MR. W. H. WISE

At No. 815 Brownsville avenue, Southside resides Mr. W. H. Wise.

When he called on the catarrh specialists at their Medical Institute, 323 Penn avenue, he stated that his catarrh which had troubled him

stated that his catarrh which had troubled him so long had become so severe that at times he was unable to follow his usual business.

The tough tenacious mucus that dropped from his head caused a soreness in his throat. Although he was almost constantly trying to clear his throat, the disease extended to his lungs. His breath became short, and he felt pain in his chest.

There was scarcely a day he did not feel great pain over his eyes. He took cold easily, and every cold would cause such a stuffed-up condition in his nose he could scarcely breathe through it. His appetite was poor, and he had belching of gas from the stomach.

Night sweats weakened him terribly and he lost flesh. In this condition he began treatment with the catarrh specialists on the 9th day of last December; on May 28 he gave the following statement:

"This is to certify that I have been entirely cured. It is now five months since I became cured. If sei splendid, and no symptoms of the disease has since appeared. W. H. Wisk."

stantly hawking and spitting, had sore throat, and there was scarcely a day that she was not hoarse.

As some of this catarrhal poison extended to the bronchial tubes of her lungs she felt a tightness and weight in her chert. She coughed badly, and as her disease further advanced she felt very weak and tired all the time. She could get but little sleep and felt tired and worn out in the morning.

In her weak condition every change of weather would give her a cold. Her appetite failed, and she had belching of gas and a nauseous, sick feeling at her stomach after eating, and she had a bad taste in her mouth every morning.

Her brother, Mr. Heury L. Ehrhardt, also suffered from catarrh. While he had many of the above symptoms, the disease so affected his head that he became quite deaf. He had a dropping of catarrhal mucus from his head into his throat, where it became very tenacious and hard to expectorate. After becoming cured by the catarrh specialists, at 323 Penn ave., they add:

"We gladly testify that the above history of our cases is true, and that we have been cured as stated. In proof we hereby sign our names.

"HENRY L. EHRHARDT."

"EMMA EHRHARDT."

Please remember these catarrh specialists are permanently located at 323 Penn avenue and

NEW ADVERTISEMENTS. YOUR BOY!

You can bring him to Kaufmanns' any day this week and have him fitted out from a truly elegant and fashionable line of Suits.

WORTH \$5, \$6 AND \$7,

At the greatly reduced price of

Our reason for sacrificing these Suits is due to the fact that they are nearly all Spring and Summer patterns: Medium and light checks, plaids, colors, combinations, mixtures, stripes, etc.

We could have these Suits dyed in

dark shades (more suitable for Fall and Winter) and sell them at regular prices. But we won't. We prefer to give our patrons the benefit. They'll buy these Suits as they are; paying but \$3 50 for them they can easily afford to have them dyed. We believe, however, that the present patterns (though they are a trifle light) will suit you tip-top.

At any rate, if you want one of these Suits, you'll consult your own interest by buying it at once. We anticipate a rush for these goods. Look out for it! Don't delay!

THE JUSTLY CELEBRATED

"MOTHER'S FRIEND!"

AND STAR SHIRT WAISTS

lot of Unlaundried French Percale Shirt Waists in the above two celebrated brands. This is the lowest price ever quoted for these goods.

Will buy your choice from a magnificent line of LAUNDRIED French Percale Shirt Waists, never sold below \$1. You want to come quick if you wish to buy these goods.

CHALMERS PLEADS FOR A CHAIR,

But is Refused by the Votes of Members

REPORT ON THE BRECKINRIDGE CASE The Minority Strongly Declare the Democrat En-

titled to His Seat. WASHINGTON, August 18 .- The contest case of Chalmers against Morgan was called up in the House to-day, the majority of the committee having reported in favor of the up in the House to-day, the majority of the committee having reported in favor of the latter, who is the sitting member and a Democrat. Mr. Chalmers was granted permission to address the House for an hour and a half in his own behalf. After criticizing the majority report he asserted that ing the majority report he asserted that there was now and had for years been a conspiracy existing in the South for the carrying of elections for the Democratic party. That party was determined to carry

elections, honestly if it could, forcibly if it The State of Mississippi was the leader in that conspiracy. Men who dared to run on the Republican ticket or to make Republican speeches carried their lives in their hands. That the black vote in the South was suppressed could not be successfully denied. It was on the suppression of this vote that the Republicans of the House had justified the passage of the Lodge

A SUSPICIOUS ATTITUDE. If the Republicans, after passing that bill, should turn around and adopt the majority report in this case, they would put themselves in a suspicious attitude before rate handling of the schedules. the country. Before the meeting of Congress, it had been charged that the Republicans intended to turn out enough Democrats to give them a good working majority. If, after getting that majority, they declined to give him his seat, they would give color

to that charge.

The Southern Governor who had without protest seen outrages like the killing of negroes at Yazoo and Carrollton, grew frantic with rage over a fair fight between two pugilists. It was a fair question whether the Democratic party was not going to the bad as fast as it could and taking Mississippi with it. The minority substitute was rejected, and the majority resolution de-claring Morgan entitled to the seat was agreed to without division.

THE BRECKINGIDGE CASE. Representative Marsh to-day presented to the House the Democratic minority report of the Committee on Elections in the case of Clayton versus Breckinridge, of the Second Arkansas district. The report says that, with one exception, the district has always gone Democratic, and the presumption should be in favor of Democratic against Republican contestants. The theft of the ballot box in the case is admitted, but it is held that it did not change the result of the

election, as the Democrats carried the dis-triet by a majority of 149, even allowing the Republicans the disputed votes in every The report comments upon the instruction of the House to make a full and thorough investigation of this exceptional case, calls attention to the great number of charges and counter charges and issues involved, and

states that the committee spent but 12 days ng evidence. Says the report: The House may judge upon this, and it will be called upon to judge from proceedings still more unusual and shocking, how disgracefully and criminally this case has been handled. Party prejudice, malice and a purpose to accomplish an improper end seems to have deadened every sensibility in gentlemen from whom the House and the country had a right to expect better things. Some

o expect better things. Some

UNWORTHY PURPOSE ems to be their end and object. Some ignoble compact seems to have forestalled their ac-tion. Some base and ingenious mind seems to have guided them, and it is not far short of the truth to say that this investigation has been a miserable farce, and that the majority report is unfounded in truth, not justified by the evidence, and is defaced by the repetition of parti-san slanders, not sustained by any testimony. Knowing the utter insufficiency of relevant ev-idence to unseat Mr. Breckinridge, knowing in-deed that it proves him elected, the majority

report ranges in every imaginable direction from the subject matter to distort in the vain from the subject matter to distort in the vain hope to berrow strength thereby.

When these intrusted with official power so forget right, justice and duty as to act as the majority of the committee has done, it brings distrust and odium upon a party and upon the House, and their actions and conclusions should be rejected and rebuked. Never has a great question been so wretchedly, so feebly, so unjustly and so scandalously treated and adjudicated. But passion under injury and wrong is not the proper mode of redress, and if the House puts the seal of its approval upon the report and recommendations of the committee, then we appeal to the people to rebuke and right it by their votes.

A RAILWAY REPORT.

Result of the Observations of the Inter-State Commerce Commission WASHINGTON, August 18 .- The statistician of the Inter-State Commerce Commission has completed his second annual report to the Commission. The report covers the transactions of 609 roads, and shows the operations of 153,385 miles of line. The gross earnings for the year, exclusive of rental of tracks, yards and terminals, were \$964,816,129, or \$6,290 per mile of line; and the operating expenses, exclusive of rentals The Noted Dr. George C. Lerimer, of Chicaof tracks, yards and terminals, \$644,706,701, or \$4,203 per mile of line. This leaves a net income from operations of \$320,109,428, or \$2,087 per mile of line. After deductions are made for fixed charges the final net in-come for all the roads in the United States was \$101,388,786, or \$661 per mile of line.

The total mount of stocks is shown to be
\$4,251,190,719, of which \$847,740,399 are
owned by railway corporations. The total
amount of bonds is \$4,287,527,859, of which \$304,252,502 are owned by railway corpora-tions. From this it appears that the total stocks and bonds representing railway property in the hands of the public is \$7,366,-725,677. The report further shows that the passenger earnings have increased from 30.46 per cent of total earnings in 1888 to 31.10 per cent in 1889; while freight earnings have decreased from 67.35 per cent in 1888 creased from 67.35 per cent in 1888

to 66.82 per cent in 1889.

WASHINGTON, August 18 .- The Navy

Department to-day sent the following letters

to the Commandant of the Brooklyn navy

IN HONOR OF ERICSSON. Instructions From the Navy Department to the Brooklyn Commandant.

Upon the occasion of the embarkation of the remains of Captain Ericsson, it is the desire of the President to give solemn expression to the cordial and fraternal feeling that unites us with a kindred people, the parent source of a large body of our most valued citizens, of whom the late inventor, a Scandinavian by hirth and an American by adoption, was the most illustrious example. In recognition of this feeling and of the debt we owe to Sweden for the gift Ericsson, whose genius rendered us the highest service in a moment of grave peril and anxiety it is directed that, at this other moment, when we give back his body to his native country, the flag of Sweden shall be saluted by the squadron. The Department therefore issues the following instructions: The colors of the squadron will be at half mast during the embarkation. Minute gues will be fired from the mentior Nantucket during the pass-

age of the body from the shore to the Balti-more. As the Baltimore gets under way and passes the vessels of the squadron each vessel will masthead her colors, display the Swedish ensign, and fire a national salute of 21 guna. The Baltimore will immediately proceed to

ANOTHER COUNT. THE CENSUS TO BE GONE OVER AGAIN BY

HOUSES. This Will Act as a Check on the First Enumeration, and Furnish Valuable Statistical Information—The Farmer's End is Receiving Considerable Attention.

IFROM A STAFF CORRESPONDENT, 1 WASHINGTON, August 18 .- The tinkling of the bells on the electrical counting machine in the Census Office was not audible to-day, and the big room where they and the clerks who preside over them are collected was comparatively quiet. A few odd schedules were received during the morning, but one or two machines were all that were necessary to count them and keep the office abreast of the work. The rest were silent and the clerks were enjoying the short breathing spell afforded them after the rush and bustle of

cach family.

The count which it is now proposed to make will be by houses, and will serve several purposes. It will first act as a check upon the count which has been already made of the total population and be of great value in furnishing statistics bearing upon the vital and social statistics bearing upon the vital and social statistics of the number of the vital and social statistics of the number of the vital and social statistics of the number of the vital and social statistics of the number of the vital and social statistics of the number of the vital and social statistics of the number of the vital and social statistics of the number of the vital and social statistics of the number of the vital and social statistics of the number of the vital and social statistics of the number of the vital and social statistics of the number of the num the vital and social statistics of the country.

In the large cities, where crowded tenement
houses are the subject of much anxiety and
solicitude on the part of the health officers and others interested in the subject of mor-

tality among the poor, this count will furnish data of great interest and with considerable possibilities for resulting good to the classes most deeply concerned. This work will require the whole force, and by working night and day, it is expected to take not move than two works. take not more than two weeks to complete
it. There was no provision made for this
count at the time the counting machines
were constructed, so that it cannot be done
at the same time with the tabulation of the

The tabulation, by which is meant the work of ascertaining the number of old soldiers, the ages, sexes and nationalities of the people, together with all the rest of the answers to the questions propounded on the schedules, will not be begun until this count is finished, and will take at least five or six weeks to complete when once it is started. The farmers generally throughout the country ought to be well satisfied with the manner in which their interests are being cared for in the present census. This particular branch of inquiry is being more fully investigated than has ever been the case in any previous census. Not only have the farmers the largest of any of the sched-ules issued in any of the special branches, but it has by far the largest number of questions upon it. Their number is about 250, and 950,000 farmers have received a copy with the request that they fill it up. The questions relate to all branches of farm work and will form the most comprehensive inquiry into the subject ever undertaken in any country. The returns are coming in very satisfactorily, but the force of clerks at present employed upon them is small, and but little has been done in the way of ascertaining results. One of the questions seems to have puzzled not only the enumerators, but some of the farmers as well. It is the held that it did not change the result of the one requesting a return as to the number of artesian wells, if any, there are on each farm. Some of the enumerators have put down in this column any well of any kind that they could find. In one section of Indiana where there are no artesian wells at all several hundreds of ordinary wells have

been returned. Of course in these cases corrections will have to be made.

HIGHEST POINT SINCE 1878. Effect of the New Silver Law Upon the Price of Bullion, WASHINGTON, August 18 .- The amount of silver offered to the Treasury Department to-day was 340,000 ounces. The amount purchased was 290,000, as follows: 40,000 ounces at \$1,185; 50,000 ounces at \$1,195; 200,000 ounces at \$10,975. Several pur-chases for mints from 13th to 18th increase this amount to 82,177 ounces. The price of silver in London to-day, 54 pence is the highest point ruched since April, 1878. sequently offers were received from San Francisco to sell 50,000 ounces at \$1 16 and 200,000 ounces at \$1 18. Both

offers were accepted. This made the total offerings to-day 590,000 ounces, and the total acceptance 540,000 ounces.

THE SEA WING DISASTER

The Liceuse of the Captain Will Certainly be Speedily Revoked. WASHINGTON, August 18 .- Inspecto General Dumont, who went to St. Paul to investigate the Sea Wing disaster at Lake Pepin, returned to Washington to-day. He says that while he has not yet received the official report of the board specially charged with the investigation, he knows that Captain Wetherin, who commanded the Sea Wing, will be severely censured for his ac-

tion in leaving port in the face of the storm, and that his license will be revoked. A Case of Yellow Fever Reported WASHINGTON, August 18 .- The Marine Hospital Bureau is informed that there is a case of yellow fever on board the Spanish bark Castillo, from Cienfugos via Pasca-goula, now detained at the Chandeleur quarantine station, Mississippi.

AN EMINENT DIVINE DYING. go, Critically Ill.

CHICAGO, August 18 .- It now seems that Dr. George C. Lorimer's eloquent words may never more be heard at Immanuel Baptist Church. The eminent and scholarly divine lies at his home in a most critical condition. His physicians say that he may die. Dr. Lorimer has been unable to preach for two weeks. For at least a week he has been in bed. His malady is

cerebral exhaustion. Dr. Lorimer has been paster of the Immanuel Baptist Church since 1879, coming here from Tremont Temple, Boston. His pasterate has been successful in the highest degree.

Trinky Hall's Lose, The friends and patrons of Trinity Hall, Washington, Pa., will be sorry to learn that

the Rev. P. S. Mesney has resigned the rectorship of that institution after successfully working it up from 15 students to 35. Mr. Mesney as a University teacher has no superior, having received his training at the University of Cambridge, England. His charming personal qualities endear him to everyone who has the pleasure to make his acquaintance. We learn the reverend gentleman is now on his way from Europe, where he has traveled for recreation the past few months, to this country to engage in church work in or near Pitthers. in church work in or near Pittsburg, where his untiring energy is wanted and will doubtless very much benefit the church.

SLEEPLESSNESS, nervous prostration, nervous dyspepsis, duliness, blues, cured by Dr. Miles' Nervine. Samples free at Jos. Fleming & Son's Market st.

STEAMER MAYPLOWER will leave Wood st. wharf at 8 A. M. sharp Tuesday, August 19, to witness the placing of the channel span of the Ohio Connecting Railroad Bridgs. Come everybody and see the grandest engineering feat of modern times.

GOOD AVERAGE MADE

Forty-Five Wells in the Chartiers District Producing

(SPECIAL TELEGRAM TO THE DISPATCE.)

the Yeuber lot, located 800 feet nearly due

west from Gailey Bros,' well, and at about

the same distance southeast from the Mc-

Kee's Rocks Oil Company's No. 1 on the

Huffnagle farm. It is claimed by some

that the well is only in the first pay, and by

that the well is only in the first pay, and by others that the drill has penetrated the rich spot in the second pay. However this may be, the well makes occasional flows, and judging from its present status will make perhaps a 50-barrel well. This well coming in a producer shows an extension of 800 feet toward the town of Chartiers.

West Bellevernon Gas Operations.

Orilling at Cornepolis. CORACPOLIS-Mellon & Co., one-half mile

west of developments on the Carr farm, are drilling a well which is down 100 feet. The

Augusta Oil Company, on the Kendall lot, will find the sand tomorrow, and Gally Bros. will start a well east of town at Montour Junction on the Robert Feree farm in a few days. The Augusta Oil Company No. 4, located on a town lot, will be due next week.

A New Well.

Hopes Raised High.

MANSFIELD VALLEY-Those farmers in the vicinity of Remington postoffice, Robinson township, four miles north of here, who failed

to realize a fortune from the oil business, are

to realize a fortune from the oil business, are again building castles in the air in view of the good round sum that is being paid for leases on the excellent coal lands in that vicinity. The prices are from \$75\$ to \$125\$ per acre, and six months' options have been taken on portions of the best properties there. Should the purchasing company purchase the coal underlying these rich lands, a railroad will be built from the Pittsburg and Lake Erie Railroad, near Groveton station, and following the line of Moon Run to the lands.

Notes From Belmont.

says the Johnson & Breckunier well No. 5 was shot and responded at a 70-barrel-an-hour rate,

Just how long this production was kept up the

A special to THE DISPATCH from Belmont

NEARLY 3,000 BARRELS OIL DAILY. Has Broken the Record. A Philosophical Operator Talks of Small Profits Realized.

Dr. Bennett F. Davenport, the State Analyst of Massachusetts, at the request of the "New England Grocer," analyzed the three leading Baker Powders now on the market—The Royal, DEMAND FOR LEASES AT MANSFIELD

BAKING POWDER

Haker Powders now on the inarce—the Royal, Cleveland's and THEPURE. In spite of the trumpeted claims of the two former, it was found that THEPURE was ahead in all qualities that make Baking Powder CHARTIERS, August 18.—The producers n the Chartiers pool are still declining, but in all qualities that make Baking Powder valuable.
With regard to strength and Reeping qualities. Dr. Davenport's report says: "When irst opened, Therpure was found to be the strengest, yielding 8,33 per cent more leavening gas than the Royal, and 8,62 per cent more than Cleveland's," and again, "after exposure to light and air in my office window and re-tested at intervals of one, two and three weeks, they were found to still rank in the same order. At the last test, however, Therpure was 13,89 percent stronger than the Royal, and 2,92 per cent stronger than Cleveland's. the production of the new wells that daily come in about keep pace with the reduction, and the output is maintained at nearly 3,000 barrels a day. The production comes from 45 wells, an average of 66 % barrels to the well. The field is about three months old, and up to date only one dry hole is recorded. The only item of any import to-day is the advent of the Huffnagle well, on

To be further convinced of its

Good as Money Found.

50-barrel well. This well coming in a producer shows an extension of 800 feet toward the town of Chartiers.

The McKee's Rocks Oil Company No. 2. Huffnagle, is on top the sand; it is located 25 feet south from their No. 1, which makes it look favorable for a good well. Jennings & Co., No. 2 on the May farm. was making ten barrels an hour to-day at three bits in the sand. It is expected that deeper drilling will improve the production; the well is located 600 feet from the Beck and Heiser wells. The Elcho Oil Company No. 1, ou the Johnson, will make but a small pumper, and the Mellon & Graham well, on the Clever, is rated at 40 barrels a day. Fisher Bros. Nos. 1, 2 and 8, on their 18 acre lease, are down 900, 1,000 and 200 feet respectively, and No. 1, on the Steinmiller, is drilling at 650 feet. Their No. 1, 30 days old, is still flowing 30 barrels a day.

A philosophical Chartiers operator was cogitating upon the eternal fitness of the oil business and just how much the producer is ahead on the roundup. Directing his conversation to THE DISPATCH reporter, he said: "Don't you know it takes a pretty good well in this field, where they are so thickly located, for one to get out even? Anything short of a 50-barrel well, in my estimation, is N. G. Here is the record of the McKee's Rocks Oil Company's No. 1, Huffnagle, and I think it is the best of any well in the field, and you can see how much money there is in a Chartlers well. The well is three months old, and started off at 100 barrels a day, we paid \$1,000 bons for two acres, and a quarter royalty, and in our settlement a few days age, the well had just paid for itself. In 80 or 60 days hence the production of the well will be materially declined, so there is but little in it." We have about fifty Custom-made Suits on hand (uncalled for) which we propose to sell at just one-half price in the next ten days. If you care to double your dollars look at these suits which are moved upon a bargain table to-day. We are still headquarters for Fine Readymade Clothing.

We are never without a complete stock of goods of our own make at the lowest drices possible.

Our own make! That's our help to proper prices; manufacturing the goods; dealing directly with you, thereby cutting off profits here and there.

We do your tailoring to order at reasonable prices; show you nearly 2,000 styles, and give you the best of a look at the sound the propose to sell at just one-half price in the following question to him: I see you have been treating with Drs. Just how long this production was kept up the message failed to state, and as we are without further particulars regarding the new strike, are unable to give our readers the true status of the well. On the Ohio side of the river, on the M. Greenwood farm, Ackeriy & Samuel will complete their No. 2 the latter part of the week. No. 1, Charles Green, is due about the same time; it is an important well, as it is located about one mile northeast of developments. Their No. 2, same farm, is spudding, and on the J. B., Green they are about ready to start drilling a well, located about a half-mile north of Belmont, and have another rig building between New Port and Belmont, near the river. Good for 25 Barrels.
