Father John Ward sacrificed himself yesterday that the Pittsburg (P. L.) team might have a little pleasure. He allowed them to win one game and now they feel terribly tickled over it and love John more than ever.

The Brooklyns played miserable ball, and even "the greatest shortstop in the world" has three errors to his credit. He made some of the most inexcusable plays. A slow grounder went through him and he threw two balls away over big Dave Orr's saintly head. Sowders was wild, too, and the numerous bases on balls netted several runs Added to this the Pittsburg team pulled them-selves together and played better ball than is usual with them of late. There was a little snap and vim in their work after they got ahead. But Ward's men lost heart and the game was not interesting after the second inn

The Brooklyns were unfortunate and four of them were injured, though none quit the game. Bauer and Sowders were hit by hard batted balls, Van Haltren ran into Quinn at the plate, and Daily's foot collided with a foul tip.

The local men opened with one run in the first on Carrolt's base on balls, two sacrifices and Hanlon's single. In the second, four errors, two hits and a base on balls netted four runs In the fifth a run was scored on two hits and a error by Seery. The one in the sixth was sent n on a life, Ward's error and Beckley's single. Six were added in the seventh. Corcoran and Six were added in the seventh. Corcoran and Keuhns singled and Robinson got a base on balls. Corcoran was forced in on Maul's base on balls. Knehne scored and the others advanced on Quinn's sacrifice. Carroll went out at first. Ward threw wild to first, giving Visner a base and scoring Robinson and Maul. Beakley hit for a homer and drove Visner in. Then Hanlon retired at first. This ended Pittsburg's first. Brooklyn's only run was scored in. urg's fun. Brooklyn's only run was scored in he third inning on a hit, a stolen base, a sacrifice and a throw to catch Orr trying to steal second. Attendance, 915. WALTER HEWITT QUITS.

The Washington Team to Run on the Co Operative Pinn. PEPECIAL TELEGRAM TO THE DISPATOR

WASHINGTON, July 31.-President Walter Hewitt and Assignee Coleman, of the Washington Baseball Club, to-day severed their connection with that organization. It was found that the games at Capitol Park did not draw well enough to hold out any prospects of being able to pay the salaries of the men, and the club was therefore turned over to Manager Sullivan to do what he could with it. It is earned that the club will not disband, but will play its scheduled games. Manager Sullivan says that several Washingtonians offered to back him before the opening of the season, and back him before the opening of the season, and they will be given an opportunity to become sponsors for the present club. If no one is willing to put up the money necessary to run the club, it will be continued on the co-operative plan, the players giving their services and taking chances of getting their salaries. He thought all the men would accede to this plan, as it is pretty late in the season to expect to locate advantageously elsewhere, and it is the only chance left the men to recover some of their back salaries.

Washington is too good a ball town to be abandoned, and he is firmly determined to cling to the sinking ship with the hepe of bringing her safely into port at the close of the season. It is the intention to have a good team

season. It is the intention to have a good team occupy the field in case an opportunity offer for Washington to join the American Associa tion next year.

PAPECIAL TELEGRAM TO THE DISPATCH.

WHEELING, July 31 .- Typhold fever is revailing to an alarming extent in this city, and the Board of Health is preparing to act. At a meeting last night Dr. Garrison reported as to the water supply that it was foul beyond description, and saturated with slimes of a half dozen sewers, extending from within two squares north of the water works to the upper limits of the city, together with the drainage from the hospital, the largest foundry in the city, large numbers of water closets, drainage from Mt. Wood Cemetery, which, it is claimed, has been increased by the tunnel recently driven through the hill under it, and the sewage from Martin's Ferry, to say nothing of the filth which finds its way into the river from the cluster of huts and shanty boats on the river banks, all of which have combined to invite

he pestilence.

A Parkersburg special states that typhoid ever is raging at Elizabeth, 20 miles up the Canawha. Several people have died of the lisease, and many are dangerously ill.

A YOUNG LADY'S STRANGE DEATH. Found Dying in Her Room at the Hotel

With Poison Near at Hund. INPECTAL TELEGRAM TO THE DISPATCH. LIMA, July 31 .- At 1 o'clock this morning

comely young lady arrived at the Burnett House in this city and registered simply as Belle Carter without giving any place of resi-dence. About 40'clock the night clerk heard some one moaning, and located it in the young lady's room. He called the landlady, and tolady's room, He called the landlady, and together they went to the young lady's room and heard her calling for help. They burst open the door and found her dying. On the dresser was a bottle, partially empty, labeled strychnine, with a spoon lying beside it.

Medical aid was summoned, but before the doctor arrived she was dead. The body was removed to Musser's undertaking establishment, where a post mortem was held, but nothing of importance was developed. All of the organs were in a healthy condition. A photograph of the young lady was found on the dresser, taken at Beaver Falls, Pa. A telegram received this afterneon from the photographer dresser, taken at Beaver Falls, Pa. A telegram received this afternoon from the photographer there, conveys the information that her name was Estella Doan; that she formerly did the half body illusion at White's Museum. She came here from Jamestown, N. Y., where her trunk was checked. She is a finely formed woman of about 23 years of age. Justice Graham, acting Coroner, has held an inquest, but as yet has notarrived at a verdict. It is thought that a love affair caused her to become despondent.

TROUBLE WITH A TOUGH GANG. Massifton Officers and Citizens Worst and

Wound a Troop of Tramps, ISPECIAL TELEGRAM TO THE DISPATOR. MASSILLON, July 81.-A large gang of tramps ncamped near the bridge works to-day and spent the time in drinking five or six kegs of beer. Officers Tom Hogan and Frank Ertle, with a dozen or more citizens, went out about 5 o'clock to raid them. The gang became

5 o'clock to raid them. The gang became separated and three of them got after officer Ertle with stones. The officer ran until he could get hold of his revolver, when he turned and fired upon his pursuers. He shot one clean through the left leg near the hip, a ball also passing through the back part of the head of another officer. Hogan gave chase to several of the men, and when they refused to obey his orders to halt, he shot one and brought him down, the ball passing through the fleshy part of the body, just above the thigh.

The wounded were taken to the lockup and their injuries, none of which are necessarily fatal, were dressed, and seven others were locked up with them. The fellow who was shot through the leg seems to be the leader. He said his name was William Houk, that he was a machinist and lived at Canton, O. Three of the men claim to be from Titusville, Pa. They are the toughest gang that ever visited this city.

MINERS' MASS MEETING.

Labor Leaders Discuss the Situation in the

Coke Region. PEPECIAL TELEGRAM TO THE DISPATCH. SCOTTDALE July 31 .- About 2 000 miners attended the mass meeting at Moyer to-day. The miners marched down from here and were brass bands. The meeting was held near the company's plant, and, contrary to expect no serious disturbance occurred. Rainey's Guards failed to interfere with the miners as was expected. Kerfoot, Wise, Parker, Keegan, was expected. Kerfoot, Wise, Parker, Keegan, McSloy and several Hungarian speakers addressed the assembly. It was decided to give financial assistance to Ramey's men, provided they strike for the signing of the scale.

The talk of the Moyer employes is for strike, and labor officials will likely declare the strike in a few days. If it materializes it will affect 1,000 men. Another mass meeting will be held at Moyer on August 9.

A RAILROAD UP THE HILL.

An Incline Costing \$15,000 Prejected at New Castle. [SPECIAL TELEGRAM TO THE DISPATCH] NEW CASTLE, July 31.—George Ihmsen, of Pittsburg, and Joseph K. Pearson and H. K. Hartsuff, of this city, have in contemplation the feasibility of constructing an incline rail-road from the Western New York and Penn-

road from the Western New York and Pennsylvania Railroad track up the hill to the Croton glass works, with the view of starting them up.

The cost of building the siding or incline is estimated at \$5,000, and of this sum Mr. Ihmsen, it is said, agrees to furnish \$5,009, Another \$1,000 will be needed for internal repairs and a rund for operating the plant of from \$10,000 to \$15,000 will be required.

THE BROWN-BONNELL MILL.

All Creditors Likely to Receive Their Claims in Full.

INPECIAL TRLEGRAM TO THE DISPATCH.1 Youngstown, July 31.—Information has been received from a credible source that the creditors of Brown, Bonnell & Co. will receive the face of their claims in full, and will lose the accrued interest, though the assets may be the accrued interest, though the assets may be sufficient to pay a portion of that. When the concern failed seven years ago, the claims against it amounted to \$1,400,000.

It is probable the recent sale of the plant will be confirmed, and soon after that the receiver will made a distribution of the assets to creditors. It is understood the plant will continue in operation.

THE LEGISLATIVE COMMITTEE.

Dr. John B. Roberts, of this city, has labored zealously to get passed a satisfactory measure but without success. The problem seemed at last to be solved when Dr. Mc-Cormick, at a recent session of the State Medical Society at Pittsburg, offered a resolution to the effect that the President of the county medical societies entitled to representation in the State society shall be known as the Legislative Committee, and the President of the State society shall call a meeting of the committee as soon as pos-sible to take action against incompetent

dents of the county societies, the State society believes it has hit the nail squarely on the head. Each one of these gentlemen being a leading physician of his county and a man of wide influence, it is believed that when he returns home from the convention and tells the representative of his district what the people speaking through the med-ical fraternity want done, the desired legis-lation will be speedily brought about.

THE MEN AT THE HELM.

Dr. W. B. Atkinson, Secretary of the

State Medical Society, who has been hard at work completing the details of the coming meeting, announces the following named physicians as constituting the Legislative Committee from the counties of the State: Adams, A. P. Beaver; Allegheny, W. S. Foster; Armstrong, J. A. Armstrong; Beaver, H. M. Sheilenberger; Bedford, S. H. Gump; Berks, S. L. Kurtz; Blair, G. F. Amey; Bradford, C. L. Stevens; Bucks, J. N. ALL EAGER FOR ACTION. Dr. Atkinson states that not one of the presidents of the county medical societies has relused to serve on the committee. He sayt many wrote him that they were willing to devote not only their time but also the money to the proposed law, which they believe will be a great benefit both to them-selves and the public. Dr. Atkinson is very enthusiastic over the coming meeting.

and has great confidence of the success of the work it will do. Speaking of the matter to-night he said: "It is an outrage how any tom fool nowa-days is allowed to practice medicine. All he has to do is put out a sign and that seems to constitute him a doctor. In Prussia if a man was not registered he would not dare shows sign. The police would pull it down for him without any ado. Pharmacists and druggists even are better off at present than the medical men, for they have to be registered every three years. What we want is a law giving us a State Board of Medical Examiners so as to interfere with trash we see everywhere around us."

A MOUNTAIN OF A MOLERILL.

Rumors of a Revolt at the Penitentiary and on What They Rested.

Allegheny was rife with rumors last night of a revolt among the female prisoners at Riverside Penitentiary, said to have occurred yesterday. The rumor was to the effect that the female inmates of the prison had be-come dissatisfied with the food furnished them, and struck against it, and positively refused to partake of any of it, and for this five of them had been placed in the dungeon, and the rest, some 14 in number, had become docile and begged forgiveness. When Warden Wright was apprised of the rumor he laughed and said that a very

the rumor he laughed and said that a very large mountain had been made out of a very small mole hill.

The Warden stated that there was just a slight grain of foundation for the rumor. There had been some dissatisfaction among some of the women, particularly the colored women, as to the manner of the food being served out, and they revolted. Warden Wright was immediately notified, and the dissatiswas immediately hothed, and the dissatis-fied prisoners were placed in cells, which of necessity were the solitary cells, because there was nowhere else to place them. After one night's confinement the women became repeatant and admitted that they had done wrong and were sorry for it. They were then liberated and allowed to go back to the house.

THE FIRST TRIP

Made on the New Pittsburg Incline to Allentown, Yesterday.

After nearly a year's litigation and drawnacks of one kind or another, the new Pittsburg incline is at last completed and a trial trip was made yesterday. The first car up was crowded, and all went like a charm until within a few feet of the upper station, when a large stone in the plt became loosened and the car was stopped. The incline will be ready to make regular trips in about a week. It is the intention of the company to illuminate the route of the incline by electricity and plant shade trees along the sides.

Meeting of Cont Operators and River Pilote to Discuss Improvements.

to Discuss Improvements.

The coal operators and river pilots met yesterday morning at the office of John A. Wood & Son. The meeting was called at the request of Colonel Merrill in order to ascertain what improvements were necessary on the Ohio river, and at what points the river was most dangerous. Colonel Merrill thought it would be best to have the rivermen direct the colon of clearing the Ohio themselves, because work of clearing the Ohio themselves, because when he undertook to do the work without consulting the operators and pilots there was always dissatisfaction manifested with the work, and to put an end to this he thought it would be well to take this course. In pursuance to the call issued by Captain Wood a large representation of rivermen gathered at his office yesterday morning. A committee was appointed to decide where the work should be commenced. The river and harbor bill and other questions were discussed at the meeting. The general opinion of those who attended the meeting was that the present bill 'now pending before Congress would be passed and that the appropriations asked for would be made. This will be used in making remains and cleaning the be used in making repairs and clearing the rivers of the many obstructions. After the meeting adjourned the committee who were appointed met and decided that work should be commenced at once at Logstown, near Econ-omy, and at Marietta Island dam. "It was sug gested that the dam, which is on the north side of the river, be removed to the opposite side, so that the water would not be forced over side, so that the water would not be forced over the dike about half a mile below. As it stands at present boats are in imminent danger of being sunk while passing over the dike and it either has to be raised two foet or change the dam above. It was thought best to do this as it would not entail as large amount of money to make this improvement. This dike, which is 2000 feet long, was built in order to keep sufficient water in the harbor at Marietta, and it would have to be raised two feet or the dam above changed. The committee thought this to be the most feasible of the two plans suggested for making it safe, and at the afternoon session instructed Colonel Merrill, who has charge of Government improvements, to proceed accordingly.
