Business and Political Situation in South America Described by a Pittsburger.

CELMAN'S WILD- EXTRAVAGANCE

Responsible for Recent Upheaval of the Government in the Argentine Republic.

ITALY'S EFFORTS TO SECURE TRADE.

A Timely Bint Offered to the World's Fair Commissioners.

Mr. Charles Abel who has lately returned to Pittsburg after a trip of several mouths among the people of South America, was asked yesterday in regard to the so-called social and political disturbances that have been frequently reported from those countries during the past six months. Mr. Abel's business interests in South America have brought him into close relationship with many of the most prominent business men, Government officials and politicians in all the South American countries, and what he says carries the authoritative weight of one who knows whereof he speaks. He has made a study of the South American question for many years, and as he goes back there again in a few weeks, be said he was glad of the opportunity to correct some of the misstatements, false impressions and exaggerated reports which have appeared in the newspapers of the United States concerning that portion of the world.

Mr. Abel is an upholder of the subsidy and reciprocity schemes between the United States and the South American countries, and he said he was more than willing to give THE DISPATCH any information concerning South America on account of an article which appeared on that subject in THE DISPATCH a short time ago, entitled "Millions Lost," and which he said con-

ACCURATE INFORMATION

and has done more to truly enlighten the American people on South American affairs than anything he has read since his return a few weeks ago. To prevent any unjust criticism on the sister republics of South America arising from false knowledge, and to combat the argument of the instability of the South American governments which has been brought forward by the opponents of reciprocity, Mr. Abel made the following statements on South American disturbances during the last six months:

"The revolution which occurred in Brazil in November last was not an upheaval suddealy thought of, neither was it a result of the fickleness of mind of the people. It was a natural consequence. The most conservative minds in all sections of the country had been working toward a republicane form of government for many years previous, and were only swaiting the opportunity for accomplishing the object with the least possible social disturbance. The country was prepared for the change and everybody awaited it.

"It was well known that Dom Pedro, who is an accomplished gentleman and was a popular and much-beloved sovereign by all classes, intended to abdicate the throne this special whose husband was a Frenchman, the Count d'Eu. The people anticipating this, thought the time for a change of government had come. The revolution was accommend for this purpose with the Republics of Brazil, Uruguay and the Argentine Republic. If this project should be carried out, it would detract in a great measure from the success of our own World's Fair in 1893. The exhibits, both of the European and South American countries to our eoming September in favor of his daughter, stranger would not have known that such

has been done. The provisional government now consists of Deodora da Fonseca, President: Ruy Barbosa, Secretary of Treasurv: Quintino Bocavuva, Secretary of Foreign Affairs, and Sr Alvin, Secretary of Interior. Sr Alvin was a provisional Governor under Dom Pedro, and a popular ruler. The country is now passively awaiting the general elections on September 15 for members of the House, who will frame a new constitution and elect the permanent government. Fonseca, the present tempor-ary President, will probably be chosen to the Presidency. All the men connected with the present government, as well as with Dom Pedro's, are individuals of the highest intellectual attainments. Many exaggerated reports of the revolution were

"The trouble between Dr. Carlos Martinas, Jr., and Secretary of Treasury Barbosa, in regard to the foundation of a bank, was grossly misrepresented; the difficulty was hardly worthy of notice. Dr. Martinas is a professor in one of the colleges and was very instrumental by his writings in dissemina-ting republican ideas in his districts. He was my companion from Pernambuco to Rio. There is not the least fear of any social disturbances among the people except in case of a military dictatorship and that contingency is a very remote one.

A FALSE REPORT.

"Touching the report of an alliance be-tween Brazil, Bolivia and the Argentine Republic against Chili, there is no possi-bility of such a coalition. The report srose from a visit of the Brazilian Secretary of Foreign Affairs to Montevideo. The visit had nothing to do with Chili; it related to the boundaries between the Argentine Reublic and Brazil in what are known as the Mission Districts. While returning home I met some Chilian and Argen-tine military officers on the ship. There is no possibility of any such trouble, because it would throw the countries back 20 years, they said to me. The absurdity of any such a coalition," continued Mr. Abel, "is shown from the fact that Bolivia, Brazil and the Argentine bave a population of 20,000,000, while little Chili has only 4,000,000."

"Paraguay and Uruguay, which lie next to Brazil, Argentine and Bolivia, are peaceful and progressing rapidly.
"The Argentine Republic, about which

so many false and exaggerated reports have been cabled during the last week, is one of the most rapidly progressive countries in South America. Five years ago there was a phenomenal boom started there; it led to extravagance in the Government and private individuals. The country is immensely rich, and it had an almost unlimited supply of creait. Money was borrowed and loaned in fabulous amounts. The railroads were all built with English capital. Consequently the interest on these loans was large and the dividends had to be sent out of the country.

A WEALTHY REPUBLIC. "Last year 12,000 men a month were employed on the public works of Buenos Ayres. British and Irish goods were imported to the amount of £10,672,000, as against £7,657,000 in 1888. These consisted very largely of rails, hardware, railway chairs, etc., obtained with the view of more rapidly-developing the resources of the State. It is computed that the Argentine Republic rapidly-developing the resources of the State.

It is computed that the Argentine Republic possesses 80,000,000 sheep, 18,000,000 horsed, the Republic is nearly all suitable both for grass and cereals, and has the advantage of requiring no outlay for clearing. The only expenditure required for making a tarm is the cost of the farm buildings and the neces-

sary fencing. The area under cultivation is more than 6,000,000 acres, of which more than 2,000,000 acres are under wheat.

"As a result of this brief review it will naturally be understood that the Argentine Republic is intrinsically rich and well able to pay its way, although hampered for the time by the latest and the same and the same area.

time by too large an expenditure on public works. What is required for a few years is economy in expenditure and a reduced outlay upon the public works. This the Argentina Geometrical tine Government has felt and considerabl reductions in the expenditure have been

REEPING DOWN INDEBTEDNESS. "All further undertakings with Govern ment concessions are suspended. The issue banks will not be allowed to increase their

amounts of notes, and the existing issues are to be reduced. The Provincial Government of Buenos Ayres is ordered to suspend the issue of bonds, and all the provinces are or-dered to make no further issues of credit paper and to abstain from creating any external loans. These reforms are obviously

made for this yeur.

"With this extravagance President Celman, who at the time of his election four years ago was a poor man, and has now \$10,-000,000, surrounded himself with favorites, who peculated continually from the treas-ury. President Celman himself is not above transactions of this kind. The present reported riots in the Argentine are con fined to the city of Buenos Ayres, and have been caused by this criminal extravagance and stealings of President Celman and his favorites in the Government. Six weeks ago it was hoped that Celman would retire and go to Europe, which meant for him virtual banishment. Gold was then rated at 240, and it was said if Celman retired from the Presidency gold would drop to 150. In May there was a general mass meeting of the people to protest against Celman's administration. Gold was then at 315, and 48 hours after the meeting was beld it fell 60 points. Six months ago the Union Civici was formed, a party which had the sympathy of the people, but it was suppress

OPPOSED TO CELMAN. "These signs of discontent and recent riotous troubles are not against the form of government in the Argentine, but against Celman and his bad advisers. People have confidence in the form of government, but the only solution out of the present financial difficulty is either the abdication of Ceiman or his assassination, which will surely tol-low it he persists in remaining at the head of affairs. In either case the Presidency will fall to the present Vice President, Dr. Pelligrini, who has the entire confidence of

the country. "On the west coast Chili, Peru, Bolivia and Ecuador are stable enough except that their financial difficulties are not as yet

their financial difficulties are not as yet quite satisfactorily arranged.

"General J. M. Casmanio, who has recently been appointed Governor of the Guayaquil district of Ecuador, was a prominent Pan-American delegate, and it is certain that under his guidance the country cannot retrograde. The Northern republics of Colombia and Venezuela are quiet, progression and devening all their energies to ressing and devoting all their energies to the development of their mines and the building of railroads. The present diffi-culty between San Salvador and Guatemala has had more apparent importance attached to it than it is worth. Peace is a necessity for them also to promote progress and move in line with their Southern neighbors.

"Of all the Southern countries, Mexico is the most stable. The Government is ably administered by President Disz, assisted by Secretary of Treasury Dublan. The progress that has been made in mining develop ments and the building of railroads is im-mense. The Mexican Minister at Washington, Matthies Romero, is one of the best known of foreign ministers at our capital, and has always directed his efforts in the direction of fostering friendly relations be tween his country and the United States.

ITALY REACHING OUT. "Another thing which I believe that the United States should look to, is the intention of Italy to launch a commercial exhibition between that country and several of the South American Republics, which it is pro-posed to hold in Genoa in 1892. Three committees bave already formed for this purpose with the Republics plished in a few hours so quietly that a and South American countries, to our World's Fair would be necessarily smaller an important governmental change had in number. Besides this intended exhibition at Genoa, there will also be a World's

Exposition in Rome. "It would be very advisable, I think, that the managers of our World's Fair should not neglect this matter, as it is a field of greater interest to us at present than any other, and as a full exhibition of the products of those countries, would be necessary for a right future growth of trade between them and the United States."

SLEEPLESSNESS, nervous prostration, nervous dyspepsia dullness, blues, cured by Dr. Miles' Nervine. Samples free at Jos. Fleming & Son's Market st.

ONLY ONE MAN TO GO. Local Railroad Agents Object Paying Sleeping Car Fare.

DO NOT WANT DISCRIMINATION.

They Will Not Attend the Convention This Year on This Account.

PROGRAMME OF THE YEARLY MEETING

The members of the Association of Contracting Freight Agents in this city are in a frame of mind far from pleasant over the action of the Pullman Sleeping Car Company, which wants to charge them Pullman fare to and from the convention of the association. Last year the association had sleeping cars kindly furnished by the company gratis, but this year they will have to put up their little 16 cold and hard dollars or stay at home. Every Pittsburger, with one exception, has concluded to stay at home, and if the feeling in other cities is the same as in Pittsburg the association will

have a slim meeting. The convention will be held-or rather it is intended to hold it-in Denver, beginning Monday, August 25. The association includes all the freight men in this city with their contracting agents, the Pittsburg membership being over 50. Last year the association held its meeting in St. Paul, and the Pullman Company furnished a train for the use of the members from Chicago.

SIXTEEN DOLLARS IN TIPS. It was expected that the company would do the same this year, but the members were greatly surprised to find that \$16 was put down as an item for "sleeping car accommo-dations, incidentals, etc." It is supposed by a great many that "incidentals" are a great portion of the \$16 and must be paid

over to the porters in the way of tips. Each member of the association in this city received a circular a few days ago, containing a programme of the trip and the cost. Nobody objected to paying \$24, hotel bills, Nobedy objected to paying \$22, note: one, but they did kick about paying \$24 out in tips to the colored porters. Yesterday a canvass was made among those who have been in the habit of attending the meetings, and it was found that only one man was going. The Pittsburg delegate will be W. A. Sproull, General Agent of the Chicago and Alton road, and were it not for the fact that he will have his wite along he would probably feel very lonely. It is possible that even Mr. Sproull will back out be ore the time comes. The men who object to pay-ing \$16 say they did not pay any sleeping car fare last year, and there is no reason why they should this summer. They are firm believers in the anti-discrimination law when applied to themselves, and say the assenger agents did not have to pay any fare last month to the same point, and there is no reason why they should be compelled

HOW THEY WILL KILL TIME. The programme of the convention is as follows: The members will assemble in Chicago, Friday, August 22. They will leave the Windy City via the Chicago and Northwestern, 7 o'clock Friday, and travel in a special train, arriving at Council Bluffs at 10 A. M., August 23. They will then take the Union Pacific and arrive at Omsha at 10:20 A. M., Saturday. The train will maintain its high rate of speed and arrive at Denver at 7:35 A. M., Sunday. The convention will open at 9:30 A. M., Monday, and the entire day will be devoted to business. On Tuesday the agents will take an excursion to Georgetown, Silver Plume and around the "Loop." On Wednesday they will go to Glenwood Springs, via the Colorado Midland road, and stay over night. On Friday Manitou Springs will be visited, and a trip taken to Pike's Peak. The party will arrive in Kansas City 3:30 P. M. Satur-

Among the most important business matters to come up will be the adoption of an insurance department similar to that of the Railway Station Agents' Association

day, and will return to Chicago Sunday

LEGAL NOTICES.

MAGNUS PFLAUM, Attorney.
