CHICAGO STOCK YARD MEN ALL QUIT

There is a growing belief among K. of L. leaders in New York that no general strike will be ordered. The Chicago stockyards railway employes struck yesterday, stopping business at the packing houses. At Albany a citizen was fired upon by a railroader and there was much excitement.

SEPECIAL TELEGRAM TO THE DISPATCH.1 NEW YORK, August 22,-The interest of everybody directly concerned in the controversy between the New York Central Railroad Company and the Knights of Labor was considerably sharpened to-day by the second appearance in the breach of E. E. Donovan, of the members of the State Board of Arbitration and Mediation. The futility of his first effort to settle the difficulty amicably, it was thought would prevent his reappearance as peacemaker, but it seems that a rereading of the regulations governing the board and the appearance of General Master Workman Powderly, together with the many threats against the railroad company which have been sent broadcast, made him consider it his duty to interfere again. He strode around between the Murray Hill Hotel, where he is stopping, and the St. Cloud Hotel, the headquarters of the Knights of Labor, with a copy of the rules of his board under his arm.

THE DUTY OF THE BOARD.

"The regulations make it clear," he said "that the board's duty is to prevent a strike, if possible, as well as to settle one that is already begun. One strike is practically over, I understand, but it appears that another is imminent, and it is to prevent that that I am here."

Shortly after 11 o'clock Mr. Donovan called on Third Vice President Webb in his office in the Grand Central station and explained his mission. The interview was not a long one, but it must have been upsatisfactory to both gentlemen, for neither would say anything about it when it was over. "All that I can say," remarked Mr. Donovan, "is that the prospect for arbitra-

In order to get the views of both sides re garding the chances of his board for acting in the matter Mr. Donovan sent letters to both Mr. Webb and Mr. Powderly. The sentiment of both communications were the

## THE SITUATION REVIEWED.

Two weeks ago to-night the wheels were stopped and the men went out. The men who then left their places, with confidence of reinstatement upon their own terms, are considering the situation to-night in their local assemblies, where they are joined in council by the members of the Executive Board. The leaders are also visiting other assemblies, not in any wise interested in the railroad strikes-fraternal visits from relaxation of the strain of the week.

Undoubtedly it is true that the rank and file of the men feel at present strong in the near presence of their leaders. They have been considering their immediate interests, and the men are pleased. They feel re inforced and more hopeful. HOW THE LEADERS FEEL

Whether the same is true of the leaders, who have assumed the responsibility and much of the care before pressing upon one district assembly, is a matter of grave doubt The State Board of Arbitration has once more presented itself perfunctorily to aid a settlement. Mr. Powderly has hastened to accede, but the railroad has declined; and there is a chilly quality about the declination that suggests strong confidence on the

part of the officials. The leaders feel this. The situation to them is more than grave. There is a growing belief among persons who are following the course of events closely, that there will be no strike. Those whose business it is to keep posted, but who are not of either side of the controversy, believe there will be no further strike.

A GROWING CONVICTION.

They say they do not feel it wise to declare this belief to affect public opinion, but the conviction exists and grows. Of course, individuals who do not publicly proclaim such views are not called upon to state the grounds for such feeling. They hold the conviction, remain silent and wait. Meantime the day has been fruitful of more literature and no little falk.

It was rumored that possibly the next move would be the ordering out of all the mechanics along the line of the Central road. On this point Mr. Webb was questioned. "Anticipating," he said, "some ten days ago that by allowing the men employed in our various shops to remain I was FURNISHING ENIGHTS AMMUNITION.

I at once ordered the shops to be closed, and directed that only enough help be retained to perform the actual necessary repairs that are required each day. At the present time we have fully 6,000 cars in course of construction at West Albany, and there 1,200 men have been laid off. If the mechanics are ordered to stop work by the Federation we are fully prepared to meet the emergency, and as the number of men that would be affected is comparatively small, their places would be rapidly filled." Mr. Webb said that the Central has now 5.000 men under pay and ready to take the strikers' places, and that he has the names of as many more whom he can call on if

with you and invite a joint conference in the
offices of your company between you and representatives of your employes, with a view of
devising some means, either by arbitration or
such other method as may be mutually agreed
upon, whereby the threatened strike may be
averted and abrupt interruption of travel and transportation of freight be prevented.

FLORENCE S. DONOVAN. A similar letter was sent to Mr. Powderly. The following is Mr. Powderly's

DEAR SIR-I take pleasure in acknowledging the receipt of your letter, in which the General Executive Board of the Knig ats of Labor is invited to a joint conference with the officials of the New York Central Railroad. Our board of the New York Central Railroad. Our board is willing to comply with your request, and holds itself in readiness to respond at a moment's notice. We hold ourselves in readiness to do any honorable thing to terminate the strike or avert another one, and sincerely hope that either arbitration or such other method as may be agreed upon will have the desired effect.

Recognizing in you an officer of the State, and assuring you that we have from the beginning been willing and anxious to submit the matter to you for adjustment, I am, very sincerely yours,

T. V. POWDERLY.

Mr. Webb responded thus:

Mr. Webb responded thus:

Dram Sir—I have received your letter of this date. As is well known to you and to the public, a large number of persons recently and suddenly quit the service of this company, and with few exceptions have not applied for re-employment, but are engaged in bolding meetings, conferring with the officials of the order known as the Knights of Labor and other labor organizations, and seeking to prevent by persuasion, threats, intimidation, and in other ways, the continuance in lawful employment of the persons who did not leave the company's service and of others who have been employed in the place of those who did. This constitutes the existing "strike" and the further strike referred to by you will or will not take place as the efforts of the persons who have left our services may or may not meet with success. I believe that such efforts will fail. The operating force of this company is full, the passenger service of the company is regularly performed and there is no obstruction to its freight service except lawless interference and the apprehension thereof.

NO EXISTING GRIEVANCE. I am not aware of any difference or grievane existing between the company and its employes and, I must assume that the conference sug gested by you was designed to be, between th officers of the company and the officials of the Kuights of Labor.

These officials represent, not our employes but persons who have left our service and have but persons who have left our service and have not asked to be re-employed; but who, through these same officials of the Knights of Labor, have asked that the discharge by the company of certain persons prior to the Sth of August be submitted to their investigation, and to arbitration by some tribunal to be selected in some way, a request which I have felt it to be my duty to decline.

Of course we deprecate any interruption to travel or delay in the transportation of freight upon the lines of this or any other company. I shall take every means in my power to prevent such an occurrence; and if the constituted authorities prevent lawless interference with our operatives I do not anticipate any interruption of passenger or freight traffic. For the above reason, it seems to me inappropriate and unnecessary to have the conference suggested by you.

A LIST OF OFFENSES.

A LIST OF OFFENSES. Mr. Webb comes forward this evening with a prepared statement, evidently prompted by Mr. Powderly's manifesto of last night. Mr. Webb starts out with the statement that no man has been dis by this company "because he was a Knight of Labor or a member of any other organization." Then he, for the first time since the 
beginning of the foneroversy, names a list of 
offenses, among which are those because of 
which the Knights of Labor are said to have 
hear displacement.

The company has discharged men irrespective of their membership in the order of the Knights of Labor, for drunkenness, incapacity, breach of duty, insubordination, and for lack of sufficient work to employ them; and it will ontinue to do so whenever proper cocasio

NO SURRENDER.

The people of this State granted to this com pany its franchise, and made it obligatory upon it to render certain services to the public, and provided that all its duties, including the em ployment and discharge of all classes of agents should be performed by certain officers; and its officers do not propose to surrender, abandon or transfer the discharge of these duties or any part of them, to anyone except their duly ap-

pointed successors.

It would be a moral and probably criminal neglect of duty for me to omit to discharge a switch towerman for drunkenness, when upon his sobriety and fidelity to duty depends the safety of the life and limb of some of the

millions of passengers transported annually by this company.

We could temporarily supply the place of a man who absented himself from work for two days without leave and without excuse, but what business, private or public, can be carried on under such conditions? What private or public business can be carried on, subject to the diotation from the workmen that there shall be performed only this or that amount of work? What employer can tolerate insolence and insubordination, based upon the belief that the offender will be supported therein by a secret organization to which he belongs, and by the agency of which his employers business can be damaged or stopped?

Men Who Are to Decide Whether There is to be a General Strike-A Talk With Sargent-He Does Not Think Powderly Got a Square Deal.

TERRE HAUTE, August 22.-Terre Haute the center of the United States to-night in the minds of the railway employes of the country, and the thousands of business men who deal with the railways, to-morrow morning will see the convening of a body of men who will decide whether there will be the most gigantic strike ever started in the United States or whether the Federation of Railway Employes will submit to the dictation of one man who represents one of the largest railway interests of the world.

Terra Haute to-night is in a feverish condition. The Mayor walks about the principal streets discussing "strike" or "no strike," as does the street repairer under him, and all this has been brought about by the arrival of the Executive Council of the Supreme Council of the United Order of

Railway Employes.

DISTINGUISHED ARRIVALS. The following members of the council are here or will be here by midnight: F. P. Sargent, President of the Council and Grand Master of the Brotherhood of Locomotive Firemen; J. J. I have no other motive than to subserve the interest of the public, yet I have also at heart the welfare of organized labor, and, as heart the welfare of organized labor, and, as a member of the federation, I do not think Mr. Powderly was treated right. When in New York I was sent for by Mr. Webb, I should not have called on him otherwise. Personally I was treated in a gentlemanly manner by Mr. Webb, I asked him why he did not treat with Mr. Powderly. He eaid he did not want any third narty to interfere. I then said, Suppose you had dis-charged certain firemen, and I came to you as Grand Master of the Firemen to ask you the reason of their discharge, would you re-fuse to talk to me?' To this he made an evasive reply, and I left."

neers and firemen employed by the Union Stock Yards Switching Association went on a strike for higher wages this morning. The reasons for the strike are: The fireme receive 161/2 cents an hour and the engineers 28 cents. The firemen want 20 cents and the engineers 30 cents. The men also desire the Sunday work regulated. The demands were made this morning to G. T. Williams, Secretary and Treasurer of the Stock Yards Company. The men refused his request to go to work until the demands could be considered, and struck at once. No cars were moved and all the packing houses were idle. The Executive Committee of the General Superintendents' Association held a three hours' session at the office of Superinafternoon. The association is composed of the higher officials of the various railway systems centering in Chicago, and the stock yards strike was the object of the meeting but no definite action was taken. the Market. ISPECIAL TELEGRAM TO THE DISPATOR ! NEW YORK, August 22.-Secretary Win dom arrived to-day at the Fifth Avenue from the Grand Conneil of the Steam Rail-Hotel, from Stockbridge, on his way to Washington. It was known in Wall tree

that the Secretary was in town, and in view of the great money stringency in financial circles, a number of the influential bankers in the street called upon him. Among them were Mr. Jesse Seligman, President Baker, of the First National Bank: President Can. non, of the Chase National Bank; President Williams, of the Chemical Bank: Mr. Col. gate, the great silver banker, and others. Mr. Windom, in conversation to-night, said that the calls of these monetary gentle men were without especial significance. It could be in no sense considered a conference on the financial situation. Mr. Windor believed, and so expressed himself with the gentlemen, in a desultory con versation between them, that his circular calling for twenty million. 41/2 per cents recorded a most liberal policy on the part of the Treasury Department. Some of the Secretary's visitors advanced certain views which were calculated to do away with any stringency, even after the 20,000,000 call had been taken. The Secretary said that he was not at liberty to say what these views were, but smilingly added that he would take them to Washington with him o-morrow moraing, and give them full and timely consideration. The Secretary finally said that he did not believe that there would be further trouble of moment in the

noney market. Some of the Secretary's visitors were a little more explicit, concerning the inter-views with him. They came away believing within the next 10 or 14 days. The fact that nearly 3,000,000 were taken to-day gave them great satisfaction. After a further discussion with the Secretary it was ap-parent that if the 20,000,000 call did not substantially relieve the situation, there would be further and yet reasonable mean taken to relieve the situation from any severe strains. They believe that the worst the squeeze has passed.

It was recalled to the Secretary that there

were still \$87,000,000 of these bonds which could be recalled, provided the Secretary had the necessary funds with which to make the call. Some of the bankers and bank presidents who bankers and bank presidents who talked with the Secretary believed that this would not be necessary, but if it were, they came away fully convinced that Mr. Windom had determined upon a wisely iberal policy, and they felt assured that there would not be again, for some time, the unreasonable and ridiculous rates for money current in financial and commercial circles

RUSSIA.

ST. PETERSBURG—It has now transpir that the Kaiser's reason for coming to Rus sia is that he aims at modifying the Czar's attitude on the Eastern question. He has set his heart on effecting a general reconciliation between the Powers-concerned. It will be a sign to the world that he has succeeded if an interview is arranged between the Czar and the Emperor of Austria during the autumn. Should the Kaiser fail in his present undertaking, the pessimistic politicians say that they are sure Russia will declare war on Austria in order to prevent a further extension of Austrian influence in Servia and Bulgaria.

JUST PLAYING WAR.

ST. PETERSBURG, August 22.-The Gomontoff maneuvers ended to-day. The entire defending army, drawn up in order of battle, awaited the invaders and drove them back. Chancellor von Caprivi to-day aspected the fortress of St. Peter, visited von Schmeinitz, the German Embassador, and alterward called upon M. Degiers, with whom he had a long conference. Later he called upon the English and Austrian Embassadors. This evening a banquet in honor of the Chancellor was given at the German Embassy. The leading diplomation representatives were present.

THE AUSTRALIAN SHIPPING STRIKE. MELBOURNE-The shipping strike has caused a general paralysis of business. It expected that the Victoria and New South Wales iron works and factories will close on Monday, owing to lack of coal. Nine Wollinging colleries have stopped work, owing to the cessation of the steamship demand and lack of means of transportation. A joint conference of Melbourne and Sydney ship owners has been arranged. The great labor employers have renewed their pledges o stand fast against the strikers' demands EXPLAINING BISMARCK'S DISMISSAL.

COLUMBUS, August 22.-The State Board of Pardons to-day refused to make any rec ommendation to the Governor in the cases of Otto Leuth, Elmer Sharkey or Brocket Smith, awaiting execution next Thursday night at the Penitentiary. In the absence of a recommendation it is hardly probable Isaac Smith, sentenced to hang the same night, has been recommended for commuta-tion, but the Governor has taken no action

in his case. The indications now are the four will be allowed to go in a bunch. The condemned men are greatly cast down, and two of them have telegraphed their attorneys to come and make a final effort be-fore the Governor. The mother of Otto Leuth, the Cleveland boy murderer, has been with him at the prison cage all day, but has not been told the action of the Board of Pardons in order to prevent a distressing

Quay victory in the Senate is now assured. resolution on the order of business, drawn up in accordance with his views will be presented to-day or Monday, and its adop tion is assured. A speedy vote on the tariff is expected, and the elections bill will be considered at the next session.

FROM A STAFF CORRESPONDENT.

ASHIN GTON, August 22.—No proposio regard to the order of business was before the Senate to-day, for the
re the Republican leaders did not
for the Republican conference | leaders was held this morning at the C. pitol, and a formal proposition was outlined, but was not presented, as it was desirable to first have an understand-

ing with the Democrats that they will agree to an early vote on the tariff bill. Democratic assurance of no unnecessary delay on the part of that side of the chamber was practically given this evening by Senator Gorman, and it is probable a resolution on an order of business will be reported to-morrow or Monday at the latest, providing for five-minute speeches on the tariff bill after August 30, a speedy end of that measure thereafter, a rapid disposal of other legislation mentioned in the Quay resolution, and adjournment before the 1st of October.

AN ABJECT SUBBENDER.

The tariff bill will occupy some time in conference after it is disposed of by the Senate, and during that consideration the Senate will put out of the way the other legislation in view, such as the remaining appropriation bills, the anti-lottery, lorestry and other measures.

The surrender of Edmunds and Hoar to

what is practically the Quay method of ending the work of the Senate for this ses-sion, has been the talk of the town to-day. After all their bluster and sarcasm, and after Hoar's absurd proposition for the con-sideration of the elections bill and a vote upon it on September 4, it is looked upon as a most abject surrender to the Senator from Mr. Quay speaks very modestly in regard

to the situation, and takes no special credit to himself for recognizing what should have been recognized by everyone, that the con-sideration of the elections bill must necessideration of the elections bill must neces-sarily be sacrificed for this session, if any-thing at all was to be accomplished. If the Senator is modest, however, his admirers are not, and among this class are now found a legion of his former opponents, and even the eleverest of the Democratic tacticlans

WARM IN THEIR EULOGIES of the fine strategy of the man who first brought his Democratic antagonists to his support and then fought down a lot of even would permit no suggestion of a possibility of the success of anything approximating of a speech in opposition to him. Evarta declared with irony that he would have something to say, in a tone which means that he would crush Quay. All these gentlemen were determined upon the prompt consideration of the election bill this session. Now they are all meek as intant doves, and not a soul in the Senate has a prophetic word

to say in regard to that vexed measure be fore the latter part of next December. There is still a slight difference of opinion as to minor points in the order of business, but it is expected that by to-morrow all will be harmonized, that all resolutions now before the Senate will be ignored and a new order of business reported which will be practically the Quay resolution, with the

of the elections bill next December.

A MODEL STEEL STEAMER Built by the Italians for Less Thus It Would Have Cost in England.

PRESENT THE PERSON TO THE DISPATOR ! NEW YORK, August 22.-The first steel sailing vessel of the Italian merchant service, the Chevalier Ciampa, which arrived at New York from Genoa, is to leave today for Java, and many Italians in town went down the bay in the tug Assistance by invitation of Mr. Louis Contenein to-day to inspect her. The reason the Italians in New York are so proud of the ship Cheval-ier Ciampa is not only because it was built in Italy, but because it was built at 10 per cent less cost than it could have been built

in England. The building of the ship was an experiment by the Mayor of Sorrento, the Cheva-lier Francesco Lavario Ciampi, who owns a fleet of 16 wooden merchantmen, and who de-termined to see what could be accomplished in Italy in building a steel vessel. It was built at Sestri Ponente, Province of Genoa, by George Ausaldo & Co. The Mayor has steel vessel built in England. He is hav-
