Organizations of National Trades Unions are Increa ing Day by Day.

The following tables, showing the present duties, the duties proposed under the Mc Kinley bill, and the changes effected in the bill, as reported to the Senate by the Finance Committee, on some of Pittsburg's staple industries, will be found of use, and will furnish interesting reading to those who are not posted on tariff legislation.

It will be seen that the Senate has cut up the original bill somewhat, but the changes effected are not regarded as a settlement of the schedules. The next step after the Senate has passed on its committee amendments will be a joint discussion on the measure by conference committees of both branches of Congress, and not until the bill comes before this conference committee can it be said with any degree of confidence how the schedules will finally be arranged,

This compilation has been made on the suggestion of a manufacturer, who, on being asked the existing duty on goods of his line had to admit his ignorance. It was with the object of providing ready reference to the position of legislation on some of the more prominent lines that the tables were

NO SETTLEMENT IN VIEW.

The Westinghouse Embrogito Threatens

be of Long Duration. The three brances of the Westinghouse works whose men are on strike, were yesterday as idle as when the employes first quit. Two men and about 16 laborers represented the force of 900 workers who used to labor in the busy Garrison alley shops, and some half dozen strangers, including a few relatives of the foreman's, represented the 140 machine company's employes. Across the road, the fuel gas plant was idle. The Airbrake men and Signal Company's employes are still at work. What steps they

will take are not yet known.

The position of the airbrake men is somewhat different from that of the others. Of the 1,000 men at work, about one-third are fully skilled machinists, who would readily find work anywhere. The rest are men and boys who were broken in to a certain class of work, and who, if taken from it, would find it difficult to make as good wages else-where. Perhaps these remaining two-thirds recognize this fact, and are atraid to jeopar-

better organized than is generally supposed. They are in this fight to stay, and have the sinews of war to enable them to do so. As already pointed out in these columns this movement of the machinists for a reduction in hours is not of purely local origin. It is is the inception of an agitation which will spread to other cities as soon as it has been won here.

The machinists of other towns are watching the course of events here with interest, and are ready to help the fight with substantial backing. For this reason the Westinghouse people will find it hard to move ingouse people will find it hard to move the men from their position, even if it oc-curred to them to do so, and they will not be able to get men of any account to take the place of the men now out. Every ma-chinist in the country of any repute is a union man, and of course will not accept work at a struck shop. A few days will

esting.

There is a probability of any early settlement being effected between the employes and the Lewis Foundry and Machine Company and Wilson, Snyder & Co. Bair & Gazzan's men have returned to work.

THE HODCARRIERS JEALOUS.

They Don't Want Other Men Employed a

Work Rightfully Theirs. Contractor Balph, who is building the Duquesne Company's car depot, was notiied some time ago by General Agent Swartz that he would not be allowed to employ abovers at cheap wages where hodearriers should legitimately be employed. Of this ne took no notice, and he was then informed that if he did not comply with the request of the Trades Council the men of the other cratts would be called off. He then con-cluded to employ hodcarriers. General Agent Swartz said last night that

here was nothing unusual in the action aken. Similar efforts were directed against there was nothing unusual in the action taken. Similar efforts were directed against the contractors who built Eisner & Philips' store, and there were at present other contractors who were employing common laborers to do work which hodcarriers claimed as theirs. They would be proceeded against in time. Mr. Balph happened to be a little . Mr. Balph happened to be a little arlier on the list than others, that was all.

PREPARING TO DIE Father Mollinger Returns From the East to Retire to His Room.

Completetely Resigned to His Fate an Hourly Growing Weaker.

Rev. Father Mollinger, of the Most Holy Name Church, Allegheny, has returned from the seashore, where he went about a month since to recuperate his health. He is again dangerously sick at his home on Troy Hill. As soon as he returned he was orced to retire to his bed. He is almost hourly growing worse, and it is now feared that Father Mollinger will never again be

Father Mollinger belongs to no religious order in the Church. He is what is known as a "secular" priest. He is nearly 60 years old. He was ordained about 35 years ago, and for 25 years has been pastor of the congregation of the Most Holy Name, on Troy Hill. In his spiritual work and devotion, in and out of the Church, he was unceasing in the invocation of St. Anthony's aid. The "relic" of the Saint, which Father Mol-
