FORTY-FIFTH YEAR.

Growing Among Independents Against the Candidacy of Delamater.

OUAY'S, BITTER ENEMIES

Think They Have Found a Sure Way to be Rid of Him Forever.

DISSATISFACTION IN THE G. O. P.

Assuming Serious Dimensions in Many Sections of the State.

THE KICKERS PREPARING FOR WORK

According to the statement of an Independent Republican Mr. Delamater, if defeated, will be a yietim of his friend. The revolt among Pennsylvania Republicans is not aimed so much at the party candidate for Governor as at the junior Senater. The names of a number of prominent Republicans throughout the who State are reported to be disaffected.

SPECIAL TELEGRAM TO THE DISPATCH. PHILADELPHIA, August 24.-Said on of the Republican party leaders to a friend in this city one day last week: "We feared a revolt against Delamater at the time of the nomination. It has not materialized yet, however, and I do not believe it will at

A prominent Independent Republican whose name is known all over the State, and who will take an active part in the coming campaig n, said to-day: "It is very easy to explain why the revolt has not manifested itself in an organized form. The leading Republicans who will engage in it have been taking their summer vacation, and have not thought it worth while to lose a month from their usual recreation in order to spend three months in a campaign, the work of which can be done just as effectively in half that time. While they have waited the dissatis action has been growing

QUAY MAKING ENEMIES.

"It is doubtful if they could have done more to increase and intensify this spirit of rebeltion against Quay and his ticket if they had declared themselves the morning after Delamater's nomination than has been done by events which have transpired since that time. Quay not only forced the nomination of Delamater against the protest of thousands of the best Republicans of the State, but he has since antagonized his party in both Senate and House at Washington.

"Instead of making friends he has made everybody mad. From President Harrison down to the Republican members of Congress and the leading Republicans of the State there is a general desire to get rid of years have presented an unbrok-Quay and all he stands for, and there is a en front will divide and begin general concensus of opinion that the to fight among themselves and invite their ensiest way to do it is to beat Quay's candidate for Governor. The bitter feeling which at first was most pronounced in Alle gheny county, and the oil regions now exlends to every section of the State.

WILL VOTE FOR PATTISON. "A resident of the city, who is well versed in State politics, recently made a trip through the northwestern section of the State, visiting Warren, Venango, Crawford and McKean counties, and meeting many of the leading Republicans of that section To name the well-known Republicans with whom he talked and who openly declare their intention to vote for Pattison would fill

a column "Beginning with Delamater's county-Crawford-he visited Titusville, where he found nearly every prominent oil man not identified with the Standard outsroken for Pattison. The list included such wellknown men as S. P. Boyer, ex-Representative B. H. Bates, H. B. Porter, George L. Benton, F. W. Truesdell, of the Sunday World, W. W. Thompson and scores of others, equally prominent and well known. Just across in Venango, E. E. Clapp, the Republican leader of President township, and others, equally well known, were pro nounced in their declarations against Dela mater. In Warren county the dissatisfied Republicans, led by Burgess A. D. Wood, L. T. Barchus, W. W. Schurr and others are numbered by the hunareds.

DISAFFECTION IN M'KEAN.

"In McKean the disaffection is wide spread. Emery's position is already well known. Ex-Congressman W. W. Brown said he was in the oil business and propose to stick to it until after election when aske about politics. Ex-Representative Foster, Major A. C. Hawkins, W. W. Chapman and, in fact, nearly every leading oil operator conversed with who was not in the em ploy of the Standard, declared his intention to vote for Pattison. The gentleman came away satisfied that with or without organigation on the part of the anti-Delamater Republicans, Pattison will surely carry all the Republican oil counties except, possibly, Washington.

"In other portions of the State the Dela mater outlook is equally bad. Sam Losch's kick in Schuylkill, backed as it is by the Pottsville Republican, means the loss of 1,000 or 1,500 votes to the Republican State ticket. In Lebanon the situation is nearly as bad. The bitter Congressional contest between the adherents of Wormer and Ripe taken in connection with Senster Gobin's well-known coolness toward the head of the State ticket, will make hard sledding for Quay and his candidate in this Republican stronghold.

THE QUAKER VOTE. "There are also hundreds of Republicans in Dauphin county who have quietly announced their intention to vote for Pattison. In Chester the situation is still worse for Delamater. The Quaker farmers are not a demonstrative set, and they are not making any noise about it, but these best posted in the intricacles of Chester politics say that 2,500 Republican votes will be cast for Pattison. This disaffection among the Quaker farmers extends to Montgomery and Bucks, in neither of which can Delamater hope for

"In Allegheny this disaffection is known to be very great. The visit of Editor Reed and William Flinn to this city last week has been used for all it was worth to create the impression that the trouble was in process of healing, but it is not. C. L. Magee,

Congressmen Dalzell and State Senator Rutan are all mad, and will continue to be, no matter what may be done. With all the Republican newspapers of Pittaburg, possi-bly, or openly, for Pattison, except the Comfarette, in addition to the disaffec tion of the above-named leaders, Delamates must be possessed of a very hopeful tem-perament if he expects any considerable majority in the State of Allegheny.

WILL STICK TO THE MAJOR. "In the Twenty-fifth Congressional district the friends of Major McDowell in Lawrence and Mercer counties declare they will stand by the Major and vote against Delamater. This means the loss of both Mercer and Lawrence, while the Butler oil men will carry that county for Pattison, leaving Beaver alone to be carried for the State ticket with a reduced majority. A list of 500 Huntingdon county Republicans who will vote for Pattison is in existence. Scores of Republicans in Center and Clinton counties are outspoken for Pattison, while the miners of Clearfield and Jefferson counties are said to be for him almost to a man.

"To offset this widespead disaffection Chairman Andrews hopes to maintain the usual party majorities in Lancaster, Philadelphia and the strong Republican counties of the northern tier. In this he will be disappointed so far as Philadelphia is concerned at least. While a few of the old-time Independents, including Garrett, McKee, McCreary and Field, have been induced to declare for Delamater, the great majority of the reform leaders and voters will vote for Pattison.

MANY NEW RECRUITS.

"To these will be added a long list of busi ness men who have never been identified before with independent movements-mer who have voted the Republican ticket through thick and thin. For every reformer in this city who has put on the Quay collar ten old-time Stalwart Republicans are preparing to put it off, including more than one of the old-time With this condition of things existing in every part of the State, the knowledge of which is now in the possession of the independent leaders, it will not be long until the independent movement on behal of Pattison will assume tangible form.

"A preliminary organization has bee effected, and headquarters will be opened in this city within a few days. A conference is expected to take place soon, the time of which is not made public, at which the details and policy of this campaign will be determined. That it will be vigorous, and that it will enlist the active and outspoker support of thousands of Republicans and the secret sympathy and vest pocket votes of a good many more thousands, is as certain as any event in the 'uture can be."

[SPECIAL TELEGRAM TO THE DISPATCH.] COLUMBIA, S. C., August 24.-On Tuesday pext a convention composed of from 400 to 500 of the leading men of the State will mble in this city. This body will, in all probability, decide whether the white people of the State, who for the past 25 peretofore common political enemy, the olored man, to take a hand. The convention will become possessed of the strong-est anti-Tillmanites from every section of the State. Delamater le Confident of Victory and i Working Hard to Gale It.

PEPECIAL TELEGRAM TO THE DISPATOR. PHILADELPHIA, August 24 .- Senato Delamater arrived in the city this morning. He was apparently in good health, and in the course of a little chat said:

Yes, I am feeling pretty well, although I have had a touch of the neuralgia for the first time in my life. I have been on the go for some weeks, and have been in many sections of the State. My views, hurriedly gathered, as of necessity, are about the same as are those of the people I have met. This is to be a Republican year, which will be shown as the campaign develops. Of course, it promises to be hard develops. Of course, it promises to be hard work, but I enjoy going from place to place and meeting my friends. I do not mind the traveling, as I am accustomed to that. They will keep me busy for the next two weeks. I shall be in Philadelphia all day to-morrow. On Tuesday morning my schedule takes me to Lasdale, where the Bucks-Montgomery Congressional Convention is to be held. At 8 o'clock of the same evening I am due at the Anti-Cobden Club, in this city. Then I must make a long jump away out to Uniontown to attend the soldiers' reunion and county fair. On Thursday I go to the Grangers' picnic at Williams' Grove, and on Friday I must be at Troy, in Bradford county, where there is a meeting of the Farmers' Club and a fair. I close the week on Saturday at Ambler, Mont-

-Fatni Saloon Fight. CINCINNATI, August 24.-Within four hours from 9 o'clock last night to 1 o'clock this morning there were in Cincinnati and its immediate outskirts three murders and two murderous assaults, one at least of which will terminate the victim's life and nake the assailant a murderer. At 9 'clock in the western part of the city n Van Horn alley, near Cutter street, Bob Burley had his throat cut from ear to ear by Charles White. Both were colored abovers in a Broadway tobacco house, and they lived in the same house. The murder was instantaneous, and the quarrel was over a 85 account. Both were drunk. The weapon was a razor. White was arrested.

It was on Abigail street, near Broadway,
last Tuesday night that Ed McCartby, a
pareled convict from the penilentiary had his pistol taken from him and was badly beaten by a crowd he attacked. He provided himself with a revolver and patroled the alleys and streets in that neighborhood till nearly 10 o'clock last night. He asked Tim Flaherty and Charles Nedderman to walk across the street to where he was stand-ing. Flaherty went, followed by Nedder-man. McCarty fired, Flaherty dodged, and Nedderman fell dead, shot in the forehead.

McCarty ran, and, meeting Charley Mitch-ell near Broadway, shot him in the throat, en escaped. He has not been arrested at this writing. At 12:30 this morning at Trautman's station on the Big Four road, just outside the city limits, in a saloon, Gus Raube shot George Ogden in bed, using both barrels of a shotgun. Raube is imprisoned as a mur-derer, but he avers the shooting was accidental. He was Ogden's room-mate, and the deed was done in their bedroom. Hills, James Gregory cut Richard Redd, colored tenant of Gregory's, in the head with a batchet in a quarrel about rent. It thought Redd will die.

A STAGE ROBBER CAUGHT

After Having Lived in an Odor of Respect billity for Several Years. PERCIAL TELEGRAM TO THE DISPATCH.

BUTTE, MONT., August 24 .- In the latter part of November 1884, the Butte and Helena stage coach was held up in a canyon between Boulder and Jefferson City by eight masked men, and to-day the first and only arrest of the highwaymen was made by United States Marshal Furay, in the person of Charles Warfield, who is a wellknown citizen, and who has lived in and about Butte since the robbery and for a long time previous. The hold-up created great excitement at the time.

The passengers on the stage were Judge S S. Wade, Massens Bultard, Thomas H. Carter, Colonel Johnson, W. E. Cullen and Warren Toole. The distinguished gentlemen were compelled to walk up the hill with their hands held high in the air. The holdup was not for booty, but to release Con Murphy and several of his gang, who were supposed to be on the stage in custody and on their way to Boulder for trial. Murphy was afterward lynched in Helena. W. C. Cameron, at that time Sheriff of Meagher county, anticipating frouble, had come upon the scene about five minutes after the stoppuge of the stage. He was unexpectedly confronted by eight men lying in ambush and requested to hold up his hands. This he refused to do whereupon they opened fire and shot him through the abdomen. inflicting severe ds, but Cameron recovered and is now

living in Butte. When arrested Warfield made no resistance. He is a native of St. Joseph, Mo., about 45 years of age, has a wife and one child, and is well connected. Marshal Furay says he has a clear case against Warfield and will arrest other members of the gang.

CONGRESS TO HAVE A BUSY WEEK.

Great Quantity of Important Legislation t be Considered.

TARDY JUSTICE TO DR. J. H. BAXTER, lutting Off the Pockets in the Blouses of Uncle Sum's

The United States is making arrangements to exchange meteorological observa-tions with different points in Europe. A long programme has been prepared for the week in Congress. Dr. J. H. Baxter has been appointed Surgeon General of the Brany.

IMPECIAL TELEGRAM TO THE DISPATCH.I WASHINGTON, August 24.—Ensign E.E. Hayden, of the Hydrographic Office, has just returned from Europe. having spent 11 days in Hamburg and Bremen. His mission was to confer with German and Netherland weather people, who are further advanced in meteorological work than any other contipental observers. His reception by the Directors of the Deutsche Stewart, an institution at Hamburg, was very flattering. He brought back a great many publications of that office in exchange for American reports and documents, which appear to be appre-

sisted abroad. The Hamburg institution has a reputation mong weather experts, but, like other European meteorological bureaus, its labors are more of a theoretical and cursory scientific character than the work of our own reather service.

South Atlantic observation. Both of these foreign services possess means of information not yet accorded the United States Hydrographic Office, whose volunteer reports necessarily come irregularly.

It has long been the desire of the Naval Service to have a monthly filed chart of the South Atlantic and west coast of South America, and the observations dufing the Passescale's calings expedition proved that Pensacola's eclipse expedition proved that the plan was feasible. The foreign offices have information requisite for such a chart, but their delays in the publication renders information, in conjunction with such data as the United States hydrographic office can furnish, will be of obvious importance to the great South American and Indian com-

The agitation has already begun abroad and sions have been received from nearly all European Governments of the necessity of some unity of action. Convenient funds will probably come from the Trans-Atlantic steamship lines, all of which are desirous to

ology.

The director of the Deutsche Stewart has urged the Congress Committee to name Washington as the place of the next meeting. This committee is composed of Messra Scott and Wild, and they are empowered to revivify the Congress. The details of these two schemes will be completed by corre-

WASHINGTON, August 24.-The order business for the remainder of the session, as arranged by the Republican committee of the Senate, provides that the consideration of the tariff bill shall be completed without interruption, except appropriation bills and conference reports. There are two conference reports expected to be presented during the week—one on the irrigation survey provisions of the sundry civil bill, and the other one the land grant forfeiture bill. One day, possibly two, will be occupied in the discussion and disposition of these conference reports. Senator Aldrich, in charge of the tariff bill, will, before the Senate meets to morrow endeavor fore the Senate meets to-morrow, endeavor to reach an agreement with the Democratic Senators as to the date on which voting shall begin on the bill and amendments. He will then ask unanimous consent to have voting begin on the date agreed upon. He will also ask that debate during the last three days, shall be conducted. last three days shall be conducted under the five-minute rule. The Democrats de-sire that the six hours next preceding the final vote on the bill shall be occupied in general debate, to be equally divided be-tween the two sides. Under this arrange-

tween the two sides. Under this arrangement, if it is carried out, Mr. Carlisle will close for the Democrats and Mr. Aldrich for the Republicans.

The programme for the week's proceedings in the House has already been agreed upon by that body as to part of the time, and the Rules Committee will probably provide for the disposition of the remainder. Monday would be District day in the ordinary course of business, but it is possible that the river and barbor bill will be again put forward to the exclusion of District matters, Tuesday and Wednesday will be occupied by the Committee on Agriculture with the option bill, and Thursday and Saturday are to be assigned to the Committee on Labor, which has the eight-hour bill and other labor measures ready for action. Friday will thus be given up to the consideration of private bills, conference reports, or possibly to the river and harbor bill it it is not out of the way by that day.

AN ACT OF TARDY JUSTICE. Dr. J. H. Bexter Nominated for Burgeo

(FROM A STAFF CORRESPONDENT.) WASHINGTON, August 24.-The nomina tion of Dr. Jededian H. Baxter to be Surgeon General of the Army, was an act of tardy justice to a faithful and capable official, which President Harrison ought to have been glad of the opportunity to perform. Among the minor results of the fatal shot which Guiteau fired on the 2nd of July, 1881, was the destruction of Dr. Bax-ter's prospects of becoming Surgeon General.

President Garfield only the day before he was shot had promised to send Dr. Baxter's name to the Senste. He knew the doctor's fitness for the place and recognized the jus-tice of the claims which his friends made that he should receive the appropriment the of the claims which his friends made that he should receive the appointment. He had been Mr. Garfield's family physician and would have had charge of him during his long suffering from Guiteau's bullet had not Dr. Bliss reached the patient first after the shooting and jusisted on continuing, he and Baxter almost coming to

blows over the matter at the White House.

President Arthur, owing to some personal feeling, declined to fulfill the promise made by his predecessor.

The appointment gives great satisfaction here and has been commended throughout the whole country. There seems to be no deubt of the doctor's confirmation.

HALARIRD'S HOBBY For Pockets in Soldiers' Blonnes No Longer

Goes in the Army.

ECIAL TELEGRAM TO THE DISPATOR. WASHINGTON, August 24 .- One of the hobbies of the recently retired Quarter-master General of the Army, General Halsbird, was the "comfort" of the enlisted men, and his service was distinguished by many changes in uniforms and clothing. He early conceived the idea of having "patch" pockets placed on the soldiers' blouses, and four such receptacles were provided on this garment. Officers of the Department did not favor the change. It was objected to on account of the unsoldierly appearance created by the stuffed pockets of a tightly-buttoned blouse. General Halabird was pleased to see the general use of his idea by the enlisted men, and would not enterfain any suggestion of a return to the pocketless jacket. The opposition to the blouse in-creased and General Halabird's subordinates joined in the feeling of revulsion. It was determined to abandon the unmilitary coat and the opportunity came last week.

As soon as General Halabird retired an order having the desired effect was pre-pared, and the new Quartermaster General was depended upon to approve the document in the course of routine action. This has now been done, and hereafter the en-listed men will find other repositories for

eatables and scrap iron, with which it was represented the Halabird pockets were filled. BROKER RUSSELL'S GHOST

Appears Three Hours After His Death to Chairmaster Reeves.

ISPECIAL TELEGRAM TO THE DISPATOR.1 SAN FRANCISCO, August 24.—On Friday noon Edwin Russell, a prominent real estate broker, who was at one time President of the British Bank at Portland, Ore., died of apoplexy. Three hours later his ghost appeared before Harry W. Reeves, leader of St. Luke's choir, of which Russell was a member. Reeves is a son of Sims Reeves, the famous English tenor. It was while he was arranging music for Sunday's service that the apparition appeared. Reeves relates his ex-perience as follows:

perience as follows:

I went to my room and lay down on a lounge, and then, by an impulse I cannot account for, I walked to the door. The head of the stairway was somewhat dimly lighted, but not so dimly but what I could at once see what appeared to be the figure of Russell. It was so real, so life-like, that I at once stepped forward and stretched out my hand and was about to speak some words of welcome. The figure seemed to have a roll of music in one hand and the other was over its face, but it was Russell's image. As i advanced to the head of the stairway the figure seemed to turn as if about to descend and faded into air.

I remember trying to speak to it, but my tongue clung to the roof of my mouth. Then I fell against the wall and gasped out, "Oh, my God." My sister and niece, with other folks, came up and my niece said: "Uncle Heory, what is the matter?" I went on to explain what it was, but was so scared I could hardly speak. My niece said: "Don't you know Russell is dead?" Well, that flabbergastered me. It only made matters worse, and I nearly fainted.

CATTLE SHIP PIRATES, They Rob the Vessel's Cargo and Are

Captain Hamilton Perry, of the Richmond Hill, one of the very few native Americans in the British service, did not stand any nonsense from the cattlemen as the captain of the Chicago did. Just as soon as he discovered that the cargo had been touched he started an investigation, and had no difficulty in finding out who were the thieves, as both of them were pretty drank. He imprisoned them between decks, and when the ship came up to quarantine he telegraphed that he wanted two cattlemen arrested. The police boat patrol took them off and they were locked up in the Church street station. They said they were James Preston, aged 24, and Barney Coyle, aged 28, of this city. The men who stole ale from the Chicago's cargo have been extradited and will be tried in England. The same fate is probably in store for Pres-

PEPECIAL TELEGRAM TO THE DISPATOR. NEW YORK, August 24.-It was as cold to-day as it has ever been in this city in the month of Angust, at least as far back as the Signal Service records run. At 6 o'clock this morning, according to Sergeant Dunn's official thermometer the temperature was 51°. The Signal Service records here begin on January 1, 1871. The ther-mometer registered \$1° on August 24, 1885. The next lowest August temperature

was 55°, August 27, 1873.

The cold spell was the usual drop in the thermometer which, for some mysterious reason that meteorology has not yet fathomed, almost invariably takes place at the same time in August each year. The fall in the temperature was about a day abead of time this year, it generalty takes place on August 25. It marks the first touch of fall. The main temperature of the August cold spell is 61 degrees. This fall in the temperature this year as stated is below the average, It was cold enough for a frost in Northern New York and New England. SUPREME COUNCIL DELIBERATIONS. The Besult of Which May Possibly be Given to th Public To-Day.

The Central Council of the Knights of Labor at Chicago yesterday adopted a preamble and resolutions urging that steps be taken to authorize the Secretary of War to seize and operate the Vanderbilt lines. The result of the Terre Haute conference may be made public to-day.

CHICAGO, August 24.-At a meeting of he Central Council, Knights of Labor, today a committee was appointed to solicit funds for the aid of the New York Central strikers and the following resolutions adopted unanimously:

whereas. The tollers on the Vanderbilt system of railroads have been goaded into a strike as a means of asserting their rights to combine for their common good; and,

DERBILT LINES OF RAILWAY. Mr. Webb Contradicts Statements Made by Powderly-The Executive Officers Leave for Albany-Expectation That a Gen-

eral Strike Will be Ordered. NEW YORK, August 24 .- The usual Sur day quietude prevailed around the Grand Central depot to-day. The officials of the railroad were at their posts as usual, but everyone declared ,that no trouble was anticipated. Vice President Webb is of the opinion that the Terre Haute convention will do little or nothing in support of the action of the Knights of Labor, and that the strike, if there is one, will quietly be proved a failure.

Relating to Mr. Powderly's latest manifesto, which was published in this morning's papers, Mr. Webb said that all the statements bearing on the management of the road were untrue. To-morrow he will investigate the charges made by the men whose affidavits are attached to Mr. Pow-derly's manifesto, and will make public the

them?" was asked.
"None whatever," was the reply. "We have never expected such addition of strength to our cause. We are prepared to win our cause without it. We do expect and know that when the word is given for the general strike fully 9,000 men in the Vanderbilt system will walk out, and we know that these men, switchmen, firemen and yardmen, cannot be replaced under any circumstances. And this is not all. We expect the strike to prevail equally among other roads."

THE LEADERS IN COUNCIL. SEVERAL DAYS MAY ELAPSE BEFORE **DECISION IS KNOWN**

Mr. Sargent Commends Powderly's Attitude and Speaks of Dr. Depew's Advocacy of Labor Organizations-Opposed to Strike on Principle.

TERRE HAUTE, August 24.-Nothing suthoritative will be given out as to the deliberations of the Supreme Council before to-morrow at the earliest. It is among the probabilities that the decision of the coun cil may not be reached for several days. This Sunday saw no convening of the council proper. This does not mean that the agencies were not at work. The council last night put into the hands of Eugene M. Debs, Grand Secretary of the Brother-hood of Firemen, P. H. Morrissey, Vice Grand Master of the Brotherhood of Train-men, and John Downey, Vice Grand Mas-ter of the Switchmen's Mutual Aid Asso-ciation, the deliberations of the council, and they will prepare certain propositions to be reported to the council which will de-fine the action of the supreme body. The committee has been in session since 8 o'clock last evening.

A correspondent called at Mr. Sargent's house to-day. Mr. Sargent was as frank as usual. He had carefully read the letter of Mr. Powderly to Mr. Webb, sent out last While President Sargent would not While President Sargent would not any opinion as to the action he would on the report of the committee, yet he expressed himself about Mr. Powde missive. He said: "I admire Mr. I missive. He said: "I admire Mr. I

derly's stand. Powderly puts Webb in position he belongs, and which, when the public thoroughly understands it, will convince it that Mr. Webb is wrong. Mr. Webb's position is directly opposite to that taken by Mr. Depew, his superior officer. Mr. Depew has always advocated the organization of labor."

In proof of the latter assertion, Mr. Sargar the opposite that the opposite to that taken by Mr. Depew has always and the opposite to that taken by Mr. Depew has always advocated the opposite to that taken by Mr. Depew has always advocated the opposite to that taken by Mr. Depew has always advocated the opposite to that taken by Mr. Depew has always advocated the organization of labor."

gent gave the correspondent numerous ex-tracts from speeches delivered by Mr. De-pew before the engineers and firemen, wherein the speaker repeatedly commended the organization of workingmen "for pro-tection, for charity, sobriety and industry." Mr. Sargent said that Mr. Depew went on

record as advocating the combining of labor for its own protection, and added:

A GENERAL TIE-UP POSSIBLE. Doubttel Prospect of a Settlement of

Strike at the Stock Yards. CHICAGO, August 24.-The strike of the firemen and engineers of the Union Stock Yards Switching Association is still on, with a prospect of a decided aggravation of the difficulties. After the conference of yesterday the strikers finally decided to submit, as a compromise a demand for 18 cents per hour for firemen and 29 cents per hour for engineers, the latter also to be paid for Sunday work in caring for engines. This was somewhat less than their first demand. This was communicated to the roads of the Switching Association with the expectation that the latter would return an answer to the strikers to-day. This expecta-tion, however, has not been fulfilled and the men have to-day receive no com-munication or intimation of the intention of the association. This has made the strikers restless and they have arrived at the con-clusion that their demand is to be rejected. sidered out of the employ of the association. The roads will fill their places with new men

employed by the respective roads, instead of the association.

This evening the strikers have been in conference with the officers of the organizations of the engineers, firemen and switch-men, and it is their hope that the latter will espouse their cause and tie up every road entering the stock yards in case an attempt is made to employ non-union men to-mor row to take the place of the strikers.
