A CHARGE OF TREACHERY

Made Against Republican Senators Who Dicker With Democrats.

QUAY FAST LOSING HIS SUPPORT.

Arrests for Bribery Made in the .Twenty-Fifth District.

CHAUNCEY F. BLACK SURE OF SUCCESS

Mr. C. L. Magee has been interviewed in New York by THE DISPATCH. He warmly advocates the passage of the Federal election bill, and charges the Republican Senators who oppose it with treachery. He says it is a party pledge and must be redeemed. One arrest for bribery has already been made in the Twenty-fifth Congressional district, and more are expected to follow. The Investigating Committee recommends the holding of new primaries,

PETECIAL TELEGRAM TO THE DISPATCH.1 NEW YORK, August 21 .- Christopher L Magee was at the Fifth Avenue Hotel this atternoon, having come up from Cape May, where his family is summering. He was comfortably seated on one of the lounges in the hotel corridor, enjoying a midday cigar while reading Senator Hoar's speech on the Federal elections bill when asked his

opinion of the measure and its prospects. "Senator Hoar's speech is such an able and thorough presentation of the Republican side of that question," said Mr. Magee, "that I cannot add to it, except to say 'them's my sentiments.' My observation is that the Republicans of the country are very much in earnest in their desire to have fair and honest elections, and I cannot see how any loyal Republican Senator can knowingly be a party to any bargain which

practically defeats that object. PART OF THE PLATFORM. "It is a violation of a pledge that has been renewed at every Republican National Convention for years until finally, realizing its supreme importance, it was given the first place in the Chicago platform of 1888, taking precedence of the tariff, pensions and everything else. If, therefore, the party is not irrevocably and unreservedly committed to a Federal election bill, then it is not committed to anything, and the pledges of the platform on which this Congress and this administration were elected were written in sand. I venture to say that there is not a

Congressional district in the country in which the Republicans have not repeatedly pledged themselves to place such safeguards around the ballot box as will insure honest elections, and in no State in the Union has the party omitted to make its position known to all. A DISHONORABLE SURRENDER.

"To fail to enact this legislation now is to repudiate the party platform and break faith with the people. It would be a complete and dishonorable surrender to the enemy, for if the Republican Senators can pass the tariff bill they can also pass the elections bill. The same votes will accomplish both ends."

"But it is claimed that the elections bill must be dropped to get the tariff bill through," was suggested.

"I don't see how that can be with 47 Re publican votes in the Senate," replied Mr. Magee. "That's a majority, and if the majority can settle upon the passage of one measure it certainly can for another. Moreover, I do not accept the excuse as offered by some Senators that party sentiment has undergone a change on this subject. Only vesterday a Congressional convention at Huutingdon, Pa., indorsed the Federal election bill and strongly denounced the efforts to kill it. Where has a single party convention uttered a syllable against the measure, or the necessity for passing it at

DICKERING WITH DEMOCRATS. "If we are not to accept the voice of the representative gatherings of the party as the true indication of its wishes, where are we to look for a guide? Certainly not to the Demogratic side of the Senate chamber. Yet that is precisely what these dozen or more Republican Senators now bargaining with their Democratic colleagues are doing. If they propose to make themselves an adjunct to the Democratic minority-a sort of balance of power for purpose of bargain and trade, they should give up the place the party has given them as Republicans and seek re election on their revised platform. No man is bigger than his party, nor has he the right to put the party in the attitude of breaking its most solemn pledge. It is political cowardice-I won't say treacheryfor these timid Republican Senators to make themselves the tail of the Democrat kite."

"Do you believe the House will agree to a programme that omits the elections bill?"

Mr. Magee was asked. QUAY LOSING HIS SUPPORT. "Most assuredly not," was the reply. "The few days I spent in Washington convinced me that the Quay programme endangered the tariff bill as much as any other, for if one fails in the Senate the other will in the House. But I believe the Sena tors will realize their mistake, and include the elections bill when it comes to a vote Already there are signs that Quay's resolution is losing support. My information is that he lacked but one of a majority in the caucus, yet he admits having only 12 or 14 votes behind him now. If this ratio of decrease continues he will be left alone to bargain with the Democrats before the debate on his resolution is closed. There will be a quick closing of party lines, the measure will be passed on the beels of the tariff bill and the Republicans will be able to go before the country with their record of hay ing redeemed the four great pledges in their national platform-honest elections, a protective tariff, the soldiers eared for and a silver bill passed. The people will not fail to indorse such a splendid record in No-vember. 4 H. L. STODDARD.

A NEW DEAL ORDERED. RIMARIES FOR A NEW 25TH DISTRICT

The Result of the Deliberations of the Butler and Beaver Committeemen-A Recommendation to Begin the Work Afresh.

:SPECIAL TELEGRAM TO THE DISPATOR,)

BEAVER, August 21 .- In accordan with the conclusions reached at last night's protracted session of the bribery investigat-ing conference at New Brighton, the Beaver and Butler county members met this morning, but in the law library at the Court House, instead of the office of A. P. Mar-shall. As the members let the Sourbeck House this morning ex-Congressman Miller called after them in a jocular tone: "Now don't you fellows go over there and do any-

thing rash." The committee met at 11 o'clock and held secret session until 1 P. M. A newspaper man, who ventured within, was politely but firmly requested to withdraw, but was promised all of the news that could be given out further along. The meeting was en-tirely harmonious, and evolved the follow-

Recommendation of the Beaver and Butler Republican County Committees in relation to the Congressional nomination in the Twenty-fifth district.

the Congressional nomination in the Twentyfifth district.

WHEREAS, The committees appointed by
the County Committees of Lawrence, Beaver,
Butler and Mercer for the purpose of investigating the charges of bribery and fraud pertaining to the nomination of a candidate for
Congress at the late Congressional Delegate
Convention held at New Castle, having met at
Butler and by adjournment at New Brighton.

Whoreas, As the result of the two said meetings, it has been clearly demonstrated that any
further meetings of said committees would not
result in furthering or accomplishing the purpose for which they were severally appointed.

Therefore, it is resolved by the committees of
Butler and Beaver countries, in pursuance to the
purpose of their appointment, to wit to take
the necessary steps to secure the nomination of
a Republican candidate for Congress in the
Twenty-fifth district, that we recommend that
the Chairmen of the committees of the Twentyfifth district

CALL THEIR COUNTY COMMITTEES meet August 30, 1890, for the purpose of fixing a date in their respective committees for the holding of primary elections for the election of one delegate in each of the districts in each

of one delegate in each of the districts in each county, according to the rules governing the primary elections, and the result of the several elections shall be reported to the Chairmen of the respective county committees within two days after said elections.

Resolved, That the district conference shall be held in Harmony, Butler county on the 23d day of September, 1890, and the delegates elected in these several districts, shall be elected without instructions for any candidate, and their respective county committees at their meetings are requested to fix the date of the primaries so that these delegates may conveniently reach the district conference after their election on the date fixed for the meeting of the district conference.

Resolved, that if the chairman of any of the

county committees neglects, or refuses to act upon this recommendation, the Republican voters of the several representative districts in such counties where the neglect or refusal oc-curs, are invited to meet at the usual place of holding their primaries, and elect delegates to their district convention, reporting their cre-dentials to the district convention when as-sembled. The committee then adjourned to meet at

the call of their Chairman, Mr. Thomas

NO SURPRISE MANIFESTED. The outcome of the conference and the action of the committees to-day was not un-expected, and the impression prevails that it may increase Democratic effort, but not their chances of victory. County Committee Chairman Marshall was non-committal as to the result and had no opinion to ex-press as to who the second candidate would be. Colonel J. M. Sullivan, of Butler county, who has been prominent in the at-tempt to reach a method of investigation, was seen at the residence of ex-Chief Justice Agnew, with whom he is stopping. He was asked as to whether a nomination could or Beaver counties will hold new primaries as nended. He said:

"Our position is that there is no nomination in the district to-day for the reason that the alleged nomination was effected by bribery, and is therefore invalid. A nomi-nation will be made, but I am not prepared to say whether a Republican can be elected under present circumstances or not. It will depend largely upon the strength of the candidate. If this conference called to-day shall put in the field a candidate of unexceptionally high character and recognized ability, coupled with a fair and honest nomination, he will draw very largely upon the present supposed support of Mr. Mc-

He added that he would not venture upon an opinion as to who is the most available man, but thought that the sole attempt would be to choose the strongest man, as the delegates to be appointed will be unpledged and thus free to make such choice as will ucceed before the people.

WALLACE ARRESTED

CHARGED WITH CONSPIRACY TO BRIBE DELEGATES.

Similar Complaint Lodged Against Edward Schnffer by Dr. McKinney-Other Persons Also Implicated - Mr. Wallace

Interviewed,
ISPECIAL TELEGRAM TO THE DISPATCH.1

NEW CASTLE, August 21 .- Like Banquo's ghost, the bribery business in this Twenty-fifth Congressional district will not down. As stated in these dispatches, Dr. David McKinney, of Beaver county, has made information here charging Tate, Shaffer, Downey and Duerr, of Beaver county, with receiving bribes, and nominating Major Alexander McDowell, of Sharon, for Congress in this manner, and also charging W. D. Wallace, Esq., of this city, with doing the bribing.

This afternoon Dr. McKinney appeared before Mayor Brown, of this city, and made an information charging W. D. Wallace, Esq., of New Castle, and Edward Schaffer, of Beaver county, with entering into a con-spiracy to bribe delegates to the twenty-fifth convention, held in this city the first of last month. The information also charges that there are others implicated in the conspiracy, there are others implicated in the conspiracy, but the above are the only names mentioned. Mr. Wallace was arrested, and gave bail before the Mayor in the sum of \$1,000. This evening County Detective Marshall will go to Beaver county, and early to-morrow morning will arrest Mr. Scasffer. Mr. Wallace was seen to-day by your correspondent, and said: "That is but a preconcepted plan on the part of Beaver county. I certed plan on the part of Beaver county. I cannot say yet whether or not I will demand

n hearing. A local paper to-day publishes an article reflecting on the character of Dr. McKin-ney, as a soldier, and as an army surgeon. This paper alleges, and gives the names and affidavits of its informants, that Dr. Mc-Kinney has on more than one occasion refused to grant a certificate to a poor and dis-abled soldier, because the man did not have the money to pay the doctor. The article was a rough one, and the writer has but few sympathizers, while the doctor has rathe gained than lost by it.

IDAHO REPUBLICANS

Select a Ticket and Make Their Declara-

tions of Doctrine. BOISE CITY, IDAHO, August 21 .- The Republican State Convention re-assembled this morning and adopted a platform. A resolution was adopted that it was the sense of the convention that the first Legislature elect one United States Senator from North Idaho. The following ticket was nominated this afternoon: Governor, George L. Shoupe,

of Lewhi; Lieutenant Governor, N. B. Willey, of Idaho county; Congressman, Willias Sweet, of Lath; for Secretary of State, A. J. Pinkham, of Alturns; State Auditor, George

Robethan, of Bingham; State Treasurer, Frank R. Coffin, of Boise City.

The platform indorses the administration of President Harrison; favors the protection of American industries; rejoices over a splendid victory achieved by the National Republican majority over the enemies of silver at home and abroad; favors rigid enforcement of the election laws, and the enactment of such laws as may be necessary for the suppression of Mormonism, and the protection and purity of the ballot.

PEPECIAL TELEGRAM TO THE DISPATOR. PHILADELPHIA, August 21.—The Demeratic State ticket was here to-day conferring with Chairman Kerr. Ex-Governor Pattison was calm and cheerful, Chauncey F. Black was full of joviality and Captain Barclay seemed satisfied with the outlook When Mr. Black was asked what the party had been doing, he said: "Kerr is our manager and we can't say anything except by permission. But I am going to say this much, we are all feeling joyous and know

that we are going to win."

Mr. Kerr, when asked about the Emery charges, replied: "The Democratic party, either officially or as individuals, have not cither officially or as individuals, have not made any charges against Senator Delamater, no matter how completely we may be convinced of their truth. That is a question between Republicans. It is a family quarrel and they must settle it among themselves. Of course I recognize that the people of the Commonwealth are to be the jury of last resort. They will determine for themselves whether Delamater or Pattison should be elected Governor."

Several Pittsburgers visited Chairman Andrews at the Republican headquarters to-day, and a long conference was held. The party consisted of Contractor William Flinn, Editor Nelson P. Reed, Postmaster James S. McKean, Collector of Internal

The situation in Allegheny county was the subject of discussion, and it was gone over in detail. No one of the conferees cared to give his own official interview, but all hands coincided in the opinion that the prospect for the election of the ticket was constantly growing much brighter in the western end of the State.

Seven of the injured were taken to Blue Island and three were brought to this city. The remaining six lived near the scene of

the explosion.

Those brought to the city were: Charles Seidell, of Cincinnati, badly burned about the face and arms; will recover. E. B. A Senatorial Cancus Decides That the Election Bill Shall be

POSTPONED UNTIL NEXT SESSION.

It May Reach a Vote Shortly Before the Christmas Holidays.

THE TARIFF MEASURE TO BE PUSHED.

Alaskans Get the Grip and Delay the Taking of th Census.

As a result of a Senatorial caucus held late last night, Mr. Hoar will withdraw his amendments to Mr. Quay's resolution, the Federal election bill will go over until the next session of Congress, and the tariff bill will be pushed to its passage.

IFROM A STAFF CORRESPONDENT. WASHINGTON, August 21,-The Quay resolution was given another period of rest to-day, and the fact that it was not taken up caused great surprise to many of the Republican Senators and to all the Democrats, except Mr. Gorman, who seems to be always posted in regard to the movements of the Republicans. The galleries were well filled in anticipation of a sharp debate, and there was much disappointment at the failure of the show to materialize.

Much comment resulted from the silence of the Senate in regard to the resolution and it was long before the reason of it pene trated to the auxious inquiries. The truth was the Hoar-Edmunds faction had signified a readiness to compromise in regard to the elections bill. Having got safely over the crisis of their first spleen and anger thatQ uay should have seized the reins of leadership, they recognized with him that as the elections bill could not possibly be enacted in time to affect the Congressional elections this year, it would be best to fix a time for its consideration next session, finish

other business and adjourn. A conference was held to-night at the residence of Senator McMillan, of Michigan, for the purpose of arranging the terms of the compromise. It was nearly midnight when the meeting dispersed, and everyone was reticent in regard to the result. It is pretty definitely ascertained, however, that t is decided not to press the Hoar amendments, as Edmunds is adverse to a change in the rules proving for calling the previous question and would much prefer some other solution of the question. It is believed that all sides have signified a desire to adopt the Quay resolution in regard to the tariff bill and other legislation, with an amendment providing for the calling up of the elections bill early next session and fixing a day just previous to the holiday season for taking the vote, probably Decem-

Senators of both factions this afternoon expressed much satisfaction at the prospect of harmonizing the party in the Senate. Senator McMillan, at whose residence the conference was held, is in sympathy with Senator Quay's view of the situation. LIGHTNER.

Mr. Cooper then demanded to see the books of the company, but Mr. Raum refused to produce them. He was willing that the members of the committee should inspect the stock book of the company, but not that it should go into the records. Mr. Raum said that Mr. Cooper gave to the press everything he got hold of, and had made use of public documents entrusted to him for the inspection of the Committee on

STERLING EXCHANGE MARKET BAIDED.

Street's Relief. Money was a scarce article on Wall street

vesterday. Everybody wanted to buy, and here was little to sell, until finally the price jumped up to an equivalent of 96 per cent per annum. Washington is expected to come to the relief of the money market and end the flurry.

ISPECIAL TELEGRAM TO THE DISPATCH.1 NEW YORK, August 21.-Those whose knowledge of financial affairs is derived from observation rather than from actual participation in them, may be aided in their comprehension of the present condition of the money market by accepting the statement that anxiety as to ability to make up balances was so great in Wall street to-day that the threatened tie-up of all the Vanderbilt lines was regarded by the street as a matter of comparatively minor importance In speaking of balances, reference is made not only to those of stock brokers, but of

banks and bankers as well. It is unnecessary to go into the details of regotiations for mercantile and similar accommodations, for the market for call loans on the Stock Exchange reflected with painful vividness the condition that all borrow-

ers had to contend against. MEARLY CENT PER CENT.

During the forenoon a few loans on pledge of Stock Exchange collateral were made at rates that ranged rapidly upward from 20 to 60 per cent. When the higher figure was resched the impossibility of continuing quotations on a percentage basis was recog-nized, hence it was abandoned. The re-mainder of the day the price for money in excess of the legal rate was quoted as com-mission, in accordance with the practice that prevailed before the present law relative o loans or collaterals, known as the Kier

to loans or collaterals, known as the Kiernan act, was passed.

The commission varied from ½ to ½ per cent. A very large proportion of the loans were made at ½ of 1 per cent and interest, which is at the rate of 96 per cent per annum. Several times during the day it was useless to bid for money, as there was absolutely hone in sight. Favored borrowers, that is house a coloring superior models. is houses enjoying superior credit, secured moderate accommodations outside of the Stock Exchange at 20 to 25 per cent on pledge of dividend paying securities. Renewals were made upon any terms that enders saw fit to exact.

A MARKET DEMORALIZED. It is reported that some borrowers were attracted to the sterling exchange market, and the demoralization of that market was attributed to sales of bills by borrowers. Toward the close of business both the money and stock markets were affected by rumors

and stock markets were affected by rumors of heavy shipments of specie from Europe, the basis of which was probably an imperfect knowledge of what had taken place in the sterling exchange market.

At the same time advices were received from Washington to the effect that the subordinates who have been left in charge of the Treasury were considering the duty of the department in the premises, and it was foreshadowed that they would take some foreshadowed that they would take some action that would relieve th tension of the money market.

WILLIAM WINDOM, Secretary. It is explained at the Treasury Department that the slight delay in making the prepayment of interest on the \$20,000,000 of bonds is made necessary by the fact that the law does not permit the anticipation of more than one year's interest.

INTECIAL TELEGRAM TO THE DISPATCH.1

COLUMBUS, August 21.-The State Board f Pardons has been in session two days considering the cases of Otto Leuth, the Cleveand murderer; Elmer Sharkey, the Preble county matricide, and Brocky Smith, the Cincinnati murderer. These, with Isaac Smith, the Pike county murderer, are to be executed in the penitentiary annex next Thursday night. A strong effort has been made before the Board of Pardons in behalf of each, with the exception of Brocky Smith, who, it is conceded, will be executed sure, as there could be nothing said by his at-

torney to excuse the atrocious crime.

The Leuth case was strongly presented by Attorney Kerrnish, of Cleveland, and the boy's mother was present, which added to the impressiveness of the argument. Several young ladies who have taken an terest in the case also presented a written argument which was savage against capital mishment. The case of Isaac Smith has already been passed upon by the board with recommendation for commutation, but Governor Campbell has not intimated what he will do. There has been so much criticism on the leniency of the board that it is barely possible the present occupants of the nnex will be allowed to go on time. The Board of Pardons will decide to-morrow

Of 185 men wounded on the Guatemaian side, 115 died and about 20 of the remainder cannot live. Out of the 112 prisoners taken by the Guatemaians here nine days ago, 50 were Mexicans.

Office-Men Will Cast Her Ballet-The Scheme Meets With Pavor. JACKSON, August 21. - A tinge of

entiment colored the proceedings of the Constitutional convention during the progress of Delegate John W. Fewell's speech in support of the proposition offered by himself to confer suffrage upon women. Mr. Fewell's resolution read as follows:

Resolved, That it is the sense of this convention Resolved, That it is the sense of this convention that it is a condition necessary to the solution of the franchise problem that the right to vote shall be secured by proper constitutional enactment to every woman who shall have resided in this State six months, and who shall be 21 years of age and upward, and who shall own, years of age and upward, and who shall own, or whose husband, if she have a husband, shall own real estate situated in this state of the clear value of \$300, over and above all incumbrances. The votes of every woman voting in any election shall be cast by some male elector, who shall be thereunto authorized in writing by such woman so entitled to vote, such constitutional enactment to not be franchised as to grant the women the right to hold office.

Under the rules the resolution should have gone to the Committee on Elective Franchise, but by unanimous consent he was allowed to take the floor in support of his resolution. Mr. Fewell made the most his resolution. Mr. Fewell made the most of his opportunity, and, in a speech of 20 minutes' duration, made a deep impression on all his hearers. He urged that a special committee be appointed to report upon the question, but the Committee on Elective Franchise regarded such a reference with the instruction suggested as infringing upon the prerogative of the Elective Franchise Committee, and after two hours' discussion Mr. Fewell struck out the objectionable clauses of his resolution objectionable clauses of his resolution had it referred the usual way. Dele Hudson, of Yazoo, also offered an ame ment providing for female suffrage with property and educational qualification. This also embraces the Australian ballo

system.

The woman suffrage idea is growing in favor among the members of the convention, as safety from negro supremacy can be reached by no other methods. The convention will probably adjourn to-morrow until Monday, there being no busi-

They lay on their backs, some with their arms stretched out as though in entreaty. Others were lying peacefully, while some had their hands clasped and their lips moved occasionally as if in prayer. Several little girls lay as though they were peacefully sleeping. One little boy, who was lying on a bench, seemed to be sleeping as quietly as though he were in his own bed at home. The reporter touched his wrist to find out how his pulse was, and lound it beating very rapidly. All those who became unconscious testify to visions, and to see angels and

Rev. E. M. C. Botterill, the State evangelist for the Y. M. C. A., was an interested spectator. "I will admit," he said, 'that Phever saw anything like it and it's beyond my comprehension. It must be that the people who go into that state are led into it by their imagination and the force of will stronger than their own. You know that 85 pay cent of the people are better the people are the pe controlled by the others, and this un-doubtedly illustrates the fact to a certain extent. But I never saw the equal."
