Mr. Bigelow left way among several hundred passengers settingupon their various possessions over the dock.

Nothing Mysterious About It.

When we had reached an obscure corner we met Mr. Bigelow and his wife, who had been with him on the trin, and Mr. Carnahan, agent and counsel for Mrs. Schenley. Mr. Bigelow had been suffering from sea sickness during the trip and did not seem to be very communicative.

"There is nothing mysterious about this," continued Mr. Scott, "and I may as well say we accomplished what we started out to do. We called upon Mrs. Schenley at her residence in London. She was not at home, being at her seaside residence at Eastport, about 15 miles from Brighton, on the Hnglish Channel. She passes her summers there, and in the winter resides in London. Mrs. Schenley is a very charming lady. She is tall, well propertioned, and about 55 or 60 years of age. She is a woman with a very active mind, is a large property holder in the city of Pittsburg, and

"What was the nature of your understanding with Mrs. Schenley in regard to the park entrance?"

"Well, that matter belongs rather to Mr. Bigelow than to me," said Mr. Scott, opening his luggage at this point for the require ment of the customs regulations, and, having had the evidence of that chalked on the bottom of his brand new valise, Mr. Sectt continued. "Mr. Bigelow, you know, represents the city of Pittsburg in this matter, and it is not for me to anticipate what he might say. I represent in the matter the Minister Migner said nothing with regard Carnegie library scheme, and am not a city official."

The Object of the Visit Attained.

After a vain search among the crowd for Mr. Bigelow, THE DISPATCH man returned again to the attack on Mr. Scott.

"I told you that we accomplished what we went for. Mr. Bigelow has the contract Brick Manufacturers Propose to Cat Off All in his pocket, which, when ratified by the city authorities of Pittsburg, will gives us the ground necessary for the Forbes avenue Entrance."

"Will this include ground for the erec tion of the Carnegie Free Library?"

I zation are all good and steady workmen. I have found that unionism promotes sobriety and stability among men, and, viewed from this standpoint, I think it is a good thing. We work nine hours, and get from \$2 75 to \$3 50 a day. Next year we may do some-thing about the eight-hour day, and I think we will cut the extra hour off on May 1. Every union man in the city has a job at good wages, and I do not think any carpen-ter has cause to complain of the times. They are as good now as ever they were, and I would be satisfied if this season of prosperity

William C. Wilson, member of Local Union No. 12, tinners-The refusal of the Knights of Labor to participate in the parade is not calculated to do the union cause a great amount of good. These little jeal-ousies only hurt labor, and by their refusal to turn out the Knights only hurt themselves. We have 210 men in good standing in our union, and everyone is employed There is no scarcity of work, and a good man can get employment at any time. This is our busy senson, and nine hours are a day's work. Of course we expect to see the eight-hour day go into effect some time, but

it is away off yet. Thomas Downey, baker, Union No. 27: Everybody has to cat, and this makes our trade good. We work 11 hours, but in some of the shops the men put in more time than this. It took a struggle to get the hours reduced, but we are glad now that we went through it. No, the baking trade is not what it used to be. The young men do not take to it as the old ellows now in the business did, and son times it is difficult to get men. Richard Harris, an intelligent colored

man, member of Hod Carriers' Union No. 1, said: "We put in nine hours a day carry-ing bricks to the tops of high buildings, and on a hot day it is no snap.
