Good Cattle Bring Better Prices Than Last Week, but Low Grades

SHOW NO SIGNS OF IMPROVEMENT.

A Few Prime Beeves From Ohio at the East Liberty Yards.

CHOICE SHEEP AND SWINE SCARCE

OFFICE OF THE PITTSBURG DISPATCH, WEDNESDAY, August 20, 1890.

On Monday there were 109 loads of cattle on the market at the East Liberty yards, the bulk of which were from the near Western States, principally from Obio and Indiana. There were a few from Kentucky and 20 loads from Chicago. Since the beginning of the week about six loads have been received, making a total for the week of 115, against 90 loads last week. The quality of this week's offerings varied very little from that of recent average. There was one carload of primes from Ohio, the first for some weeks past, weighing 1,550 pounds, which sold readily at 4%c, and in a retail way no doubt brought 5c per pound. A half dozen loads of good, but not strictly prime, cattle from Indiana were on the market. Supply of light, tidy butchers' berves, such as our markets call for, were scarce, as usual. Market opened Monday morning strong-10 to 15c higher than the previous week on all good grades. Common and low grades opened a shade stronger than last week, but soon loost their strength and dropped back into the old groove. There were 16 to 15 loads shipped on in first hands of the coarse beavy or inferior grades. This morning there were about three loads left in the pens unsold. The cost of beeves offered this week ranged from 25c to 40c per owt higher in Chacage, and as the advance here was far below this, it is presumable that margins to drovers must have been very narrow, if indeed there were any left. vious week on all good grades. Common and

Sheep, Lambs and Swine.

The run of sheep for the week has been light and quality generally poor. There was very little fancy stock on the market. Total receipts for the week were about 20 loads. Markets were strong at last week's prices, and choice lambs, of which there were not very choice lambs, of which there were not very many offered, brought better prices than a week ago. Good stock is evidently being with-heid from markets. There were in this week's run a few loads of open wool sheep from Mis-souri, which were sold at \$4 80. Frice of sheep ranged from 3% to 3%c, the latter being ob-tained only for a few very choice. Lambs ranged in price from 4c to 6c per %. One extra bunch only brought the latter figure. There were shout four loads of hogs on sale this morning, the bulk of which were grassers. The few corn-fed on the market were steady at a range of \$1 15 to \$1 25. Grassers ranged in price from \$5 to \$1 5 and were very slow. There is little demand for the latter grade.

price from \$3 to \$3 75 and were very slow. There is little demand for the latter grade. Low price on these is the only inducement to the buyer. The range on grassers is very wide, being affected by condition, quality, and weight. Advices from Chicago to our packers this morning show an advance of 5c on hogs there, the top price being \$1 10.

Oil was weak all along the line yesterday, due o the fact that there more sellers than buyers. Buckeye opened with a show of strength, but went off on selling orders from New York. The decline was by easy stages, the principal slump occurring in the last few minutes of the ses-

ments spring up and scorray takes will remove lethargy. Weil-directed energy will remove mountains of difficulty. While Pittsburg capitalists have shown com-mendable enterprise in opening up new terri-tory and large bodies of land to home-seekers, they have not succeeded in covering the field. There is a great deal of acreage that should be brought into the market. There is no danger of overdeing the business. Demand will grow The weakness was by some attributed to a natural reaction from the rapid gait of the two of overdoing the business. Demand will grow national reaction from the hand gate of the two preceding days, but others professed to see the hand of the Standard in the downturn. A broker remarked; "Today's flures are about right in view of what the Standard is said to be paying. Outsiders do not relish giving a fancy price for the privilege of dealing in the com-modity." as the supply is enlarged. THE BEARS CHECKED.

The Treasury Offer Creates Some Consterna tion-Walting to Ascertain the Effect of It-The Market Closes

Bull and Heavy.

NEW YORK, August 20.-The circular of the Treasury Department issued late last evening, in regard to the purchase of the 41/2 per cents, was a check for the time being upon the opera-tions of the bears and carried, for the time being, considerable anxiety into their ranks. Driftwood. some financial authorities that any large amount of bonds could be secured owing to the fact that they are held so largely by institutions for special purposes, the immediate effect upon the stock market was one of stimulation in the matter of prices. A large number of the weaker bears hastened to cover, and at the opening this morning the demand from the shorts wa argent enough to open the active stocks fro 16 to 36 per cent higher than they closed last eyening. The movement was soon exhausted, however, and further advances were slight. The disposition to trade was never at a lower ebb, all preferring to await the outcome of the offer of the Secretary. The offerings as an-nounced at noon were, to say the least, rather disappointing to the bulls, but the threat that if this means should fail to get the money out If this means should fail to get the money out of the Treasury other means would be taken acted still as a restricting influence upon opera-tions on the short side, and the dulluess for the remainder of the day was most intense. The offerings of to-morrow are now awalted with anxiety, and if larger than to-day's may bring some improvement in prices, but if not a resumption of the late hammering may be ex-pected. There was less heard about the strikes to-day, and the crop news received was, if any-thing, more favorable, which should have en-couraged the bulls, but the high rates for money were still maintained, and 25 per cent thing, more favorable, which should have en-couraged the bulk, but the high rates for money were still maintained, and 25 per cent loans are not inviting to the would-be specu-lator. In the afternoon the bears showed some encouragement in consequence of the small offerings of bonds under the circular, and more animation in the market was accom-panied by some recession in in prices. The movements were generally slight, only Oregon Transcontinental receipts dropped 1½ per cent, while Lackawanna and Sugar Refineries lost fractional amounts. The market finally closed dull and heavy generally at slight concessions from the opening prices, Wall street, both yesterday and to-day, has had a severe test, and it fas been shown that there is still a very strong undertone and a scant supply of stocks. The final changes are generally slight ad-vances, but Canada Pacific rose 1½, and there are a few fractional losses. The final without features of importance and no pronounced tone, although the changes to day were generally in the direction of lower fights among those of importance. The sales were only \$466,000, with no special animation anywhere in the list. Long Islaad fives lost 2½ at 12, while the only advance of note was Ten-nessee Coda, Birmingham Division, sizes 5 to 88. Government bonds have been dull and featureless. The Fost says: The Secretary offers to bury interest up to May 31, 1881. It is, in fact, an of-for of only \$1,03%, or ½ cadvance over \$1,02% paid for the bonds last week. A large part of these bonds are no doubt held by fiduciary in-stitutions as a perfectly guaranteed security rather than an interest paying investment, and it will require every inducement the Secretary on offer to bring this cantial out of the state of imbors to the money market again, and there-fore he should not try to make two hites of a cherry. FIRST SECOND CALL. CALL. B A B A 430 460 82 fore he should not try to make two bites of a oherry. While money on call touched 30 per cent per annum to-day in the New York stock market, it was 3% to 3% for banker's balances in Bon-don, and yet this enormous difference caused no change in the rates of sterling exchange. There is no doubt that the stringency here has been aggravated by the banks and trust com-panies. They have a double purpose to serve. First, they get high rates for their money from day to day, and next they expect to make the Secretary of the Treasury buy their bonds at the highest price in order to relieve the money market; though for that matter he seems to have no alternate except to bid the highest prices. 60 56 59% 16% 81 81% 81

Considerable Activity Displayed About the Wharf All Day Yesterday.

In the Senate Saturday the amendment to the river and harbor bill, providing for an ap-propriation of \$45,000 for improving the Monon-gahela above Morgantown, was agreed to. The amendment to increase the appropriation to complete the Little Kanawha dam was also reported. This will be a great benefit to naviga tion on that stream. At a recent meeting of the local operators and river pilots, held at the office of Captain John A. Wood, the places

needing earliest attention were designated and a copy of the recommendations was forwarded to Colonel Merrill, of the snagboat Woodruff.

A copy of the recommendations was forwarded to Colonel Merrill, of the snagboat Woodruff. Colonel Merrill proposes pushing the work to completion as soon as the appropriation is re-ceived. The first work will be likely com-menced on the Marietta dike, about the most dangerous place between here and Cincinnat. Harbor boats were active yesterday towing coal from the upper pool. The Brownsville wharfboat was the scene of considerable activ-ity during the day. Reports from up-river points on both rivers show rainy weather and rising rivers. The Monougahela has not yet felt the benefit, as it barely touched the six-foot mark last night. The Ohio has fared somewhat better. In 24 hours it rose from 26 to 3 feet, and was still on the rise at 6 P. M. Business was pretty fair on slackwater. Ar-rived-Adam Jacobs, Germania and Elizabeth. The Seven Sons, I. N. Bunton, John O. Lumber.

In hard wood lines quartered oak and cherry

are the popular woods. The latter is very scarce. Pine lumber is very firm at quotations

and prospects are for higher prices. There has been a small advance in price of shingles the past week. Manufacturers have advanced prices loc per thousand. The lumber market continues active and the outlook for a heavy fail trade was never better.

New York Drygoods Markets.

NEW YORK, August 20 .- The principal feature of the drygoods market was the activity of the trade in jobbing circles. Buyers are more numerous than usual, and an aggregate of conservative trading foots up a large daily total. The more active clothing woolen season is drawing to a close with results averaging a fair business, but with little profit to mill owners.

The damage was repaired at Brownsville.

THE Levee Commissioners are advertising for bids for the repair of the Pontchartrain and Atch-afalaya levee district, at New Orleans: \$55,000 will have to be given as bond by any contractor who undertakes the work, and \$157,000 will bere-quired as a deposit.

LATE NEWS IN BRIEF.

-There have been many fatal cases of sun troke in Central America.

-Peace has been arranged between San Sal-vador and Guatemala, through the mediation of the United States. -The Count of Paris will probably abandon his trip to the United States on account of the feeling against the McKinley bill.

-A death from cholera has occurred on a British vessel at Malaga. The disease has also appeared at Tortosa and Tarragona.

An immensely rich silver vein has been found in the old Tattee workings near the shore of Lake Mosanda, north of Duluth.
 Corporal Nicholas, of the Royal Eugineers, was drowned in 100 feet of water of Halifax. He went down in a diving suit, but his line was fouled.

-The potato blight is spreading with alarm-ing rapidity in the south of County Down,

-Branches of the Michael Davitt's new labor union are organizing in Limerick and other places in Ireland with great rapidity.

-The Democratic convention of the Seventh Kansas district indorsed Jerry Simpson, the People's party nominee, for Congress.
