The Awful Devastation.

Passenger trains and locomotives at the depot were blown over, and every wire in the city-electric light, telephone and telegraph-is down. The devastation is to be compared with nothing in the memory of the oldest inhabitant. Everybody is rejoicing that no fires have as yet followed, for the streets are impassable with trees and fallen buildings and the engines could not be drawn through them.

The total death loss, so far as ascertained, is 12. Four men are known to be killed in the Hazard wire rope works. A house on Scott street, occupied by miners, fell in and three of the inmates were killed. The huge stack of the Kyle planing mill fell on a man and two horses and all were killed.

Killed by Falling Walls.

A little colored girl was killed by a falling building on South Main street. Two men suffered death by the falling of a portion of Stegmaier's brewery, and a third incurred the same fate through the almost complete demolition of S. L. Brown's handsome brick business block on East Market street. There are undoubtedly 15 or 16 others killed. Reports are coming in constantly to that effect.

Many poor people have suffered heavy losses, and it will be months before all the damage can be repaired. One hundred tin roofers have been telegraphed for and building mechanics of all kinds can find employment here for weeks to come, as it is already known that fully 200 buildings have been blown down or otherwised damaged. Many of the structures were of large size and great value.

Some of the Property Longes.

Approximate losses only can be given as follows: Hazard Wire Rope Works, \$25,-000; S. L. Brown, \$20,000; St. Mary's Catholie Church, \$15,000: Malinkrodt Convent, \$3.-000: Murray shaft,\$10,000; Hollenback shaft, \$5,000; Whitehaven Ice Company, \$8,000; Lehigh Valley depot, \$2,000; Pennsylvania Railroad Company's round house, \$3,000; Ahlborn's pork packing house, \$5,000; Paine's oil house, \$2,000; Dickson Manufacturing Company, \$3,000. In addition to these hundreds of citizens have suffered losses running from \$500 to \$5,000.

The Murray shaft fan house was blown down and the fan stopped. There are 27 men in the mine, but it is hoped they can be got out safely.

At 7:30 P. M. reports came from Sugar Notch, a mining town three miles from here, that the destruction of property was terrible and that 15 persons were killed.

Against a Boycott. ISPECIAL TELEGRAN TO THE DISPATCELI

NEW YORK, August 19 .- All men connected with the building trades are feeling very glum over the prospects of a long and bitter brick war which may throw nearly 100,000 men out of employment. The bad feeling was brought to the boiling point by the action of the brick manufacturers at their regular meeting at the Astor House on Monday. They then decided to withhold shipments of brick to all points included in the boycott instituted five weeks ago by the Board of Walking Delegates and Bailding Trades. The tie-up on the part of
