LOOKING BOTH WAYS, The prospects for the year are reported as good. The whole of the flint glass scales have been practically fixed, and most of the houses resumed on the 18th inst. and subse-quently. The tableware branch is still dull, but the outlook is better than last year. Ohimneys are in good demand with pros-pects for good trade. Shades are also look-ing up, while the general bottle trade is re-ported as having a good ontlook What the Week Has Produced of News in the Circles of Pittsburg's Staple Manufactures. THE IRON TRADE BRISK AND FIRM. Good Prospects of a Fair Fall and Winter

Business in the Coal, Coke and Glass Industries,

8

MACHINISTS WILL SEE THE FIGHT OUT.

But How the End Will be It Is Very Difficult to Bay at the Present Time

A leading broker yesterday thus summed up the situation in the iron and steel trade: There is no noticeable increase in the demand for Bessemer, prices ruling from \$18 50 to \$18 75, the latter being the highest price at which it sold to-day, for prompt delivery. Even forge and mill iron is in a shade better demand, due to the stimulating effects of brisk business in muck bar and pipe iron. There is no great amount of buying being done; transactions are light, and buyers are supplying only their immediate wants. This is explained by the fact that there is more iron on the market at present than there has been, with a probability of the supply

being maintained, if not increased. The Monongahela Furnace Company will blow in one of its furnaces during the coming month and the other about October, increasing the supply of 550 tons daily. The Carnegie furnaces give an output of 18,000 tons per week, and the firms not being such heavy buyers from outside sources as formerly, still further increases the supply. Then, again, the stock on hand on the 1st of August was over 21,000 tons more than on the 1st of July, the figures being respectively 423,821 and 402,030 tons, the latter figures being within 4,000 of the largest stock ever on hand at coke furnaces back as far ps 1884, with two furnaces less in blast than there were in June.

NOT AN INDUCEMENT.

While prices are maintained, there is no inducement in these figures, either to buy ahead for consumption or with a speculative view. Just as soon as the cold weather comes, the pipe trade will fall away, and then, if something doesn't turn up to stimulate the demand, there is a probability of a slow trade for the winter.

No settlement between the Amalgamated Association and the Carbon Iron Company has been effected, and the association has placed its ban on the works as a non-union establishment. The position taken by the company in this matter was that the laber necessary in operating their direct ore process did not call for the scale of wages set forth by the associacion. The work is not so laborious as in boiling pig iron, they claim, and they hold that \$2 50 per ton would be as adequate compensation for the toil at their, furnaves, as \$5 50 at regular puddling. The company expects to resume next week, and with a full force of men in all departments. This is the first year the company has been presented with a scale. Zanesville also has had the scale presented this year for the senses, but after pumping the well dry it first time since 1881, and so far has not was discovered that petroleum was coming signed. In the East there are still a few up into the well through a crevice in the

signed. In the East there are still a rew mills holding out against the scale. Shoen-berger's mill started up full last Mouday after a spell of idleness since July, during which extensive repairs were effected. which extensive repairs were effected. the week. LARGE COAL SHIPMENTS. The shipments of coal from this port have been large this season. The present inactivity on the river is helping prices a little in the Southern markets, and reports from Cincinnati and Louisville indicate a steadler tone and an increase in prices. Stocks are large, Louisville having about 7,000,000 bushele and Cincinnati about 3,500,000 bushels while New Orleans has about five months supply ahead, with all the lesser ports well supplied. There are any way from 3,000,000 to 5,000,000 bushels lying on the river awaiting a rise. Railroad business continues active, while prices are being main-tained. The prospects for the winter are re-ported better than for some time past. Last Saturday the United Mine Workers of America held their first demonstration for the eight-hour day in this district at Mansfield. There was a general turnout of the men in this district, and an attentive nudience listened to the arguments in favor plained. of the shorter hours in turn by President John B. Rae, Robert Watchorn, N. R. Hysell. Peter Wise and other speakers, Par ticular stress was laid by the speakers on the necessity of having the law regulating the employment of none but skilled miners, be secured. now in force in the anthracite region, ex tended to the bituminous districts, and miners were advised to vote only for such candidates to the Legislature as would support this measure. Coke operators seem to be satisfied with the outlook for the fall. Works are in-creasing their capacities, and the production is on the increase. Shipments would have been larger, but for a failure in the car supply. A peculiar incident occurred at Pennsville during the week. The operators told the coke-drawers that if they did not join the organization their fellow workers belonged to that they would be discharged. They did not take the bint and were laid off notil they had entered some organization. The owners were tired of having two sets of men, and decided they could get on better with men working under a system than with

best of the bargain.]They will have 32 non-nuion houses in blast this fall, and as they will run them with one-balf apprentices, they will, if the quality is right, have a con-siderable advantage over the union factories. The prospects for the year are reported as good.

ing up, while the general bottle trade is re-ported as having a good outlook. The machinists who are out for the nine-hour day at the old rate of wages are still awaiting a settlement with employers. The Westinghouse company has declared its in-tention of seeking labor to fill the places of the strikers rather than make the concession demanded. It is willing to reduce the hours to nine, at proportionate payment but this will not be

proportionate payment, but this will not be accepted. Three branches of the company's plant are standing still, with some 1,250 men

idle. The company has been unsuccessful in procuring men either here or from out-side sources, and at the present writing it is difficult to say what its intentions are. Already quite a number of its best employes have been given ready work in other shops, and even if it were to throw open its doors to-day to its employes, it would not be able to get men to do its work. The employes are determined on holding out, and are capable of sustaining a lengthened lockout. Mr. Westinghouse is reported as having declared his intention of moving portion of his plant elsewhere rather than take back his men at the concession. It is improbable that this may occur. The other branches of the company's interests are still at work, and will, for the present, remain. QUIETLY CONDUCTED.

The strike is being conducted in a very cool and methodical manner, and is being managed by men who are capable and shrewd leaders. Around the struck shops there is nothing to indicate that 1,500 are idle in support of a concerted movement for a reduction in the working hours. It is hinted that there are more interesting devel-opments yet to ensue before this matter is adjusted. The Wilson-Synder Manufactadjusted. The Wilson-Synder Manufact-uring Company has adopted the policy of the Westinghouse company and advertises for machinists and other operatives. It offers 10 hours for a day's work, with 40 minutes noon recess. This will be a con-cession of 20 minutes to those men who will accept the opportunity. One or two em-ployers who have acceded to the nine hours a day demand, have extended it to all their employes.

The plasterers' difficulty with the Asso-ciated masters has about adjusted itself. The Allegheny journeymen are all at work, and not more than 30 of the men in this city are idle. The masters who are not in the association have profited by the obtuseness

of the others. The Knights of Labor painters have prepared for an opposition from their co-work-ers in the Brotherhood by appointing a gen-eral agent to watch their interests. The rank and file of the Brotherheod discounte-nance entirely the action of the body in an-

nance entirely the automists. tagonizing fellow unionists. F. J. KELLY. PETROLEUM IN WILKINSBURG.

It Oozes Out of a Citizen's Well Through

the Rocks. There is a prospect that Wilkinsburg people will quit using well water, and hereafter depend on some other supply, as the fat is cozing up into their water wells, or one of them, at least. On Thursday Mr.

Samuel Gipfinneg, who lives on Alfred street, near Brace Brothers' laundry, went to his well for water. The fluid smelled strongly, and he investigated and found the pail filled with petro-leum instead of water. At first he refused to believe the evidence of his

s pe any doubt. The result cannot be predicted, but some Wilkinsburg people are disposed to mark up real estate values 100 per cent at

GIVEN A BLACK EYE Work on the Squirrel Hill Electric Road to Begin Again To-Day. THE CITY WAS NOT IN IT AT ALL

Chief Bigelow's Suit to Come, After the Injunction is Settled.

SCHENLEY PARK TO HAVE A BAILROAD

Contractor Martin Frank, with a large force of men, will begin work this morning on the Squirrel Hill Electric Railroad and push it as rapidly as possible to completion. The city was given a black eye yesterday in the injunction suit to restrain the company from laying its tracks. Judge Magee refused to grant the injunction, and the work on the much-talked-of little road will go on as if nothing had happened. After the injunction business is settled the company will come back at Chief Bigelow, of the Department of Public Works, and, as stated in THE DISPATCH over a month ago, will sue him for damages for tearing up the tracks unless he puts the road in the same condition he found it and at no expense to

> the company. Contractor Frank, who is doing the trestle work, was seen yesterday after Judge Ma-gee handed down his decision refusing the injunction, and when asked what he would do, said:

IN SPITE OF DIFFICULTIES.

"Chief Bigelow has been knocked out and the road will be built in spite of all the opposition against it. The Court took the opposition against it. The Court took the right view of the matter and refused the injunction on honest grounds. We will go right ahead with the work and complete the road in time. It was to have been fin-ished on the 28th of this month, but the Court said it would make allowance for all the time lost in case the injunction was relused, and in consequence we did not lose any time by the suit. I will go out in the morning with a force of men and the people the road will benefit will no doubt be giad to see the work begun again. The company is in debt to the extent of a little over \$29,000. Of this

amount it owes Mr. McKibben \$14,000, my claim is about \$8,000, Cambria Iron Com-pany \$4,000 and F. Melber, who did the stone work, about \$1,000. We expect to get our money from the receiver alter the road is completed. There is not any likelihood of being 'stuck,' and we are satisfied to com-plete our contracts. The annoyance we suffered will be paid for. Atter the injunc-tion business is settled by the lawyers, the suit against Chief Bigelow for damages will come up and something done about it."

MUST PUT DOWN THE TRACKS. P. C. Knox, of Knox & Reed, solicitors for the company was seen, and when asked what the next step would be, said: "I was away at the time and do not know the cir-

cumstances surrounding the action of Mr. Bigelow in tearing up the tracks. I supposed there was some agreement between he and Mr. Reed to have the tracks torn up to give a better entrance to Schenley Park for the Fourth of July celebration. The tracks

the Fourth of July celebration. The tracks were taken up and it was supposed they would be put down again, but I do not know that they have been. If they have not, we will insist that the work be done." In his opinion Judge Magee said that there was not, he thought, a matter of dis-pute that the company had obtained from Mrs. Schenley the right of way before her converse to the city of the party property. aris, scheniev the right of way before her conveyance to the city of the park property, and that the company were in possession by work done on the right of way now in dis-pute through the park. To say that the prior right thus obtained was not a valid grant, would be to prematurely pass upon what could not properly be detarmined be. what could not properly be determined be-fore a final hearing. RIGHTS MUST BE RESPECTED.

It may be a disadvantage to park pur-poses to have a railroad constructed, but the prior right shown must be respected un-Operation by Dr. .J

LITTLE BABY'S SKIN PAIN! PAIN! PAIN! And Scalp Covered With Sores. A Wonder-Terrible Suffering of a Lady-Her The Neighbors Thought She Must Die. fully Repid Cure by the Cutioura Remedies.

THE PITTSBURG DISPATCE, SATURDAY, AUGUST

As further evidence of the cures made by the catarrh and dyspepsia specialists of 323 Penn avenue, and of patients who have suffered from disease in its most aggravated form, and after they had exhausted all available means elsewhere, is that of Mrs. Henry Hunziker,

I have used your CUTICURA REMEDIES in two sases where it proved to be successful. The first was in the case of a boy a year and a balf old. His former being completely covered with sorres. I took him to the Massena Sulphur Springs, but he did not improve any. I was then advised to try the CUTICURA REMEDIES, which I did. Me took one and one-half bottles of CUTICURA MEROLYERY, when his skin was as smooth as could be, and is ordar, tuesd the COTICURA Control of the CUTICURA BOAF in washing him. He is now five years of age, and all right. The other cases was a disease of the scalp, which was cured by washing with the CUTICURA BOAF in washing him, the is now five prears of age, and all right. The other cases was a disease of the scalp, which was cured by washing with the CUTICURA BOAF in washing with the CUTICURA.

NEW ADVERTISEMENTS

Itching and Burning Skin I have been afflicted since last March with a skin disease the doctors called eczema. My face was covered with scabs and sores, and the liching and burning were almost unbearable. Seeing your CUTICURA REMEDIES so highly recommended, concluded to give them a trial, using the CUTICURA and CUTICURA SOAP externally and RESOLVENT internaily for four months. I call myself cured, in gratitude for which I make this public state-ment.

MES. C. A. FREDERICK, Broad Brook, Conn.

Why Suffer One Moment

From torturing and disfiguring skin diseases, when a single application of the CUTICHAA HEREDIES will, in the great malority of cases, afford instant relies in the most aronizing of itsching, burning, scaly, crusted, pimply, and blotchy skin, scalp and blood diseases with loss of hair, and point to a speedy, permanent, and economical cure, whe the best physicians and all other remedies fall?

Sold everywhere. Price, CUTIGURA, 50c; SOAP, 25c; RESOLVENT, 81. Prepared by the POTTER DRUG AND CHEMICAL CONFORATION, Boston. Agreend for "How to Cure Skin Diseases," 64 pages, 50 illustrations and 100 testimonials.

BABY'S Skin and Scalp purified and beaulutely pure.

those who did not. A PROMISING OUTLOOK.

Now that the date for starting up the window house fires has been fixed for Sepember 15, preparations for business are noticeable among both workers and manuacturers. The outlook for the year is held to be promising, though in one quarter it is thought that the strike among the carpenters in the West will materially affect trade by curtailing the work on buildings. Stocks are limited, and though manufacturers are credited with desiring an opportunity of advancing prices, it is thought that current rates will hold for a time.

Many factory owners are exercised very considerably over the advance in Phila-delphia gas for the coming blast. Some of them seem to think it would pay them to more out and into cheaper quarters, if such can be obtained, and have instructed agents to look up desirable localities. It was stated yesterday, on reliable authority, that at least eight Southside glass bouses had contracted with the Oliver Gas Company for fuel at \$50 per pot. This will have the double effect of giving them an advantage over their competitors, who are paying the Philadelphia people \$70 and encouraging them to remain.

The green glass houses will nearly all go into operation on the first of September. The scale for the year has been agreed upon, but not until four days had been spent in talking over the matter; two at Cresson and two at Philadelphia. As a result of the conferences an equalization, or what passes for such, of the Eastern and Western rates has been made. The workers asked that the Western prices should be leveled up where necessary to meet Eastern rates, and Eastern prices brought up to the level of Western rates. The manufacturers attempted to make some discrimination, but were obliged to yield. The advance in price will be about 8 per cent.

BEST OF THE BARGAIN. The Eastern men would seem to have the

ONE STEP IS TAKEN.

The Lippincott Company Gets the Contract for Carnegie Library Books.

The sub-committee on Allegheny Public Library met last night and recommended that the contract for the new books be let to the Lippincott Publishing Company, of Philadelphia, for \$8,300. There will be merits. over 8,000 volumes purchased. All week the committee had been at work trying to understand the bids and finally decided the Lippincott this day week.

bid was the lowest. A representative of the Lippincott Company had a conference with the committee last night, at which a number of the estimates were more fully ex-

This action will have to be concurred in by the general committee and then an ordi-nance authorizing the expenditure of the money will have to be passed. Unless a special meeting of Councils is called it will take about two months before the books can

DOUBLE PRICE FOR TWO.

How a Young Man's Innocence Betrayed

His Intentious, for its fine cooking in America, is the Union Club of New York. All manner of the most A young Pittsburger, whose friends accuse him of having serious intentions to delicate dishes are there arranged and pre-pared. It may therefore be of interest to ladies, commit matrimony within a short time was yesterday heard asking the address of a as well as to proprietors of hotels in general, to rood and not too expensive hotel in Chicago. know that the chief steward of the Union Club A well-posted friend, to whom he applied, named one whose rates were \$1 a day for "That \$2 for two, isn't it?" asked the

prospective Benedict. "Exactly," was the quiet response. But the laugh that was at once heard coming from a listening crowd wasn't quite so quiet

Granted Charters at Harrisburg.

Charters were issued yesterday to the Purity Milk Company, of Allegheny, with a capital stock of \$5,000, and the Enterprise Building and Loan Association, of Pittsburg, with a capitalization of \$1,000,000. The directors of the former organization are Adam Hershperger, Adam Hershperger, Jr., of Economy township, Beaver county, and Henry C. Ellison, of Cleveland, O. HEADQUARTERS FOR TRUSSES.

Over One Hundred Kinds From \$1 to \$15

Each. If in need of a truss go where they keep the largest assortment; go where they make them and know bow to adjust trusses and guarantee a fit.

the prior right shown must be respected un-til the merits of the case are fully presented. As to the streets named, the city conferred the right of way by ordinance of February 27, 1889. If the company or receiver by permission of the court assume the risk of completing the read, which may in the end be torn up, he did not think that public in-terests would be seriously affocted. On the contrary present interference with the cou-templated work begun by the receiver would perhaps sacrifice the entire property of the company. In conclusion he reinsed would perhaps sacrifice the entire property of the company. In conclusion he relused the preliminary injunction leaving the case

ELECTRIC NEEDLE OPERATION

This is a purely scientific operation, and in-dorsed by all physicians and surgeons of emi-nence as being the only method in the world by which hair can be destroyed forever. Dr. Van Dyck has had 14 years' experience in this operation, has treated hundreds of cases, and has acquired the skill of an expert in this spe-cialty, and numbers among his patients many of our most prominent ladies. Never fails. Terms reasonable. Book free. Call or address DR. J. VAN DYCK, 502 Penn ave. Pittsburg. The doctor also successfully treats moles, warts, wens, birthmarks, red nose, enlarged veins of the nose and every blemish, discase or discoloration of the skin, complexion, hair or scalp. Office 502 Penn ave. au3-ssu

of Mon, From a Suggestion Made by the Chief Steward of a Club.

Many a wife has been unable to retain rusband at home because her meals have not been such as he enjoyed. As a result, he would perhaps go to some cafe or his club to dime where he was reasonably sure of securing pal-atable food. If the task has been so difficult for the wife, how much more difficult must it be for the steward of the club or cafe, who eaters to so many different tastes, and tastes that are so critical. Perhaps the institution most noted

SCRIBNER'S FOR SEPTEMBER

DIANOS,

Contains the first article upon the cruise of the "White Squadron," written and illustrated by Mr. R. F. Zogbaum, who sailed on the "Chicago" as the representative of SCRIBNER'S MAGAZINE. "The Country House," in the Home Series, by Donald G. Mitchell, an article on Heligoland, both elaborately illustrated, are among the features of an attractive number.
