LIGHT BUTCHER BEEVES SCARCE

OFFICE OF PITTSBUEG DISPATCH.
MONDAY, August 11, 1890.

The supply of cattle at Herr's Island varied very little this week from last. Demand was light and markets were sluggish at 10c to 20c lower prices than iast Monday. Following was the range: Best heavy Chicago beeves, \$4.90 to 5.00; good to choice medium weights, \$4.45 to 4.55; common to fair do, \$3.95 to 4.05; prime lightweights or mill tidy butcher cattle, \$4.15 to 4.25; fair to good do, \$3.65 to 3.75; low grade and mixed grasses, bulls, dry cows, etc., \$2.25 to 3.25. Fresh cows were in light supply, but the range was unchanged at \$25 to \$45 per head. Calves were scarce, there being only 66 head on sale, and the market was firm at a range of 5c to 5½c per B.

Receipts from Chicago—1. Zeigler, 120 head; L. Gersson, 100; A. Fromm, 5; J. Richter, 18.

Hered from lowest prices. The shorts recovered and sold freely, and afterward the market was held within a moderate range. The opening was 2½@5c higher, was steady for awhile and then eased off ½c, advanced ½c, declined ½@5c, advanced ½c, declined ½@5c, advanced ½c, declined ½@6c, and closed ½c and closed ½c higher for the December.

The advance and buoyancy of the market was three along was the for the Joecember.

The advance and buoyancy of the market which indicates a showing for spring wheat as expected, the reduction since the July report was estimated at 21,000,000 bushels and the crop of winter and spring combined was estimated on Government percentages to be 76,000,000 bushels short of last year, or a crop of 41,000,000 bushels.

Corn—There was a good trade, the market range was unchanged at \$25 to \$45 per head.

Calves were scarce, there being only 66 head on sale, and the market was firm at a range of 5c to 6½c per B.

Receipts from Chicago—1. Zeigler, 120 head;

L. Gersson, 100; A. Fromm, 5; J. Richter, 18.

Mess Pork—Quite a good trade was reported.

Receipts from Chicago—I. Zeigler, 120 head;

The supply of hogs was fair. There were none offered but Ohios, and range of markets was \$4.06 to \$4.25; receipts: From Ohio—Needy was \$4.06 to \$4.25; receipts: From Ohio-Needy & Smith, 172; Sanford & Langdon, 32. Total, 204; last week, 241; previous week, 450.

Loss of Weight. Drovers at Herr's Island complain very much of loss of weights between here and Chicago, and also of delays in transportation on Pitts-burg and Western Railway. Stock that should have been at the yards Sunday night did not put in their appearance until 9 or 10 o'clock to-day, long after markets were in full blast. The defay enteried heavy losses on shippers.

At Woods' Run yards there were 192 head of cattle on the market, all from Chicago. In the cattle on the market, all from Chicago. In the offerings were a few primes, weighing from 1,400 to 1,500 bs. Market was more active than last week and prices were steady. The range was 4 to 5c per h, and yards were well cleaned up by noon at these prices. There were 3th head of sheep and lambs on the market, and prices were as follows: Sheep, 45c to 54c; yearlings, 5c to 54c; lambs from 5c to 65c per h. The latter price was obtained for a few extra, which weighed 90 h. There were no hogs on the market and no demand.

The run of cattle at East Liberty was lighter than it has been for a number of weeks past. There were 80 loads on the markets, against 155 loads last Monday, and 145 loads for the week before. Quality of offerings was poor, and there were few of the kind wanted in this market, namely, light, tidy butcher beeves, weigh-

CHICAGO—Wheat—Trading was very active to-day and orders were received from all sources, both to buy and sell. It was the largest day's trading for some time and the market was greatly unsettled. The bull fever was on, and although the selling was sufficient to cause occasional reaction, the market recovered from lowest prices. The shorts recovered and sold freely, and afterward the market was

but at a 1/61/c gain over the last sales on Sat-urday.

Mess Pork—Quite a good trade was reported in January and May. Prices advanced 80635c, receded 15620c, but railised again 5610c, and closed comparatively steady.

Lard—A fair trade was reported. Early sales were made at 567%c advance, but later in the day prices declined again 2465c.

Short Rib Sides—Quite a good business was transacted. Prices advanced 106124/c, settled back 5674/c and closed rather steady at me-dium figures.

Reasons Against Reaction in the Value of Pittsburg Realty.

Calls Result in Goose Eggs. THE NEWS AND GOSSIP OF THE CITY

To the Financial Editor of The Dispatch In an article on real estate in Friday's issue you speak with the positiveness of conviction that not only will present prices be maintained, but that there will be large advances, rendering sure profits to present

investors. Will you please favor me with your reasons for this prediction. If mere prediction, it amounts to nothing. Real estate prophets have been sadly deceived before now. Real estate is a dangerous realm in which to exercise the gift of prophecy. Then you can never prove a prophet true or false until the future has become the present.

You say it is different now from 1870 odd. We are pursuing the same methods so closely that we are justified in pausing and taking breath. It is true that the brass band and free lunch have not reappeared. When they come, the end may be reasonably foretold. A. LEGGATE.

ALLEGHENY CITY, August 10.

REPLY—The financial editor disclaims, once for all, having essayed the prophetic role. It was not upon him that Elijah's mantle or influence fell. Therefore he has never said that "There will be large advances" in real estate or anything else; but he has said, and repeats the bservation, that the outlook is favorable to the maintenance of present values and for gradual enhancement as the city grows in population and business. There is nothing akin to proph-ecy in this. The conclusion is based upon a principle that pervades every department of business—that demand regulates prices. Is there a demand for property in Pittsburg? The fact that there are practically no empty houses, pushess or residence shows conclusively that business or residence, shows conclusively that there is. In addition to this, and affording further proof of the existence of a demand, the supply of houses is largely inadequate to the wants of the rapidly accumulating populaactivity in building lines. When people can't rent they must build. It isn't considered the correct thing to live out of doors in this "

These statements are based upon data in the possession of almost every broker in real estate in the city. If an active demand for improvement, not speculative, be indicative of weak-ness, then the local real estate market is in a precarious condition, and "the end may be reasonably foretold." But such a reversion of fundamental business principle is impossible.
Mr. J. Ledlie Gloninger, who was in Baltimore a short time ago, said on his return that he saw at least 1,000 empty houses in that city, and that \$1,000 a foot was about the average price on the principal street. This means that Baltimore is overbuilt. That real estate should be slow and weak under such a condition is quite natural. The reverse would be astonishing. In Pittsburg, where every house is occu-pled and a demand for more, the price on the principal streets is from \$2,000 to \$4,000 a foot

principal streets is from \$2,000 to \$4,000 a foot, according to location. In a few instances \$6,000 has been offered for corner property.

Business is the basis of value in both cities. Baltimere, with almost double the population of Pittsburg, occupies a secondary position in the Clearing House reports. There is nothing appraisable in the fact therefore that real

remarkable in the fact, therefore, that real estate is higher here than there.

The people cannot well be deceived. The activities of Pittsburg are of a kind that last. They afford permanent employment and good wages for at least 130,000 persons, and this number is being constantly added to by fresh accessions from other cities and the surrounding country districts. This great industrial move ment and growth of population project an ele-ment of strength into the real estate market which gives it permanency and activity and furnishes a reasonable guarantee against a reac-

A Quiet and Easy Market With No Change in Conditions. There was a quiet money market yesterday Funds were easy at the customary rates and the demand for discounts moderate. Checking was light for Monday, due to the depletion ing was light for Monday, due to the depletion of the business element, courting Momus rather than Mammon, but depositing was fair. There was no change in conditions, except that furnished by the railroad strike. Its effect was depressing. Many financiers think the market has reached the period of greatest ease for the season. The exchanges were \$2,384,154 90 and the balances \$438,693 64.

Money on call at New York yesterday was tight, ranging from \$625 per cent, last loan 20, closed at 20 bid. Prime mercantile paper. \$626. Sterling exchange quiet and easier at \$4 84 for 66-day bills and \$4 88 for demand.

The Effect is Through the List-Money Rates Take an Upward Ran-The Vanderbilts Make Some Recovery.

NEW YORK, August 11 .- After the great advantages given the bears by the New York Central strike, the wiping out of the bank reserves, and the unusually severe drop in the condition of all cereal crops in the past month, as indicated by the Government crop report, they were inclined to push their movement for lower prices to-day, and although there was undoubtedly considerable support given certain stocks, and the covering of shorts by the local operators was of no mean proportions, prices were forced off from 1/2 to 11/2 per cent through

To this end there was again considerable manipulation of the money market, and although the reserves are again down to a very low figure, in view of the present small pro portions, of the stock speculation, there could be no legitimate demand which

Mr. Love was seen, but, while admitting that he had made a deal out there, refused to give particulars.

preferred 11/4. The transactions in railroad bonds were extremely uninteresting, the business done being very small, while no marked change occurred and no feature of any kind was noticed. There was a general heavy tone, resulting in alight fractional losses among the active issues, but duliness and anathy were the most marked characteristics of the trading. Government bonds have been duil and stronger. State bonds have been entirely neglected. The Post says: The high rates for money are known to be, to a large extent, artificial, and when money was bid up as high as 20 per cent last week, it was well known that some of the banks were at the same time offering large sums to any well-known commission house at 6 per cent on the ordinary collaterals, and on last Friday some such loans were made at 5 per cent, and by 12:30 was bid up to 20 per cent, and though this caused a small fractional decline in stocks after 12 o'clock, it was soon recovered. On the other hand, the announcement made about 1 o'clock that freight was again moving out of the New York freight houses of the New York Central and that along the line of the road the only obstruction or fear of trouble was at Syracuse, undoubtedly stopped the selling of stocks and gave the market a firmer tone. So that it may be assumed that if the strike choses to an end the stock market would not be pressed very much by rates for money. The difference in rates of interest between London and New York is so great that it weakened the exchange market and this forencon some of the Canadian banks in this city reduced their rates below the gold exporting point. The loss of reserve by the banks last week was due to the gold exports of the previous ten days, but with the present rates for money it is not probable that any more gold will be exported very soon.

RIVER INTELLIGENCE.

Matters About the Wharf Assuming Their Old-Time Aspect. Matters about the wharf assumed an old-

time liveliness yesterday, due to the slight rise below the dam. It is not expected to be of long duration, however, and business will settle down to its usual quietness until the end of the month, unless there is another rise, when all the coal now in the harbor will be sent down. Ports below have sufficient coal it is stated, to tide them over the low-water season. The first packet boat for nearly two months eft for Wheeling and Parkersburg yesterday morning carrying a fair-sized load of merchanmorning, carrying a fair-sized load of merchan-dise. The river continues to drop. At 6 P. M. it was down to the 5-foot-10 mark, a fall of 5 inches in 24 hours. The Ohio likewise fell 4 inches. Below Davis Island the marks showed 4 feet 4, falling slowly. More coal was towed down from above during the day, and by September there will be about 5,000,000 bushels ready for the Cincin-ment and Louisville markets. be about 5,000.000 bushels ready for the Cincinnati and Louisville markets,

OFFICE OF PITTSBURG DISPATCH, MONDAY, August 11, 1890. Country Produce-Jobbing Prices.

Mond ay's usual quietness prevailed. Prices were es sentially the same as at the close of last week. Advices from the far West point to a very short crop of potatoes. A year ago at this time potatoes were a drug in Kansas and Iowa, and large quantities from these States were brought to this city. Now the boot is on the other leg, and Kansas dealers are inquir-ing as to prices of potatoes with a view fo buy-ing at this point. A Liberty street commis-sion merchant was advised by a Kansas correspondent to-day that potatoes were almost an entire failure in that section by reason of drought, and that prices there were already \$1.50 per bushel, against less than 25c per bushel at this time last year. Said this produce merchant: "From present outlook potatoes will be higher the coming fall and winter than they have been for 20 years or more. From all sections of country our advices are that crop is unusually light. At present prices I would be glad to engage all the potatoes I could get for winter stock. There is no article of diet more essential to the wants of the common consumer than the potato, and I fear they will be compelled to pay more for this article the coming winter than ever before."

Grais, Flour and Feed. Sales on call at the Grain Exchange, I can sack middlings, 5 days, 221/c; 1 car high mixed shell corn,59c, 10 days; 1 car No. 2 y.e. corn, 65c, 10 days. Receipts as bulletined. 50 cars, of which 34 were received by the Pittsburg, Fort Wayne and Chicago Railway, as follows: 5 cars of hay, 15 of oats, 10 of flour, 2 of bran, of middlings. By Pittsburg, Cincinnati and St. Louis, 5 cars of corn, 3 of oats, 1 of bran. By Pittsburg and Lake Erie, 1 car of rye, 1 of feed, 2 of wheat, 3 of flour. Wheat has reached feed, 2 of wheat, 3 of flour. Wheat has reached the dollar mark, as our quotations will disclose. Flour is strong enough to go higher and another advance of 25c per barrel is probable before the week is out. Corn and oats are steady at quotations. Hay is scarcely as firm as it was a week ago, a fact due to timely rains, which have improved pasturage. At the Grain Exchange to-day, resolutions presented by Air. John Wood were unanimously adopted, urging upon Congress the importance of an appropriation at the present session sufficient to complete the postoffice building at the earliest practicable moment. It seems that by some oversight Pittsburg was omitted in the bill of appropriations, and the Grain Exchange joins with hosts of others in urging upon our legislators-to see that the mistake be rectified. A BROTHER AND SISTER

THE DANGEROUS CONDITION OF MR. AND MISS EHRHARDT.

How They Were Rescued by the Catarrh Specialists at 323 Penn Avenue. Miss Emma Ebrhardt, a well-known young lady who lives at 73 Sedgwick street, Alle-gheny, has for years been a great sufferer from externs. Her throat seemed to be always filled with

phlegm and she was almost constantly hawking and spitting. Her throat became very sore and

Miss Emma Ehrhardt,

there was scarcely a day that she was not hoarse.

As some of this catarrhal poison extended to the bronchial tubes of her lungs she felt a tightness and weight in her chest. She coughed badly, and as her disease further advanced she felt very weak and tired all the time. She could get but little sleep and felt tired and worn out in the morning. worn out in the morning.

In her weak condition every change of weather would give her a cold. Her appetite failed, and she had belching of gas and a nauseous, sick feeling at her stomach after eating, and she had a had taste in her mouth

eating, and she had a bad taste in her mouth every morning.

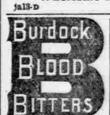

Her brother, Mr. Henry L. Ehrhardt, also suffered from catarrh. While he had many of the above symptoms, the disease so affected his head that he became quite deaf. He had a wopping of catarrhal mucus from his head into his throat, where it became very tenacious and hard to expectorate. As they were personally acquainted with Mrs. Bratt, whose portrait appeared in this paper a few weeks sincand knew of her permanent cure by the physiand knew of her permanent cure by the physi-cians of the Catarrh and Dyspepsia Iustitute, at 323 Penn avenue, they decided to take a course of treatment, and after becoming cured, for the benefit of others who suffer from catarrh, they add:
