harrel well, which is located three-quarters of a mile southwest of the Schnuner well. He has a well drilling at 800 feet northeast from the Schell, and on the Wright heirs' farm drilling one well, at about 400 feet, commenced spudding to-day on the James McSweeney farm, adjoining the Wright on the south. Mr. Phillips to-day made a lo-cation on the Heins farm, three-quarters of a mile west of Denmer's Mills. On the Logue farm he will start drilling to-mor-row in No. 5, while No. 6, same farm, is a rig-building. His four producing wells ou this farm are making 50 barrels a day. Two miles south of Butler, on his 1,000-acre tract, McCalmont dustrict, he is drilling No. 15 at 500 feet, and south of this tract, on the David Pierce farm, his No. 5 is down 200 feet. BUTLER OIL FIELDS, Great Activity Shown by Operators THE PRODUCTIVE BELT WIDENS. Many New Rigs Building and Various 200 feet.

Foot Territory.

Ventures on Which Fond

Hopes are Resting.

SPRCIAL TELEGRAN TO THE DISPATCH.

BUTLER, August 4 .- Operations in Butler county, as usual, are active. In nearly every section of the old third sand pools more or less drilling is being done. The hundred foot field, however, is the principal seat of developments, and the volume of work here is about as large as it has been at any time since the first excitement. Out on the eastern belts there is enough drilling going on to refresh one's memory that this section of Butler county once laid claim to a pool of no small importance. In the 100 foot district M. L. Lockwood

not his well to-day on the James Hay larm, but the result the reporter was unable to learn. This venture is regarded as import-ant, as the Mitchell, located on the west side of the same farm, came in dry, while the Lockwood is located on the east end of the tract. Campbell & Gansz, on the Mar-shall farm, have just started the drill in No. 5, and Charles Smith & Co., on the Caspar Felh farm, are in the sand with No. 6 and will shoot to-morrow. The well is showing for from 100 to 150 barrels. The same parties will tap the sand to-morrow in No. 6 on the same farm.

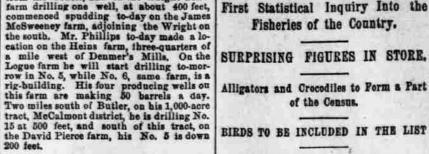

WORK NOW UNDER WAY.

Lockwood & Co., on the Barnhart farm, have just finished another well which is showing for an average producer, and are rigging up No. 3 Barnhart's, and building No. 4 rig on the same farm. Steele & Co., on the John Rose farm, are drilling at 800 feet, and some interest is manifested in the result as the well is located southeast of developments about 1,000 feet. Northeast from Felh farm a halt mile Golden, Owen, Brady & Co. are drilling a welt and are

down 600 feet. Jack McTamney's well on the Brunesme farm, finished last week, is making 15 inches a day in a 250-tank. Jack's good luck has unquestionably extended the belt a half mile east of defined territory. Shaner & Dale have rebuilt their burst rig on the J. A. Brandon farm and have started drill-ing again; the well is located for a good producer. They have No. 4 rig completed and have made a location for No. 5, both of which are on the same farm. Huselton Reed & Co., on the Brandon tarm, one acre, located 1,200 feet east of the Shaner & Dale No. 3, are down 300 feet. Should this prove a paying investment it would seem to indicate some extension of the hundred to-ward Reibold. Borlard & Co.'s last venture on the James Welch farm has settled down to a 12-barrel producer.

WAR ABOUT A LEASE.

The monotony of the field in the section of the Welch farm was relieved to-day by a speck of war between Dr. Borlard & Co. and Markham & Co., which will most likely result in a legal battle of no small says there is a strip only 2 feet wide by 50 rods long to which they have the least shadow of a claim. The party of the first part, notwithstanding Mr. Borlard's pro-test, went abead and built a rig on the disputed patch, and was getting ready to bounce the drill. To-day Borlard got out a writ, restraining Markham & Co. irom

Wildwood Wells.

There is no change in the wells at Wild-wood, and several days will elapse before there will be any new strikes to report. The Smith Oil Company, on the Smith farm, cased their Nos. 2 and 3 to-day and are drilling their old No. 1 through the sand. Steve Harley has a rig about completed at Wild-wood station, on the Whetisell, and Pew & Emerson, on the Murray heirs farm, near the station, are rigging up, and will bounce

the drill to-morrow. Producers in the field are becoming alarmed on account of the scarcity of water, and if it does not soon rain a water famine is inevitable. The supply is taken from Pine creek, which is almost dry.

Ventures at Montour.

MONTOUR-J. Young No. 2 got second pay last night, and will be good for 50 bar-rels per day. Murphy should get the sand some time this week at his Nair Farm venture. This well will prove an important factor in determining whether there is an ex-tension of the field to the southwest. Sill, Odell & Co., will shoot their No. 1, A.

Oden & Co., will shoot their No. 1, A. B. Young, again to-morrow. Operations are somewhat retarded here by schrcity of water. Should the dry weather continue much longer operators will have to get water from the Ohio or shut down and wait for rain.

SUPPRISING RESULTS. The agents are required to verify the statements given them by the fishermen themselves as far as that is possible. So far as the inquiry has extended, the results have been surprising to Professor Smith, who has it in charge. For instance, in the case of the oyster fisheries of Maryland, the returns A Small Producer CORAOPOLIS-Haymaker & Co. brought in a small well on the Watson. This well will put a dampner on operations to the west and have a tendency to confine opera-tions to territory between the Pittsburg and Lake Erie Railroad and the river. H. McC. the oyster fisheries of Maryland, the returns so far received exceed by two or three times the generally accepted values of those fisher-les. This is partly accounted for in this way. The State of Maryland taxes these fisheries, and it is supposed that the fisher-men have to some extent at least reported the state of the state

OIL DRILLERS FOR INDIA.

Men From Pennsylvanin Going to the East ern Petroleum Fields.

their catches at much lower fig-ures than they really were in order to escape the taxation. It had been found necessary by the census of-fice agents, in order to obtain the true fig-ures, to assure the fishermen that the infor-metion was made of them was not for the PEPECIAL TELEGRAM TO THE DISPATCH.1 FRANKLIN, August 4 .- William Seiple, of Emlenton, and J. E. Randolph and ures, to assure the fishermen that the infor-mation required of them was not for the purpose of taxing them; that it would not be given to the State officials for that pur-pose, and that the census office would pro-tect them as far as possible to obtain the true figures, and the results would seem to show that the State of Maryland does not begin to obtain from these fisheries the amount of revenue that her laws demand. The inquiry is desired to be as complete as possible, as will be seen from the following Charles Milliron, of Oil City, left this morning for New York to sail Wednesday or Thursday for India. They go there to work for the New York and Liverpool Gas and Petroleum Company, and will receive \$1,200 per year, their pay starting from the time they leave New York. If the climate does not agree with them they will be brought back, otherwise they are required to remain for three years by contract. There are already about 40 drillers and rig builders trom Western Pennsylvania in

the field to which they will go.

Sensible Bints for Summer. To the many hundreds of families who do not find it convenient to leave the city for the summer months the following hints will

the summer months the following hints will be found valuable. Avoid exposure to the sun as far as possible; do as little cooking as you can, thereby keeping your house and yourself cool, and the best summer drink by all odds is buttermilk. Cover your floors with cool and clean matting, hang lace cur-tains to your windows, thereby letting in the air and keeping out the flies, and where cur-tains are not used hang window shades that tains are not used hang window shades that will exclude the light and heat. During propertions. The controversy is over the ownership of a lease. Markham claims two rods and a half wide and 50 rods long of Borlard & Co.'s lease, while the latter every day and get your hosiery, underwear, fans, etc., from Arthur Schondelmyer & Co., who have mattings at \$c and 10c per yard, lace curtains at \$1 a pair and upward, window shades at 25c apiece and upward, ginghams, percales and satines from 10c to 25c per yard. By observing the above hints you will have no trouble getting through the summer. Come to 68 and 70 Ohio st.

of the Census.

possible, as will be seen from the following abstracts from the schedules:

THE COST AND REVENUE.

The quantity and value of the fish taken

subject.

Dr. Bennett F. Davenport, the State Analyst of Massachusetts, at the request of the "New England Grocer," analyzed the three leading Baker Powders now on the market—The Royal, Cleveland's and THEPUBE.

Has Broken the Record.

dent of the Seventh ward, in which he re-WASHINGTON, August 4 .- One of the most interesting of the divisions in the census office, and one about which very little

Cleveland's and THEPURE. In spite of the trumpeted claims of the two former, it was found that THEPURE was ahead in all qualities that make Baking Powder valuable. With regard to strength and keeping quali-ties. Dr. Davenport's report says: "When first opened, THEPURE was found to be the strongest, yielding &33 per cent more leavening gas than the Royal, and &62 per cent more than Cleveland's," and again, "after exposure to light and air in my office window and re-tested at intervals of one, two and three weeks, they were found to still rank in the same order. At the last test, however, THEPURE was 13.39 per cent stronger than the Royal, and 2.82 per cent stronger than Cleveland's. dent of the Seventh ward, in which he re-sides. It was of his successful treatment for his catarrh trouble with Drs. Copeland & Blair that he was speaking. "Yes, sir," continued Mr. Griesar, "I was in bad shape when I went to see Drs. Cope-land & Blair. My trouble, which I had at first paid but little attention to, had grown on me for six years, until it had developed in a painful case of catarrh. "My nose would stop up, first on one side, and then on the other. There was a feeling of tightness across the bridge of my nose. I had a dull, heavy pain in my forehead. My eyes were weak and watery. There were roaring and buzzing noises in my ears. My hearing was so impaired that at one time I feared that I should lose it altogether. has been said, is the division of fish and fisheries. It will be surprising to most people to know that there has never been a statistical inquiry into the fisheries of this country as a whole. The tenth census made an effort in this direction, but the result was a mass of very interesting information regarding the methods employed and the

To be further convinced of its excellence-Try it.

The State of Massachusetts has made a statistical inquiry into the fisheries within au5-72-Tu

its borders, and last year Connecticut took a census of the same sort, but it has remained for this general census to make an inquiry. into the finny wealth of the whole country. BIG Consequently, the present work is to some extent a step in the dark and there will be absolutely nothing with which to compare the results. The division has a force of 60 men in the field and the greatest care is being taken to obtain results which will prove of value to the fishing interests. REDUCTIONS

Hr. J. J. Griesar, 63 Villa street, Allegheny

was placed in the hands of the Sheriff, who goods in Allegheny. served it, but the end is not yet.

The Kicker Oil Company, on the Thomas Graham farm, have a well is the sand, which is showing 40 or 50 barrels per day. The same company, on the Flenner farm will complete their No. 2 the latter part o the week, and judging from its location it

W. J. McKee, on the Shannon farm, is in the sand with No. 9 and the indications are for a light well, M. P. Black & Co. have started a well on the H. Graham farm, which is looked upon as an important ven-ture, on the northeast side of the 100-:cot.

BOUND ABOUT CALLERY.

At Callery Junction Black & Wilson ar drilling a well at 400 teet on the Y lot. Hoffman, Leidecker & Co., on the McLane farm, are drilling No. 10 well and have started the drill in No. 11 and are building No. 12 rig. Boyd & Co. finished a well Saturday on the Knauff farm, which is a duster and all the word implies. They intend, however, to treat it to a heavy shot. They have also a well on top the sand on the Wahl farm, and will get their new well on the Auderson to pumping to-morrow; it will make a fair producer. On the Moore they are starting two more rigs, one on the Berringer and another on the Anderson.

The Hickey District.

Brady & Co., on the Milligan farm, have a rig up ready for business, and Campbell & Brady are building another on the Jake have recently completed a well on the J. O'Neil farm, good for five barrels, and to-day commenced drilling on the Riley farm.

Fourth Sand Developments.

The fourth sand developments on the Wiles farm, one and a half miles northeast from the Hickey pool, is attracting local attention. The strike was made two weeks ago by Titly Bros., drilling an old third sand well down to that horizon, which has stimulated operations to the extent of 10 or

Work in the Old Gould Popl.

Interest is being revived in the old Gould this territory. Their theoretical assumption is based on a 23 degree line running northeast and southwest, and the claim is in Butler county. Starting at Parker's Landing it takes in Martinsburg, Petrolia, Karns City, Millerstown, St. Joe, Jefferson Center, and continuing through Science S Center, and continuing through Saxonburg, the Gould district, Bakerstown, and Wildwood. It is upon this theory that Christie, Crosby and others are operating in the old Gould pool, hoping to find a con-meeting link between this and the once famous Jefferson Center pool. Christie & Crosby, on the A. Monks farm, are down 1,000 feet. This is an important well, as it is three-eighths of a mile ahead of develop-ments. The Chartiers Oil Company, on the Gould farm, will complete a well in about ten days, and are drilling another on the Carner tract. The South Penn Oil Company are drilling one well on the David Lefever farm. Yeagle & Co. completed a duster Saturday on the George Hay farm. Great Belt

T. W. Phillips, the pioneer operator, in doing considerable work in the Great Belt district. Mr. Phillips has faith in this locality, and, as usual, he may, some of these fine days, surprise the world of oildom by striking a gusher. It is one of his old tricks. Mr. Phillips to-day completed a well on the Schnuner farm, which is only making six or eight barrels s day. On the Schell heirs farm he also just finished a 32-
