W. M. LAIRD'S

Mammoth Shoe Stores,

there is no more comparison than between heaven and hell. VERY STRONG TALK.

Mr. Henderson—Then put it on the market as such. Don't sneak. Be a man.

Mr. Turner, of New York, referred to the case of Anderson and Haves, who had been present all day protecting honorable pairs, yet were named in the resolution. He did not know how many of the other gentlemen named were in a like position. Yet this "windy breeze from the prairies, with his cork screw gestures" attempted to hold over members of the House the knowt of public scorn and indignation. ONE WELL PRODUCING OVER HALF

Scorn and indignation.

From time to time Republican members called for a vote, but Mr. Turner refused to yield the floor, and announcing that he intended to talk for at least an hour if his voice held out, continued to arraign the chairman of the Committee on Appropriations, who, he said, was but posing before the press gallery. He would, he said, if it were in order, advert to the star chamber proceedings by which this bill had been forced upon the House. Altogether Mr. Turner managed to consume the three-quarters of an hour he had undertaken to fill out, and when he had concluded amidst the applause of the Democratic side, on motion of Mr. Brosins the House adjourned. soorn and indignation. TARIFF TINKERS

IN THE SENATE SPEND THE DAY CON SIDERING THE BILL.

mb Wants Reciprocity With Canada-A Reduction in the Duty on Watches-Som Changes in the Wool Schedule-Tobacco

to Come Next. WASHINGTON, August 26 .- The Senate made another stagger at the tariff bill to-day. The duty on lead ore and lead dross remains at 11/2 cents, but Mr. Plumb will offer later an amendment which embodies the idea of reciprocity with Canada contained in the bill presented to the House by Representative Butterworth. No change was made in the next two paragraphs, lead in pigs 2 cents a pound, and lead in sheets

to the absence of a quorum. Mr. Baker, of 21/2 cents a pound. New York, who was interested in a Senate The paragraph relating to metallic minerbill on the Speaker's table, argued that al substances in a crude state, not especially useful article of furniture must be conprovided for, went over without action. Mr. sidered before any other business was at-Blair spoke against the recommendation of tended to. About this time Messrs. Blount, the Finance Committee striking out the 35 Cameron, Buchapan, Adams, Hatch and per cent duty on mica. The paragraph Crisp chipped in, and after a long discussion placing a duty of 3 cents a pound on crude the Speaker ruled that a vote on the lard nickel was stricken out. The duty on nickel and nickel oxide was reduced to 15 cents a pound. The duty on watches was reduced to 25 per cent ad valorem. The duty on zinc in blocks was reduced from 1% cents Mr. Mason, of Illinois, appealed from the decision. The vote on sustaining the de-

to 13/2 cents per pound.

Schedule D, wood and manufactures of wood, having been reached, Mr. McPherson

wood, having been reached, Mr. McPherson wished to offer a substitute for the whole schedule; but he reserved it until the committee amendments should be disposed of.

The duty on sawed boards, etc., was amended from 35 per ceut to 10 per cent, and imposing a duty of 20 per cent on veneers not specially provided for.

Paragraph 218 (pickets and palings) was amended, on motion of Mr. Aldrich, by reducing the duty from 20 per cent to 10 per cent, and paragraph 219 by reducing the duty from 35 cents to 20 cents per thousand.

Mr. Aldrich moved to amend paragraph opponents of the lard bill, in order to con-A motion to dispense with further proceedings was agreed to-yeas, 127; nays, 21, and the vote recurred on sustaining the decision of the Speaker, but the quorum had vanished and the vote resulted: Yeas, 120; Mr. Aldrich moved to amend paragraph mays, 14-the clerk being unable to note a 221, which puts a duty of 10 per cent on quorum. Another call of the House was chair cane, manufactured but not made into chair cane, manufactured but not made into finished articles, by striking out the words "manufactured but not made into finished articles," and inserting in lieu of them the words "or reeds, whether wrought or manu-One hundred and fifty-nine members having responded to their names, and 19 members having reported their presence to the clerk, the Speaker pro tem (Mr. Payson) factured from rattans or reeds, and whether round, square or any other shape." Agreed

amounced that there was a quorum present,
Mr. Morgan, of Mississippi, moved an adjournment, stating that he did so in good
faith, believing that it was possible to come Schedule E, relating to sugar, having been reached, Mr. Aldrich said that the commit-tee proposed to let that schedule be passed to some arrangement in regard to the lard bitl. The motion to adjourn was lost-yeas, over informally for the present, so that schedule F, relating to tobacco and its man-ufactures would be the first thing to come

up to-morrow. PREVENTING ELECTION FRAUDS

nts to the Revised Statutes Pr

resolution directing the Sergeant at Arms to notify absent members to return to Wash-ington without delay and revoking all leaves of absence except those granted on account of illness. The resolution recites posed to Congress. WASHINGTON, August 26,-Repres that twice to-day the legislative proceedings were interrupted by want of a quorum; that tive E. B. Taylor, of Ohio, from the Comswered to their names under the calls, but did not respond on the regular calls, many of them leaving the hall so that they could

The following are the members named in the resolutions: Andrew, Baker, Beckwith, the resolutions: Andrew, Baker, Beckwith, Boatner, Carleton, Catchings, Chipman, Coleman, Covert, Crain, Crisp, Cummings, Enloe, Flower, Grimes, Hayes, Kinsey, Lawler, Lehlbach, Lester (Ga.), McClammy, Moore (Texas), Morgan, Mutchler, O'Ferrall, Osborne, Pughley, Rains, Robertson, Rowland, Seney, Shively, Skinner, Spooner, Tillman, Turner (Ga.), Turner (N. Y.), Wallace, Washington, Wheeler (Ala), Whiting, Wilkinson, Wilcox and Williams (Illinois).

Mesars. Blount, Crain, Wheeler, Osborne, Hatch and others protested against the resolution, saying that it was an unjust arraignment of every member mentioned in it, and its adoption would be a censure of those

members. There was great con usion in the House. Fully a dozen members were on their feet demanding recognition on a question of personal privilege, and their efforts to secure such recognition were heartily seconded by their friends.

the Senate to-day. Mr. Plumb gave a final kick, saying that

Finally Mr. Crain was recognized and said: "This is nothing but a species of bull-dozing, the object being to threaten us in or-der to compel us to vote. I believe if we had adopted this line of procedure when the so-called Lodge bill was before the House it there was something behind the matter which was not perfectly apparent to the public. He thought it was time the curtain was rung down and the lights put out. An agreement had been made by which Democratic Senators were to forego their opposition—or, at all events, their debating opposition—to the tariff bill, which had been described as so utterly and abhorrently objec-TOOK EVERY PRECAUTION.

"I even took my hat and umbrella away."

tionable; and, of course, he presumed that that was in order that something else might be had which was desirable to them.

NO PENSIONS FOR WIDOWS.

A Minority Report Opposing Grants to the Wives of Two Brave Generals.

WASHINGTON, August 26.-Representa tive Martin, of Indiana, from the Committee on Invalid Pensions, to-day presented to the House minority reports in opposition to the bills granting pensions of \$2,000 per year to the widows of Generals McClellan House, and that was to count the votes of men who actually had not voted. It was to-

DAILY OIL OUTPUT

Of the Wildwood Region Now Estimated at 1,580 Barrels,

Reviews of Work in Progress at Westview and Jack's Run.

NAM VENTURES IN SEVERAL PIELDS

(SPECIAL TELEGRAM TO THE DISPATCH.) WILDWOOD, August 26.-Within the next week the Wildwood territory will be pretty well defined. The Byrne No. 2, Simpson, has by no means added glory to the field; and the completion of this well has virtually put a damper on the southeast ortion of the pool. The venture has been cheduled as a ten-barrel pumper, although those directly interested claim the well will produce double this amount of eil. The accelerating influence of glycerine may have a salutary effect upon the adamantine rock, but the chances are that no great improvement in the well will sesult from the procedure. The McCaslin well is still hanging fire, and this morning had the nisfortune to lose a bit in the hole, misfortune to lose a bit in the hole, for which fishing is now in progress. The well is about 30 feet in the sand and showing no oil. Shay & Co., on the Funk farm, are on top the sand, and by to-morrow will be far enough in to tell what kind of a well it will make. The venture is located only 40 or 50 feet from the Roth Oil Company's 125-barrel well, on the Bryant farm, which makes the chances of getting a good well look rosy.

At present there are 12 wells completed which produce 1,580 barrels a day. It is an important fact that 840 barrels of the 1,580 is alone the production of Whitesell No. 2 leaving 740 barrels as the production of the remaining 11 wells, an average of a little more then 67 barrels to the well.

PRESENT PRODUCTION.

PRESENT PRODUCTION. Following is a list of the wells complete

Greenlee, Forst & Co. are doing quite a stroke of work. They are drilling seven or eight wells on the Rolshouse. No. 2 is drilling at 1,800 feet, and by the last of the week will find the sand. No. 3 is down 1,700 feet; No. 4, 1,550; No. 5, 1,100; No. 6, 850; No. 7, 700; the Icepond well, 1,50; and Nos. 8 and 9 are rig building. Griffith & Co., on the Whitesell, are drilling No. 3 at 1,160 feet; No. 4, 525, and No. 5 is down 500 feet. On the Rolshouse they are drilling Nos. 2 and 3 at 1,645 feet and 870 feet respectively, and on the Smith are drilling Nos. 1 and 2 at 1,130, and 1,000 feet in the order named. The Sand Company are down 1,000 in No. 1 on the Ringheiser, and on the Grubbs farm have one well down 1,250 feet.

The Forest Oil Company's No. 1 on the Young farm have reached a depth of 1,200 feet, while the Both Oil Company on the Harbush are down 1,676 feet in No. 1 and 1,700 feet in No. 2, while No. 3 has been shut down, awaiting results, and No. 4 is down 865 feet. They are also drilling on a well on the Kritser, which has reached 1,000 feet, Gibson & Co. are getting along nicely on the Scott farm at 1,000 feet, and Hite & Brennen, on the Rolshouse, are down 1,000 feet in No. 2. Barnsdall & Co. are moving along in good shape on the Willison, and are drilling three wells—Nos. 2 and 3 at 900 feet each, and No. 4 at 675 feet. The same parties are drilling two more wells on the Ziegenheim; one is 1,600 feet and the other 800 feet. Coast & Co. have Nos. 1 and two drilling in the Rolshouse, which are down 1,700 feet and 1,500 feet respectively.

UNFINISHED WELLS.

Gaily & Co. are down 900 feet with their well on the Bille, and the Smith Farm Oil Company, on the Smith property, are drilling two wells, neither of which will be classed in the completed list on the first of the month. Dunn & Phillips, on the same farm, will most likely find the sand in No. 1 by the last of the month, while No. 2 is drilling at 700 feet and No. 3 is a

rig up. Tishel & Co., on the Rolsho

while No. 2 is drilling at 700 feet and No. 3 is a rig np.
Tisbel & Co., on the Rolshouse, are drilling on the Bouse a bill amending section 5,515 Revised Statutes, relating to the misconduct of officers of election and custodians of ballots at Congressional elections.

The object of the amendment, as explained in the accompanying report, is to prevent election frauds, which it is said, under the existing law, may be committed at will, and for any violation of which the United States is powerless to protect the rights of citizens who may be candidates for Congress. It provides a penalty for any person having the custody of ballots and returns after an election has been held, who shall alter such returns or erase the name of any candidate for Representative or delegate in Congress from any of the ballots in his custody or who in any way alters or defaces the same with intent to affect the result of any such eletion.

WASHINGTON, August 26.—Mr. Sanders' resolution closing the general debate on the tariff bill on September 3, voting to commence on September 8, was agreed to by the Senate to-day.

Mr. Plumb paye a final kick, saving that

Good Wells at Jack's Rus. JACK'S RUN-Thayer & Co.'s No. 1, on the Frank Burger farm, got another pay to-day, and the well is showing for a 75-barrel well. Miller & Co., on the Thomas lot, to-morrow or Miller & Co., on the Thomas lot, to-morrow or next day, and Patterson & Co., on the Patterson farm, are drilling in the sand. The venture is good for 50 barrels a day. Dimmick & Boyer packed No. 1 Jones yesterday, which is now flowing 25 barrels a day. Attleman & Co., on the Mrs. Burger farm, have completed No. 2 rig, and the Neille Oil Company also have completed a rig on the Beaver farm. Thayer & Co., on the Frank Burger farm, have their No. 2 rig completed, and so have the Heine Oil Company, on the Heine, completed No. 3 rig. These parties will have the drill bouncing in a few days.

Callery Junction. CALLERY-Black & Haslett, on the Dunbar lease, are in the sand, but not deep enough to indicate the caliber of the well. A quarter of a indicate the caliber of the well. A quarter of a mile southwest from Callery, the same parties on the William Cashdollar expect to get the sand; it is located for a good well. Captain Rodgers is cleaning out his well, located on a town lot, which will materially improve its production. The Hensley well, on the Grove Dunbar, is making 50 barrels a day, and the Breakneck Oil Company's well, on the Maburger farm, has picked up from 8 barrels to 40 barrels a day. The Methodist Oil Company's well, opposite the station, which has been pumping from the first pay, is being drilled deepet.

Hayaville Operations. HAYSVILLE-Guffey & Queene are drilling

Warm Weather

and in the weakened condition of the system, diseases arising from impure blood are liable to appear. To gain strength, to overcome disease and to purify, vitalize and enrich the blood take Hood's Saraparilla, which is peculiarly adapt ed to the needs of the body at this season.

Hood's Sarsaparilla

100 Doses One Dollar

NEW CUMBERLAND—The Porter Oil Company's well, No. 4, on the Freshwaite farm, in the Turkeyfoot field, is making 50 barrels a day, and also has a flow of gas, the pressure of which exceeds 300 pounds. A number of drilling wells in that field are being supplied with fuel from it. It is the only gasser in that vicinity. JEWELERS, 37 FIFTH AVENUE.

In Washington County.

WASHINGTON, PA.—Gibson & Giler have purchased the half interest of C. D. Robbins in three wells on Dr. Wilson's farm, south of this place. The No. 2 was a dry hole, and they have pulled the casing and abandoned it. No. 3 is pumping three and a half inches a day. No. 4 has never been tubed, but is standing full of oil. It will be shot, tubed and pumped. Excitement in North Carolina.

GREENSBORO, N. C.-The oil indications of

he Phoenix farm continue to grow stronger, he shaft was sunk several feet deeper to-day, he excitement is unabated. Butler County Developments.

BUTLER—The Hundred Foot Oil Company's No. 1, on the Jacob Rose farm, on the eastern edge of the 109-foot field, was completed last night. It had 65 feet of white sand, considerable gas and some oil. It will be torpedoed to morrow. Haslett, Reed & Co.'s No. 5, on the Humphrey farm, got the first pay streak to-day at the depth of 16 feet in the 109-foot, and made several strong flows. It is showing for as good a well as there is on the lease. No. 6 is down 809 feet, and the rig is up for No. 2. Leidecker & Co. rigged up their gas well on the Finner farm to-day. It would have made a moderate producer, but the gas was thought to have been more valuable. When tested it showed a pressure of 300 pounds in four minutes. Smith & Co.'s well, on the McKinney farm, will be due in a few days, ift is a considerable distance east of the present developments. Fitley & Co.'s No. 1, on the Kammerer farm, three miles east of Millerstown, tapped the pay streak to-day, and is making eight barrels per hour. It is 200 rods northeast of the same company's well on the Wiles farm.

Belmont. A special from Belmont states that Johnso shot his No. I this morning, and the well start od off at a 500-barrel per day rate. H. M'C. LOOK AT the Voting and Prize Essay page of this issue of THE DISPATCH.
