## TEACHERS TO TEACH.

The Task Set for the Instructors at the County Institute.

FOUR HUNDRED PEDAGOGUES HERE

Interesting Exercises of the Opening Day's Two Sessions.

AN ALUMNI ASSOCIATION FOUNDED

Such an intellectual feast as was enjoyed vesterday, the first day of the Allegheny County Teachers' Institute, at the High School building, argues well for the success of the remainder of the session. There were about 400 teachers enrolled after the Institute formally opened, at 9:30 o'clock in the morning, with County Superintendent Hamilton in the chair. In a short address Superintendent Hamilton welcomed the teachers, and impressed upon them the fact that as they received a salary for attending the Institute, regular attendance and strict attention to the address was expected of them, and would prove very beneficial to

interesting assemblage, the afternoon session was opened. The singing, under the leadership of Prof. W. S. Weeden, with Miss Ida Boyle, of Braddock, as planist, was a very pleasing feature, and, with a prayer by Rev. Dr. Boyle, preceded the ad-

the New England Journal of Education, and without doubt the best-posted man in the United States on school matters, was the first gentleman to occupy the platform. The first gentleman to occupy the platform. The subject under consideration was "Pedagogics," and in a highly entertaining manner Dr. Winship instructed the teachers on the first hour, the first day, the first week, and the first month of school.

The fact that castor oil, as vile a medicine as was ever discovered, has so long held its own as a laxative, is because, until Hamburg Figs were discovered, has so long held its own as a laxative, is because, until Hamburg Figs were discovered, has so long held its own as a laxative, is because, until Hamburg Figs and like them. 25 cents. Dose one Fig. At all druggists. Mack Drug Co., TTSu WHAT A TEACHER MUST KNOW.

The points upon which he elaborated were, that a teacher must know herself, her pupil and her subject, in order to be successful in her work. Dr. Winship is a much larger man mentally than he is physicially, and is one of the most inde-

fatigable educators in the Union. He will remain during the entire week, and will lecture on the various physical subjects.

Prof. James W. Caughlin, ex-Superintendent of Public Schools in Luzerne county, and a very prominent educational man in the State, succeeded Dr. Winship, and imparted any amount of good instruction, in a happy manner, by the use of numerous amusing incidents sandwiched in with the more serious remarks. Prof. Caughlin, in his address, advocated paying more atten-tion to the formation of character in pupils, than is usually done in the public schools. He said he thought the development and formation of character one of the elements of practical education, but one that was often overlooked. He dilated upon the philosophy of habit, and advised the teachers to instill into the young, suscepti-ble minds, the high moral ideas that, in the

age of reflection, would result in a strong character, and fit them for an independent Prof. Caughlin made some very radical assertions on this point, and substantiated them by clever examples that were forceful, il oftentimes amusing. Respectful obe-dience, promptness, and honesty should be elements of careful training, and would re-sult in unmistakable good breeding, accord-ing to Prof. Caughlin, and were of infinitely more importance than the successful coach-ing of any number of rules of grammar or

FORMED AN ASSOCIATION.

At the conclusion of Prof. Caughlin's re marks the institute adjourned until 9:30 this morning, when Prof. L. B. Noss, Principal of the California State Normal School, and one of the most progressive and wideawake educational men in this section of the country, will deliver an address on the 'Is German Education Better Than Our Own?" which will practically be the result of personal investigation of the public school system in Germany during a residence of several months there last season An interesting event that followed closely

the adjournment or the institute, vesterda afternoon, was the formation of an Alumni Association of the California State Norma School, with which Prot. Noss and Mrs. Noss are connected. One of the High School recitation rooms was thronged with the graduates and students of the Normal School, all auxious to band themselves together for mutual improvement and loyalty to their Alma Mater. Prof. Dewar, Principal of the Millvale School, occupied the chair, and Mr. J. C. Kendall, of Home-Coursin, of McKeesport, Secretary, and Miss Effie Johnston, of KcKeesport, Treasurer. An executive committee, appointed by the chairman, will formulate a constitution and present it at the next meeting, which will be held some time during the week and will also make arrangements for a reunion and banquet to be held next season. The gentlemen already mentioned and Dr. D. X. Snyder, Principal of the Indiana State Normal School, and a strong, intel-lectual man, will comprise the list of in-structors for the institute, which promises to

be an unusually interesting one. SLEEPLESSNESS, nervous prostration, nervous dyspepsia, dullness, blues, cured by Dr. Miles Nervine. Samples free at Jos.

\$1-Until September 1, 1898-83 56. 12 cabinet photos, \$1, or a life-size crayon portrait, \$2 50. Aufrecht's Elite Gallery, 516 Market st., Pitteburg. Bring children. A FIREMAN ARRESTED.

He Had in His Possession a Valuable Photo graphic Lens. John McGillick, a fireman, stationed at No. 3 house on Seventh avenue, was arrested last night but afterwards released by Inspector McAleese. About five weeks ago a photographer's lens, valued at between \$300 and \$400 was reported as being stolen from

and \$400 was reported as being stolen from
the Elite gallery, on Market street, and
Detectives Robinson and Fitzgerald were
put on the case.

After considerable work they found that
McGillick had the glass, and yesterday
afternoon, Inspector McAleese telephoned
for him to report at police headquarters. He
telephoned for himagain in the evening and
McGillick appeared minus the lens. The
Inspector ordered him locked up, but released him on the promise of giving up the leased him on the promise of giving up the property. McGillick claims to have found the glass in the street, and says he advertised for an owner. The Inspector says something sensational will develop out of the case before he is through with it.

## MORE GAS TROUBLES.

The Allegheny Company Wants the City to Pay for What it Has Used. Yesterday morning the Allegheny Gas Company officials were hunting about Allegheny City Hall for some one to pay for the gas that is being burned in the street lamps

them.

The appointment of the various committees occupied most of the time during the morning session, but at 1:30, with the hall of the High School building filled even to the galleries with a highly intellectual and interesting assemblage, the afternoon session but not a session but not a session but not a session burned in the street lamps since the light towers were turned on. When the towers were first put in use the Gas Committee notified the company that the use of the gas would be discontinued, but when the electric lights failed the gas was used again and the company is trying to find out whom they are to ask for pay.

The lake roads are short of cars, and the coal men fear that several large contracts will have to go unfillied before navigation closes. The Lake Eric is said to lack 100 dresses,
Dr. A. E. Winship, of Buston, editor of trade, and the Baltimore and Ohio and the Pittsburg and Western are behind from 250 to 300 cars per day.
