Cured in 8 Weeks. One of the great-

est Cures Ever Performed by the

GUTICURA REMEDIES. It described my case so eventeen years old, and one day in January, 1878, I read an account in the Tribuse of your curicura REMEDIES. It described my case so exactly, that I thought, as a last resort, to give them a trial. When I first applied them I was all raw and bleeding, from scratching myself, but I went asieep almost immediately, something I had not done for years, the effect was so soothing. In about two weeks I could stand straight, but not walk, I was so weak; but my sores were nearly well. As near as I can judge, the CUTICURA REMEDIES cared me in about six to eight weeks, and up to this date (i. e., from January, 1879, to January, 1879) I have not been sick in any way, or have had the least signs of the disease reappearing on me.

No. 1 of our series of autumn styles, which we introduced one week ago, has made an instantaneous and unmistakable hit. No. 2 hopes to meet with an equally flattering reception, which by virtue of its many merits it certainly deserves. We have dubbed our latest candidate for public favor "The Duquesne," a name exceedingly familiar to the decizency of Western Pennsylvania, and we feel confident that the popularity of the name will extend to this really splendid specimen of the hatter's skill. As will be observed, the wise band which adorns this Derby is quite a departure from the conventional narrow bands used heretofore: this change alone (leaving out the other good points) will be welcomed by many with positive pleasure. By all means, examine The Duquesne" before making a selection.

OF THE NEW YORK CLOAK MAKERS

NEW ADVERTISEMENTS.

Has caused a general advance in the prices of Cloaks and Wrapsespecially in Plush garments, for which so enormous a demand is predicted. All the fashion authorities unite in saying that Plush garments will be more extensively worn this winter than at any previous season. This fact, coupled with the strike, has made plush goods a scarce article in the market, hence the advanced prices.

Fortunately, we bought our Plushes in the month of May-when prices were away down. Several large invoices of these garments

have just been received by us and placed on sale at our usual modest profits. This means that, if you are shrewd to appreciate the situation, and buy your Plush Sacque or Jacket, etc., now, you will actually pay a lower price for some than the dealers who are now in the market.

Every Lady intending to buy a Plush Garment this winter, should take advantage of this early opportunity. Those who haven't the necessary cash just at present can pay a small deposit. We will then lay the selected garment in our C. O. D. Package Room until called for.

Now, bear well in mind, this offering consists only of the latest and most fashionable styles in English Seal Plush Jackets, Sacques, Wraps, etc. Another thing: You may laugh at our advertising Plush Garments August, but the ladies who'll buy 'em will laugh last—and best—and

A POLITICAL PICNIC.

Seven Thousand Honest Grangers Assemble at Williams Grove and Are Advised to

ELECT FARMERS TO CONGRESS.

What Agriculturists Have Done and What Remains for Them to Do in the Way of Reform.

THE GRIEVOUS BURDEN OF TAXATION

Too Largely Borne by the Hard-Working Holder Farm Property.

SPECIAL TELEGRAM TO THE DISPATCH.1 WILLIAMS GROVE, PA., August 26. About 7,000 people visited the Grangers' picnic to-day, indicating as great a numerical success as that of last year. The machinery exhibit is not near as large as that at Mt. Gretna, but is greater than the display of last year, according to Manager Thomas' calculations. The grove is full of the large last of the large classes of corporate and personal property had, within recent years, been exempt from taxation by special legislation, contrary to the express provisions of sections 1, 2 and 3 of the Constitution. A summary of these facts showed that less than \$1,900,000,000 real estate paid

Thomas' calculations. The grove is full of catch-penny shows and venders of cheap jewelry and other articles of suspicious value. Among the amusements to-day was a pigeon shoot by the West End Gun Club, of Harrisburg.

Grange oratory is one of the distinguishing features of the inter-State pienic, and it was begun to-day in downright earnest. At 2 o'clock a large delegation, headed by a band of music, marched to the Auditorium, where Manager Thomas formally opened the exhibition in a few congratulatory rethe exhibtion in a few congratulatory remarks. He was followed by Worthy Master Rhone, of the State Grange, on "The Rise and Progress of the Grange." After giving a history of it and the Williams Grove pienic, he stated that the

sale of oleomargarine and kindred stuffs as

"We have, it is true," said Mr. Rhone, "not succeeded in getting silver remonetized, but we have taken a long step in that direction, and the passage of a measure such as we ask is not far in the future. Our tax bill did not become a law, but we suc-ceeded in so awakening public sentiment in our favor that to-day both political parties promise to heed our request the coming win-ter. We have, through our influence, doubled the appropriations for public schools, and relieved in this way, the farmers of the State from the payment of a million dollars taxes. But our work is not done; the grip of corporation power is by no

FIGHTING THE GIANTS. "Fertile in resources, fruit/ul in schemes and determined in action, it has armed itself with all its powers, not only to resist any further demands of the people, but to nulliry the work which has already been done. Indeed, it is not improbable that the work urged forward by the Grange, by which it is sought to harness these great corporations under law and make them the servants of the State and not its masters, has had the effect of hastening the consolidations and combination which, for years, have been growing with such frightful rapidity. This rapid concentration of wealth and and determined in action, it has armed power can suggest nothing but the deepes prebodings to people, who, in the nature of things, must be dependent on its will.
Thorough organization of the grangers is
urged in order to cope with the tormidable
power of corporations by which these giants
which threaten to devour us can be changed

into tractable servants of great value." Master Rhone then proceeded to give the chief causes for the existing agricultural de-

pression and suggested remedies. A TALK ON TABIFF. He said: "With partisan papers it is all tariff to the exclusion of other non-partisan reasons, so that it is hard to reach the farmer and direct his attention to other causes.

If our Government puts manufactured woolens on the free list prices will go down, as these goods can be bought cheaper in for-eign markets; just so, if wool is put on the free list it will be lower in price, as it can be bought cheaper abroad. But then, in that case, we would send our money abroad,

giving foreign labor and manufacturers employment instead of American labor, without they take our farm products in ex-But the Government also needs revenues. There are now about \$160,000,000 collected in impert duties. It we abolish these duties, then we must collect this amount by a direct then we must collect this amount by a direct internal revenue tax upon farm products, the same as we now do from the tobacco growers. What is done for other industries should be done for farmers, and I sincerely believe will be done if they unitedly ask and use their influence as other classes do. But let us look beyond the tariff and see what else can be done to better the condition of the farmers.

RELIEF FOR FARMERS.

Revise the tax laws of our State, as proposed by the State Grange, and you will save upward of \$5,000,000 to the farmers of Pennsylvania annually and over \$9,000,000 to all real estate owners in town and coun-try. Distribute this \$5,000,000 annually among farmers and it will help them to the extent of their school tax each. Prevent the wholesale importation of diseased meats and adulterated lards and butter from the combines and slaughter houses of the West, and require all cattle shipped from without the State to be inspected on hoof before slaughtering here, and let the State in every way encourage the growing and feed-ing of cattle on small farms by removing all Saxes_and other burdens, so as to enable small farmers to supply the local markets. If you cannot prevent these importations of embalmed meat, put a high license on the parties selling it. This would place our ex-port agricultural products on an equality with those of other countries. Let Congress is the volume of converse. with those of other countries. Let Congress fax the volume of currency at not less than 43 per capifa, and the farmers will take he money and pay their mortgages by the percased prices they will realize for their froducts and keep the mills at work by buying farm machinery, cotton, woolen and silk fabrics.

CHEAP GOVERNMENT LOANS.

Should there not be enough gold and silver to raise the volume of currency to \$43 per capita, refund interest-bearing demand per capita, retund interest-bearing demand notes. To get them out let the Government ioan them, at 1 per cent, to the farmer on mortgaged security, the same as it now loans bank currency to the banks. The farmers can stand Senator Stanford's idea. They had better make him Secretary of the Treasury and the farmers pase his bill. Put the tariffdown on what the farmer buys and our barley higher, and put the duty up so high on the beer that it can't come here; we

"If the farmers have clean-out ideas or public questions, and go into their political conventions and offer their resolutions, they will go into the party platform and commit the party; then put the men in nomination that will carry out your ideas. You have competent farmers enough to send to the Fourthpage of this turus.

STATE TAXATION.

Senator Geraid Brown, who is also State Lecturer of the Pennsylvania Grange, discussed the subject of State taxation at length. He said the necessity of uniting in one supreme effort for the correction of the unequal and unjust system of taxation prevailing in Pennsylvania had greatly increased by reason of the depressed agricultural interests. What could be tolerated in prosperons times could not now be endured when the owners of real estate were not only compelled to pay their own tax, but a large majority of that levied on other property holders. Real estate was taxed 17 mills, but the holder of city and borough property could and did recoup himself to a large degree by making up for the discrimination against real estate by commanding correspondingly higher rents. The farmer had no power to raise the price of his products, and so repay him for increased tax. It was evident, therefore, that the holder of farm property was at a great disadvantage as compared with the holder of city or borough property in regard to this tax. As to other property had a filled a state of the property and the state of the state of the property was at a great disadvantage as compared with the holder of city or borough property in regard to this tax. city or borough property in regard to this tax. As to other property but 3 mills were levied on it by any authority, and that only

SHROUDED IN MYSTERY. Charges of Incendiarism-Pireman Fatally Hurt by Falling Walls-Other Buildings Threntened-Panic of Hotel Guests-Thousands Lost-Many Offices Ruined. CHICAGO, August 26 .- At 3:30 this morning flames issued from the small smoking room under the stage of McVicker's Thea ter, on Madison street, and shortly after the building was one great blaze. The fire made terrible headway, and in a few minutes the flames were leaping from every window. The firemen directed their efforts to the front part of the building, where a number of offices are located, but nearly every

ber of offices are located, but nearly every occupant suffered heavy losses. The flames burst with such fury from the rear that the Windsor Hotel was threatened and the guests greatly alarmed, but the firemen guarded the hotel. Panic also seized the guests of the Saratoga Hotel and Bennett House, but the flames did not reach either of these places. of these places, Seven men belonging to the fire insurance patrol No. I were in the auditorium when the roof fell in with a crab. The managers say the theater will be rebuilt inside of 30 days. The cause of the fire is buried in the ashes, and the truth will probably never be known. The watchman states that he discovered a pile of burning rags beneath the stage at 2 o'clock and extinguished it. Later he discovered another blaze in the front basement, but the hand that ignited the flames is un-

Union Glassblowers Persecuted by the Men Who Took Their Jobs.

ARRESTED ON TRIVIAL CHARGES By Non-Union Workmen Without Any Authority or Warrant.

DAMAGE SUITS TO BE ENTERED AT ONCE

PERCIAL THERORAM TO THE DISPATOR. GLASSBORO, N. J., August 26,-The union glassblowers, since Whitney Bros., of this city, and Moon Bros., of Clayton, hired non-union men to take their places last year, are subjected to petty persecutions and annoyances at the hands of the new-cemers. Life has been made almost un-bearable for them by the tactics of the nonunionists, and they have secured ex-Judge John W. Wescott, of Camden, to make an

effort to correct the evils. The persecutions are of a tyrannical nature and require the co-operation of a justice of the peace. This aid has been readily procured and in addition at Glassboro at least a couple of non-unionists act as informers and watch the actions of union men. Should the slightest possible ground be found for the arrest of a union man he is taken into custody without a warrant, is hauled before the justice and with scarcely the formality of hearing, a fine of \$5, \$10 or \$20, to suit the caprice of the justice, is imposed, and in nearly all cases, paid. In the cases in which it has not been paid the

sequence the popular sympathy is strongly with them.

A few weeks ago the case occurred on which Judge Wescott has taken the initial step. Charles Brown, a popular union man, whose character for good behavior and law abiding is unimpeachable, was passing the house of Alexander G. Thoburn, a non-union workman, when in some way not definitely known, an exchange of words ensued between them in which Brown is said, by Thoburn to have called him a "gray-haired scab." On the day following John Ragan and Edward Munyan met Brown on the street, and without a warrant took the young man ward Munyan met Brown on the street, and without a warrant took the young man into custody in no geatle way. At the same time an empty pistol was taken from him with more haste than ceremony. The young man was taken before the Justice, Henry Pierce, who fined him, \$10 and costs. Brown at once paid the money to escape being sent to jail and was released.

CAME BACK AT THEM. Judge Wescott opened his guns on the non-unionists by causing the arrest of Ragan and Munyan, who have furnished bail on a charge of assault and battery on Brown. The papers are now in course of preparation for the institution of a suit for damages against Ragan, Munyan and Pierce for false arrest.

The union men declare that they have

The union men declare that they have stood the outrages long enough and are determined to put an end to them. With this object to view Judge Wescott has mapped out a course of proceedings for them and will look after their inferests.
