELECTRIC HELT or REFUND MUNEY. Made for this specific purpose. Cure of Physical Weakness, giving Freely. Mild. Soothing. Continuous Currents of Electricity through all weak parts, restoring them to HEALTH and VIGOROUS STEENGTH. Electric currents felt instantly, or we forfelt \$0.00 in cash. HELT Complete \$5 and up. Worst cases Permanently Cured in three months. Sealed pamphiets free. Call on or address \$4.NDEN ELECTRIC CO.. \$19 Broadway, New York. appropriation to make the necessary improve-ments, and some will have to be held back for another year. Marietta Island is about the most dangerous place. Here the river is forced into a narrow channel on the south side by means of a dam nine feet high, which causes th river to run at a fearful rate. At the lower end of Marietta Island a dike 2,000 feet iong and 7 feet high has been built. Two feet of water flows over this, which makes a dauger of sinking barges when forced upon the dike. It is proposed that the dam be either moved from the south to the north side, or that the dike be raised two feet to obviate the danger. The pilots have had practical experience with the obstructions in the Ohio, and it has been decided to have them attend the meeting today to make a report of the snages and "rifflee" river to run at a fearful rate. At the lower end

decided to have them attend the meeting to day to make a report of the snags and "riffles" in the Ohio. It appears that Colonel Merrill has carried on the work of dredging the river without receiving any reliable information about where the most dangerous places are, and he asks that this meeting be called to ascertain from the pilots where these places are. Business about the levee was quiet, nothing being done outside the packet business. The

LIVE STOCK REVIEW.

Receipts of Cattle at Liberty Less Than Last Week and Market

FIRM FOR GOOD BUTCHERING STOCK Quality of Sheep and Lambs Offered Poor

and Prices Off. SWINE IN LIGHT SUPPLY AND PIRM

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, July 30, 1890. The total receipts of cattle at East Liberly for the week were 120 loads, against 156 loads last week. A decline of 36 loads had a favorable effect on markets, and all tidy, light butcher beeves were firm at last week's prices. There has been a scarcity of this grade of cattle for some months, and their scarcity is the redeeming feature of markets. The quality of this week's receipts was below late average. A very large percentage of the cattle on the market were common and low grade. There were in the 120 loads cago. The supply of tidy butcher cattle, such as our market calls for, was scarcely up to demand. The bulk of the offerings were what is known in the trade as shipping weak on Monday, and sales were made at a de-

received this week about 23 loads from Chigrass cattle. For this grade markets opened weak on Monday, and sales were made at a de-cline of 10 to 15c from prices of last week. There was a decline on all grades with the exception of light, tidy butcher stock, weighing from 1,000 to 1,200 hs. A few loads of heavy cattle, weighing about 1,500 hs, which were in good condition, but not prime, were sold at \$4.30. Fresh cows were in larger supply than at any sime this war or last and prices on common time this war or last and prices on common

East in first hands. The range of markets for sheep was \$5 50 to \$5 10 per hundred, with very few sold at the last figure. Lambs ranged from \$6 to \$56 per h. A bunch of very fancy, comprising 15 head, brought 7c per h. There were between three and four carloads of hogs

By Telegraph.

NEW YORK — Beeves—Receiots, 2,619 head, Including 80 car loads for sale; market 10c per 100 hs lower; native steers, \$3 10@4 60; bults and cows, \$2 20@2 55; dressed beef slow, 6,42 7½ per h; shipments to-day, 950 beeves and 1,800 quarters. ACCUSED OF SEDITION.

An American Citizen on His Way to Ger many to Stand Trinl. SPECIAL TELEGRAM TO THE DISPATCE. NEW YORK, July 30 .- Among the passengers on the Britannic to-day were Mr. Joseph J. Jonasson, an American citizen who is going to Germany to be tried for "sedition," under the laws of that country, Mr. Jonasson is a son of Mayer Jonasson, the cloak manufacturer. Last spring, while at a restaurant in Berlin one evening, he engaged in a discussion with several strangers as to the comparative merits of this country and Ger-many. In the heat of the discussion,

alleged, Mr. Jonasson spoke disre-

spectfully of the young Emperor, William II. The expression he is said to have used means, when freely translated, "I cough at the Emperor."
This "seditions language," so-called, led to the man's arrest. He was subsequently released upon bail in 5,000 marks, and soon afterward returned to this country. Relawyer in Berlin, requesting him to come to Germany at once. In answer to an inquiry as to whether he had been indicted, Mr. Jonasson was informed that he had been, and that if he failed to appear, a writ would issue by virtue of which he would be seized and imprisoned if he ever ventured again upon German soil. He has decided to go over and be tried.

wentured again upon German soil. He has decided to go over and be tried.

Hamberg Figs for the Liver.

Habitual constination and torpidity of the liver are functional derangements which should not be so long neglected as to generate actual disease. Hamburg Figs should be taken, and the deranged organs restored to health. 25 cents. Dose, one hg. At all druggists.

MARKETS BY WIRE.

Wheat Less Active and Weaker-A Sharp Advance in Corn Not Fully Sustained Onto Firm-August Pork Higher and Jaly Lower.

CHICAGO-Wheat - A moderate business was transacted to-day. At times trading was quite active, at others ruled very quiet, and on the whole there was less doing than on the preceding days. The character of the news was rather mixed and the situation just at present very uncertain. Operators are apparently in clined to be cautious and are watching the market closely. News from the other side is somewhat contradictory, and the same can be said of the Northwest. The opening was 1/10 %c higher than yesterday's closing figures, but became weak and prices declined 181%c, fluctuated some and again became weaker, declin

ing 1@1%c more and closed about 1%@20 lower than vesterday. Corn was active and unsettled, with trading heavy both on local and outside account. The feeling early was quite strong, and a sharp ad-vance was recorded, but later ruled weaker and closed easy. The influences on the market were much the same as noted of late, mainly the weather conditions in the corn belt. The market opened 1@1%c higher than the closing prices of yesterday, but soon sold off 11/c on free realizing. A prominent local trader took large quantities on the decline, and the market reacted 142%, ruled easier, but closed 142Fc

reacted 160 c, ruled easier, but closed 160 c better than yesterday.

Oats—There was fair trading and an unsettled feeling prevailed. The opening was firmer and 160 c bigher, and a further appreciation of 146 c was recorded. An increase in the offerings and a small demand produced weakness, and prices declined 160 c. but became stronger, rallied 160 c, receded 160 c was tendinally closed steady at the same to a slight advance over yesterday's last sales.

Moss Pork—Trading was only fairly active. August ruled 256 50c higher. July attracted most attention and closed 256 250 lower.

Lard—Only a fair business was transacted. Prices ruled rather irregular, advancing 256 c early, and then receding 7560 loc and closed quiet.

weighing about 1,500 Bs. A few loads of heavy cattle, weighing about 1,500 Bs, which were in good condition, but not prime, were sold at \$4.30. Fresh cows were in larger supply than at any time this year or last, and prices on common stock were off \$3. to \$5. a head. A few extra good fresh cows were sold at \$3. to \$4. There were in all about ten loads of fresh cows on the market. Calves were in good supply, and top prices for calves were 5%c. Grassers were slow at a range of 3%c to 4%c per h. The last price obtained was \$4.40 for a carload of 1,500.8 h Indiana cattle which were prime in quality.

Higher Prices, Peorer Stock.

The general equality of offerings was below late average. Prices were a shade higher at sources of supply, and as there was no advance here drovers did not fare very well on this week's operations.

The cost of this week's offerings was essentially the same as last, but quality was lower this week. This morning there wereabout four leads left unsold, mostly common and low grades stock, and holders would no doubt be loreed to liberal concessions on Monday's prices, which were 10 to 15c per cut, below the previous Monday's prices.

The supply of sheep and lambs this week has been unusually larce. There were upward of \$3.0 loads on the market Monday, and the total receipts for the week have been close to 50 loads. Quality of offerings was generally poor, and prices of sheep were off 25c from last week and lambs 50c. Choice sheep and lambs were very scarce. Very few of this grade are coming to market this season. A number of loads were unsold this morning, and prospects were that they would be sent on East in first hands. The range of markets for sheep was \$3.50 to \$5.00 per hundred, with very few sold at the last figure. Lambs ranged to \$2.00 the Produce Exchange to-day the butter market was steady and unchanged. Eggs, 120-120 to 55%c per E. A bunch of very fancy.

Cast in first hands. The range of markets for sheep was \$8 50 to \$5 10 per hundred, with very few sold at the last figure. Lambs ranged from \$4 to \$5\circ per h. A bunch of very fancy, comprising 15 head, brought 7c per h. There were between three and four carloads of hogs on the market this morning, and prices ranged from \$4 00 to \$4 15. There were about 25 loads on the market this week, and very few of those offered were choice. The top price at Chicago this morning was \$3 35, but tops there were of much better quality than those at East Liberty.

DULUTH—Wheat was strong at the opening, but very weak at the end of the session: a decline during the day of 2c. Closing prices are: July, 95c; August, 95c; September, 82%c; December, 83%c.

And that, too, in the shape of the heartburn (most abominable of accidities!) after eating, if indigestion, in its chronic form, has you in its clutches. Neither if it has can you long expect immunity from biliousness and constipation, its pleasing colleagues, the hideous trio vieing each with each to render your life more miserable. Get Hostetter's Stomach Bitters at once—insist upon the genuine in glass—and use it with rational persistence.

Another Surprise in Petroleum, But Hom

New York, July 30.—There is not much change in the demand for drygoods from day to day, but there is steady improvement and the volume of business considerably larger than a week ago. Business in woolens included an active demand for very low and very fine grades of worsteds and cassimeres. Heavy goods are in considerable request.

No Scarcity of Manufacturing Sites, Which Are Held at Low Figures.

600D OPENINGS FOR OUTSIDERS.

Securities Move Slowly. THE NEWS AND GOSSIP OF THE CITY

Manufacturers should not be deterred from pulling up stakes in less favored localities and coming to Pittsburg to acquire fame and fortune by silly reports of the scarcity and high price of sites suitable to their business. This report was started a year or two ago by an Eastern trade journal, which was envious of the rapid growth and marvelous prosperity of this city. It

was false then and is false now. There is no city in the country that can offer as great a variety of manufacturing sites as Pittsburg. They abound everywhere in the city and suburbs, and possess all the advantages of river and rail transportation, natural gas, coal, coke and everything else necessary to the rapid and successful prosecu-tion of business, while prices are extremely moderate, ranging from \$500 to \$1,000 an acre. Pittsburg has the lion's share of the important industries, but there is room for more, which will be accorded all the advantages of the older establishments. Sites are not going a-begging, but the city and its suburbs are full of them and they can be obtained on easy

Trade Worth Looking After.

A prominent business man writing from the City of Mexico mentions some things which may interest Pittsburg manufacturers. He says that people in the United States are sometimes slow to perceive the value of foreign markets, but there is a class of wide-awake Yankees who are doing a good business in that country. The American printing press is "on top" in Mexico, also the American watch, and American fine furniture finds a regular sale, notwithstanding the high duties. For all these reasons the cry that American goods are not used there, and cannot be introduced, is nonsense. It is very close to the real figures to say that Mexico buys yearly of American man facturers, farmers and merchants, \$20,000,000. The published figures of the United States Treasury Department only show the goods sent to Mexico by steamer, and to these must be added the railway freights for that country,

which will bring the total easily to \$20,000,000. Business News and Gossip. Wilkinsburg Council passed an ordinance permitting the Duquesne Traction Company to tunnel under the railroad, provided it bear all expense and give bond for damages that may accrue to abutting property. It is thought the company will accept the terms. Building is very active in the suburbs. The surprising showing at the end of the season. With the trend of business eastward, it is surprising that Grant street should be allowed to remain dormant. Instead of the most back-ward it should be one of the most progressive thoroughfares in the city. Nothing is wanting but a leader to give it a boom.

It was no uncommon occurrence for the city papers last summer to appear minus real estate transactions. This has not happened this ment over last summer is estimated by competent authority to be at least 50 per cent.

A great deal of well located property in the upper part of Allegheny is going to waste. It is believed that energy and printer's ink would work a change for the better. The experiment is worth trying. There is no reasonable excuse for dead property on either side of the river. The Pennsylvania Railroad has changed its mind, and will not tear down the station at Edgewood, for awhite at least. It is being re-paired with a new floor and platforms, and a baggage room will be located in the basement. creases over last year. This is the principal

Allegheny City proposes to spread out still more along the Perrysville road. A tract of nearly 100 acres on that thoroughfare, costing \$30,000, has just been purchased by a syndicate, and will be laid out in about 600 lots and put or Yesterday's mortgage list was one of the

Advices from London are to the effect that

the outlook is favorable to cheaper money.

A deal is on for 53 acres and six brick hou on Duquesne Heights, at something under \$50. 000. The handsome residence and grounds and Mr. C. A. Chipley, of the Pennsylvania Rail-road, at Brushton, changed owners yesterday for \$18,000 cash, the purchaser being Henry Phones. The lot is 120 by 305, and the house

one of the finest in that locality. Mr. Chipley was recently promoted and transferred to Phil-

C, Beringer & Son sold a house and 1½ acres of ground at Glenfield to J. H. Bramer for \$2,500. W. A. Herron & Sons sold at Edgewood lot 50x120 feet, corner of Locust and Beech streets, for \$1,550 cash. They, in connection with Algeo Bros., sold Nos. 205 and 207 Arch street, Allegheny, two lots 20x100 feet each, with an old building of little value, for \$7,50 cash for all. Black & Baird sold to Casper Geltenboth, for

Black & Saird sold to Casper Gettenboth, for Francis Lejune, a two-story frame dwelling, being No. 187 Howard street, Allegheny City, with lot 22x116 feet, for \$1,100,

Baxter, Thompson & Co. sold for Mellon Bros. lot 143 in the South Place plan at Wilmerding, fronting 30 feet on Third avenue by 105 to a 15-foot alley; also sold lot 274 in same

plan, fronting 30 feet on Fifth avenue by 105 to a 20-feet alley, to Ewing B. Kimberly for \$750. HOME SECURITIES.

Philadelphia Gos and Switch and Signal Move Up a Peg. Stock trading was rather slow yesterday, but nearly everything was firm and some higher. Most of the brokers spoken to said there was a fair aggregate of buying orders on the market, but the trouble was to get buyers and sellers to see values through the same glass. Sales were

147 shares.
Philadelphia Gas, Switch and Signal and Columbia Oil developed additional strength. Westinghouse Electric was off a point. Rights sold at 50 and 45. The only change in street railway shares were fractional declines in Central and Pleasant Valley. The rest of the list showed no material changes.

and 10 Luster at 19%. Two hundred Electric Rights brought 50. Bales at second call were 5 chares Pittsburg Traction at 37 and 50 Phila-delphia Gas at 31%. Eighty-seven Electric Rights realized 50 and 45. The total sales of stocks at New York yester-day were 135,458 shares, including Atchison, 11,550; Delaware, Lackawanna and Western, 6,400; Missouri Pacific, 3,425; St. Paul, 10,900; Union Pacific, 4,255.

Philadelphia Stocks Closing quotations of Philadelphia stocks, fur-

feeling now prevalent, an outside following will result.

Railroad bonds were slightly more active today, the sales aggregating \$756,000, though there was no more feature in the dealings than usual of late. The activity in Atchison incomes, which furnished \$167,000 to the total, was the only important feature in the day. Cairo, Arkansas and Texas fitsts rose 2 to 107.

Government bonds have been quiet, but firm. State bonds have been entirely neglected.

The Post says: The speculation in silver builion continues, and there were sales this forenoon of 278,000 ounces, or equal to sales of about 2,780 shares of railroad stocks at par, the price going up to 111, which was the highest figures touched. It is now apparent that the Secretary of the Treasury must buy 13,500,000 ounces between the 13th of August and the 13th of November unless the price goes above
