OYSTERS WILL BE OYSTERS.

The Season Opens on Monday, but Prices

Will be Steep.

It is said by dealers that "Oysters will be

oysters" this year. The season will open on

the usual date, but the product is yearly get-

ting scarcer, and it is argued that, for the

good of all, both dealers and consumers,

if consumption were prevented by law for

several years inevitable permanently high prices might be staved off for a decade at least. The breeding grounds are yearly be-ing infringed upon, and Maryland has found

it necessary to enact very stringent laws to regulate the taking. It is said that con-sumers will pay at least 25 per cent more for

oysters this year than in the past.

In Maryland dredging can only be prosecuted between October 15 and April 1.

The tonging season opens on Monday next, and closes April 20, instead of April 25, as

A joint meeting of the Allegheny Com

committees to examine was Brown's tele-

as there is more than the normal amount of electricity, or enough to become dangerous, sending it into a ground wire. After the appliance had been explained by the agent, it was referred to Chief Jones to examine

and report to the committees.

TO HELP THE POOR.

Mayor Gourley Wants a Special Fund to Take Care of All Needy and Indigent Strangers.

COUNCILMANIC ACTION WANTED.

Claims Made That the Department of Charities Will Not Assist Any but Pittsburg Residents.

OTHER OFFICIALS APPROVE THE IDEA.

Numerous Cases Cited Where People Have Been Burdens on the Bureau of Police.

Mayor Gourley has a scheme for the establishment of a fund to temporarily take charge of all objects of charity that do not come strictly speaking within the limits of the Department of Public Charities. He wants a fund created by Councils for the purpose of relieving the cases of persons who do not belong in the city, and it is probable that something will be done about it next year, when the appropriations are

The attention of Mayor Gourley was ealled to the matter by the case of Mrs. McCormick, who came here from Pomeroy, O., looking for her husband. She spent Monday night in a miserable place on Liberty street and the following day applied to Mayor Gourley for assistance. She was without money and friends and after failing to find her husband, wanted to be sent home again. She wept bitterly in the Mayor's office and between her heartrending sobs, said the Department of Charities had refused to do anything for her. She was hungry, and there was nothing else to do but make an effort to do something for

JUST A TRIFLE FRIGID,

Mayor Gourley then wrote a letter to Chief Elliot, asking him to do something for her. When the letter arrived at the Department of Charities, and while being read by Chief Elliot, icicles seemed to form and hang pendant from the side of the letter. Of course the chilly feeling between the Mayor and Chief had nothing to do with the case, but the woman was turned away. She again applied at Mayor Gourley's office, and seemed to be desperate. Mayor Gourley then took her to Controller Morrow and asked the latter to intercede with the head of the Department of Charities. The Controller wrote a letter, and also obtained the signature of William Flinn to the petition. The woman, armed with the letter from Messrs. Morrow and Flinn, again appeared at the chief's office. This time some attention was paid to the letter and the woman furnished with transportation to her home.

In cases of this kind it is not supposed that the Department of Charities should do anything, but the men in the office rarely turn a worthy case away. The taxes levied to support the department are for the maintenance of Pittsburg's poor, and not strangers. In speaking of the scheme yesterday, Mayor Gourley said:

A HEAVY INDIVIDUAL TAX.

"There ought to be some method by which every deserving poor person is helped along, no matter whether they reside in the city or come here from another town. Every week I have two or three applicants for aid who tell me that the Department of Charities will do nothing for them. There is nothing for me to do then but turn them away, or give them money out of my own pocket. I do not think city officials should be made keep up these people, but the city should do it. I can recall many cases where people have applied to the Department of Charities and have been turned away. When they come here I cannot ask them why they come, but try to do what I can to relieve them. When a man is starving it is not the time to ask him why he hadn't studied the question of economy to such an extent that he could live without eating. The only thing to do is to feed him, and the sooner it is done the

"Very often in such cases I have sent the people to Chief Brown with a note asking him to take care of them. Then they hecome a burden on the Police Bureau, and show the advantages of a city hospital. We have had any number of women cared for in the Central station, who should never have been sent there, but were turned away from the Department of Charities. I see nothing in the law that will prevent Councils from making

A SPECIAL APPROPRIATION

each year to cover just such emergency cases. I do not think it would cost more than from \$500 to \$1,000 per year, and hope to see something done about it next year, when the appropriations are made. A city the size of Pittsburg should certainly take care of all the cases of distress that come within her gates. When people become stranded here they should be helped along."

Chief Brown, of the Department of Publie Safety, said: "For some time I have wanted just such an institution as Mayor Gourley speaks of. I think it would be a blessing, and see no reason why such a fund should not be established. We have one woman in the Central station now who is costing the Police Bureau 75 cents a day and from other than a humane standpoint I do not see any reason why we should be compelled to keep her. She is a stranger, and is such a case that the Department of Charities does not want. We could not allow the woman to starve in the streets, and took her in. I would favor a kind of ersons could be taken care of until their friends are heard from. I am heartily in favor of the scheme, and hope it will bear but I do not begrudge what little I give. Nevertheless I do not see why I should be compelled to go down in my pocket for money to assist poor people when it is the duty of the city to do it."

A LEGAL POINT INVOLVED.

Controller Morrow said: "It would be a most excellent thing if it can be done, al though I am not so sure that Councils have the power to use the public money for such a purpose. The law may not say anything against it, but the question is, does it say anything in favor of such a move? The acts Assembly gives cities certain powers, and we cannot overstep our rights. I would like to see such a fund and do not think it

would have to be very large."

When the reporter mentioned the idea to Chief Elliot, the latter listened until Mayor Gourley was mentioned. He then turned on his heel and said he had nothing to say to Mayor Gourley's scheme. The cold air whistled through the windows as he gave the door a bang and disappeared into his private office. The clerks at the department stated that they try to take care of all cases

reas, whether they belonged in the not. Nearly every case of people away, if examined, they said would d unworthy.

The fuse will be applied to the politica skyrocket on September 13, and a boom will be given the Republican candidate. Whether the aforesaid rocket will carry the boom of the Meadville Senator out of sight or not is a question that cannot be answered now. If he isn't elected it will not be because the Republicans of the county did not "leg" enough for him.

A meeting of the Campaign Committee of the Allegheny County Republican Committee was held yesterday in the old Montooth headquarters, at the corner of Fifth avenue and Wood street, which has been fitted up again and will be used by the County Committee. Chairman William Flinn presided and Chief J. O. Brown was secretary. The following members were present: Walter Lyon, S. D. Warmcastle, S. P. Conner, Dr. D. G. Foster, of Crafton,

S. P. Conner, Dr. D. G. Foster, of Crafton, William German, of McKeesport, J. A. Gilliland, of Allegheny, and George Miller, City Water Assessor. It was decided to open the campaign with a demonstration and mass meeting in one of the theaters Saturday evening, September 13.

A city member wanted to open it with prayer and a monkey wrench, saying both would be needed by the Republican candidate. The meeting will be addressed by Adjutant General Hastings, Speaker Thomas Reed, of the House of Representatives, and United States Senator Ingalls. These gentlemen have not yet been asked to be present, but it is stated that there will be no trouble securing them, and it was decided no trouble securing them, and it was decided to bill them anyhow.

ANNIE JONES AGAIN.

The Giri Who Saw the Man in Miss Douglass' Yard in the Central Station-Other Young Ladies Behind the Bars Repenting Their Sins.

Annie Jones, whose testimony was damaging to Eddie Myers in the recent Douglass murder case, and who was the only im-portant witness the prosecution had against Myers, figured in another criminal case last night. She was taken out of a disorderly house on Second avenue in company with another young girl, who also came to Pitts-About 5 o'clock yesterday afternoon a message was sent to Assistant Superintendent O'Mara that two young girls were

sent by the proprietress of the house, who knew the girls would be better off in the police station. Superintendent O'Mara sent for the girls and had them brought to the Central station. They gave their names as Jessie White and Tillie Jones. The latter's first name was Annie several months ago, but has changed since that time.

Miss Jessie is only 19 years of age, and both girls are very pretty, though of a coarse type. Jessie said she had been living with a theatrical lady in McKeesport, but the a theatrical lady in McKeesport, but the latter had given up housekeeping and threw her out of a position. She then determined to come to Pittsburg, and with Annie Jones went to the house where they were captured looking for a woman Annie had met in McKeesport about a year ago. The girls will be sent to some home. Annie's father abandoned her, and her mother is dead.

Rosa Miller, of Cleveland, occupied a cell in the Central station last night. She and Kitty Wilson walked into the station about midnight Tuesday and were given a place to sleep. They said their parents had ent them to this city, and at the morning hearing they were turned out by Inspecto McAleese. The girls came back again and the Inspetor sent them to the Bethesda Home. Rosa raised such a row there that Detective Bendel had to be sent after her and she was placed in a cell and given an opportunity to reflect.

Purchasers put more faith in the honesty and judgment of that old and trusted music house of H. Kleber & Bro. than in anyone else. An instrument coming from Gabler or Opera piano, or a Burdett or Earhuff organ is always preferred, for the opinion of Mr. Kleber is looked upon as opinion of Mr. Rieser is looked upon as final and conclusive. Hundreds of people have made the remark: "Oh, I wish I had called on you first and bought an instru-ment of you;" and then they beg the Klebers to take the piano or organ which they bought elsewhere off their hands and ex-

change for the superior ones at the latter place. Klebers' prices are \$25 to \$50 lower than those of other dealers, and their terms of payment are easier.

While, other dealers sit around com-plaining of hard times, the Klebers are

SLEEP DRIVEN AWAY

By the Rattle and Bang of the Pleasant Valley Street Cars.

PROPERTY VALUES DECREASING.

Many Empty Houses Along the Route

Predicted for Next Spring. CITIZENS ENDEAVORING TO ESCAPE

The thunder and roar of the Pleasant Val. ley electric cars, it is alleged, by the citizens living along the route, have the effect of depreciating the value of property along and in the vicinity of that company's lines. Some elaim property values have dropped 25 per cent. Those who rent houses, it is claimed, are looking for quieter locations, and the others who own their homes are trying to sell them and move to quarters where the rattle and bang of passing street cars will not set nerves on edge all through the day, and make sleep a stranger the greater part of the night. In houses the noise is so great that when the windows are open conversation has to be stopped every time a car passes. To talk on front steps is an impos-

sibility without the aid of an ear trumpet. President James S. Young, of the Allegheny Public School Library Committee, spoke of the matter in an informal way after that body adjourned last night. CAN'T STAND THE NOISE.

He said: "The noise is rapidly depreciatng property all along the Pleasant Valley oute. There is no improvement, but it ather grows worse. The tracks become nore shaken up and the wheels of motors become warm and loose. People are actually getting ready to move simply on this account. On Fremont street nearly everybody is complaining. Two gentlemen named Lovitts built two houses there some time ago and went there to live. New they are trying to sell because they and their families cannot stand the noise. It is especially hard on sick recola. There exercises hard on sick people. They cannot get any rest, and it is impossible to keep the house quiet. All day the children are disturbed, and at night rest is driven away. The noise does not cease until after midnight, and it commences again at 5:30. Already there are a number of empty houses, and by spring there will be many more. The babies are kept awake, and the continual roar is so aunoying that it is no wonder people leave."
This fact was referred to several months

ago, when the citizens of Highland avenue protested against the laying of an electric road on that thoroughfare. At that time a large number of affidavits to the above effect were given by residents on Sandusky, Ohio, Federal and Monterey streets and North avenue. They all said their property was being depreciated, and claimed the con-tinual noise was a nuisance. AECH STREET RESIDENTS COMPLAIN. Since the new line has been run up Arch

street the residents there are complaining of the same noise. Among them are Messrs. Littell, Whitmore and Elias Katz.
On Anderson street the cars for all the lines pass both ways, and the residents there declare the din is terrible. William Allison, a resident of that street, said yesterday:
"Sleep is impossible. There is hardly a
minute of the day that cars are not passing.

As yet no definite action has been taken, but it has been hinted that property owners would protest and possibly ask for damages if it is impossible next spring to fill their houses with tenants.

A FAMILY BEHIND BARS.

A Southside Shanty Beat Raided Last Night by the Police.

Last night the patrol wagon rattled up to the door of the Southside station and Sergeant McQuaid nearly fell out of his chair when he heard a war-whoop from a female throat. The wagon contained Mr. and Mrs. William Nennieny, their daughter, Lizzie, and James Brown and Fred Snyder. The quintet had been having a regular bacchanalian revel in a shanty boat at the

foot of Third street.

About the time the air began to resound with their beer-laden discords the police ap-peared on the scene. To judge from the epithets that floated out from the cell room last evening the air will have to be fumigated by this morning or the day sergeants will be suffocated.

STARVED THE CHILD.

The Usual Result Where the Parents Got Drunk and Fight. Lieutecant Lewis and Officer Cross raided the disorderly house kept by Thomas
