And Scalp Covered With Sores. A Wonds

fully Rapid Cure by the Cuticura

I have used your CUTICURA REMEDIES in two cases where it proved to be successful. The first was in the case of a boy a year and a hair old. His face and body were in a terrible condition, the former being completely covered with sores. I took him to the Mansena Sulphur Springs, but he did not improve any I was then advised to try the CUTICURA REMEDIES, which I did. He took one and one-half bottles of CUTICURA RESOLVENT, when his skin was as smooth as could be, and is to-day. I used the CUTICURA on his sores and the CUTICURA SOAF in washing him. He is now fre years of age, and all right. The other case was a disease of the scalp, which was cared by washing with the CUTICURA SOAF and rubbing in the CUTICURA, one bottle of CUTICURA RESOLVENT being used. It is surprising how rapidly a child will improve under this treatment.

The best is a ye the cheapest."

Void imitations

It is worse than nonsense to buy a cheap article with which to damage more valuable property. Scouring soap is at best only a trifling expense, but with a poor and cheap article it is likely to do considerable damage to fine marble or other property.

Issued by the State Democratic Society of Pennsylvania, Strongly Urging

THE NEED OF REFORM IN POLITICS.

A Glowing Eulogy on the Past Record of the Party in the Affairs of the Nation.

MANY WRONGS OF THE WORKINGMEN,

Which Hen. Chauncey F. Black Thinks the Secret Ballot Would Remedy.

SPECIAL TELEGRAM TO THE DISPATOR 1 PHILADELPHIA, August \$9 .- The followfag circular has just been issued by President Chauncey F. Black, of the Democratic

Society of Pennsylvania: DEMOCRATIC SOCIETY OF PENNSYLVANIA. PHILADELPHIA, August 18, 1890. To the Democratic Societies:
At the meeting of the Executive Committee of the Democratic Society of Pennsylvania, August 13, the next annual general assembly of the Democratic societies was called to meet on

Wednesday, September 16, at the city of Read-ing, the place having been determined by the last general assembly.

The annual general assembly of the Demoeratic societies at Philadelphia, in October of last year, was one of the most imposing representative meetings ever held in the State. It was composed of nearly 1,000 duly selected deputies of the primary societies—the flower of the earnest and aggressive Democracy of Penn-sylvania. The proceedings of that great body and their influence upon Democratic sentiment and organization, need not be recited. It was a day to be long remembered in the political history of our State. The first representative assemblage of popular Democratic societies, instituted under due authority of the regular organization of the party, and brought together but a year previous under the constitution adopted at Harrisburg, it exhibited, in the

most striking manner, the devotion of our people, not only to the political principles but to the political methods of the Democratic

THE PARTY'S PAST RECORD. The Democratic Society is but the open par liament of the democratic people in their several neighborhoods. When the federalism of the last century, seeking centralized, cor-rupt, extravagant, and splendid government, at the expense of the masses of the people. threatened subversion, more or less complete, of the Constitution, then but recently established, the democratic societies sprang up in every part of the Union and by concerted voice and effort saved American institutions for that time. They elected Mr. Jefferson; they saw bim seated, in spite of a corrupt and lawless plot to count him out, and the popular triumph of that day was followed by half a century of constitutional government, peace and prosperity, under Jeffersonian policies administered by Jeffersonian statesmen. Such societies are the natural resort of freemen whose liberties are endangered. They are open to all who accept the immortal principles enunciated by Mr. Jefferson and illustrated by his administration. They would preserve the rights of the many, not the privileges of the few. In them the people meet uncorrupted by money, unawed by bosses, to defend their own rights and to protect their own interests. The political situation in Pennsylvania today, more than ever before, invites, if, in truth, it does not require, the voluntary organization of the people for self-defense in the form which descends to us from our forefathers along with the principles of free government which they employed it to protect. If ever there was a time when every good citizen owed it to himself, his State, his constry, and his posterity, to repair to the Demecratic societies and to enroll himself among the organized defenders of popular liberty, that time is now upon us. triumph of that day was followed by half a

WAGE-EARNERS' ALLEGED WRONGS. Systems of taxation, State and Federal, grossly unequal in their operation, almost avowedly designed to pillage the many and to nrich the few, to grasp the hard earnings of the scattered and unorganized masses and turn them over to the incorporated, or otherwise closely associated, classes, are not only boldly intained by the party in power, but we are threatened with specific aggravations of them. At Harrisburg, as at Washington, the rights and the needs of the great multitude of wage-carners and land-tillers are disregarded. The same political rings, which have pushed aside carners and land-tillers are disregarded. The same political rings, which have pushed aside our State Constitution, denied every petition of land er labor, strangled every measure of reform, promoted every soleme of oppression and corruption, and inflicted upon this Commonwealth every wrong and shame it has endured for more than a quarter of a century, is again seeking, under circumstances of special and wanton insult, a further lease of power. It is expected and believed that the great concourse of independent citizens and their deputies at Reading, on September 16 and 17, will present the unmistakable answer of the beily of the neople to this remarkable assumption on the part of the common enemy.

While electious are free, the people retain the power of defense and redress in their own hands. But are they free here? Is he a freeman who approaches the polls in fear of another at the supreme moment in the year when his will is to be made potential by his vote? Is he a freeman, who, when he comes to deposit his ballot, must pause to consider whether or not an honest vote will cost him bread and home, and, casting his family into the road, make him, instead of a respectable laborer, a wanderer in search of work?

A SECRET BALLOT FAVORED.

A SECRET BALLOT FAVORED. Many thousands of Pennsylvania electors rote under this dreadful apprehension at every recurring election, and it is upon this power that monopoly and bossism principally rely in their struggles to maintain themselves, with their special privileges, against the true interests of the people. Shall this continue? From every quarter of the State we bear the stern demand of labor, organized and unorganized the multitudinous victims of this shameful coercion—that it shall not continue. They ask to be enfranchised, that the right to a free vote shall be restored, with ample safeguards, so that every man in Pennsylvania shall be as independent as every other in the exercise of the sacred right of suffrage. To be free, the ballot must be secret, and to that end the odious marked ballot provision of our existing Constitution must be removed. While it remains, while we have permanently incorporated in our system of voting a plan expressly designed for the identification of ballots—the very principle of exposure as against the principle of secrety—there can be no such thing as elections, pure or free, in the State of Pennsylvania.

This is necessarily the great issue of the day. The bosses, realizing its tremendous force and the irresistible appeal which it makes to the better instincts of our race, confess the absolute necessity of the remedy, and, in the same breath, ask us to forego it and to submit neckly to the wrong for a further period of at least five years, when they vagely engage that the Republican machine and the Legislature may possibly grant some relief.

A CALL FOR REFORM. ests of the people. Shall this continue? From

A CALL FOR REFORM. But the wrong being acknowledged, the remedy obvious, the cause nothing less than the restoration of the whole people to their right of self-government, with free choice of public servants, shall we abide the grace of the boss and the pleasure of monopoly, or will we take and enjoy our rights at once? The read is open and strately. and straight. No one can mistake it, and no one does mistake it. The election of the reform candidates for State offices and of a ma-jority of the reform candidates for the Legisla-ture will produce a call for an immediate con-stitutional convention to eliminate the marked ballot provision from our Constitution, and to establish the Australian system of more two

with this free and secret ballot we need have no fear of the future. Whether Pennsylvania thereafter shall be Democratic or Republican, or neither, it will, at least, be a free State, and the Democratic societies, inspired by the faith of their forefathers, may look forward with confidence to the completion of their self-imposed mission, when there shall be no longer either a political or an industrial slave within the broad limits of our Commonwealth.

CHAUNCEY F. BLACK, President.

IRON IN DEMAND. MANY TONS OF STRUCTURAL MATERIAL

NEEDED IN CHICAGO Large Buildings Under Way and the Capacity of Mills Taxed to the Utmost-Plans for Mammoth New Plants-Important Patent Process.

ISPECIAL TRIEGRAM TO THE DISPATCE. CHICAGO, August 19.—The great in-crease in the demand for structural iron in Chicago has given rise to many rumors of projects for the manufacture of that article in this city. There is certainly an immense and growing demand for it, and for a long time past the capacity of the mills, which supply it, has been taxed to the utmost. In many instances shipments have not been made in time and serious inconvenience and loss have resulted. From present appearances the demand during the coming year will be greater than ever before. An unusually large number of big steel and terracotta buildings have been projected in this city and the amount of structural steel which they will require is very great. The city and the amount of structural steel which they will require is very great. The projected cold storage warehouses on West Randolph street and the Chicago river will take 6,000 tons. The new \$3,000,000 building for E. J. Lehman's department store, "The Fair," will require even more. The Masonic building, in its 18 stories, will use an enormous amount; so will the ten-story Women's Temple office building, on LaSalle street, and numerous other structures will swell the total to enormous figures. Beside this, the new steel shipyard in South Chicago will create a demand for large quantities, especially if the experiment recently tried by Alexander McDougall, of Duluth, of building freight towing barges of steel, proves a suc-

freight towing barges of steel, proves a success. It has been reported for a long time that the Illinois Steel Company was about to engage in the manufacture of structural steel on an immense scale, so as to surpass the great establishment of Carnegie, but up to this time it has not done so.

The other day a Chicago paper stated that a company had been organized in Chicago with a capital stock of \$5,000,000 to manufacture structural iron in South Chicago in conjunction with the Illinois Steel Company and the Chicago Ship Building Company, using a new patented process by which the flanges on the structural iron are "side rolled," but Mr. York, of Chicago, one of the agents of the Linden Steel Company, Lim., of Pittsburg, and one of the Connellsville Coke Company, asid to-day that this announcement was premature. He said that he was the owner of this patent, both in England and this country. That the object of the process is to make structural iron with a single passage through the rolls, instead of from six to twenty, which are necessary in the methods of manufacture now in use at Pittsburg and elsewhere. His process has never yet been tried in any mill on a large scale, but experiments have been made which demonstrated that by it structural steel could be made with about 6 per cent of the rolling now required, and at a consequent great reduction in price. It has not yet been determined to try it in Chicago, he said, though he was inclined to favor this city. Here he would have the advantage of cheap ores from Lake Superior district delivered cheaply by lake without reshipment; but, on the other hand, he would be obliged to pay for the transportation of coke from Peupsylvania. As far as economy in manuto engage in the manufacture of structural steel on an immense scale, so as to surpass

Pennsylvania. As far as economy in manu-facture was concerned, it was about a "stand-off" between Pittsburg and Chicago, and Chicago was nearer the Western mar-ket. Natural gas did not figure much in the matter, because he had found that natural gas in Pittsburg cost nearly as much as coal, and then the item of fuel in steel manufact-

are was comparatively small. DAMON AND HIS FRIENDS. SESSION OF THE GRAND LODGE OF

KNIGHTS OF PYTHIAS. lities Hustling for the Privilege of the Next Convention-Encouraging Progress of the Order in Pennsylvania-Annual

Election of Grand Officers. READING, August 19 .- The Grand Lodge Knights of Pythias of Pennsylvania met in annual session here to-day to continue until Friday, Grand Chancellor Samuel P. Hilliard, of Philadelphia, presiding. The morning session was devoted to hearing re-ports of officers and committees, including the Credential, Law and Supervision, Appeals and Grievances and Election Returns. There is considerable electionsering among the delegates for the selection of the place

for holding the next convention. Allentown, Scranton, Harrisburg, Philadelphin, Pittaburg and several other places were in In his annual address Grand Chancellor Hilliard reviewed his official actions during the year, congratulated the membership the year, congratulated the membership upon the success of the order the past year, encouraged the organization of uniformed ranks, and predicted a very prosperous year next term. The grand lodge degree was conferred on 73 past chancellors. There are 425 representatives in attendance.

The Committee on Election Returns reported the following as having been elected Grand Lodge officers for the enuiting year.

The Committee on Election Returns reported the following as having been elected Grand Lodge officers for the ensuing year: Grand Chancellor, L. T. Bishop, of Warren; Grand Vice Chancellor, George Buckman, Philadelphia; Grand Master of Records and Seals, George Hawkes, Philadelphia; Grand Keeper of Exchequer, Julius Mountery, Philadelphia; Grand Trustee, William B. Hart, Philadelphia; Grand Trustee, William B. Hart, Philadelphia; Grand Outer Guard, William H. Rudolph, South Bethlehem.

The statistics of the order submitted to the Grand Lodge are as follows: Number of lodges at last report, 416; number instituted during year, 14; total, 430. Lodges dissolved, 3; merged, 3; loss, 6; present number, 424. Number of members Jane 30, 1889, 40,291. Initiations during year, 5,103; admitted by card, 440: reinstated, 360; total gain, 5,903; aggregate, 46,194; suspended during the year, 2,636; withdrawn, 314; died, 511; loss, 3,481. Present membership 42,713. Number of rejections during the year, 239; net increase of membership during the year 2,422. Amount of funds on hand and invested, \$,61,519 84; amount of widows' and orthand fund \$4549,24; smount and for the

A FIREMAN IN TROUBLE As Arrest That Involves a Very Nice Point

of Law. A case in which a fine point of law is involved, turned up at Central station yesterday. Mrs. William McGarvey, wife of an employe of the Fire Bureau, made an information before Alderman McMaster, charging John Keys, a railroader, with as-sult and battery. It is alleged by Mrs. McGarvey that Keys struck her with his fist and broke her nose, at her home No. 11

fist and broke her nose, at her home No. 11 Ross street.

The warrant for the arrest of Mr. Keys was made out, and the husband of Mrs. McGarvey undertook to serve it. He found Keys at the market house, and attempted to arrest him. Keys refused to recognize McGarvey as an officer, and illustrated his contempt by striking the fireman. Both men got into a fight, and Officer Teeters arrested them. The question is, can a fireman serve a warrant? When being sworn in, each member of the fire department takes the oath as a fireman and patrolman. This gives him a right to make arrests; but, it is claimed, only on view.

The Bellevue Legion, Select Knights of America, started vesterday over the Lake Eric Railroad for Austrian Lake, Michigan, The members intend to camp out there for

SURE OF A SUCCESS.

The Exposition Rapidly Assuming Shape, and Will Open on Time.

Some of the New Peatures That Will Command Most Attention.

AN EXTENSIVE REARRANGEMENT.

THE AROMA OF POPCORN TO BE LESSENED Although on account of the hurly-burly attending the greatest prosperity Pittaburg has ever experienced, the coming Exposition of this year has attracted but little attention from the public at large. An exhibit is being quietly arranged that will make people unbutton their eyes with wonder, and two weeks from to-night Innes' famous Thirteenth Regiment Band will take possession of the new band stand, and the public will be admitted to the inauguration of the exhibit that arose from the ashes

of the old enterprise on Smoky Island. There will be a complete transformation, and everything will be on a grander scale than last year. Exhibitors are enthusiastic and their display will be magnificent. One hundred carpenters and decorators were hard at work yesterday. There has been considerable rearrange-ment. The band, instead of occupying the space above the door, will be directly across the hall, where a new gallery has been

The eye-sore, the foul stable in the park at the lower end of the grounds, has disappeared and in its place is a park laid out with handsome flower beds and elegant walks. Seattered about will be benches where the weary sightseers may rest with the cool breeze of the three rivers to bathe their heated brows. The view from this park is a beautiful one, the meeting of the the waters forming one of the picturesque

views of Pittsburg. OTHER ORNAMENTATIONS.

An illuminated fountain will be erected in the park so as to make the place attractive at night as well as day. At one end will be an exhibit of an oil well in full operation. It will be a well not alone for exhibit, but the oil well company expects to

tap a vein of grease.

The eastern end of the main building last year taken up by a poor display of plants will be changed. The demand for space will be changed. The demand for space has led to the doing away with the plant display, and there is now erected by Hugus & Hacke a large booth brought from the Paris Exposition. There will be no display of exotic plants, but in the center of the main building a handsome display of cut flowers. Near the lower part of the building Manager Johnston is nursing a mystery. He promises that it shall be the finest show in the building.

WILL BE MOST COMPLETE. The art department will be the most complete ever shown here. Albert Bierstadt will have one complete room, thile another room will be devoted to the collection of foreign artists' work in water and oil.

The number of popoorn stands has been materially reduced.

Mechanical Hall will also be a more at-

Mechanical Hall will also be a more attractive place than last year. Among the new and attractive exhibits will be the electric display by the Westinghouse and Thomson-Houston companies, said to be the finest electric display ever made in this country. It will occupy 300 feet of space, and will have a 4,000-horse power dynamo.

The exhibit of the Exposition Glass Exhibition Company.

A complete glass works has been constructed, and an eight-pot furnace will be in operation, showing how glassware is made.

operation, showing how glassware is made, from table ware to lamp chimneys. Manager Johnston says the Exposition will

Bleeding Piles. Mr. A. Danner:

DEAR SIB—I was afflicted for 15 years with bleeding piles, which constantly caused me great pain and suffering. I used a great many remedies unsuccessfully, and gradually grew weaker and more debilitated. Finally your "Essence of Health" was recommended to me. Since using it I have steadily improved, my general health has been restored, I have been entirely relieved of all pains and suffering, being completely cured of the piles by the use of Danner's genuine "Essence of Health," and heartily advise all who wish to secure health to use your wonderful remedy, and receive the benefit that can be so certainly obtained.

HOW TO HOLD A HUSBAND

A Hint to Ladies About the Managemen

of Mes, From a Suggestion Made by the Chief Steward of a Club. Chief Steward of a Cisb.

Many a wife has been unable to retain her husband at home because her meals have not been such as he enjoyed. As a result, he would perhaps go to some cafe or his club to dine where he was reasonably sure of securing palatable food. If the task has been so difficult for the wife, how much more difficult must it be for the steward of the club or cafe, who caters to so many different tastes and tastes that are to so many different tastes, and tastes that are so critical. Perhaps the institution most noted for its fine cooking in America, is the Union Club of New York. All manner of the most Club of New York. All manner of the most delicate dishes are, there arranged and prepared. It may therefore be of interest to ladies, as well as to proprietors of hotels in general, to know that the chief steward of the Union Club uses and recommends 'Thepure' Baking Powder in the preparation of the various dishes where baking powder is required. That it produces the finest results with the most delicate of food, shows conclusively its superior qualities, not only for purity, but for power and excellence. It is a now powder and is being used by the best and most prominent people in the land. It has become remarkably popular entirely on its merita, for the lightest and whitest broad and cake are made where it is used, and it has many features unknown to any of the older powders. Its purity is beyond question, and the results it is securing are often quite remarkable. Remember that the name it bears, "Thepure" implies that it is a superior article. You can make a trial for a trifling cost and secure valuable satisfaction. The best grocers sell it.

THE PITTSBURG DISPATCH, WEDNESDAY, AUGUST 20,

FIRST IN THE FIELD! RUBEN'S

The Salvator.

Prices, \$1 90, \$2 20, \$2 40, \$2 90,

An observant old sport remarked to us yesterday that summer hats in general, and straw hats in particular, are beginning to look quite passe. We think it, therefore, none too early to trot out our new autumn derby, especially as the inquiry for something novel in the way of a hat was quite lively the last few days. We have named our latest after the turf king of 1890, "Salvator," fully believing that it will "outrun" any other derby which may be pitted against it. As will be noted, this new style has a full crown and massive curl, in keeping with the heavier clothing and overcoats worn during the fall and winter.

By all means inspect our latest derby.

From torturing and disfiguring skin diseases, when a single application of the CUTICURA REMEDIES will, in the great majority of cases, afford instant relief in the most agonishe of ivoling, burning, scaly, crusted, pimply, and blotchy skin, scalp and blood diseases with loss of hair, and point to a speedy, permanent, and economical cure, when the best physicians and all other remedies fall?

# Good as Money

We have about fifty Custom-made Suits on hand (uncalled for) which we propose to sell at just one-half price in the next ten days. If you care to double your dollars look at these suits which are moved upon a bargain table to-day. We are still headquarters for Fine Ready-

complete stock of goods of our own make at the lowest drices possible. Our own make! That's our
