# A SLIGHT INCREASE

### Noted by Some Agents in the Demand for American Pig Iron.

SITUATION AS TO STEEL RAILS.

Small Lots of Foreign Billets Now Available at New Lork.

# THE CONDITION OF THE COKE TRADE

INFECTAL TELEGRAM TO THE DISPATCH.1 NEW YORK, August 7 .- The Iron Age of this issue quotes the American metal markets as follows: American pig-Some sales agents report a slightly increased volume of business, but on the whole the market is quiet and steady. Among the larger sales reported is one of 1,000 tons of charcoal car wheel iron, on the basis of \$19 50, Buffalo. The reports from Southern charcoal furnaces indicate considerable irregularity. Chilling irons have sold as low as \$17 50 at Southern irons have sold as low as \$17 50 at Southern furnaces. We quote No. 1 Northern iron, \$176 18: No. 2 \$166017; Gray forge, \$156016 25, and Southern iron No. 1, \$176017 25; No. 1 soft, \$16 80 016 75, and No. 2, \$166016 25. Bessemer pig is offered at \$19619 25 delivered at tide water. Spiegeleisen and ferro-There has been no change whatever, the speigeleisen market re-maining lifeless and entiroly nominal at \$30 00 \$30 50 for 20 per cent and \$71 50672 00 for ferro.

Billets-Small lots of foreign billets are avail-

able at \$29 50,222 00. The demand is light, and the majority of importers do not expect that the importation of foreign billets will develop into any business of consequence. Thus far the superintegration of foreign billets will develop into any business of consequence. Thus far the steel comes exclusively from German mills. It is urged that even their low sales are only temporary, because prices are below cost of production.

temporary, because pittes into the term porary, because pittes in the term of term

or foreign rods. Steel rails-We note sales by Eastern mills Steel rails-We note sales by Eastern mills aggregating about 20,000 tons, these being in-cluded in that total of the block of 8,000 tons for Savannah delivery. The bulk of the other sales were also for Southern roads. Thermors of low prices made on this business are authoritatively denied by both buyer and seller. Eastern mills are in receipt of large inquiries from Western roads, which, of course, they cannot bid on, as the markets East and West now stand. Among the inquiries is one for about 25,000 from a Pacific road, for delivery during the first half of 1891. We continue to quote \$01 00031 50 at Eastern mills. Track fastenings-Reports are current that a recent large Southern order was taken at very low prices. We quote spikes \$2 00021 0; fish plates, 1.7561.19, and boths and nuts 2.8083c delivered. Some of the mills have advanced

their prices, some of the mills have advanced their prices, and have therefore virtually with-daywn from the market, so that the cheap seli-

darwn from the market, so that the cheap sell-ets are now few. Merchant steel-We quote: Machinery, 2.10c base, at mill; rolled staftrug, 2.15g2.20c delir-ered, and tire, 2.10g2.1cc delivered. Plates-A number of orders for round lots have been placed. The market is steady at 2.50g2.60c for tank; 2.70g2.85c for shell; 2.90g 3c for flange, and 3% 64% for for shell; 2.90g 3c for flange, and 3% 64% for for shell; 2.90g 3c for flange, and 3% 64% for for shell; 2.90g 3c for flange, and 3% 64% for for shell; 2.90g 3c for flange, and 3% 64% for for shell; 2.90g 3c for flange, and 3% 64% for for shell; 2.90g at the flague quoted for foreign rails for ship-ment.

### FOREIGN METAL MARKETS.

### An Improvement Noted in the General Demand of the Trade.

NEW YORK, August 7.- The Iron Age of this issue quotes the British metal markets as follows from London: "There has been very little outside speculation in pig iron warrants. but the trade demand is better, and that fac together with evidences of increased consump tion has bardened the market. Tuesday's dealings showed an advance for 46s 5d on Seatch 44s for Cleveland and 54 for Homatites Scotch sold to-day at 46s 10d, but there was no change on others. Makers have experienced a better trade in Scotch and Bessemer pig, but better trade in Scotch and Bessemer pig, but Middlesbrough moves slowly. The threat-ened strike in Scotch steel trade has been averted through the smelters agreeing to a reduction of 5 per cent, Enclish makers have dropped their prices for steel slip plates to 26 5c., but other steel prices are unchanged. Prices for block tin has im-proved somewhat. The difference perween cash and forwards has been verg, marrow at times, showing that available stocks are well

Prices as Firm as Ever With No Apparent Indications of a Change-Extensive Volume of Business-A Healthy Fall Trade Expected. SPECIAL TELEGRAM TO THE DISPATCH. SCOTTDALE, August 7.-The volume of busi-ress transacted in the coke market continues to be extensive, as is evidenced by the immense

shipments. There is seemingly unusual vigor to the market. The demand is of large proper-

to the market. The demand is of large proport tions, which, with its steadiness, is a good indi-cation of a healthy fail trade. Operators are eagerly watching and discussing every point, and will make a persistent endeavor to preserve the present agreeable conditions. Shipments are still increasing, many works are making six days and production is traveling along in the same groove with the demand. Consumers are taking no chances, but are or-oring conservatively. The mad rush of activ-ity in the present trade and the conditions sur-rounding the future outlook is very ross. The assumption of certain persons that trade will shortly zo downward is untenable. The out-look was never better at this stage of the year. All of the furnaces, with possibly a google of exceptions, are taking coke in grustice coke and that grade is beginning to cruste coke and that grade is beginning to the Wet.

crushed coke and that grade is beginning to cru quite a dash in the market, particularly in the West. Prices are as firm as ever, with no apparent indications of a change. Operators generally express themselves in favor of nochange. The coke trade for the month of July surpassed the previous month slightly in the way of the amount of coke sent out. There was a noticeable increase in Western shipments. A sumber of idle ovens were also started and many of the plants operated uninterruptedly, making six days per week during the month. The first and second week's shipments were comparatively small, but was expected on account of the toril weather. The works observed the Thursday shudown last week and will make a repetition this week. The Mahoning and Hill Farm plants are still out of operation. The first overs will be blown out at the Softwest works on account of the scarcity of water. The car supply was moderately fair last week. They were not as plenty as was hoped for on some roads, but there was a large coke shipment nevertheless. Shipments last week averaged 1,207 cars, as against 1,113 cars of the previous week. Pittsburg shipments in-creased 25 cars; western shipments increased 65 cars, and Eastern shipments decreased 60 cars, and Eastern shipments decreased 61 cars, the preceding week. To points west of Pittsburg, 4,605 cars; to Pittsburg and river punts, 1,605 cars; to points east of Pitts-burg, 1,190 cars. Total, 7,240 cars. This was the record of the preceding week. To points west of Pittsburg, 3,870 cars; to Pittsburg and river punts, 1,660 cars; to Pittsb

COKE TRADE REVIEW. NO BRASS BAND BOOM. Difference Between Real Estate Now and in the Seventies.

LAND WANTED FOR IMPROVEMENT.

Prosperity in the United States Having a Good Effect in the Old World.

THE NEWS AND GOSSIP OF THE CITY

The following appeared in THE DIS-PATCH of February 3, 1877: "Real estate is dull with a downward tendency. The market is glutted, nearly everybody want-This condition of affairs was ing to sell." brought about by wild speculation, incited by visions of small outlays and immense profits. It succeeded a period of brass bands and free lunches-\$10 down and the bal-ance any time. No wonder real estate was

It is different now. Land is not so much wanted for speculation as for improvement, as the hundreds of buildings going up in all parts of the city and suburbs testify. There is no boom. Brass bands and free lunches are con-spicuously absent. The movement is legiti-mate. Values are permanent, Buyers run no risk. The market is a staying one. The crisp, bracing winds of autumn will bring activity and more than more the present inil and more than make up for the present lull.

Prosperity Across the Sen. One of the prime factors of business activity in this country is the fact that Europe has not been so prosperous in many years as at present. Seldom does peace reign in Europe for so long a time as since the last war. In fact, there have been no recent ravages of war, though the cost of keeping men in idleness is some-thing immense, and bandicaps all Europe in comparison with the freedom from standing.

armies which prevails in the United States, Yet there has been in Europe no recent slaugh-ter of men or waste of treasure, so inevitable in times of war. The surplus revenue of Britain has exceeded expectation, while many and France are much better off that expected. Russia is borrowing only mo sums of money, and even Egypt is out

mediate need for cash. The fact is, the prosperity of the l States is intimately connected with the perity of the rest of the civilized world.

Europe is prosperous, and her citized making money, they are more liberal of American food products, America chinery and American securities. It looks as though the whole world has e upon an era of legitimate increase of bu and prosperity for the masses,

## Business News and Gossip.

The number of stone houses erected in burg last year was 20. This year will about 100.

There are about 2,100 miles of roads in . gheny county, not one of which is in good con-dition for spring and winter travel. This is a good time to improve them. Three fine residences are going up on At-lantic avenue, East End. The owners are Mr. Sproul and the Pittsburg Lumber Company. They will cost about \$10,000 each. Dr. Rhine-

hart is crecting a handsome stone dwelling corner of Aiken and Center avenues at an expense of \$30,000. It is estimated by competent authority that

the building record for this year will show an investment of at least \$8,000,000. It is thought the subdivision of the Holmes property in the Eighteenth ward will stir up things in that district. It has been backward for some time

for some time. Baxter, Thompson & Co. report things very lively in North Jeannette. Ground has been broken for 40 or 50 dwellings, and a number of these are nearing completion. The main build-ing of the Fort Pitt Glass Works is under roof,

The work of demolishing the old buildings on the ground on Fourth avenue purchased in the spring by the Times Publishing Company com-

menced yesterday. Under the pressure of absenteelsm it is re-

markable that prices of stocks hold up so firmly, especially those of the class known as

speculative. There is reason in this upon which to predicate an active market and better

### THE COURSE OF STOCKS.

Westinghouse Electric Leses and Laster Mining Gains Ground-Other Features.

There was a rather firmer stock market yes-terday on light trading. The only interests handled were Citizens' Traction bonds and rights, Philadelphia Gas and Electric rights. They submitted to a concession, as did also the stock, due, it was said, to large selling orders from rivals in the East. Luster was the strongest card. On favorable

news from the mine the stock was bid up to 2134 in the afternoon, without bringing any of it out. Columbia Oil recovered some of its loss. Pipeage was strong at 1534. Philadelphia Gas was a triffe weaker. Street railways were uninteresting features, as usual of late.

### OIL MOVES UP.

### The Bulls Have Their Innings After Long and Patient Walting.

Yesterday's oil market was the best for a long time, both in tone and business. It had an upward tendency all day, and the close was next to the highest point and ½c better than

the opening. New York was the center of the bull move-these are nearing completion. The main building of the Fort Pitt Glass Works is under roof, and will be ready for operations by September 1, unless the unexpected should happen.
 Considerable money, it is stated, is being beld in reserve for investment in the Point district, as soon as Mrs. Schenley decides upon the nature of the improvements which she contemplates.
 It is the rule of business men to buy whenever they are offered a bnrgain. Real estate will be higher in the fall than now, for the demand will be creater. Why not huw now? The demand of stocks. These conditions naturally enough made a strong market. The posted clearances will be ready by the 15th.

MELONS AND TOMATOES LOWER. Corn, Wheat, Oats and Flour Are Drifting

# A PROSPEROUS INDUSTRY.

Shoe Uppers in Active Demand and Orders Pinced Months Abend.

Pinced Months Ahend. The manufacture of aboe uppers has of late years become one of Pittsburg's important in-dustries. At our leading establishment in this line, where about 80 hands are employed, mostly girls and women, it was learned that business is now in a very prosperous condition. Orders are now on the books sufficient to keep the entire force employed up to the middle of October. In the orders every part of the con-tinent is represented. The New England States, which lead in footwear, are among our best customers in this line. Recent orders from Nova Scotia, Trade this year has so far shown an

Why not buy now? This

question is directed particularly to people of moderate means intending to establish homes. Features of Yesterday's Oll Market. Corrected daily by John M. Oakley & Co., 45 Sixth street, members of the Pittsburg Petro-leum Exchange: Henry M. Long and family left for Atlantic City yesterday. Mr. W. I. Mustin will begin his vacation to-day. John McBride will leave for the lakes in a day or two. Mr. C. Beringer is resting temporarily from his labors. The Treasury stock of gold bullion is \$59,000,-Average charters...
