tinuing his trip through Ireland."

Rev. C. E. Locke Argues That Christianity

Making Rapid Progress. Rev. Charles Edward Locke, pastor of the Smithfield Street Methodist Episcopal Church, delivered an eloquent discourse las evening on the subject, "Is the World Getting Better ?" Rev. Mr. Locke selected for his text I. Kings, xix., 11: "Go forth and stand upon the mountains." He argued and stand upon the mountains." He argued that civilization went hand in hand with evangelical Christianity. Said the rev-erend gentleman: "There is not a civilized nation on the earth where the banner of Christianity waves, in which slavery exists. Prior to Christian civilization man was but the vassel of super-stition, but the world is getting better, be-cause of the aggressiveness of the Christian church. The trouble has been caused by a lot of pessimists, who prophesy evil, and

Mr. Henry Mackin, of 65 Federal street, Allegheny, tells a very interesting story of lot of pessimists, who prophesy evil, and who preduct that Christianity is losing his travels abroad. Mr. Mackin, Charles who predict that Christianity is losing ground. This is not true," continued Mr. Locke. "In 1840 there was one Christian out of every 14 persons in the United States. In 1890 there is one Chris-tian for F. McKenna, Esq., the well-known attorney, Bishop Phelan and several local priests left about three months ago for a trip through Europe. Arriving at Queenstown, the party separated, Bishop Phelan and his tian for every four and one-half persons in the U nited States, thus showing that evanco-workers going to Rome and Messre. gelical Christianity is numerically increas Mackin and McKenna starting for a tour o

ing." The burthen of the speaker's argument was to show that Christianity was being rapidly spread throughout all heathen lands, and he added: "All heathen religions except Mohammedanism are surely losing their grip." From this he reasons that the world is getting Ireland and the Continent. In conversation with a DISPATCH reporter yesterday, Mr. Mackin said: "I think the past three months were the most enjoyable I ever spent in my life-and I believe I get as much pleasure out of this world as the average mortal, too. Mr. McKenna and I visbetter, and that by the year 1900 there wil ited all the points of interest in Ireland, England and the Continent, not be an island in the ses or a part of the globs where the people will not have had an opportunity to embrace the Christian faith. The subject of Mr. Locke's dis-course next Sunday will be "Some Danger Signals." and I was only sorry when business called me home. Mr. McKenna is a splendid traveling companion, and we met other Americans, residing abroad, who seemed to

## PASSENGERS SEVERELY INJURED.

### Another of Those Accidents at the Citizens Traction Power House.

many interesting seenes in and around that An accident occurred yesterday on the city by the sea, we left for Cork, Blarney Citizens' Traction line that resulted in sev-Castle and Glengora, from which place we eral persons being slightly injured and one quite severely. The accident occurred about 1 o'clock in the afternoon, and was went to Bantry Bay, a beautiful summer resort, which is well patronized by the wealthier people of Old Ireland, and many caused by the grip of car No. 107 running come there from other countries. From this point a trip was made to Kenmara, and into the vault at the power house on Penn then to the Lakes of Killarney, celebrated avenue, between Thirty-third and Thirtyfourth streets. The car was crowded with in history and song for their great beauty. passengers, and a number were thrown vio-lently from their seats to the floor of the car by the force of the shock. Among these were Mrs. Paisley, who lives in the Eighteenth ward. She was cut in several places about the face and head. Mist File Durawas was threaded incansible. The waters are filled with the choicest fish, and game runs wild in great abundance.

"We then went to Limerick and Dublin, from which place we visited various points Miss Ella Dwyer was knocked insensible, and, it is thought, is internally injured. She was removed to Dr. Clarke's office, in the North of Ireland, returning to Dublin, where we separated, Mr. McKenna going to She was removed to Dr. Clarke's office, where consciousness was restored, and she was then driven in a buggy to her home on Butter street, near the Sharpsburg bridge. Her condition is considered as serious. The injuries of Mra. Paisley were dressed in a drugstore. A number of other passengers were slightly cut and bruised, but their names could not be ascertained. Glasgow and other places in Scotland, and I went to Whitehaven and then to London, where we again met. After visiting the public buildings in London and surroundings we left for Paris, in which city we spent 14 days. Here we met a gentleman from Latrobe named O'Brien, who is resid-

## OFFICIAL- PITTSBURG.

N ORDINANCE-ESTABLISHING THE

## ing Satisfactorily.

A meeting of representatives from the Building Trades was held in the Trades headquarters yesterday, to further arrangements for a general turnout on this day week-Labor Day. Everything seems to be going on smoothly for a proper observance of the day, and the indications are that of the day, and the indications are that Pittsburg will, at length, show other eities that she has a due appreciation of the holi-day. An interesting feature yesterday of the arrangements made was the pres-ence in the hall of several ladies represent-ing the Progressive Union, the Southside organization of young women. It is under-stood that the union will take active par-ticipation in the day's proceedings, and

vessel to be heated. Brother Thaddeus is of opinion that his

prominent part in connection with the gas bills of the future.

### LOOKING TO LABOR DAY.

## Arrangements for a Big Ture Oat Progress

THREE MONTHS FILLED WITH PLEASURE

of colored men who were singers from "away back," and during the dull hours of the Sabbath evening they held a jubilee service of song in their cells. They sang all the church hymns and the rich melody floating out on Diamond alley caused the hardened passers-by to stop and listen, thinking a new church had began doing business in the vicinity. Thirty-eight canes were disposed of, eight of them going to the workhouse. Frank Pfarr and William Forsythe had been ar-rested for fighting on Sixth avenue over the possession of Mary Smith. The three were arrested. Pfarr and the lady were given 30 days each and Forsythe was released. James Gallagher had been having a big time on Webster avenue when Officer Henry Myers came along toid the officer Henry A few thousand dollars is standing in the way of what might be the general adoption by the public of a simple but efficacious device for effecting a saving in the use of natural gas. This device is one invented by Brother Thaddens, of the Redempiorist order, on Liberty street, some time since, and for which letters patent have been obtained. A local patent promoter, who heard of the device, has offered \$40,000 for

the rights, but the Fathers think the sum in-Brother Thaddeus was more than six months working on his gas-saving device before being satisfied that he had found a tion secured him 30 days to the workhouse. John Moses, Sarah O'Hara and Jame McGuire, common disorderlies, were each given 30 days, and the balance of the cases were given the usual light fines and penalmeans of effecting his purpose, viz.: that of obtaining the maximum of heat with the minimum consumption of the fluid. He ties. The hearing before Magistrate McKenna,

was induced to the inquiry by the amount of the gas bills paid by his superiors for heating the church. He had his device at-tached to the furnace during the winter, and tence. Of these four were charged with drunkenness and were fined slightly. The other two were Mr. and Mrs. James Milton, reduced the amount of gas consumed so very much, without lessening the temperature of the church, as to considerably astonish his superiors, and, in no slight measure, himself. He found he was able to do for 2 for disorderly conduct. The arrest was made cents what had hitherto cost him about 14 cents; in other words, he claims to have effected a saving of 85 per cent in his gas bills.

of Devices for Saving It.

This device consists of an iron box, made either cylindrically or square, having the top side perforated with holes and the bottom side closed, with the exception of a three-inch round hole in the center. An ordinary gas pipe, with a burner of peculiar shape, is introduced to within two or two and a half inches of the aperture. The flow of gas to the jet is regulated by an ordinary cock, and when ignited is carried up and into the cylinder or box by means of the air, which has free access through the aperture. Here complete combustion takes place, with the result of obtaining the greatest amount of heat possible from the gas. The burning gas passes through the perforated plate, and is then brought in contact with the boiler or

device can be adjusted to other purposes than that of domestic heating-his experi-ments so far have been confined to this -and is awaiting an opportunity of test-ing its appl' - bility to manufacturing uses. Now that the prices of natural gas seems to be going "way up," this and other gas-saving devices may be expected to play a

She was a dapper little tailor-made girl. and as she walked up Fifth avenue yesterday afternoon, holding her silk umbrella in the latest fashion and gaily chatting with a male companion, she was the cynosure of all eyes, and many young dudes standing at the postoffice corner would have given any-

The young lady's escort smiled, as if in answer to something, and then called the "shiner" over to him. The young arab was tickled at the prospect of getting a job, but he almost fell over in his astoniahment as the tailor-made girl stuck out her foot. The lat ter was encased in a neat-fitting boot, which

for disorderly conduct. The arrest was made at the instigation of several neighbors, who alleged that Mr. and Mrs. Milton were fighting, drinking and noisy. Both were sent to the workhouse for 30 days. Mayor Wyman had 40 cases to dispose of. Harry Jackson, a young man was found hid under a bed at the residence of George R. Bothwell on Washington street. He was held over for further investigation. Alf. Johnson went to his home on Saturday Johnson went to his home on Saturday night and amused himself by firing pies at his wife and threw the pleplates out of the window. Thirty days to the workhouse was the sentance. William Mostkey was drunk on Saturday night and wanted East street pedestrians to give him some instrumen with which to kill himself. He will spen

who were arrested Saturday night at thei

ten days in jail to think over the matter. George Laird and Frances Cumings were found in the parks at an unreasonable hour. They got 30 days each to the workhouse.

## SHE KISSED THE SHINER.

How a Tailor-Made Girl Paid Him for Shining Her Boots.

# thing to exchange places with the young man at her side. The couple crossed Fifth avenue, and at the Penusylvania Railroad

ing in Paris, completing a course of civil engineering and drawing. Mr. O'Brien exerted himself to show us everything of

# that the celebration of the 14th of July, called Fete Day,' took place. This is held in commemoration of the fall of the Bastile, and 'is celebrated with great eclat by the French people. The city was beautifully decorated, and in the evening the illuminations were gor-geous. The President reviewed the army during the day, which is not a trifling mat-ter, when one thinks of the size of that in-stitution in France. From Paris we went to Lake Geneva, Switzerland, stopping on the way at several places in the south of ticket office stopped. The object of their remarks seemed to be a young and none-too-clean newsy and bootblack. The young lady's escort smiled, as if in

NOTICE TO CONTRACTORS, Sealed property RACTORS,

o'clock P. M., for the following STREET IMPROVEMENTS: Grading and paving Railroad street with firebrick from Twelfth avenue to Power's line. Grading and paving Mulberry alley with fire-brick from Fifth to Sixth avenues. Plans and specifications of the above work can be seen and blanks for bidding and all in-formation can be had at the Engineer's office on and after August 21. Each proposal must be accompanied by a bond in double the amount of the proposal, and probated befor's a notary public, and said pro-posals must be handed in on or before the above specified time. Unless said requirements are carried out the bid will n 't be considered. The Committee on Streets reserve the right to reject any or all proposals. the way at several places in the south of France. Here we stayed two or three days, viewing the beautiful' sights around this beautiful and historic lake. From here we went to Bern, and then to Interlaken, a

make a characteristic display on floats. This idea is in line with similar demonstrations in Eastern cities, where the young women engaged in the tailoring and other ply their trade on properly equiped floats during the progress of the | the latter had a chance to get away.

The building trades have determined to do their duty by the day, and it remains for craftsmen of other trades to take as active a an hour before he came back. The young part in the arrangements to insure a thor-oughly successful demonstration. So far all the organizations invited to take part have not signified their intentions, so that it cannot be said whether a general turnout of the organizations will ensue. The day is a legal holiday, and so very few trades have any excuse for holding aloof. Contingents from outside towns will swell the number in parade, and it is expected that probably 10,000 or 15,000 people will march CENSION.

### THE REPUBLICAN LABOR LEAGUE.

Platform Set Forth by the New Party-Its President Here.

President A. A. Carlton, of the recentlyformed "Republican Labor League," if at present sojourning at the Home Hotel. He is here to make a survey of the field and ascertain how local sentiment is apt to travel regarding the league. He says he is very well satisfied with the prospects of the movement, and excepts to establish a branch office here within a short time.

The league claims to be a wing or branch of the Republican party, and believes that it will in time crystalize the sentiment of labor organizations, on the questions which it is agit ating for redress, into such a solid and weighty mass as must count for a considerable factor with aspirants for political honors. Its platform declares for reform for ballot; the maintenance of a protective tariff; no surplus of labor, even if immigration be restricted to prevent it; trusts and combinations must not encroach upon the rights of the people; a demand for legislation to improve the condition of the wage-workers; progress and improvement and equal rights, equal burdens and equa privileges for all.

### METAL TIES ON TRIAL.

One Set is Said to Last as Long as Seven Wood.

The Standard Metal Tie and Constructio Company, of New York City, has finished laying a section of the Delaware and Hudson roadbed, near Ballston Spa, with steel ties. The section is three-quarters of a mile in length, the ties weighing about 90 pounds each, and are two feet apart. About 1,500 ties were used. On the track parallel with the steel tie section just laid the Delaware and Hudson Company has substituted new Georgia pine ties for the old ones, in order to test the comparative difference between wooden and metal ties. There are more than 400,000,000 ties in use

in the United States. There is an annual demand for 20,000,000 for the construction of new roads; about 60,000,000 are used every year for renewals, the average life being seven years. The steel tie is said to cost about \$3. One set is calculated to last as long as seven of wood, thus making the dif-ference much in favor of the metalic.

### FOR SLEEPLESSNESS Use Horsford's Acid Phosphate.

Dr. C. E. Dake, Belleville, Ill., says: "I have found it, and it alone, to be capable of produc-ing a sweet and natural sleep in cases of in-somnia from overwork of the brain, which so often occurs in active professional and business
