FEDERATION PAINTERS STAY. Master Painters Will Retain Any Men Struck

Against lu Fature.

Brotherhood of Painters men continue to hold Harris' Theater against their brothers of the Knights of Labor. The position which the master painters will assume in this fight between the organizations is, that they continue to employ the men of the orgauization struck against. If a Brotherhood man strikes against a Knight the former must go; if a Knight objects to work with a Brotherhood man, the Knight will go. Masters cannot pretend to discriminate be-tween unions. Satisfied that they are em-

ploying union men, they are indifferent where they belong. The Knights of Labor are prepared for war, while the majority of the Brotherhood say the "business is too mean for anything," having to strike against a union man.

UNDERGROUND WIRES.

A Local Company Shipping Extensive Orders for This Product.

I. W. Marsh, of the Standard Underground Cable Company, said yesterday that the company had no reason to complain on the score of business. It recently filled a \$25,000 order for Minneapolis, and another for \$50,000 for New York. In the latter city, Chicago, Boston, St. Louis and in other centers, there was no agitation for the placing of electric and telegraph wires un-derground, excepting in Cleveland where an effort was being made to do away with the overhead system. Local companies were using more underground wires every day, finding an ultimate saving in the co over exposed wires. He thought that in the end the city would have a complete system ot underground wires.

THE WAVERLEY MINES.

President Courtney Says He Has All the Men He Wants.

Yesterday's issue of THE DISPATCH had a telegraphic report of the condition of mining affairs in the Smithton district. In this relation President J. A. Courtney, of the Waverley Coal and Coke Works, said yesterday:

"You say regarding Waverly Coal and Coke Works: "The strikers remain firm. The company has succeeded in getting enough miners to operate one-half the plant, etc." The fact is we know nothing of a strike at our works now. There are 20 per cent more men at work than there were when the strike commenced. Almost all our old men have moved back and gone to work. Coke ovens are all running and shipments are be-ing made daily for the past month."
