## OUTLOOK FOR TRADE,

Prospects for Good Fall Business in Most Lines Look More Encouraging.

STOCKS ARE BECOMING STRONGER.

Many Millions of Dollars Have Been Tied Up and Kept Out of Business Channels

BY TARIFF TALK AND OTHER CAUSES.

But Reports From Throughout the Country Show Large Volume of Legitimate Business.

SPECIAL TELEPRAN TO THE DISPATCE. NEW YORK, August 22.-Special tele grams to Bradstreet's show that general trade meident to autumn had begun with fairly good demand. It is relatively most active at New Orleans, where the tributary region is enjoying prosperity based upor excellent crops. Rice, it is thought, will heavily. Chicago, New York, Boston and St. Louis all report a dullness du lnesse du lne exceed 1,000,000 sacks, and cotton will yield being chiefly conspicuous among handlers of imported articles. At Philadelphia, notwithstanding a better request for dry goods, a large share of textile machinery is

Grain leather is generally scarce and in active request, with price higher. Boots and shoes have advanced 10@15c per pair at first hands. Cattle are lower for common, but hogs are 5c upon increased demand. Crop reports from Nebraska show a much reduced output of cereals, though there, as elsewhere, the enhanced price will probably do much to offset restricted pro-

STOCKS AGAIN RALLYING.

After a sharp depression, due to the stringency of money, stock prices show a tendency to rally on the expectation of increased supplies of funds from the tender of 41% per cent bonds to the Treasury. The threatened extension of the New York Central strike is also an element in the market. Bank clearings at 51 cities for the week ended August 21 are \$1,107,580,271, a gain over this week last year of 16 per cent. New York City's clearings, which constitute 61.5 per cent of the grand total, are more than those for the like period last year by 12 per cent, while at 50 other cities the gain is 23 be

companies generally. The trunk-lines, the Pennsylvania principally, Eastern roads and coal carriers, show large increases in gross over June a year ago, when heavy losses were caused by floods. The earnings of 96 roads for June aggregate \$12,710,278, a gain over June, 1889, of 10.2 per cent. The gain in net earnings in May over May last year was 15 per cent. For six months net earnings of 115 roads aggregated \$92,630,547, a gain over six months of 1889 of 13.4 per cent. Here again the coal roads are most prominent as regards the increase.

METAL AND MINERAL MARKETS.

Copper tends upward at home and abroad notwithstanding the present high prices. Sales of Lake Superior ingot for export to Germany at 171/20 per pound are reported at Boston. Producers are offering their stock freely. The Calumet and Heela Company has published the first full annual report for years, but omits to give the cost of its copper laid down in New York. At 17c the company's net profit is perhaps not far from 10c per pound. Iron and steel remain steady as to price. Demand is unchanged, but a little better West. Anthracite coal shows no signs as yet of a revival in demand. Production to date is 330,000 tons behind the record of last year. Renewed short-crop reports as to wheat at home and a decided preponderance of bullish sentiment served to push wheat up 2340 this week, despite the natural bearish tendencies of the Northwest, exclusive of producers. Indian corn, too, advanced %c and oats 13/c. The causes are those which have heretefore acted. Exports of wheat (and flour as wheat) to both corsts equal 3,489,-925 bushels, against 2,703,145 bushels in the like week of 1889 and 1,993,189 bushels last week. The total exported July 1 to date is 16,407,153 bushels, as compared with 13,953,-296 bushels in a like portion of 1888, and 15,990,600 bushels in 1887 Indian corn exports were 1,084,105 bushels this week, against 900,000 bushels last week.

DEYGOODS AND WOOLENS. Drygoods are more actively distributed at the East, and the general tone of the market is buoyant. Jobbers are most active, while agents are doing a good re-order business through mail and personal demand. Prices are generally well held, print cloths alone weakening slightly. Woolen goods have shared somewhat in the better tone of the general market, but demand is still only Foreign goods are very dull owing to delayed action on the tariff. A fair business is doing in raw wool, but the market lacks strength. The better tone of woolen goods market prevents any further decline in raw material. Liquidation of old cotton contracts has been the order of the day in all markets, and prices are off 3/2 and 1 1-16 cents. New crop is

moving treely.

Business failures reported to Bradstreet's number 160 in the United States this week, against 148 last week, and 218 this week last year. Canada had 20 this week, against 29 last week. The total number of failures in the United States January 1 to date is 6,663, against 7,427 in a like portion of 1889. MONEY TIED UP.

B. G. Dun & Co.'s weekly review of trade says: The signs of monetary disturbance which were noticed in previous reviews were not misleading. At Philadelphia money was tight, at Chicago in strong demand, at St. Louis unusually scarce at 7 to 8 per cent, at New Orleans tightening, at Denver and St. Paul in good demand, and at Milwaukee more active at 7 per cent: firm at Kausas City, and rather tight at De-

troit at 7 per cent.

The obvious and only sufficient relief is the liquidation of money speculations in stocks, in wheat, corn, oats, cotton, leather, hides, coffee, wool, and especially in silver bullion, which have locked up enormous sums. In ailver alone about ten millions has been locked up to wait for higher prices; in grain several times as much, and in other products many millions, while the condition of the market for securities was indicated by the fall, averaging about \$2 per share in a single day on active stocks, when money became times. when money became tight.

EFFECT OF THE TARIFF BILL. In addition the enormous imports, in-tended to anticipate the pending tariff bill, have virtually locked up for an indefinite time many millions paid for goods, and in duties on them. The volume of legitimate business throughout the country continues large, exceeding that of last year by 10 per cent outside New York, and the desire to market products quickly as prices rise, causes greater demand for currency from the country than usual. During the past week the Treasury has paid out only \$61,000 more than it has taken in.

Wheat closes 4c higher than a week ago, but the advance was much greater before the break came. Not only have exports been arrested, but 16,000 bushels American wheat were reshipped to this country from Liverpool, and trades were in progress for Liverpool, and trades were in progress for more. Corn rose July 13/c and oats declined 23/c, but pork products were a shade

12 cabinet photos, \$1, or a life-size crayon portrait, \$3 50. Aurecht's Elite Gallery, wright's beer. All good saloons keep it. Try it.

stronger. Coffee and sugar were held with-out a break, but cotton fell 5-16c on sales of 300,000 bales, and oil declined 8%c. Ex-ports of products from New York for three weeks of August are 22 per cent smaller than last year's, and the recent changes do not yet suffice to bring exportable staples

down to the parity of foreign market. IRON IS STRONG.

The iron industry still shows a strong demand for finished products, with some stiffening in prices, but the supply of pig iron is so large that prices are shaded in urgency to sell. The market for wool is call and prices a little lower, the supply of foreign goods offered being very large. The demand for cotton goods has been fair, but prices do not change. Capable observers publish warnings that a halt is needed in the leather and hides market, prices having risen so far as to threaten reaction.

the leather and hides market, prices having risen so far as to threaten reaction.

The reports from other cities, with very few exceptions, indicate that a larger trade than ever before is in progress, with satisfactory collections and a bright outlook. Crop reports are less discouraging, though the yield must fall below early anticipations as to grain. New Orleans reports very encouraging prospects as to cotton and Galveston as well, but Jacksonville reports dull trade and a discouraging outlook. At St. Louis business is of fair volume, but somewhat affected by injury to crops. what affected by injury to crops.

CONDITION ENCOURAGING. At Kansas City trade is healthy, particularly in live stock and packing. Milwaukee reports that crops will average fairly and Minneapolis mills have a large output of flour at advancing prices. The receipts of grain, seeds, dressed beef and cheese at Chicago are somewhat below last year's; in butter the decrease is 40 year can tin hide. there is a heavy increase in bogs, a gain of 100 per cent in lard and some increase in cured meats and wool, and sales of dry goods and other merchandise exceed last year's. Philadelphia notes large business in leather, but wool is quiet. In general, the condition of legitimate business is encouraging, unless monetary pressure or labor controversies interfere. The business failures occurring throughout the country during the past seven days number 192 as compared with 197 last week. For the cor-responding week last year the figures were

TREATS FOR MUSIC LOVERS.

The Carnegie Library Organ in Good Shape

for Future Concerts. Since the fourteenth organ recital at Carnegie Hall, City Organist Wales has placed the Roosevell organ in thorough and perfect tune, taking advantage of the even temperature that has prevailed for the last ten days. The great instrument has never been exactly adjusted in tune since it was first used, owing to variations in heat and cold which prevailed during the month of February, when it was erected and tuned. Some revoicing and toning down of the pipes, notably in the reed stop, was also found necessary. The organ is now in perfect condition, a fact that will be duly appreciated by lovers of music. From this time forward

Moderate gross earnings in June with increased operating expenses, growing out of low treight rates West and large expenditures for betterments, have reduced the proportions of gain in net earnings of railroad companies generally. The trank-lines the proportion of the programme The Street. quartet of the Grand Army Band will be a portion of the programme. The fifteenth recital will be given this afternoon, with a programme of very pleasing numbers. The soprano vocalist is Miss Louise Germer, of Chicago, a visitor in the city. Organist Wales' programme is as follows:

Gavotto Cauille Saint-Saens
3. Potbourti "Clover" Suppe
4. Song, "Amid the Hay" Henri Loge
5. Invitation to the Dance, op. 65.
6. Overture, "Das Nachtiager in Granada. Kreutzer
7. Song, "Walzer". Ach ein Walzer ist
mein Leben Rudolf Pahmann
§ Gizella Schottisch. Emilliano Correa
8. Bolero, "La Belle Espagnole" Josef Law
9. "La Belle Bionde Walz"

Roland W. Mossman
10. Song, "The Beating of My Heart".

Anton Strelenki

The Expesition Handbook. The Handbook and Guide of the Pittsburg Exposition for the current year has just been turned out by the press of Percy F. Smith. It is one of the handsomest books of the kind ever issued in this city, and the material with which it is filled will be read with interest by everybody who is

fortunate enough to secure a copy.

A brief history of the Exposition Society is followed by a description of the good things in store for visitors to the Exposition this year. Then comes mention of the points of interest and vast industries of Pittsburg, a description of Allegheny and Schenley Park, with a biography and portrait of Robert Carnahan, and other matter that cannot tail to be of interest.

Typographically the book is a beauty. It is profusely illustrated, printed on heavy book paper and arranged with a degree of taste and style that is seldom equaled. Copies of the book can be obtained at the office of Percy F. Smith, 53 and 55 Virgin

Do you want a special bargain in musical instrument of any kind? If so go into Hamilton's, Fifth avenue. When you get a hamilton s, First arounts to something, as bargain there it amounts to something, as every instrument they offer you has a record M. Duncan farm is still drilling in fairly established. It's not an inducement to offer good sand. This well is three-quarters of cheap unknown goods at special prices, as almost any price is dear for them. Time proves all things, and especially is this so in pianes and organs. Their quality is proven by their endurance. In the pianes and organs Hamilton offers you special inducements, and are world renowned. Such names as Decker, Knabe, Fisher and Estey are known the world over as leaders. Their tone and durability is perfect. Go into Hamilton's now and you will be sur-prised at the low prices offered.

Happy Pittsburg Women.

The happiest women in Pittsburg are those who don't bother themselves with baking, but buy their bread and cake and crackers from Marvin. There is nothing in the world sweeter, better, or more whole-some than the Stanley cake, or the new and delicious coffee sponge cake. Your groces keeps them.

FRESH reductions to-day in fine dress patterns—\$10 robes to \$5, and among the finer ones they're only one-third price to-day. Only a hundred or so to go, Come day. Only a hundred or so to this morning and get a bargain. JOS. HORNE & Co.'s

IN THE EUREKA POOL

Review of Operations Under Way and the Present Production.

NO BUSTLE OR EXCITEMENT NOW.

William Johnson, the Belmont Pioneer, Engaged in Wildcatting.

NEWS FROM MANY PETROLEUM PIELDS (SPECIAL TELEGRAM TO THE DISPATCE) EURERA, W. VA., August 22 .- It has

been a number of years since Eureka found petroleum, and it has required about the same length of time to convince the oil fraternity in general that the discovery amounts to something. Operations here are conducted on a very conservative system. Nearly all the available territory is owned and controlled by Barnsdall & Co. and the South Penn Oil Co., so that the fighting over lines and the great rush to exhaust the territory is obviated. In the Eureka pool proper there is a daily production of 1,100 barrels. This is di-vided between the South Penn and

Barnsdall & Co. in the following manner: The former company have four wells producing 450 barrels, while the latter have 31

WELLS NOW DRILLING.

Make a 10 or 20 barrel well. The other one, No. 17, is down 600 feet, and is also located for a well. Wheeling parties are building a rig on the Ed Hammat farm, and Barns-dall & Moore have a rig upon the J. W. Hammat, 2,000 feet east of the big John well. This venture is also locked upon as important, as it is in a manual account. important, as it is, in a measure, experimental, and if a well, Eureka's territory will be extended to the northeast.

The largest well in the pool belongs to the South Penn Oil Company, located on the Russ Hammat farm. The well was shot three weeks ago, and is now doing 200 barrels a day. The biggest natural well is owned by Barnsdall & Moore, on the same farm, and is making 125 barrels a day; it is three mouths old. In the shallow section of the field, two miles south of the Eureka the field, two miles south of the Eureka sand developmenta, Boss & Bartlett's No. 1 has dropped off to 7 barrels a day. The same parties are drilling No. 2, and at 200 feet got a good show. They will tube the well and give it a test before drilling further. Showalters & Caldwell's No. 1, on the Mowry farm, is down 150 feet. The well is least a land of the parties of the same flower of the same flowers. located only 25 from Boss & Bartlett's No. 1. J. F. Johnson is drilling two wells on the ex-Governor Jackson tarm on Cow creek and about one-half mile ahead and south-

Petersville to Myoma, is yielding between 8,000 and 9,000 barrels per day. The north-ern division of the field, known as the Lit-

Black & Co.'s well, on the Jacob Flinner

field. The Tarentum Oil Company's well on the Adam Weber farm, one mile south of Prospect, in which a strong vein of gas was struck on top of the hundred-loot sand, was drilled in yesterday. There was only one foot of pay streak and very little and will give the territory a complete test. The Forest Oil Company's well on the B. M. Duncan farm is still drilling in fairly

Vanderlin farm, which is making some 60 barrels per hour. A 90-barreler has been completed on the Adam Gould's farm, in Middlesex township, and near the Alle-gheny farm. This is the first paying well obtained in that field for several months. It is owned by the Guffey Brothers. New operations there consists of three drilling wells, one each on the farms of Wilson

pany, on the Taylor farm, brought in their No. 1, located 500 feet northeast of the sta-When THE DISPATCH representative was at the well they were six feet in the sand, and the showing was for a 200 or a 250 barrel well. Yesterday the Two Brothers shot one of their old wells on the island with 16 quarts, which increased its production

mont, is drilling a wildcat well 14 miles northeast of Belmont, up the Ohio river, on Matamoras Island, opposite the town of Matamoras. Mr. Johnson is figuring on a succession of pools between Belmont and Turkeyfoot, and as the Eureka, Belmont and Turkeyfoot sands are of the same char-acter, he has strong hopes of catching on in this locality.

wells making 650 barrels.

At present there is no great rush here, and the bustle and hurry of Belmont is conspicuous for its absence. The new work in the shallow end of the field is limited, and but one or two wells are drilling.

Operations in the deep sand may be sum-marized as follows: Barnsdall & Moore No. 11, Russ Hammat farm, located 1,200 feet south of No. 7, Hammat, and in advance of developments, is drilling at 600 feet. This is the most important well drilling at Eureka, and if it proves profitable, will open up more territory and stimulate considerable new work; but if dry, it will cut off the extension of the field in this direction, unless the outlet should be of the sucker rod belt order. The same company are drilling two wells on the Cochran farm, one of which is due to get the sand to-morrow, and taking the other wells in this locality as a criterion, it will make a 15 or 20 barrei well. The other one,

THE BIGGEST WELLS.

west of Barnsdall & McCullough develop-ments on the Hammet farm. No. 1 is showing for a 15-barrel well in the shallow

sand. No. 2 has just commenced spudding and No. 3 rig is building.

tle creek development, has a daily production of 6,000 barrels. The Tremont Company's well, on the Allen tarm, near Zellenople, has increased its production from 30 to 100 barrels per day. It is possible that the well will do better still when the salt water is still further reduced. This well is five miles miles west of the 100-foot field, and opens up a wide scope of territory in the Connoquen-nessing Valley. A dry hole was completed within 600 feet of this well last spring.

farm, which was reported dry, has been drilled through to the third sand, in which a very heavy vein of gas was struck. Kesselman & Co. have just completed a 60-barrel well on the Dambach farm in the southern end of the

good sand. This well is three-quarters of a mile northeast of developments, and if it comes in good it will lend additional interest to this part of the field.

Murrinsville has been revived again. Snees' well, on the Mortiand, is flowing by heads and is making about 100 barrels per day. Yesterday the McKeuney Brothers, of Titusville, brought in a gusher on the Vanderlin form which is making some 80

CLOAKS

AND JACKETS. their sorrow. We cut deep, too, when the occasion demands it. The pruning knife has touched the quick in the Cloak Department. Extensive alterations and improvements are soon to be made here, and, in order to make them, much more room is needed than we have at command. But all that the ladies want to know is the exact extent of

the reduction.

MONEY TALKS! This is an old saying, and there's a good deal of truth in it. Well, every reader of this ad. can tell to a penny how much money can be saved by patronizing our stores this week. Here's the list. It's a

short one, but it speaks volumes: This Week's Price \$12 50 Jet Wraps, : : \$5 00 4 50 Black and Colored Cloth Capes, : 1 50 3 75 Black and Colored Cloth Capes, 5 50 Black Corkscrew Jackets, 3 75 5 00 Striped Cloth Jackets, : : Corkscrew Jacket, Vest front bound with braid all around. 11 50 5 75 Wool Stockinette Jackets 5 00 3 45 Wool Stockinette Jackets, : : 2 45 4 50 Wool Stockinette Jackets, bound with braid, 2 98 4 75

In addition to the above we have 68 fancy striped Cloth Jackets which will be closed out at \$1 50, \$1 75, \$1 95 and \$2 25 each. We say without fear of contradiction that no such bargains have ever before been offered in this city.

Our new line of Plush and Astrachan Capes and Short Plush Jackets is the finest

8 00 30-inch Long Fine Beaver Jackets,

mense variety at prices that will open the pocketbook every time.

you have seen. The prices, too, will please you—they're low enough, that's certain.

Most of the ladies must have read about our special Corset sale—at least we should so judge from the crowds that thronged this department on Monday. None of them left empty-handed, either. Prices were too tempting. The extent of the reduction is from 25 to 40 cents on the dollar. 118 different styles to select from. Could you ask anything New fall Kid Gloves, Hosiery, Merino and Woolen Underwear just opened. An
