"Regarding their property," continued Mr. Watchorn, "Bell, Lewis and Yates did not make the bargain they expected in buy-ing. The price they paid Adrian Islin was about fourteen millions and a half, to be paid in 15 years, and with the understanding that he would not go into the same business to their detriment. But Mr. Islin was too much for the purchasers, and subse-quently bought 20,000 acres of excellent coal iand in the same region, and 1s now opening up mines with the aid of his old managers.

## HIS POLITICAL OBSERVATIONS.

"What is the sentiment, Mr. Rae, among miners, regarding the Gubernatorial fight?" "I may say at once it is strongly in favor of Pattison. This is the sentiment per-vading the craft everywhere throughout the region I have visited. I am sure that in Bedford, Blair, Cambria and Huntington counties Pattison will poll full 60 per cent. of the mining vote, and in Washington county he will have a very strong follow-ing. This feeling for Pattison I tound equally strong among farmers and business men, and I should say, from what I picked up in my tours around the country, that Pattison will be elected by at least 10,000 majority.

"On what arguments did you find the opposition to Delamater based?"

"From a general conviction that Delamster represents a system which miners regard as being unalterably opposed to their inter-ests. Among farmers and business men the opposition arises from a feeling that Patti-son is more likely to serve them than his opponent. Of course, there are certain con-tingencies to be reckoned with, with respect to Congressional candidates, and it may be held that when the time comes, all this will be arranged. But the miners are a pretty independent class, and will vote as they please. Besides, where the head of the party is objectionable." Mr. Ease concluded, there is danger of dragging the others

Arrangements for a Big Demonstration on Laber Day Successfully on Way.

The Building Trades Council held another meeting yesterday afternoon to further the arrangements for the parade on Labor Day. The column will be divided into three divisions, the first composed of all iron workers, boiler makers, machinists and kindred trades. The second division will embrace the glassworkers and all workingmen outside the building trades, while the third division will comprise the building trades exclusively, all of whom are members of the council. The first division will be led by Typographical Union No. 7 as an escort and the rear will be brought up by floats, displays in wagons and horsemen. The di-vision colors will be red, white and blue for the first, second and third respectively, while the Chief Marshal's will be a combination of the three. The third division will be made up in the following order: Electricians, carpenters, tinners, stonemasons, hod carriers, stonecutters, painters, gas and steam fitters, plumbers, bricktayers, plas-terers, slaters and plumbers' helpers.

Four. Vice Presidents were appointed: Messre. E. Williamson, David Mackintosh, John Griffith and R. Kennedy. Messre, Williamson and Mackintosh will have Williamson and Mackintosh will have charge of the speakers of the day and ac-company them over the line of march in carriages. A programme of the day's cere-monies will be printed for distribution,

A teaspoonful added to a glass of hot or cold water, and sweetened to the taste, will be found refreshing and invigorating.
