THE TENNIS PLAYERS.

Mr. Lee Likely to Win the Big Prine at

Altroona, Pa., August 29.—The second day of the tennis tournament of the Altoona Tennis Club was graced by a large and fashionable audience. The day was bright and full of sunshine. The heavy rain of the previous day did not interfere with the grounds, and all of the players entered with a full determination to win. The western players in to-day's matches played good tennis, but the probable winner of first prize in gentlemen's singles will be Mr. Lee, of Philadelphia. To-morrow he will meet Fay, of Altoona, or Brookes, of Sewickley, and neither one of the two men will be an easy victim.

STRIKING AT THE VANDERBILTS.

The labor leaders to-night gave the impression that the first blow would be at every road in the Vanderbilt system. A strike under the auspices of the United

orders of railway employes would be far more serious and would involve a vastly

greater number of men than any which the Knights of Labor could order. The membership of the united orders, it is said, includes a

large majority of the railway employes of the North and East, except the engineers. The Grand Jury summond both District Attorney Fellows and Recorder Smyth in

The nature of the business before them could not be positively learned, because both refused to talk after they came out of the jury room. adopted:

The Prohibition party of Pennsylvania, by its representatives in convention assembled, acknowledges Almign ty God as the source of all power and authority in human government, and, invoking His divine help in its efforts for the abolition of the drink traffic, declares

First—That the traffic in intoxicating liquors is the prolific source of crime and lawlessness, the chief agency in the corruption of the hallot, legislation and administration of law, the desecration of the Sabbath and the ally of all combinations and associations that foster and encourage idleness, immorality, vice and crime, and as such is antagonistic to the virtue and sobriety of the people, the purity of the homes and the perpetuity of our Government. Its toleration is a continued menace to American institutions and should be prohibited by laws faithfully enforced. my personal course is perfectly clear to me. At the same time I do not wish to in any degree discourage my fellow Prohibitionists or to demoralize the party. I do not propose to ask or try to influence a single one of them to desert the Prohibition party in support of Mr. Pattison. They can gain nothing for prohibition by doing so. Mr. Pattison is not and does not profess to be a Prohibitionist. I am not supporting Mr. Pattison on any such ground. I am still a Prohibitionist, and will any time support a Prohibitionist, and will any time support a Prohibition party as soon as Christian men will allow it to become a practical issue. In the meantime I am certain I can do more effective and valuable political work than simply standing up and being counted.

A BLOW TO OUAY. Second—We are unalterably opposed to any law, by whatsoever name called, that in any way legalizes, authorizes or tolerates the traffic in intoxicating liquors as a bever-age, and maintain that the policy of the Gov-

age, and maintain that the policy of the Government should be that of the prohibition of its manufacture, importation and sale by national and State statutory and constitutional enactments, faithfully enforced, to which policy the Prohibition party is uncompromisingly committed.

Third—The Sabbath must be preserved by the due enforcement of existing laws and the speedy enactment of such additional legislation as may be necessary to insure its due observation. tion as may be necessary to insure its due observation.

Fourth—That we indorse the platform of the
National Prohibition party adopted at Indianapolis, May 30, 1888.

Fifth—That a pure ballot and a fair count
are necessary to insure the perpetuity of our
system of Government, and men who sell their
votes or men who, directly or indirectly, buy
votes, should be forever disfranchised. We
favor the "Australian system" of voting as a
means to insure a fair expression of the will of
the people at the ballot box.

EQUAL POLITICAL RIGHTS. Sixth-That all citizens, without distinction of sex, race or nationality, should have the power of the ballot (such educational basis as

the Legislature may deem wise) for their pro-tection and the advancement of the best in-Seventh—That owing to the increased immigration from countries of people who do not under-stand the principles of our government, and their tendency to substitute European ideas and customs for the well-grounded prin-

customs for the well-grounded principles on which our government is founded, the naturalization laws should be so amended as to increase the number of years' residence required before foreigners should be invested with its elective franching. foreigners should be invested with its elective franchise.

Eighth—That our immigration laws, preventing the importation of citizens of foreign countries, under any system of couract, and prohibiting the landing of paupers or criminals under any pretense, should be enforced.

Ninth—That combinations or trusts which seek to advance the price of commodities of life or in any way to interfere with the unrestricted manufacturing interests of our country by forced 'close downs," "lockups," etc., should be prohibited.

Tenth—While we reiterate our allegiance to the policy of protection to American industries

Tenth—While we reiterate our allegiance to the policy of protection to American industries and labor, we favor the principle of reciprocity, as a means of rescuing the agricultural inter-ests from its present depressed condition. Eleventh—We favor equal taxation on all classes of property producing revenue to the owner.

LABORERS TO BE BENEFITED.

Twelfth-That labor is entitled to full and fair compensation and protection. That the liquor traffic is the greatest enemy the wage earners have to contend with, breeding strife and discord between the employed and em-

and discord between the employed and employer; consuming the hard earned money of the toiler without returning an equivalent: destroying their homes, and in many cases producing riot and bloodshed in the settling of disputes that otherwise would be settled by arbitration, which is the true method for adjusting differences between employer and employed. Its prohibition will insure better wages to the employed, larger profits to the employed, steady work money in the pocket, peace, happiness and contentment in the homes—the surest preventives of sirikes and lockouts.

Thirteenth—That the public schools of our State are its greatest pride, and the education of its youth the greatest safeguard, and all money collected for its maintenance should only be used for that purpose.

Fourteenth—We declare that the suppression of the liquor traffic is the dominant polical issue in nation and State, and we invite all those who on this one issue are with us agreed to vote with the Prohibition party for the complete destruction of the liquor traffic.

SCORING THE OLD PARTIES.

Prof. Dickie, Chairman of the National Prohibition Committee, addressed a large meeting to-night. Both the great parties were vigorously attacked. At a meeting of the new State Committee, Prof. Patton, of Lancaster, was elected Chairman, receiving 69 votes to 47 for Tallie Morgan, of Lacka-

MINOR POLICE NEWS. Young and Old Offenders Do Penance for Their Crimes.

B. F. RAFFERTY, of the East End, made an an information before Magistrate Hyndman yesterday, charging John B. Mowrey with by Rafferty that Mowrey attacked him on Penn avenue last Saturday evening and knocked him down. He then kicked him several times in the face. The fight arose about some money matters. Mowrey was arrested and committed to jail in default of \$500 ball for a hearing Saturday.

John Sackville, a physician, of Washington, Pa., wanted to cut off everybody's arms and legs at the Union station. The man was drunk, and partiy on this account the people he accosted did not care to have him amputate any of their limbs. Officer Peoples sent him to the Central station, where he had a chance to practice on the roaches. He had considerable money and medicines on his person when arrested.

There was some rough, crude and blacksmith-like work at Exposition Park, yesterday afternoon, in the game between the Cleveland and Pittsburg P. L. teams. The local sluggers were beaten in a contest that was remarkable for bad playing, and the 1.125 spectators were very, very weary

at the performance.

The story of the game can be told in a word. The story of the game can be told in a word. Manager Hanlon's aggregation could do nothing with the pitching of Mr. Gruber and Albert Maul was simply the easiest of targets for the Cleveland fellows. The latter trice hard by making errors to rive Pittsburg the victory, but the home players didn't want it. Neither the fielding or the batting of Pittsburg's representatives deserves favorable mention except to be in the case of Corcoran, who fielded well. The eight runs made by Mr. Hanlon's men were the result of bases on balls and errors. Gruber at one stage became extremely indignant at the unpires for calling so many "balls" on him.

than Maul, and long singles, doubles, three baggers and home runs were the order of the day. Maul was not in form and he received a merry drubbing. Of the dozen runs made by the visitors eight were the consequence of bad playing on the part of the home talent. Altogether the game was one of that class of which it is best to say as juite about as nossible. Fol.

BACK TO THE FOLD. Barnle Definitely Rejoins the American Association and Brooklyn Drops Out.

SPECIAL TELEGRAM TO THE DISPATCH. CINCINNATI, August 20.—Baltimore is again member of the American Association's circuit. The jump was made at the Burnet House this morning. It goes without saying that the association magnates received Mr. Barnie and his boys back to the old fold with open arms and several cracked bottles. The magnates present were Manager Barnie and Mr. W, H. Waltz, of the Baltimore, and Zach Phelps,

President of the American Association, and action to the shape of a telegram from Manager Ted Kennedy, of the Brooklyns, who said he would be able to finish the season, provided the clubs would consent to waire the guar-antee. To this proposition Manager Morton, of the Toledos, objected, and right then and there the Brooklyn association team became a detunct body. The new schedule will begin in Battimpre next Theselay, when the Brooklyn and

Baltimore next Tuesday, when the Browns and Orioles will meet. Louisville and Columbus will follow. Baltimore will then play an east ern series and then start westward. Baltimore assumes the Brooklyns percentage in the race. W. L. Pc.

THE UNITED STATES IN THE MANUFACT-URE OF PIG IRON. Phenomenal Increase in Production-This Country Destined to Lend the World-The Southern States Coming to the Front

With Giant Strides.

WASHINGTON, August 20 .- The Superintendent of Census has just issued his bulletin on the production of pig iron in the United States during the year ended June 30, 1890. In this bulletin the Superintendent says:

The production of pig iron including Ressa.

The production of pig iron including Ressa. tendent of Census has just issued his bulletin In this bulletin the Superintendent says:

The production of pig iron, including Bassamer, during the year named aggregated 9.579, 779 tons (of 2,000 pounds to the tons), as compared with 3,781,221 tons produced during the census year of 1880, and 2,052,821 tons during the census year of 1870. It will be gratifying to notice the great strides which the Southern States have made in the manufacture of pig iron since 1880, the total product in that year being 350,438 tons, as against 1,780,909 tons in 1890. The development of the manufacture of pig iron in the United States during the ten years from 1880 to 1890 has been phenomenal, and at the present rate of increase in production this country is destined soon to become the leading producer of pig iron in the world, possibly reaching this distinction in the calendar year 1890. In point of production Pennsylvania stands first, Ohio second, Alabama third, Illinois fourth, New York fifth, Virginia sixth and Tennessee seventh.

The Saperintendent calls particular attention to the rapid development of the blast furnace industry of the Southern States as one of the most noticeable features in the growth of the manufacture of pig iron in this country. In the six Western States which produced pig iron, there has been a large increase in production.
