What the Week Has Brought Forth in the Iron, Steel, Coal, Coke and Glass Industries.

A BRIGHT OUTLOOK FOR THE FALL.

Prices in the Metal Market Maintained. While Sellers Don't Wish to . Contract Ahead.

PROMISING WINDOW GLASS TRADE.

Still Disturb the Conduct of Business an Seem to Continue.

No better summary of the present condition of the iron trade can be given than in the words of a leading broker who has just returned from a tour among the Eastern and

"I everywhere found," he said, "the demand active, and the prospects of the fall trade good. While the output has been restricted by the hot weather, the market has maintained an elasticity due to healthy activity in the various branches. I did not anywhere find undue excitement, or a disposition to expect big things of the future. There is no disposition to close contracts for delivery ahead, but sellers are more apt to dispose of their goods at the fair margins the markets now offer than to hold them in expectation of a boom. The market has that healthy tone which results from an active trade and good prices, a trifle of indifference among producers and a corresponding easiness among consumers. Bessemer pig is readily bought where offered at \$18 50, while billets are a point or two higher than the difference in cost and a fair profit would warrant, selling at \$31. Muck bar is in good demand at \$27, with no disposition on the part of mill owners to contract shead. The pipe trade is brick with all the mills busy, and prices unchanged. In general the outlook for a brisk fall trade is good, with a tendency to a stiffening in prices without any indication of unwholesome excitement."

MEETING WITH SUCCESS.

The Amalgamated Association has been generally successful in inducing manuacturers to adopt its scale as the basis for wages. In the East, where this year the neale has been presented to mill owners for the first time, not more than five or six firms are holding out against its terms. The association has increased the number of its mills in the East by more than half as many again as it had last year. In this district the only mills which have not signed the scale are the Carbon Iron Works and the Zanesville mill. At the former mill the firm are still running about half a dozen graphite furnaces with the aid of colored nen. Repairs are in progress, and it has been stated that when the company is ready o resume it will find men to fill the places f those who went out under the rules of the association. There is an expectation, however, that the firm will compromise and timately resume with its old hands. Those who come into direct communication with the men have usually a say in such natters. Other than this difference there does not seem to be any cloud on the horizon of the Association's prospects.

A BRISK COKE TRADE,

In the coke trade operators report a brisk not so extensive as during the previous week, owing principally to firms reducing orders to prevent overstocking. Prices remain unchanged. The relations between employers and workers remain undisturbed.

The condition of the window glass trade continues unchanged. As yet no time has been set for resumption of work. The mannfacturers will meet in Chicago on next Tuesday and decide when the start shall take place. The opinion of the meeting of the scale committee on the 6th inst. was in favor of the resumption being deferred until the 1st of October. The stocks in the hands of manufacturers are much reduced, and the outlook for the future is agreed to be very good. The object of retarding the fire is, of course, to insure a steady demand and reoutlook for the future is agreed to munerative prices, and as the manufacturers have the say in the matter, they will be guided by their views rather than by the guided by their views rather than by the wishes of the workers, who are anxious to see an early blast. The general impression seems to be that no blast will be made be-fore October 1, with a chance that work may

be resumed two weeks earlier.

The representatives of the flint glass-houses, who have been holding court in the Monongahela for six weeks past, brought their sojourn to an end on Thursday. The agents reported business as below the average, with chimneys in most demand. Tableware, as an agent remarked, "was not in it," but novelties sold well at fair prices.

INTEND TO START LATE.

The majority of the tableware factories are not likely to resume operations before the first of September, an impression pre-vailing that a late start will assist in still further reducing stocks, and make the year's trade more profitable. Committees of the Manufacturers' Association and Workers' Union were in session during the week, but without getting through the whole of the list. It is thought that the ultimate settlement will result in a more general equalization of prices, as much as between the product of certain factories as

on specific articles of manufacture.

Business in the prescription and green bottle branches promises to be improved over last season's trade. The assumption would follow on the advance of 10 per cent obtained by the flint workers last week and it is generally held that the trade in fint bottles has a good outlook. The trade in beer and mineral bottles is increasing, and gradually beating the green bottles out of the market.

the market.

Among the firms which have started up are Thomas Evans & Co., The King Glass Company, Jones, Cavitt & Co., Bryce Bros., and the Peerless Lead Glass Com-

pany. For the first time in its history the Westnghouse Company has had to deal with a thoroughly organized strike, involving two branches of its works and about 1,000 men. The position of the men is in effect for an The position of the men is in effect for an advance of 10 per cent in wages—some of them in time, and others—those working by the piece, in wages. The company intimated its willingness to grant a reduction in the hours, with the stipulation that prorata wages should follow. This was refused. Yesterday was general pay day, and each man was given the option of returning to work on Monday or receiving his discharge. The company has declared that it will maintain its position, and after Monday fill the places vacated from outside sources.

PRACTICALLY A VICTORY.

The machinists have practically won their strike for a 9-hour day for 10 hours' pay, only three or four firms having refused the

The Painters' Unions of the two cities are The Painters' Unions of the two cities are engaged in what seems to be a war of extermination against each other, the ukass having gone forth from the Brotherhood Unions that its members should not work with Knights of Labor. The Knights on their part will fight for their shops, and the result will likely end in a division of the shops between the rivals. How this will not remains to be seen.

act remains to be seen.

The Association Master Plasterers and the journeymen are still at loggerheads. The

masters propose to the men that they shall not work for non-associated masters. This the men refuse to do because these masters pay union wages, and because the associated masters will not guarantee them work if

The American Federation of Labor is slowly, but surely, working out its policy of shorter hours. The strike of the machinists was the precursor of a similar movement throughout other large cities, and the policy will be carried out. Other Federated Trades in this district now working ten hours will take an early opportunity of reducing the hours of work.

SHE WANTS A SEPARATION.

The Wife of Comedian Dixey Charges Him

With Abandoning Her. NEW YORK, August 15.-Mrs. Ida J. Dixey has instituted a suit in the Supreme Court for a limited divorce from Henry E. Dixey, the comedian, on the grounds of abandonment and non-support. Dixey is in Chicago, where he is professionally engaged. He expects to leave for San Francisco on Sunday. Upon the wife's applica-tion Judge Beach to-day granted an order for the service of the summons by publica-

The couple were married on June 2, 1878, The couple were married on June 2, 1878, and have two chilnren, Henry E., aged 11 years, and Evangeline, aged 10 years. Mrs. Direy alleges that she and the children have been deprived of the society and support of Mr. Direy since September, 1887, when he abandoned them without cause. She says that she has conducted herself with propriety, managed the household affairs of her husband with prudence and economy, and at all times treated him with kindness and forbearance. Her complaint asks a and forbearance. Her complaint asks a separation from bed and board and a suita-ble allowance for herself and children.

EVIDENCE OF A MURDER.

Remains of the Victim Found After Nearly Half a Century. HOPKINTON, MASS., August 15.-Yesterday workmen employed at basin No. 5, Boston Water Works, unearthed the remains of a grown person which must have lain where they were found nearly half a

century. The remains bore indications that deceased had been murdered. The head lay in one place, with the middle and lower parts in another, piled together and buried in four feet of space about 18 inches deep. The skuil is also cracked. It is said that some 45 years ago there was a murder reported to have been committed on this old turnpike.

Important Sale. The special excursion sale of lots at Wilmerding, on Saturday, the 16th inst., is attracting much attention. The East Pittsburg Improvement Company, the original owners of the town site and of all the our Improvement Company, the original owners of the town site and of all the available property in the immediate vicinity of the great airbrake works at that point, have arranged this excursion to give those who desire to purchase property in this wonderfully prosperous community a final opportunity of doing so before the proposed advance in prices. In view of the great improvements that have been made at Wilmerding since the first lot was sold, April 17, 1889, and and the marvelous growth and development of the town during that period, it is scarcely fair to the early purchasers that the original prices put upon the lots yet unsold should longer remain unchanged. After Saturday, August 16, therefore, a new schedule of prices will go into effect, and no one should fail to take advantage of the opportunity afforded by the sale advertised for that date. A special excursion train will leave the Union station at 1:20 P. M. Tickets free, upon application at the office of the East Pittsburg Improvement Company, room No. 52 Westingbanes building Pittshurg Pa provement Company, room No. 52 Westing-house building, Pittsburg, Pa.

GREATLY ADMIRED.

What One of the Lending Ladies of the Land Has to Say on a Subject of Great Interest to Ladies,

One of the most popular seminaries for young ladies in America is the Rutgers Female College, located at Nos. 54 and 56 West Fifty-fifth street, New York. Mrs. E. S. West, the lady principal, has an army of friends among the ladies whose mental and physical interests she has so carefully looked after. In writing about the ladies under her charge, she recently said: "In a bousehold of brain workers, such as our college family, it is necessary to have not only the most nutritious food, but the very best method of preparing it. I was induced by a friend to try 'Thepure' Baking Powder and find it to be exactly what it purports, perfectly

find it to be exactly what it purports, perfectly pure and I believe the best article of its kind in the market. As such, I am glad to recom-mend it to others in my own profession, as well

mend it to others in my own profession, as well as to my sister housekeepers."

Mrs. West is only one of many hundred prominent ladies who have found "Thepure" Baking Powder specially suited to their taste and needs. Through its use many women are producing lighter, sweeter and whiter bread and cake than ever before. Its popularity is the proof of its excellence. It has the indersement of the Wholesale Grocers' National Association: is being used by the leading hotels, cafes and clubs in the principle cities; and, although a new powder, is becoming very popular with the ladies. When people of such high standing and advanced thought adopt and use an article of household merit it proves beyond question its absolute purity and worth. As such it is commended most cordially to all. The best grocers sell it.

NEW ADVERTISEMENTS

CATARRH AND LUNG TROUBLE MR. W. H. WISE

Testifies to his Permanent Cure by the Catarrh Specialists at 323 Pena Avenue.

At No. 815 Brownsville avenue, Southside, resides Mr. W. H. Wise.

When he called on the catarrh specialists at their Medical Institute, 823 Penn avenue, he stated that his catarrh which had troubled him.

stated that his catarrh which had troubled him so long had become so severe that at times he was unable to follow his usual business.

The tough tenacious mucus that dropped from his head caused a soreness in his throat. Although he was almost constantly trying to clear his throat, the disease extended to his lungs. His breath became short, and he felt pain in his chest.

There was scarcely a day he did not feel great pain over his eyes. He took cold easily, and every cold would cause such a stuffed-up condition in his nose he could scarcely breathe through it. His appetite was poor, and he had beliching of gas from the stomach.

Night aweats weakened him terribly and he lost flesh. In this condition he began treatment with the catarrh specialists on the 8th day of last December; on May 25 he gave the following statement:

"This is to certify that I have been entirely cured. It is now five months since I became cured. I feel splendid, and no symptoms of the disease has since appeared. W. H. WIER."

who live at 73 Sedgwick street, Allegheny,
Miss Ebrhardt had for years been a great
sufferer from catarrh. She was almost constantly hawking and splitting, had sore throat,
and there was scarcely a day that she was not

hoarse.

As some of this catarrhal poison extended to the bronchial tubes of her lungs she felt a tightness and weight in her cheet. She coughed badly, and as her disease further advanced she felt very weak and tired all the time. She could get but little sleep and felt tired and worn out in the morning.

In her weak condition every change of weather would give her a cold. Her appetite failed, and she had belohing of gas and a nauseous, sick feeling at her stomach after eating, and she had a bad taste in her mouth every morning.

eating and she had a had taste in her mouth every morning.

Her brother, Mr. Henry L. Ehrhardt, also suffered from catarrh. While he had many of the above symptoms, the disease so affected his head that he became quite deaf. He had a dropping of catarrhal mucus from his head into his throat, where it became very tenacious and hard to expectorate. After becoming cured by the catarrh specialists, at 223 Penn ave., they add:

"We gladly testify that the above history of our cases is true, and that we have been cured as stated. In proof we hereby sign our names.

"HENRY L. EHRHARDT."

Please remember these catarrh specialists are

**KAUFMANNS** 

This will positively be the last day of our most exceptional and extraordinary offering. And, owing to the fact that a fresh line of real elegant and nobby regular 30 88 \$12 Suits will be included in this sale, this will not only be the last but the best day to make your selections.

this morning, over 300 Men's Suits will be found on our \$6 66 counters. We venture to say that not one will be left at closing time (11 o'clock) to-night. Among them are Frock and Sack Suits in light, medium and dark materials-all are well made and trimmed and fit perfectly.

When the doors will open

\$6.66 FOR YOUR CHOICE FROM \$6 300 MEN'S SUITS, WORTH \$6 TO-DAY, SATURDAY, ONLY.
